

## NEWS OF THE STATE

## EVENTS IN AND OUT OF THE EMPIRE STATE.

Paragraphs of the Week's Happenings  
Clipped from the Tribune's Exchanges.

Lauren Smith, a Fleming farmer, had his right leg broken by the kick of a horse, Saturday.

Miss Margery P. Keeler of Union Springs will visit Boston and the family of the late Prof. Cook at Vassalboro, Me.

Those newspaper editors who are calling Roosevelt a liar are doing so behind the shelter of their scarehead columns.

There are ten Presidential tickets in the field, and yet there are voters who can find nothing in the assortment to suit them.

Nearly half of the lightning strokes reported occur out in the open, 34 per cent in houses, 11 per cent under trees, and 9 per cent in barns.

Clarence Perry of Venice who had a horse and buggy stolen from his barn found his property at Rhodes' Harbor, but the thief has not yet been found.

Here's a good aphorism from the Philadelphia Saturday Post. It is also distinctly American: "The man who holds his head up high may tumble, but he never crawls."

Sidney Edgerton who was born in Cazenovia in the year 1818, recently died of old age in Akron, O. He was appointed, by President Lincoln, the first governor of the territory of Montana.

Russell Sage was 84 Saturday, but he refused to devote even the half-holiday to a celebration of the event. If Sage were only as admirable as he is wonderful, what an admirable old man he would be!

Governor Roosevelt's mother was a Georgian and his uncles served in the Confederate navy. He fought side by side with Southerners in Cuba, and is an emblem of the type that joins North and South.

The railroads centering at the State fair grounds offer exceptionally favorable rates to visitors to the fair. On two days only one-quarter rates will be charged, and surely everybody should go to the coming fair.

George Coon of South Lansing went to the barn of a neighbor, William Hart, on Wednesday morning, and knocked Hart down, rendering him unconscious. Coon was arrested and was tried Tuesday before Justice Brown.

Exports to Porto Rico have more than doubled under American administration. So they will to the Philippines as soon as the Filipinos accept the inevitable and settle down to the agricultural and commercial development of their country.

The Empire State Sugar Company, which is building a large beet sugar plant at Lyons, has ordered ten auto-trucks of five tons capacity, which are to be used to cart beets from farms to refinery. The company has 5,500 acres of land contracted for.

Henry Hoover, residing in the town of Ithaca near the Danby line, attempted to end his life by taking Paris green, on Thursday. He was married July 4, and has apparently lived very happily, and can give no reason for his action. He will recover.

Possibly Thomas B. Reed and Grover Cleveland could be induced to stomp the country in joint debate. Reed dislikes McKinley's policy as much as Cleveland dislikes Bryan's, and the two men ought to make it very interesting for their listeners.

The type in the columns of the Cortland Democrat of last week was set up by means of a simplex typesetter. The machine has been on the market only a year and is being very extensively used on the dailies, but

London newspapers say that a dash to Peking would be "military suicide." Considering that 50,000 Boers have given a British army of 200,000 men all the fighting they wanted for more than six months, the cautious warning from Great Britain is not surprising.

The Misses Herbert and Wadsworth of Avon, N. Y., and E. C. Le Bourgeois of New Orleans, who are traveling on horseback from Avon to Tennessee, spent Sunday in Ithaca. They are accompanied by two attendants and have six horses which they use in relays.

It is reported by people from Watkins that the proposal of extending the Elmira and Watkins electric railway to Ithaca is causing much discussion in Elmira and Watkins at present. Several Elmira capitalists are enthusiastic over the prospect and the leading members of the company are said to be favoring the move.

After the every day citizen got used to Spanish names and had established a system of pronunciation of his own, he was suddenly shifted to the Dutch of South Africa. Now that the swelling of his jaw has subsided from assaults upon those consonants, he finds that he must put in a new set of teeth for the Chinese syllables.

Philip Scheuerman of Fayetteville attended the Hop Growers picnic at Sylvan Beach and donning a bathing suit, made a straight dive into two feet of water, thinking it deeper. His head was driven into the sand, but he was immediately rescued and taken to Dr. Cavanaugh's sanitarium, where examination showed the neck to be broken at the first vertebra next to the skull.

The Town Board of Locke have petitioned the State Board of Railroad Commissioners to make an alteration in the highway crossing on the Groton road, south of that village, where the L. V. R. R. crosses at what is known as Crutcher's Crossing. They desire to have the crossing removed some three or four rods south. A public hearing will be given by the State Board at the Lehigh station in Locke, Friday morning, August 10th, at 9:30 o'clock.

Edward Townsend, a Montezuma farmer, went into his barnyard on Thursday with a 32-caliber rifle to shoot a chicken for dinner. He selected a Shanghai and blazed away. The report of the gun was followed by a howl of pain behind a nearby fence. The bullet had missed the rooster, but found lodgment in the right leg of Townsend's hired man, "Abe" Weaver, who had been standing unseen behind the fence. The wound is not serious and the hired man will now have a long rest at the expense of his employer.

Mr. Holmes of Walton advertised for a wife and got three hundred answers in two weeks. Mr. Lee of Dutchess Junction, a widower with six children, advertised and received 900 letters. He selected a wife and was married in two weeks. If either of these men had advertised for a woman to do housework he might have been advertising yet, and yet a main difference in the two cases is that the hired woman would receive wages and the wife works harder and doesn't.

For some months past E. B. Rolls has been digging for water, under the direction of water diviners or witches. At one place where water was promised at some 15 feet he dug 35; then on the advice of another witch he moved some three rods to find it at 12 feet or thereabouts. The latter well is yet dry at 40 feet; and yesterday John Bacon, who was helping him, prepared a dynamite blast which failed to explode. John is a noted fox hunter, yet he is a bit foxy about striking the trail of that dynamite with his pick, so matters rest for the present. Just what to do under such

Mrs. Mary Armstrong and son Floyd of Groton have been visiting friends here the past four weeks.

## New Time Tables.

To the Editor of THE TRIBUNE:

I take great pleasure in enclosing herewith a copy of our new standard folders, forms 100 and 101, which I believe are the most complete and comprehensive railroad folders ever printed.

They contain the general time tables of the New York Central and brief reference to the time tables of scores of connecting lines. They emphasize and illustrate the Albany Gateway, using in connection with the illustration this comprehensive paragraph: "Through this 'open door' passes the commerce of a nation over the New York Central Lines, the Erie Canal and the historic Hudson River."

They also give a fine illustration of the New York Central's new million dollar passenger station at Albany.

They contain a page map of the City of New York, showing the city from the Battery to the Harlem river and from the Hudson river to the East river.

They call attention to the interchangeable mileage tickets issued by the New York Central, also to the fact that passengers can stop over at Niagara Falls, giving two fine illustrations of the Falls.

They devote four pages to a very handsome map printed in two colors, of the territory from Boston on the east, to St. Louis, Cincinnati and Chicago on the west, and from Montreal and Quebec on the north, to Richmond and Louisville on the south.

They give portraits of the New York Central's steamship agents who meet incoming steamers at New York and also of the New York Central's agent at San Francisco who meets all steamships coming in at the Golden Gate of California.

They call attention to the New York Central cab and carriage service.

No. 101 devotes four pages to the English railways—London & Northwestern, Great Eastern, Midland, and Southeastern, Chatham & Dover.

No. 100 devotes three pages to the Pacific Ocean steamship lines, sailing from San Francisco, Portland, Tacoma, Seattle and Vancouver.

They both contain notices of the Pan-American Exposition to be held at Buffalo in 1901.

They devote a page to the dining car service, and another page to describing the Albany Gateway.

A copy of either of these folders will be sent free, postpaid, to any address on receipt of a postage stamp by George H. Daniels, General Passenger Agent, New York Central Railroad, Grand Central Station, New York.

Very truly yours,  
Geo. H. Daniels

## The Empress Dowager.

Frank G. Carpenter, who is now in the East, sends to The Saturday Evening Post a long article about the Empress Dowager and China, his facts having been gathered only a few days before the present troubles broke out. Two years ago the Empress Dowager set aside all precedents and received the ladies of the foreign Legations at Peking. One who was present told Mr. Carpenter about it. Among other things she said:

"Her Majesty was dressed in a pale yellow silk gown, beautifully embroidered with flowers and dragons of the same color. She wore the headdress commonly worn by elderly Chinese women, her hair being fastened in a knot at the back, just below the crown, the front of the head and a part of the forehead being concealed by a silk band heavily embroidered with pearls of large size.

"I was struck with Her Majesty's youthful appearance. She was 64, but she looked ten years younger. Her face was plump and free from wrinkles. She had a high forehead, elongated perhaps by the custom of the Chinese ladies of pulling out the hairs at the edge of the forehead with tweezers. She had a strong face and in youth must have been very pretty. During the audience she frequently smiled, and I could see no signs of that cruelty with which she has been charged.

"Her Majesty made us welcome to the palace and to China. She said she was glad indeed to receive us as foreigners, and that we should be friendly with one another, for were we not all of one family?

The banquet was fine, being made up of many courses and consisting of both Chinese and foreign dishes.

"After the banquet the Empress Dowager again met informally with the ladies, drinking tea with each of them in turn, and in some cases throwing her arm about one and embracing her.

"At this time she gave each lady a present of a beautiful gold ring set with a pearl as big as a marrowfat pea, three silk dresses from the royal looms and a set of two dozen combs. Throughout the whole audience she was exceptionally gracious, and her manners were as polite and affable and at the same time as dignified and ladylike as could be those of any Empress of Europe."

## Yachting—Thousand Islands.

A telegram from Alexandria Bay states that the Ramona is the finest public service boat that has ever sailed the river and that she will soon be put upon a daily tour of the islands. She has a steel hull with flush decks in mahogany, brass trimmings, and a speed of 22 miles an hour over a fresh water course. Her crew will be dressed in sailor suits, consisting of blue blouses, white duck trousers and canvas shoes. A cafe with deck service will be maintained. The seats are all upholstered and one seat will be reserved for each ticket sold. The length of the boat is 120 feet, with a 14-foot beam. She draws 5½ feet of water. She will be in active daily service by the last of the month.

This will make the ninth boat of the White Squadron Line which is navigated by the Thousand Island Steamboat Co., in connection with the New York Central Railroad, making a service among the Thousand Islands not hitherto approached.—The Brooklyn Standard Union.

## At the Goodrich House.

Dr. Day will visit Moravia during the summer months only once in four weeks. His next visit will be at the Goodrich House on Tuesday, Aug. 14. We hear many reports of the success Dr. Day is having in the treatment

In a recent publication of the Michigan Political Science association Romanzo Adams, of the University of Michigan, discusses the changed conditions of agriculture in that state. The notable feature has been the change from extensive to intensive farming, and evolution in conditions that is paralleled in the other states of the middle west. Until 1880 the wasteful extensive methods were employed. The chief business of the Michigan farmer was not farming, but the making of a farm. He grew wheat lavishly, and thus wasted his rich soil, the temptation being especially strong, inasmuch as of the north central states Michigan is first in its average yield, which for the last ten years has been 15.2 bushels. The usual indications of intensive farming are an increase in the rural population and a decrease in the size of the farms. Neither of these conditions is found in Michigan. The average farm is 80 acres in area, practically the same as in 1860, and about the size of the average farm in New England, New York or Pennsylvania. But the proportion of improved land in each farm has increased from 55.7 in 1860 to 77.2, and the number of farms in the state has been multiplied three-fold. In 1878-80 wheat and corn, which are the typical extensive crop, occupied 46.5 per cent. of the improved land, whereas in 1891-95 these two crops were sown on only 27.2 per cent. This means an increased proportion devoted to other crops. The realization of the wastefulness of raising wheat excessively has led to the change to intensive farming.

A speech by telephone was delivered last week by Senator Depew in Washington to the Transportation club, an organization of railway men, in New York. At their annual dinner 60 telephone receivers were passed around, and the chairman announced that, though Senator Depew had sent a telegram of regret, which had been read, a surprise was in reserve. Mr. Depew was heard distinctly, and began thus: "I have spoken to 30,000 people. This is the first time I have made a speech 200 miles long. It is the business of railroad men to annihilate space by steam, and they intend to break down limits by electricity." Applause was frequent, for which the senator, with a receiver at his ear in Washington, returned his thanks. A flashlight picture was taken of the 60 banqueters with the telephone receivers in position.

The lot of the discharged prisoner is still anything but a happy one. Here is Samuel Seely, released from the Brooklyn penitentiary after having served a five years' sentence for embezzlement, coming forth a free man with just five dollars in his pocket, given to him by the penitentiary authorities, and finding his former wife divorced and remarried and his son with another name, which the courts have permitted him to take to hide his shame. This, says a local exchange, leaves the discharged prisoner all alone in the world and with the fates against him.

Two William McKinleys are on Uncle Sam's pay roll. One draws a salary of \$4,166 a month, as president, and the other \$100 a month as engineer in the Louisville custom house. There are 48 Bryans, and three of them were christened William. There used to be two Grover Clevelands in the public service, but there is only one now. He is assistant farmer at the Fort Peck Indian agency, and receives a salary of \$180 a month.

Give the census enumerator courteous welcome and ready access to all such facts and figures as he may be called upon to secure, urges the Boston Globe. If you have any objection to any of the queries he will ask, officially write to the congressman of your district and let him know. But treat the enumerator and his questions kindly; not so to do would be wrong.

Recently the pope received eight American sailors from the training ship Dixie, now on a cruise through the Mediterranean, who, after his holiness left the Sistine chapel, sang "Dixie" with great vigor. This astonished and somewhat scandalized the people present, but pleased the pope.

One of the officials at Sing Sing last year presided at 3,000 interviews between visitors and prisoners and examined 3,550 packages and boxes addressed to inmates. He has been performing this work for 27 years. If he had a talent for writing detective stories his material would be ample.

Corn Doonours corns in three days. It relieves the pain and protects the corn while being applied.

Prof. Nelson, of the agricultural department, in discussing the effect of new inventions on the use of horses in street railway building and also the increased manufacture and use of bicycles, the number of horses increased from 12,496,744 to 16,081,129. This shows that, although the use of the horse decreased in particular directions, yet there must have been a healthy growth in their use in other directions. During this period the selling value of horses gradually declined from \$72 to \$45 per head. But this decrease was certainly not due to the number of horses thrown on the market as a result of displacement by electricity in propulsion of street cars and the general introduction of the bicycle, because we find that the values of other live stock—mules, milch cows and other cattle—decreased from 30 to 40 per cent. during the same time. During the prevalence of the great commercial depression from 1893 to 1897 the number of horses in the country fell to 14,304,667. At the same time the value per head suffered a further decrease, the same being the case with sheep, swine and cattle other than milch cows. The cattle interest was the first to recover, being followed a year later by the other stock interests. It is likely that there will be a continued demand for the right kind of horses. A great deal has been written about the probable displacement of the horse by the automobile, but it hardly seems probable that it will produce any more serious effect than have the electric street cars and bicycles. Each has its sphere of usefulness, and each will continue to have.

"One trouble with many young men who start out in business is they try to do too many things at once," says Hetty Green, "The Richest Woman in America," in Ladies' Home Journal. "The result is that they don't know as much as they ought to about any one thing, and they naturally fail. The trouble with young men who work on salaries is that they're always afraid of doing more than they're paid for. They don't enter into their work with the right spirit. To get on and be appreciated a young man must do more than he's paid to do. When he does something that his employer has not thought of he shows that he is valuable. Men are always willing to pay good salaries to people who will think of things for them. The man who only carries out the thoughts and ideas of another is nothing more than a mere tool. Men who can be relied upon are always in demand. The scarcest thing in the world to-day is a thoroughly reliable man."

The greatest singing contest ever known will be held at Brooklyn July 2 and 3. Two hundred and twelve German singing societies will attend this meeting, which is called the National Saengerfest, and is the nineteenth gathering of the kind. The grand prize, to be awarded to the society that sings the song "Das Deutsche Lied" in the best manner, is a \$10,000 silver statue given by the emperor of Germany, and other prizes worth \$25,000 will be given. On the evening of the 3d 10,000 people will sing "My Old Kentucky Home," at the Thirteenth regiment armory, and in addition there will be a chorus of 5,000 children, and another of 5,000 women.

Many returning tourists say that they found the Paris exposition very much behind. They were unable to pay any visit to the exposition at night, since the buildings were not lighted; everything was in confusion. Those who are fond of disorder had an abundant opportunity to gratify that taste. Others found that the conditions almost distracted them. It seemed to some as though the exposition would not be worth visiting until the middle of June, and that was one reason why they decided to return.

In 1866 Gen. Garfield, then in congress, made a strong speech in support of the measure which finally took form in a national bureau of education. "The children of to-day," said he, "will be the architects of our country's destiny in 1900." The prophecy was easy to make, because certain to be fulfilled. Yet there is something impressive in the fact that the affairs of church and state, and all the complex interests of civilization, are now largely in the hands of those who 34 years ago were passing through the public schools. To them, too, is committed the custody of those who, in turn, will make the history of the swift-coming future.

**A BATTLE REPORTED**

**Allies Defeat Chinese In a Sharp Engagement.**

**FORMER LOSE TWELVE HUNDRED MEN**

**Casualties Chiefly Among Russians and Japanese - General MacArthur Reports Sending Additional Artillery to Taku.**

WASHINGTON, Aug. 7.—The announcement, received through Admiral Remy and Commander Taussig, of reported heavy fighting on the road beyond Tien-tsin is the news of interest in the Chinese situation. Little doubt is expressed at the navy department that the news was substantially correct. It is probable that a later report may reduce the list of casualties among the international forces, but it is evident that the move on Peking is at last fairly under way and that strong opposition has been encountered. The war department officials, who have been exceedingly reticent for several days as to news from the seat of war, admitted when the naval dispatches were received that the announcement of trouble was not unexpected.

The engagement at Peitsang is understood here to be the result of a reconnaissance in force, and while Commander Taussig mentions only the Russian and Japanese troops it is apparent that other troops were engaged, because he says the loss was sustained "chiefly" by the Russians and Japanese.

The report also disproves the statements sent from Washington about the Chaffee dispatch making it appear that the Russians were sulking in their tents and would not move.

The dispatches are as follows: "Chefu, Aug. 6.—British Fame reports, unofficial, engagement Peitsang Sunday, 3 to 10:30. Allied loss killed, wounded, 1,200, chiefly Russian, Japanese, Chinese retreating. TAUSSIG."

"Chefu, Aug. 6.—Unofficial report, believed reliable, about 16,000 allies heavily engaged Chinese at Peitsang daylight 5th. REMEY."

No mention is made of what position the American troops held in the line of battle, but the authorities do not doubt they took an active part.

Opinion among the various officials now in Washington is somewhat divided as to just what is presaged by yesterday's events. The more optimistic are inclined to think that such a severe blow as the Chinese must have received at Peitsang will result in the speedy disintegration of the forces now opposing the march of the international column. In line with this prediction it was prophesied that the Chinese government would find means to send the ministers from Peking under escort and thus stave off the advance upon the capital. On the other hand, there was a number of officers in a position to judge equally well who held that the fight at Peitsang was only the beginning of a strenuous resistance that would be continued to the gates of Peking or beyond.

It was urged in support of this view that the Chinese had 100 men to lose against one of the allies, that they were well armed with modern guns and had apparently an abundance of ammunition. It is stated that considerable apprehension exists among those conversant with oriental affairs at the reappearance in Peking politics of that rabid anti-foreigner fanatic Li Ping Hung. It is understood that his appearance in Peking affairs may have had something to do with the Shanghai rumors of Li Hung Chang's suicide. It is certain that with Li Ping Hung and Prince Tuan in control of the de facto government in China a religious war of dervishlike fanaticism probably will be waged against all foreigners, and friends of the more liberal Chinese statesmen are exceedingly anxious as to their fate under the Tuan-Li regime.

The war department is in receipt of a dispatch from General MacArthur announcing that he has shipped additional artillery supplies to Taku for use in the Chinese campaign. These supplies include several Gatling guns and the remainder of the rifle and howitzer siege train left in Manila, which up to date has remained useless in that country on account of the bad roads. How much better General Chaffee may be able to handle these monster guns through the almost impassable rice swamps of China no one at the war department was willing to guess, but his recent dispatch contained an urgent appeal for more artillery, and he is getting it. The ordnance experts at the war department say that if it comes to a bombardment of Peking these five inch rifles and seven inch howitzers, with their enormous bursting charges of high explosives, will be the most effective battering weapons in the international column.

**EARL LI'S OPINIONS.**

**Boxers Not Rebels, He Says—Native Christians Blamed.**

BERLIN, Aug. 7.—The German foreign office announced last evening that it had received no fresh China news and that it doubted whether the advance of the allied forces from Tien-tsin had begun.

The Lokal Anzeiger publishes an interview which Dr. Zaker, its special China correspondent, had with Li Hung Chang at Canton July 5. Earl Li told the correspondent that the Boxers were not rebels, but were true to the royal house.

Their movement, he explained, was directed chiefly against native Christians who had been using international protection to oppress Boxers.

With reference to the missionaries he said:

"It is my firm conviction that the missionaries are always in danger, for the relations between the Chinese population and foreigners have been the cause of nearly all the troubles and will always continue to be."

Earl Li went on to say that Chinese

ers, particularly in the seizure of Kiaochau, which he described as "an exorbitant penalty for a couple of missionaries."

Referring to the murder of Baron von Ketteler, German minister at Peking, he gave a positive assurance that neither Prince Tuan nor any other member of the government knew of the intended killing, and he also declared that Baron von Ketteler was not killed because he was a German, but simply because he was a foreigner. In a word, he was a victim of the Chinese hatred of foreigners.

"The Chinese government is not strong enough to put down the Boxers," said Earl Li, "but the thought of accepting assistance from the powers to put them down is extremely repugnant to the government."

In reply to a question as to who was then the head of the central government he said it was administered by Prince Tuan in the name of the emperor.

**Christians Skinned Alive.**

CHEFU, Aug. 4.—Chinese bring many stories of horrible outrages upon native Christians, who have been murdered, tortured or compelled to renounce their religion. Several have been skinned alive.

The French nuns at Newchwang were deliberately burned alive. Dr. Ting, a graduate of the American college, refused to renounce Christianity after receiving 2,000 lashes.

**Amnesty For Boxers.**

SHANGHAI, Aug. 4.—Li Hung Chang is preparing a proclamation granting virtual amnesty to Boxers on condition that they cease creating disturbances.

**DE WET SURROUNDED.**

**Boers in a Trap Near Reitzberg. Baden-Powell Wounded.**

LONDON, Aug. 6.—A special dispatch from Pretoria, dated Saturday, says:

"General Christian De Wet is completely surrounded near Reitzberg, and it is impossible for his forces to escape through the strong British cordon."

"The Boers say they will make a stand at Mischadodorp. They are short of ammunition and food. General Hamilton by the rapidity of his movements prevents re-enforcements reaching Commandant General Botha."

"It appears that after the train carrying United States Consul Stowe and flying the stars and stripes was derailed at Honigspruit, south of Kroonstad, concealed Boers fired, killing four."

"Many residents of Pretoria have been sent into exile for having behaved cruelly or shamefully to British subjects before or during the war. The terms of exile vary, in one instance reaching 25 years."

The Lourenco Marques correspondent of The Daily Express, wiring Saturday, says:

"Transvaal advices declare that General Baden-Powell was wounded during a recent engagement at Rustenburg, when the Boers, according to their account, took some prisoners and captured 324 wagons."

**Another Pole Seeker.**

**Another Victory.**

The action brought against J. L. King, railroad commissioner, to recover the interest on the railroad bonds for the year 1888, and tried in supreme court at Binghamton last November, has been decided in favor of the town. In the year of '88 the usual \$5,200 interest on bonds was raised and turned over to the commissioner to be paid, but at the subsequent town meeting by a small majority it was decided to withhold payment. Messrs. Underwood, Storke & Seward were counsel for the town, Mr. Storke making the argument. The principal issue has already been decided in favor of the town, and we scarcely look for a reversal of decision on the appeal.

**Who Would Send Him?**

Why not send William McKinley, commander in chief of the American army and navy, to lead the allies to Peking? The objection as to rank may not prevail against him.—Chicago Record, Ind.

If it were possible for the President to accept this invitation, the experience wouldn't be his first in actual warfare. He has faced bullets and shells that were far better aimed than any that will be sent from the mouths of Chinese guns; and that is more than some of his most vindictive critics can say.—Syracuse Herald.

**A Free Scholarship.**

Any young man or woman who is a bona fide patron of this paper may secure free instruction in Music or Education.

The Ithaca Conservatory of Music, with the desire to stimulate the study of these arts, offers thirty-four free scholarships—one for each Congressional District in this state, valued at \$100 each, and good for the term of twenty weeks beginning with the opening of the school year, Sept. 13, 1900, in any of the following departments: Voice, Violin, Piano, Organ and Education. These scholarships are awarded upon competition which is open to any one desiring a musical or literary education. Any one wishing to enter the competition or desiring information, should write to Mr. George C. Williams, the general manager of the Ithaca Conservatory of Music, Ithaca, N. Y., on or before Sept. 8, 1900.

**Annual School Meeting.**

The annual meeting for the village school district was called to order at 8 o'clock Tuesday evening, and O. M. Avery was made chairman. Lee Hewitt and W. D. Norman were appointed tellers. The annual reports of the trustee, clerk and collector were read and approved, and the trustee's estimate for the coming year was voted for. Dr. Geo. Slocum was then nominated for trustee for the coming year, and other nominations were called for; none were made, but a resolution was introduced providing for three trustees instead of one; this was balloted on and lost by a vote of 54 to 14. Nominations for a single trustee were again called for and none being made, the clerk was instructed to cast a ballot for Dr. Slocum, who then made a few appropriate remarks touching upon the work of the past year and the needs of the future, and took occasion to repudiate several ridiculous false reports that possibly had gained some credence around the village.

The work of the Genoa school, as shown by the reports read, compares very favorably with that accomplished by other larger schools, and parents desiring a good school need have no hesitation in sending or

**Resolutions.**

To the memory of Mrs. Lucy A. Parr.

Whereas, It has pleased our Heavenly Father to remove by death from our circle and sight our beloved sister, Mrs. Lucy A. Parr,

Resolved, That our society has lost an earnest temperance worker and the church a true and faithful member—one who was ever ready to cheer the sick, help the needy and uplift the fallen.

Resolved, That in this time of sorrow our deepest sympathy be extended to the bereaved daughter, Mrs. J. J. Shaw and her family, and we commend them to the tender mercy and watchful care of Him who doeth all things well. Though they feel the loss of their beloved mother so deeply, they have the promise that with her hope is changed to glad fruition, faith to sight, and prayer to praise. May strength be given and her inspiration and guidance remain with them until they meet again.

Resolved, That a copy of these resolutions be presented to our afflicted sister and also be spread upon the minutes of the W. C. T. U., and sent to the Genoa paper for publication.

He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured." **Peck Reunion.**  
The annual reunion of the Peck family will be held this year at the home of David Snyder, Forks of the Creek, Aug. 25th. All the relatives are invited to come and renew the ties which link us together as a kindred band. It is requested that none but relatives join our reunion on this day.

**Cemetery Improvements.**  
A wonderful change has taken place in the cemetery over at Little Hollow. Under the direction of Mr. Hawkins of Ithaca and Mr. Denton a large amount of work has been done to improve the last resting place of many of Genoa's first inhabitants. Trees have been removed from graves, brush, logs and other debris taken out and the grass and evergreens cut and trimmed. People who have relatives buried there will be well pleased to note the improvement, and should have respect enough for their family name to continue the work where necessary. A fund has been placed with an Ithaca trust company, the interest of which will be used in caring for this cemetery in years to come.

"Through the months of June and July our baby was teething and took a running off of the bowels and sickness of the stomach," says O. P. M. Holliday of Deming, Ind. "His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water and he got

The Genoa ball team has finally been cornered and forced to deliver up the wreath of victory, and it remained for their old-time opponents, Ludlowville, to do the job. It was a great game. It was exciting because it was a close game and because each team tried to make more errors than the other; in this respect Genoa was the more active, and so the Ludlowville boys won the game. Ludlowville had Little Brother Campbell on the rubber when Genoa first went to bat. It was an off-day for the Genoa swatters, but they connected with Brother Campbell's offerings to an extent of eight scores in the first two innings. Bro. Campbell has within him the making of an A1 pitcher, his delivery being quite similar to that of Eddie Murphy now with the Rochester team. Meanwhile the Ludlow-villians had taken advantage of numerous errors and a few hits and also scored eight runs during the first two innings. F. Barr was then put in to pitch for Ludlowville and the boys settled down and played good ball. Hosmer pitched a good game for the visitors and had been favored with anything but rag-time support there is no question as to the result of the argument. However ball players are mortal and have their "blue" days. Barr is a good pitcher, plenty of speed and fair control. The visitors picked up three more during the eight innings, but in the ninth lost their grip again. Messers. Campbell and Phillips were umpires and were quite satisfactory. The score:

Genoa, 3 5 1 1 1 0 0 1 0 0—12  
Ludlowville 6 2 1 0 0 0 0 3 1—13

A return game will be played at Genoa on Saturday the 18th instead of the 11th as the types made us say last week. The Ithaca Cycle Club is here again the 11th; they played the best ball of the season so far, and all who enjoy the sport can be assured of a good game here tomorrow.

# THE LOGAN ARRIVES.

## Transport Brings Many Refugees From China.

### STORY OF THE TIEN-TSIN FIGHT.

The Logan Landed the First American Troops in China and Brought to San Francisco Many Sick Soldiers and Siege Sufferers.

SAN FRANCISCO, Aug. 7.—Blue-jackets, marines, ex-soldiers of the Ninth Infantry and refugees crowded the decks of the transport Logan, from Taku via Japan, which has just reached her dock here. There were men, women and children on the vessel direct from Tien-tsin, who had escaped from the mobs of Boxers and the imperial Chinese troops. Nearly all of the passengers in the cabin had felt the depressing effects of a siege and were more than glad to get back to civilization. Among them were Dr. Diffendorfer and Mr. O. McIntosh, who were in the mill at Tien-tsin where the Chinese were held at bay before the first relief came through.

Master Earl Ragsdale and Miss Effie Ragsdale, children of the United States consul at Tien-tsin, were also on board. A large number of the refugees left the transport at Yokohama to return to various parts of Europe and America by regular steamers.

To the Logan attaches the distinction of being the first vessel to land American troops in China. She conveyed the gallant Ninth Infantry from Manila to Taku, together with a detachment of the signal and hospital corps.

Among the passengers brought here by the Logan were 61 sick men of the Ninth. At Taku 170 Christian refugees from Tien-tsin were taken aboard. All except 48 of these left the Logan at Nagasaki.

Dr. R. E. Diffendorfer of Philadelphia, the builder and manager of the first woolen mill established in the Chinese empire and a personal friend of Poo Tong, a brother to the former Chinese emperor, tells the following story of the attack on Tien-tsin:

"On the morning of July 17 the first clash between the foreigners and the empire's soldiers occurred. On the afternoon of the same day the bombardment of the Taku forts began.

"Captain Bailey of the British ship Orlando was commander of the allied forces at Tien-tsin on July 17, as Captain McCalla was absent with Seymour at the time. About 11 o'clock in the forenoon he saw smoke rising from the railroad track about four miles distant from the city, and, suspecting that the Boxers had fired another bridge, Captain Bailey ordered 30 of his blue-jackets, commanded by a midshipman, to investigate. We had a three inch gun, and the men were fully armed.

"When our flat car had traveled about three miles, we found a bridge in which the timbers had been burned away from the iron girders, and considering it unsafe to cross our commander ordered his men to return to the city. We had gone about 300 yards on the back trip when we saw a lot of Chinese soldiers, about 150, crossing the track at a point about a mile ahead of us.

"They were walking very rapidly, and as we approached them all doubts as to their being imperial troops disappeared. They did not wear the red turban and sash that distinguished the Boxers, and as soon as we got within about 800 yards of them they scattered and got behind grave mounds, with which the surface of the country was thickly studded. Regarding this action as suspicious, our midshipman gave the order to fire a volley, and they quickly and vigorously returned the salute. Our field piece was minus a sight, and most of its shots passed over the enemy, so that after ten minutes of hot fighting we resumed our retreat, the Chinese firing at us as long as we were within range. There were no casualties on our side.

"If it had not been for the action of our party that morning the bombardment of Tien-tsin might not have commenced that afternoon. In other words, I am inclined to believe that our attack on the Chinese troops precipitated this bombardment of the city. And for that reason the skirmish may attain some importance when final settlements are being made."

General Diffendorfer believes that the trouble in China will last a couple of years.

"It will be a repetition of the Taiping rebellion," he said. "When the allies have captured Peking, the Boxers will be broken into bands of marauders."

### Plague Appears in London.

WASHINGTON, Aug. 4.—The marine hospital service has received the following telegram from Passed Assistant Surgeon Thomas announcing the outbreak of the bubonic plague in London: "There have been four cases of plague and two deaths from plague in London. Diagnosis confirmed by bacteriological examination. Do not think there will be further spread."

### To Search For the Pole.

BERLIN, Aug. 3.—Captain Banendahl of the imperial navy will start for the north pole in a fortnight. He will sail directly into the pack ice regions north of Spitzbergen and then eastward to the open sea, when he believes that he can reach the pole. He will take three years' provisions.

ELIZABETHTOWN, N. Y., Aug. 4.—Mount Marcy, in the Adirondacks, was white with snow yesterday morning.

### BOLD TRAIN ROBBERS.

Compel Conductor to Hold the Bag For Their Stealings.

SALINA, Kan., Aug. 7.—A Union Pacific east bound passenger train was held up several miles west of Hugo, 120 miles from Denver. The passengers in the Pullman sleepers were robbed of their money and valuables. An old man named Fay, a resident of California, who had been visiting in Denver and was on his way to St. Louis, refused to surrender his valuables and fired a shot at one of the robbers, but missed. Thereupon the robbers fired, one shot entered Fay's mouth and coming out at the back of his head, killing him almost instantly. The robbers stopped the train, jumped off and escaped.

The robbers got on one of the sleepers near Limon, and after the train had started the men made a noise at the door of the conductor, thinking they were tramps, opened the door to put them out. The robbers, who were masked, pointed a pistol at his head and ordered him to lead the way through the coaches. All of the passengers were asleep, and the conductor was ordered to wake them one at a time. The frightened passengers were told to keep quiet or they would be killed and at the same time were asked to hand over their money and valuables. The robbers obtained about \$100 in cash and a number of gold watches and other jewelry.

The robbery took place a few minutes before 1 o'clock Sunday morning. The body of Fay was taken off at Hugo and shipped to Denver. He was probably 60 years old and a prominent Odd Fellow. The conductor, who was compelled to hold a bag while the robbers relieved the passengers, lost his watch and asked that it be returned to him in order that he might run his train on time. The robbers gave it back.

After ransacking the two coaches the men made the conductor pull the bag, but the train was going so rapidly that the robbers were taken to Hugo before it slowed up enough to enable them to jump. They compelled the conductor to get off ahead of them so that if any of the passengers had been in waiting they would have shot him first. After the robbers had dismounted they ordered the conductor to return to his train.

### Alabama Election.

BIRMINGHAM, Ala., Aug. 7.—A general state election for state and county officials and for members of the general assembly was held in Alabama yesterday, and a large majority was returned for the Democratic ticket, headed by William J. Samford of Lee county, who will be inaugurated as governor on Dec. 1. The Republicans, Populists and Prohibitionists had tickets in the field, but returns so far indicate a victory for the Democrats by an overwhelming majority. The Populists and Republicans will together possibly have 12 of the 133 members of the legislature, a loss of about 50 per cent. The Democrats have elected county officers in several counties which heretofore have been Populist. General apathy marked the elec-

Therefore, you and each of you are cited to appear in our said Surrogate's Court, before the surrogate of the county of Cayuga, at his office in the court house, in the city of Auburn, on the 14th day of September, 1900, at 10 o'clock in the forenoon of that day, and attend the probate of said last will and testament. And those of you who are under the age of twenty-one years, are required to appear by your general guardian, if you have one, or if you have none, you will appear and apply for the appointment of a guardian, or in the event of your neglect or failure to do so, a special guardian will be appointed by the surrogate to represent and act for you in this proceeding. IN TESTIMONY WHEREOF, We have caused the seal of our said Surrogate's Court to be hereunto affixed. [L. S.] Witness, Hon. George B. Turner, surrogate of the county of Cayuga, at the surrogate's office in the city of Auburn, this 27th day of July, in the year of our Lord one thousand nine hundred.

## RULING THE ISLANDS

Commission Soon to Assume Control in Philippines.

INSURGENTS INCREASINGLY ACTIVE.

Small Bands Ambush and Capture Parties of Americans—Manila Banks Form a Ring—Police Captain Shot.

MANILA, Aug. 6.—On Sept. 1 the commission headed by Judge Taft will become the legislative body of the Philippines, with power to take and appropriate insular moneys, to establish judicial and educational systems and to make and pass all laws.

No money will be permitted to be drawn from the insular funds except by authorization of the commission. Judge Taft and his colleagues will also exercise certain executive functions. For instance, they will appoint judges, officials in the educational department and officers of municipalities, which the commission will establish pending elections.

General MacArthur will be the executive head to enforce the laws of the commission, and he will conduct the government in accordance with the same until the commission recommends to President McKinley the appointment of a civil governor.

There has been an increase of insurgent activity during the last three weeks, especially in the way of ambushes and attacks upon small parties. First Lieutenant Alstaetter of the engineer corps, with an escort of 15 men, was taken in ambush in the province of Nueva Ecija, Luzon, by a large force. The Americans fought until their ammunition was gone, and, as they were surrounded, there was nothing to do but surrender. One man was killed and three were wounded.

General Lacuna, who was in command of the insurgents, returned the wounded with a letter promising to treat the prisoners well.

Lieutenant Boeton Hulesberg (?) was ambushed and killed near Santa Cruz, province of Laguna.

Five men of the Twenty-fourth infantry were captured in Nueva Ecija, but Sergeant Schmidt of the Twelfth infantry, with seven men, trailed the captors and killed five.

The only three banks in Manila have formed a ring to reduce arbitrarily and without justification the rate of exchange for American gold. This has caused widespread indignation and many difficulties for commerce and minor business. The banks, however, are obdurate.

Captain Lara of the Manila native police was dangerously shot by an unknown assailant Saturday while on the street. He had been effectively enforcing regulations and had made enemies among the Filipinos, some of whom have long threatened vengeance.

### North Carolina Elections.

CHARLOTTE, N. C., Aug. 4.—A special to The Observer from Raleigh says: "The Democrats rejoice quietly all over North Carolina. The returns show that Democratic majorities aggregate 64,678 and fusion majorities 5,125, making the net Democratic majority 59,553. There will be contests in several counties, there being alleged irregularities in Randolph and Harnett and smaller ones in Wilkes and Chatham. In the latter county at Congressman Atwater's precinct, the fusion stronghold, the fusionists are reported to have assaulted the election officers, smashed the ballot boxes and burned the ballots. The returns show that to the senate there are elected 38 Democrats and 9 fusionists, with three seats doubtful, and to the house 59 Democrats and 13 fusionists, while 12 seats are in doubt.

### Largest Apple Crop Ever Known.

CLEVELAND, Aug. 4.—The sixth annual meeting of the National Apple Shippers' association came to an end last evening, and most of the 160 delegates have departed for their homes. The next meeting will be held at Toronto the first Wednesday in August, 1901. During the three days the convention was in session letters and telegrams were received from every fruit growing section of the country, and from these it is estimated that the apple crop this year will be the largest in the history of the United States, exceeding that of 1896, when 60,000,000 barrels were gathered.

### Much Gold Received.

WASHINGTON, Aug. 3.—Reports to the bureau of the mint show that the receipts of gold at the Seattle assay office in the month of July from the Klondike amount to \$6,084,000 and from Alaska to \$286,000. At San Francisco the original receipts were \$2,159,032 from the Klondike and \$121,876 from Alaska. The total receipts of the San Francisco mint in July from all sources, including the Seattle assay office, amounted to \$13,400,000. The total receipts on the Pacific coast from the Klondike so far this season are about \$9,500,000, against \$7,630,000 at the same time last year.

### Secretary Hay's Condition.

SUNAPEE LAKE, N. H., Aug. 7.—Secretary Hay, who reached here for his vacation last Saturday, is resting comfortably. The cold which he contracted on the way from Washington has caused a slight fever, and the secretary is very much exhausted by the strain of his duties in connection with the Chinese situation. Neither his physician nor the members of the family consider that he is suffering from anything more than a slight indisposition, and they say a few days' rest will thoroughly recuperate him.

### Hornet Sting Fatal.

WESTERLY, R. I., Aug. 4.—An unusual fatality is reported from the village of Woodville, ten miles east from here. Frank Barton, a farmer, 70 years of age, while mowing was stung by a black hornet and died four hours afterward. A physician was called, but he failed to reach the man in time to relieve his sufferings.

## CUBAN TEACHERS COMING.

Will Visit Washington and Call on the President.

WASHINGTON, Aug. 7.—The delegation of Cuban schoolteachers now receiving a course of instruction in English branches at Harvard university, Cambridge, Mass., will visit this city on the 18th inst. for the purpose of paying their personal respects to the president of the United States and to inspect public institutions and attractions of the national capital. Adjutant General Corbin has been informed that arrangements have been made for the visit to Washington on the date named. The schoolteachers, numbering 1,400, will arrive here in the morning and leave in the evening for New York, where they will board army transports in waiting to take them back to their homes in Cuba.

Although the national government defrays all their traveling expenses to and from Cuba, it is unable to make provision for their care and entertainment while in this country, the entire expense connected with their sojourn in Massachusetts being defrayed out of the fund of nearly \$100,000 contributed by public spirited citizens of Boston, and it is probable that the expense of the trip to Washington and then to New York will be met out of the same fund.

### Christian Workers at Northfield.

EAST NORTHFIELD, Mass., Aug. 3.—The eighteenth annual general conference of Christian Workers opened here last evening. All day guests had been coming from all parts of the country to attend these meetings. There were over 1,000 persons in the auditorium, the largest gathering for an opening evening in the history of the conference. William R. Moody presided at the meeting, which was opened, as has long been the custom, by a song service conducted by Ira D. Sankey, who for over a quarter of a century was coworker of the late Dwight L. Moody. Mr. Moody said in opening that prayer should have the important place in this conference, and he called upon a number of prominent clergymen and laymen to lead in divine appeal. Rev. G. Campbell Morgan of London opened the addresses. It was a memorial address to Dwight L. Moody.

### The Sultan Falling.

CONSTANTINOPLE, Aug. 7.—The sultan's health is failing fast, and his weakness is increased by his fear of assassination. He fainted yesterday morning, and this caused a rumor that he had been poisoned. He has ordered the dismissal of all Italians connected with his household or employed near the imperial palace. Just before the last selamluk the sultan gave orders that all visitors withdraw from the ceremony. Every stranger was removed from the palace and its vicinity. Among those excluded were several prominent Germans and Russians. The embassy officials are indignant over the expulsion.

### Fasted Forty-one Days.

TRENTON, Aug. 7.—There comes to this city an apparently truthful story telling how Thomas Good of New Brighton township, Bucks county, Pa., a hamlet several miles up the Delaware river, fasted and refrained from drink for 41 days. Mr. Good is 70 years old, a Quaker and well known. He has been a sufferer from stomach trouble for years. Physicians say that no human being can live without drink for 41 days, and this part of the story makes it appear improbable. But an official of a bank in this city declares he personally knows that the old gentleman went without food or drink for many days.

# TEMPERANCE NOTES

## MISSIONS AND LIQUOR TRAFFIC

How the Work of the One Has Been Retarded by the Fiendish Work of the Other.

The drink evil which has in Christian lands grown up in spite and defiance of the ministrations of the Gospel, and beneath the full light of Scripture truth, and has become the greatest curse of these lands, and the greatest hindrance to the work of the church, is found to be as great a curse in heathen lands and the greatest barrier to the success of the Gospel among the heathen, and for this, strange as it may appear, those nations that seek to Christianize the heathen are largely responsible for the introduction and perpetuation of the drink-evil. What are the facts?

Strange as it may seem, the Brahminical, Buddhist and Mohammedan religions, considered as pagan and false religions, absolutely prohibit the manufacture, sale and use of intoxicating drinks, the curse of nations and religions; while by nations claiming to possess the pure and true religion, this curse is legalized and perpetuated, and in some instances forced upon the native races in heathen lands. Strange as it may seem, while the people of pagan nations are renowned for their sobriety, the people of Christian nations are notorious for their drunkenness, and wherever Christian nations have sought by commerce and missions to civilize and Christianize peoples the drink evil has been introduced and proved a curse. In the judgment of those conversant with African affairs, the drink traffic has proved a deadlier evil than the slave trade to the people of that country. Rev. James Johnson, the native pastor of the island of Lagos, who was sent by the Christians of that place to plead their cause before the English parliament in 1887, closed his testimony before a commission of the house of commons with these words:

"The slave trade has been to Africa a great evil, but the evils of the rum trade were far worse. He would rather his countrymen were in slavery and being worked hard, and kept away from the drink, than that the drink should be let loose upon them."

Even the New York Tribune was moved a few years ago to say editorially: "Think of the monstrous hypocrisy of so-called Christian nations, vaunting themselves on their enlightened civilization, pretending a desire that the Gospel should be carried to all peoples and then invading the dark continent armed with the rum bottle, and in cold blood debauching and ruining its people. On the one hand are the missionaries, on the other hand is the rum of Christendom. Free rum against a free people."

The superintendent of Lutheran missions in West Africa wrote a few years ago: "The vilest liquors imaginable are being poured into Africa in shiploads from every quarter of the civilized world. On one small vessel, in which myself and wife were the only passengers, there were in the hold over 100,000 gallons of New England rum, which sold on the coast for one dollar a gallon in exchange for palm oil, rubber, camwood and other products common to the country. I have seen landed from one steamer at a single port, 10,000 cases of gin, each containing 12 three-pint bottles."

Recently an African missionary wrote: "Dear friends, we have a very mixed cargo—four missionaries, 20,000 hundred weight of gunpowder, and barrels and casks of gin without number. Our ship's surgeon, a very wicked man, said to me, pointing derisively to the gin and rum that were being unloaded at every point along the African coast: 'There are the Bibles and hymn books Christian America is sending over to civilize heathen Africa.'"

At a meeting in London a few years ago Baboo Chunder Sin said: "What was India 30 or 40 years ago, and what is she to-day? The whole atmosphere of India seems to be reeking with the cries of helpless widows and orphans, who often go the length of cursing the British government for having introduced intoxicating drink."

At the Parliament of Religions at Chicago, Narasima Charya, a Brahmin of Madras, said with an outburst of feeling: "Our friends of the Brahmo-Somaj have been picturing to you Christianity standing with a Bible in one hand and the wizard's wand of civilization in the other; but there is another side, and that is the goddess of civilization with a bottle of rum in her hand. I know of a hundred people in my native land who are addicted to the drink habit. Of course we have ourselves to blame; but remember that to ape the conqueror, is one of the vices of the conquered, and that the fashionable habit of drinking is borrowed by the Hindus from the English. Oh, that the English had never set foot in India! Oh, that we had never seen a single European face!

than it should make us a nation of drunkards and brutes!"

As a result of the introduction of intoxicating drinks into these countries by Christian nations, the heathen are prejudiced against the Gospel and its missionaries. They see the same nations that send the Gospel of peace or the waters of life to the children of darkness, send also the spirit of evil or fire water, and, in too many cases, the same vessels that carry missionaries of light in the cabin carry casks and barrels of darkness in the hold.

True, they who send out missionaries are a different class from those who send out rum, but in the minds of the heathen it is all the same. The only opportunity they have of judging the people of Christian countries is when sailors and travelers land in their midst, and traders do business with them. They say, these are American Christians or English Christians, and see what their religion does. Hence, when missionaries from Christian lands go among the heathen to propagate the Gospel, not infrequently they are accosted thus: "Why do you come here? Why do you not try to teach and reform your countrymen? Would you have us adopt such a religion as yours, to abandon the systems of our fathers, to become drunkards and blasphemers? You tell us if we remain heathen we shall certainly perish, but it is better that we should suffer than embrace a religion like yours."—James B. Dunn, D. D., in Union Signal.

### A WISE CHIEF.

Inflicts Summary Punishment on a Man Who Was Peddling Whisky to the Indians.

A correspondent of the St. Louis Globe-Democrat tells a good story of Chief Jonas Wolf, a famous Indian chieftain of the Chickasaw tribe. Chief Jonas was regarded by President Lincoln as the ablest Indian he had ever seen. Fully realizing that whisky was a dangerous enemy to the peace and prosperity of his people, Chief Jonas was a bitter foe to the whisky peddler, and he was always severe in enforcing the laws made to keep all intoxicating liquors out of the territory. In many instances he did not wait for the law's slow delay, as offenders frequently discovered to their sorrow.

"YOU MAKE INDIAN DRUNK."

Some years ago he encountered a well-known whisky vender whom he had punished severely and ordered out of the territory several times. Chief Jonas searched the suspicious character's outfit and found that the venturesome old reprobate was well supplied with numerous packages of shotgun whisky. "Through the aid of this poison you have come here to rob my people," said the enraged old governor. "You make Indian drunk and take his horses and wagon and his clothes. Now, I goin' to make this stuff do to you same as you do to Indian." Without further words he made the offender take off the last stitch of his clothing, and while the trembling wretch stood shivering, the chief emptied all the whisky on the man's raiment and touched a match to it. "Whisky make Indian naked. This time he make peddler naked. Now you go. Catch you one time more, you die. Sabe?" Rude as this proceeding was, it cannot be denied that it had a real justice in it, though hardly of the poetic sort.

#### Attempt to Kill the Shah.

PARIS, Aug. 3.—Muzaffer-ed-din, shah of Persia, who has been a visitor to the exposition since Saturday as the guest of France, narrowly escaped an assassin's bullet yesterday. It had been arranged that he should visit Sevres and see the national pottery works, going afterward to Versailles, and it was just after he had left the Sovereigns' palace on his way to the Seine to go on board a yacht placed at his disposal for the trip that the attempt upon his life was made.

#### Poisoned His Father at Thirteen.

FRESNO, Cal., Aug. 6.—Fred Hines, 13 years old, has confessed that he poisoned his father, who is lying dangerously ill at the county hospital. The boy said that his father treated him cruelly and had refused to allow him to drive his team. He concluded to kill him. He and his younger brother bought the poison, which Fred put in his father's coffee.

#### Chicago Anarchists Arrested.

CHICAGO, Aug. 6.—Lucy Parsons and five other anarchists were arrested here yesterday while attempting to hold a meeting. The police had been informed of the gathering in advance and arrested the principals as soon as they appeared on the platform. A considerable amount of incendiary literature was confiscated.

#### Swindler Arrested.

MALONE, N. Y., Aug. 6.—A gold brick swindler who has been operating under the names of Smith, Ogden, Pratt and Flower is under arrest in the Franklin county jail at this place. About a month ago he swindled a Massachusetts farmer out of \$4,000 by means of the old game.

#### Hot in Chicago.

CHICAGO, Aug. 7.—Eleven deaths and several prostrations were reported yesterday of the intense heat here.
