

# KING HUMBERT SLAIN

Italy's Ruler Shot Through the Heart.

ASSASSIN IMMEDIATELY ARRESTED.

The King Had Been Attending a Distribution of Prizes at Monza and Had Just Entered His Carriage When Fatal Shot Was Fired.

MONZA, Italy, July 30.—King Humbert has been assassinated. He was shot here last evening by a man named Angelo Bressi de Prato and died in a few minutes.

The king had been attending a distribution of prizes in connection with a gymnastic competition. He had just entered his carriage with his aid-de-camp, amid the cheers of the crowd, when he was struck by three revolver shots fired in quick succession.

No special precautions had been taken. Very few police were in attendance, and only a small guard of soldiers was keeping the way for the carriage. The king, amid the cheers of the crowd, came out smiling, accompanied by his premier aid-de-camp, General Ponzio-Vaglia. He had entered the carriage and was just driving off when the revolver shots were fired in quick succession. Some witnesses assert that Bressi was seen just previously waving his hands and cheering. The first shot wounded the king in the neck; the second, the fatal one, pierced his heart, and the third broke the arm of the already dying sovereign.

The assassin was immediately arrested and was with some difficulty saved from the fury of the populace.

When Queen Margherita arrived at the villa, it was still hoped that the king would survive, and when the truth was broken to her a heartrending scene en-

KING HUMBERT.

ned. Bursting into tears, she exclaimed:

"It is the greatest crime of the century. Humbert was good and faithful. No person could have loved his people more. He was one who bore ill will to none."

The assassin's name is variously given as Angelo and Gaetano Bressi. He was born in Prato Nov. 10, 1869, and is a weaver by trade.

He comes from America, where he had resided at Paterson, N. J. He says he had no accomplices and that he committed the crime because of his hatred of monarchical institutions.

Humbert I, king of Italy, was born March 14, 1844. He was the son of King Victor Emmanuel and of Queen Adelaide of Austria. In 1868 he was married to his cousin German, Maria Margaret of Savoy. He succeeded his father as king in 1878 and had made in most respects a model ruler.

Victor Emmanuel, Prince of Naples, who now succeeds as king of Italy, is 31 years old, having been born Nov. 11, 1869. He was married four years ago to the Princess Helena of Montenegro, who is 27 years old. They have no children. The Prince of Naples is very small of stature, has kept to himself a good deal and is by no means popular.

Monza, the scene of the assassination, is a summer resort about nine miles from Milan and is much frequented by the Milanese. The royal palace was built in 1719 by order of the Archduke Ferdinand of Austria after designs by Piermarini. It stands in a beautiful and very large park, surrounded by walls and laid out in many winding drives.

The last attempt upon the life of King Humbert was made on the afternoon of April 22, 1897. The king was proceeding to the Campanella race track, when a man approached the carriage on the pretext of presenting a petition to the king. As he reached the carriage door with a scroll in one hand he drew a dagger with the other and lunged at Humbert. The king parried the blow, and the assailant, who proved to be Pietro Acciarita, an insane young blacksmith, was arrested by the royal escort. The king then went on to the races as if nothing had occurred and received an ovation.

## PLOT HATCHED IN AMERICA.

Humbert's Assassin Formerly Lived in Paterson, N. J.

PATERSON, N. J., July 31.—The fact that the assassin of King Humbert proves to be a former resident of this place occasioned a little surprise here. It has long been suspected that a plot of this sort and magnitude might be hatched among the Italian anarchists who have formed a settlement here.

These Italians are mostly employed in the silk mills and some are experts, having engaged in the same industry in Italy.

Corn Doom cures corns in three days. It relieves the pain and protects the corn while being applied.

Numerous Italian societies are known to exist, though the Paterson police pretend that the objects of these secret organizations are unknown to them.

There is little doubt that the plot to kill King Humbert has been known for several months in the Italian settlements around New York. It was given wide publicity two weeks ago by the suicide of an anarchist in Paterson who claimed to have been chosen by lot to do the killing. That his position was known is proved by the fact that his compatriots were only prevented from giving him a magnificent funeral by the police.

## ALL ITALY MOURNS.

Queen Regent Proclaims Accession of the New King.

ROME, July 31.—Thousands of telegrams have been received from all parts

of the country indicative of the deep sorrow of the whole nation. Everywhere work was suspended yesterday, and the bourses and theaters were closed. In the principal cities the municipal authorities are considering plans to honor the memory of the murdered monarch. A Messina procession marched through the streets cheering for the house of Savoy and the young king. At Palermo an imposing demonstration proceeded in solemn silence to the municipal offices to express the sorrow and indignation of the population, after which a vast crowd cheered the new king. There were similar demonstrations in other towns.

A proclamation from the queen regent has arrived announcing the accession of the new king and stating that parlia-

VICTOR EMMANUEL III.

ment will be convoked after the funeral.

Several warships have started to meet King Victor. It is reported that Emperor William will attend the funeral.

The socialists and anarchists have issued a formal condemnation of the crime. The police have made several arrests of suspected persons on the theory that a conspiracy exists.

The socialist organ Avanta accuses the government of being the indirect assassin of the king because of a mistaken policy of dealing with socialists. In consequence of this tirade the police seized the Avanta.

The pope's grief was unmistakable. Assurances have been conveyed to the government that the Vatican will discourage any attempt to embarrass the ministry. This is the outcome of a rumor that a dangerous coalition exists between the extreme papal party and the Republicans for the overthrow of the monarchy.

## THE INDIA FAMINE.

A Quarter of the People in Central Provinces on Relief List.

LONDON, July 31.—The following dispatch from the viceroy of India, Lord Curzon to Kedgeston, to the secretary of state for India, Lord George Hamilton, has been received:

"Considerable anxiety is felt owing to the weakness of the monsoon. The situation is serious and critical in Gujarat, Baroda and Rajputana West, which are not sown. No fodder whatever is available in the southwestern part of the Punjab. Sown crops are in imminent danger, as rain continues to hold off. Fodder is scarce and cattle are dying in the central provinces of Therar and Hyderabad. Good crops are possible only in case the monsoon improves.

"A quarter of the inhabitants of the central provinces are on relief. The total number receiving relief is 6,295,000 with incomplete Bombay figures."

The governor of Bombay telegraphs that there were 8,697 cholera cases in the famine district during the week ending July 21, of which 5,703 resulted fatally. In the native states there were 8,242 cases, 5,710 proving fatal. The total deaths in the relief works of the British district were 6,753, or 4 2-5 per 1,000.

## Bomb Throws in St. Louis.

ST. LOUIS, July 30.—Early yesterday morning some one threw a dynamite bomb into the doorway of the house at 3750 Evans avenue, conducted by Mrs. A. Heisler as a boarding house for non-union Transit employees, blowing in the door and wrecking every pane of glass in the front of the house. In 3752, adjoining, also a boarding house for Transit employees, all the windows were shattered by the force of the explosion, and the front door was torn off its hinges, one bomb doing the work. Only a few inches of space separate the entrances. Fortunately none of the inmates was injured.

## Walcott For Draper's Place.

WASHINGTON, July 31.—The president has tendered the appointment of ambassador to Italy to former Governor Roger Wolcott of Massachusetts. The Italian government has been asked whether Mr. Wolcott would be acceptable to it in such a capacity, a form all ways observed in international relations. So far no response has been received to either of the inquiries. Mr. Wolcott is supposed to be in France, and the president has communicated with him by cable, so that an early answer is expected.

**Wanted: Another "Chinese Gordon."**

In a statesmanlike discussion of the Chinese troubles, in the superb August issue of "Success," Col. Charles Denby says: "This is not the time for namby-pamby politics. A government is of no mortal use unless it protects its people. We must protect Americans in China. They are rightfully there, and we must protect them at all hazards. I mean that we must send ships and armed men, soldiers and marines, and that they must kill and overcome the Boxers. Fortunately, we still hold the Philippines, and we can reach Tien-tsin from Manila in six days. Unless the Chinese government puts down this insurrection, the foreigners must do it. There is no alternative, and the issue must be boldly met. Our intervention should be put on the simple plain and unassailable ground that our supreme duty is to see that every American who is legally and properly in any country shall be protected in his life and property. It would be curious if any American whether he dislikes missionaries or likes them, should publicly denounce that doctrine. There would be greater indignation against him than there is against the plain American citizen who intimates that, in considering the Philippine question, it is not immoral to take into consideration the fact that a great commerce will grow up between the islands and the United States, which will be honorably and mutually beneficial to both countries.

"Our intervention must be guarded and prudent. It must not be understood that we are forming a coalition with the other powers. The ghost of non-intervention is still powerful enough to prevent this consummation. In mere military matters our soldiers may be compelled to act with the troops of the powers; but when the war is over we will stand alone, if need be, against the grim spectre of partition. Chinese Gordon put down the Taiping rebellion, marching at the head of the "Ever Victorious Army," with his little cane in his hand. Let us hope that this crisis will produce another foreigner as great, and good, and brave as he was."

**A Minister's Good Work.**

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him next morning. He said his bowels were in a terrible flux, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured." For sale by J. S. Banker.

Thomas Carey, who lives between Bingley and the Falls, had a young cow killed by one of the trains on the Lehigh Valley road last week. The fences all along the road are in poor condition and the killing of valuable stock by the cars has been an event of frequent occurrence all the summer. The divisions assigned to each section boss are so long that with the men and resources allowed him, he cannot keep the fences in proper condition, so in several cases the Lehigh company is furnishing new fence material to farmers who pasture cattle in fields adjoining the railroad tracks and paying them for building the fence, which is of woven wire, requiring a post every rod.
