NEWS OF THE STATE

EVENTS IN AND OUT OF THE EMPIRE STATE.

Paragraphs of the Week's Happenings
Clipped from the Tribune's Exchanges.

If there were no fools there would be no get-rich-quick concerns.

Grand Simmons, bred by Geo. Howland of Sherwood, sold for \$2,500 at a recent sale in New York.

Pensions granted: Original, James Stewart, Ledyard, \$10; increase, Otis H. Getchell, Auburn, \$17 to \$24.

A. H. Gluck, proprietor of the New Ithaca hotel, died from Bright's disease Tuesday evening of last week, aged 41 years.

Through a mistake last week, we neglected to chronicle the birth of a son to Mr. and Mrs. F. D. Giltner, on Friday, Nov. 17th.—Locke Times.

Charles E. Wills, postmaster at Homer, died suddenly on Monday evening. His daughter will doubtless officiate as postmistress for the balance of his term.

Rev. W. L. Bates has tendered his resignation as pastor of the Moravia Baptist church to take place Dec. 31. He has labored in Moravia twelve years with marked success.

By a vote of nine to six the Ontario county supervisors have granted leave to the city of Geneva to withdraw from that county and annex to Seneca—provided, of course, that Seneca will accept.

Jeremiah Flinn, a farmer of the town of Mentz, was arrested Saturday, charged with attacking his hired man with an axe. Flinn is worth some \$15,000, but when drunk is quarrelsome.

Saturday night, Dennis McCue was struck by a Central train at Waterloo and killed. Tuesday an aged woman named Starr was also struck and killed by the noon train. The coroner is investigating.

The famous Muller Hill farm, at Georgetown, was sold on mortgage foreclosure last week, and was bought by A. W. Francis of DeRuyter for \$800. There is said to be much more than that amount of value in the standing timber on the place.

Let the waving continue. It is said that a young woman of Homer waved her hand at a stranger, and in three days they were married. Two days later she waved a flatiron at her husband, and the next evening he came home waving a divorce.

The venerable Charles Hamilton of Moravia was taken to Willard State Hospital Tuesday. For some time he has shown evidence of unsound mind and recently had become so deranged that his removal to a hospital was necessitated.

Rev. Dr. Robert Lowry, the hymn writer, has just died at Plainfield, N. J. He was a noted Baptist clergyman, a professor and chancellor of the University of Lewisburg, Pa. He devoted much time to hymnology. He composed "Shall We Gather at the River?" "Where is My Wandering Boy Tonight?" "I Need Thee Every Hour."

Says the Trumansburg Press: We were shown a fully developed cotton boll the other day that was raised by Thomas Cannon in this village from a seed planted last April. The cotton shrub makes a pretty house plant and is easily raised. The development of the boll from the flower to the mass of snow white staple is interesting, and we have often wondered why more attention was not given its cultivation as a curiosity in our climate.

Fortunate is the farmer who the past year raised a large crop of beans. The prices of this product are advancing rapidly, being already quoted at \$1.85 per hundred pounds, where a few weeks ago they sold at \$1.20. It is predicted that the price will go to \$2.50. England is buying large quantities of beans for the use of her army in South Africa, and the American troops in the Philippines are also doing their share toward reducing the quantity on hand. England can buy anything she wants in this country from bridges to beans.

The managers of the Mid-Winter fair for the benefit of the Moravia Athletic Association are hustling and the event bids fair to be a success in all respects. The date has not been definitely settled upon, but will be announced in a few days. The committee has received a large number of donations from all over the country, already aggregating into the hundreds, and are receiving more daily. A gift will be given with

each ticket purchased, a high grade Wegman piano being one of the number. Every ticket seller receives 5 per cent commission on the amount he disposes of, and to the one selling the largest number will be given the choice of a high grade bicycle or a gold watch.

J. O. Reid, formerly proprietor of the New National, of Auburn, has leased of M. M. Crane the Moravia House at Moravia. The hostelry is being thoroughly renovated and will be put in first-class condition. Mr. Reid is an experienced hotel man and promises an up-to-date house. He took possession Dec. 1.

The Manlius Eagle, in its last issue, says that at the inception of the Syracuse & Suburban railroad between that village and Syracuse, it was feared that much of the village trade would go to Syracuse. This is not the case, so says the Eagle, as one of the leading merchants of the place asserts that his trade was never so large as last year.—Skaneateles Free Press.

The monster ocean steamers now coming into vogue have abolished sea sickness. Of the 2,000 passengers who came over on the White Star liner Oceanic, not one succumbed to mal de mer. The Oceanic is so long that she reaches from wave to wave, cutting through them instead of following their upward and downward curves. The vibration on board is no more than that of a railroad train. The big ship had an excellent test on the voyage mentioned, as it was stormy all the way.

"Bill" Anthony, the brave marine who first informed Capt. Sigbee of the blowing up of the Maine, committed suicide in Central Park, New York, last Friday, because he could not obtain work. There is a little romance connected with Mr. Anthony that comes to us from Penn Yan. Shortly after the blowing up of the Maine, Miss Adella Maud Blanquet wrote a complimentary letter to the young hero from her home in Yates county. This led to a correspondence which ripened into an engagement, and as the young man was stationed at the time in Philadelphia, she joined him there and they were married. She is now with their 5-months old babe with a sister in Yates county, and completely prostrated by the sad event.

Surrogate's Court.

The will of John M. King, late of Genoa, was admitted to probate and letters testamentary were issued to F. Eugene Buck, sole executor named in the instrument. Jason Atwater and David Price were named as appraisers of the personal property. The will disposes of \$2,000 worth of personal property and real estate to the value of \$6,000. Several bequests of mortgages are made to several nephews and nieces. The 96 acre farm in Genoa is given to Eugene Buck and wife Flora, the latter of whom is bequeathed \$383.57. To a sister, Mrs. Hattie Starks, is given \$250. The remainder of the estate is left to be divided by law among the next-of-kin.

Lehigh Valley Trunk Line.

The Lehigh Valley Railroad has finally met with success in the long drawn-out attempt to secure the right to lay its tracks across Communipaw Avenue, Jersey City. An ordinance permitting the crossing was passed by the Jersey City authorities some time ago but its operation was held up, owing to an objection from a technical legal standpoint, that was raised by its opposers. This legal objection was removed by the State Court of Errors and Appeals, the decision being handed down at 2:15 p. m. on November 20th. As soon as the decision was announced, the railroad people prepared to get started with the work of laying the tracks, which work was completed, four tracks being laid, by 12 o'clock midnight the same day. The street was cleared of all obstructions at 12:40 a. m., and the first train passed over the crossing at 12:50 a. m. A force of about 250 men was employed in doing the work.

Auburn.

An inquest over the remains of Lyman Johnson, the murderer-suicide, and his victim, Mrs. Johnson, was conducted one day last week by Coroner William R. Laird at M. J. Cameron's undertaking rooms, where the bodies were taken at the Coroner's direction. A 16-year-old daughter of the Johnsons was married a week ago to a man named Stahlnecker, and the couple are now spending their honeymoon in the northern part of the county. They have been notified of the tragedy. Those who are well acquainted with Johnson say that he was not over bright and many believe that he became insane brooding over family troubles. His father, Rufus Johnson of Conquest, attempted suicide some years ago by cutting his throat with a razor. Since then he has had to be carefully watched for fear that he will repeat the attempt upon his life. The murderer was a frugal and industrious man and had several hundred dollars in one of the Auburn savings banks. In the pockets of the trousers that he wore yesterday was found \$18, which has been turned over to the Coroner, together with all other effects of the dead man.

Mrs. Mary Myrick fell down stairs in Genesee street Thanksgiving day, striking her head against the door, and died at the Home for the Friendless next day. She was 89 years old.

The December term of county court convened Monday morning, Judge Underwood presiding. There are but four cases on the civil calendar, and one of these was put over the term. John Snyder vs. Charles Fuller and another was set down for the second Monday; D. Walling against Phillip Molloy, and Sarah R. Potter against Francis Anthony, et al., will be set down later. Of the eight criminal cases but three are expected to reach trial, the others having been otherwise disposed of. The indictment against Dorr Young, charged with rape was dismissed. The case of J. S. Caldwell for perjury and violation of the liquor law, was postponed because of the illness of a material witness. Sentence was suspended in the case of Jennie Hodge of Venice, accused of grand larceny, and Joseph Skellen accused of burglary, was found not guilty.

We now find on our roll some of the best and most influential farmers of this county, and still growing in spite of the taunts and jeers hurled at us by the I-told-you-so class, who in every way try to breed discord within our walls.

FOR THE GOLD STANDARD.

A Leading Declaration of the President's Message.

DEVELOPMENT OF CUBA.

A Suggestion That the Civil Features of the Government of the Island be Extended—The National Expansion Question Treated Cautiously—Congress Convenes.

Washington, D. C., Dec. 5.—With flags floating in the breeze above the National Capitol, the White House and other public buildings, the city filled with lawmakers from every state in the Union, and the galleries crowded with spectators, Congress opened for the session of '99-1900. The throng of spectators, as usual was at the capitol early and the scramble for the best seats from which to watch the opening proceedings, was fierce from the time the doors opened until the galleries were completely filled. There was nowhere near sufficient seating capacity or standing room to accommodate those who wished to grace the occasion with their presence, and in consequence of this there were many who had to content themselves with waiting until the newspapers could tell them what had happened within the halls of Congress on the opening day.

Out of respect to the memory of the late Vice President Hobart the proceedings in both the House and Senate were made as brief as possible and after the swearing in of members and the allotment of seats an adjournment was taken until Tuesday. The drawing for seats in the House was attended with all its usual amusing features. The elite of the city and the nation were witnesses to the bits of pleasantries indulged in on the floor of the House, and many of the incidents were of such a humorous character that there was an almost continuous uproar of laughter during the two hours this pleasing feature of the "performance" was on.

What the President Recommends.
 New York, Dec. 5.—A special from Washington to the New York World says:

Washington, Dec. 5.—One of the most important features of the third annual message which President McKinley will send to Congress is the finances of the country. The suggestions of the President are distinctly in favor of a single standard. Gold will be the keynote of the Administration's plans for governmental purposes.

"The St. Louis platform of '96 is practically ignored and the most emphatic language is employed to make manifest the purposes of the President to stand unquestionably for currency reform upon a single standard. The construction of this part of the President's message has received more attention than all the other features combined.

"In dealing with national expansion the President exercises extreme caution, contenting himself with a historical narrative of the operations of the Government in attempting to reconstruct the governments of Cuba, Porto Rico, the Philippines, Hawaii and Guam. No reference is made to the treaty which the President has made with the Sultan of Sulu.

"No recommendations are made concerning the sort of government to be eventually established in the Philippines, and no reference is made to the existence of the so-called Filipino government.

"Regarding Cuba the President confines his recommendations to a further development of the government established there, suggesting an extension of the civil features of it which have already been experimented on. The President will say that the condition of the people of the islands is vastly better than it was before the advent of the United States.

"Porto Rico, he says, should have a Territorial form of government similar to that enjoyed by Arizona, New Mexico and Alaska. The people of the island, while not capable of self-government, he says, are entitled to representatives in Congress and such benefits as may accrue from a Territorial form of government. The President will also suggest that more moderate tariff regulations be provided for Cuba and Porto Rico. He further declares in favor of laws designed to encourage the people of those islands to advanced industry, the free admission of agricultural implements and other articles necessary to develop their resources.

"Hawaii the President points to in his message as an example of what other colonies may become under favorable conditions. He suggests a liberal Territorial form of government for the Pacific territory. Guam and the new Samoan Island which the United States has inherited do not come in for any particular attention at the hands of the President, he believing that they are both properly conducted.

"The most important of his reflections on the attitude of this Government toward others relates to the British-Boer troubles. He expresses his profound regret at the existence of this trouble, but skillfully avoids any comment that may be construed to reflect upon either Government.

"The President urges Congress to enact the Hanna-Payne shipping bill, which proposes a subsidy to vessels carrying American registry. He also suggests the necessity for the completion of the Isthmian canal as soon as possible."

Gage Advises on Financial Bill.

Washington, Dec. 5.—The Republican members of the Senate Committee on Finance met Saturday afternoon to consider a financial bill. Senators Aldrich, Allison, Platt of Connecticut,

Wolcott and Burrows were present, Mr. Platt, of New York, being the only absentee.

Secretary Gage went over the general situation with the committee, making various recommendations as to the details of the measure to be introduced.

One of the points discussed was the advisability of a general refunding of the bonded debt of the country at a lower rate of interest than now prevailing. The indications are that a feature of this kind will be incorporated in the Senate bill.

It can be definitely stated that the Senate measure will make provision for the maintenance of the gold standard. It is also quite definitely understood that the Senate bill will be an entirely different measure from that prepared by the House Republican Caucus Committee, in phraseology and detail, and cover some points not included in that measure.

Henderson Named By Acclamation.

Washington, Dec. 5.—The caucus of the Republican members of the House was brief. The selection of a candidate for Speaker by the party in power usually is an animated affair, but months ago all the other candidates who entered the field after the retirement of Speaker Reed abandoned the contest, leaving Colonel David B. Henderson of Iowa the unopposed candidate. His nomination therefore was a foregone conclusion, and he was named by acclamation. It also was decided, without a dissenting voice, to re-enact the rules laid down by former Speaker Reed.

The officers of the last House, except Colonel Russell, the Sergeant-at-Arms, were renominated without opposition, as follows: Clerk, Alexander McDowell of Pennsylvania; Doorkeeper, W. J. Glenn of New York; Postmaster, J. C. McElroy of Ohio, and Chaplain, the Rev. Henry Conden of Michigan.

Democrats Select Richardson.

Washington, Dec. 5.—The Democrats of the House of Representatives at their caucus, held in the hall of Representatives, selected Representative J. D. Richardson of Tennessee as their candidate for Speaker after a spirited contest which lasted through six ballots. This carries with it the Democratic leadership on the floor. Mr. Richardson has served fourteen years in the House, and is the oldest Democratic member in point of service except Mr. McRae of Arkansas.

The candidates against Mr. Richardson were Representative De Armond of Missouri, Bankhead of Alabama and Sulzer of New York.

To Rush Molineux Trial.

New York, Dec. 4.—It is reasonably certain that the trial of Roland B. Molineux, which has now commenced in earnest before Recorder Goff, will not drag along as other celebrated cases have, but will be pushed to as

Roland B. Molineux.
 speedy an ending as is compatible with the preservation of the legal rights of the defendant and of the people. Recorder Goff indicated during the latter days of the selection of the jury that he would not tolerate delay, where delay was attempted without proper and legitimate purpose in view. The same rule will apply in the trial.

Mutiny on an Ocean Liner.

St. John, N. B., Dec. 4.—The Donaldson line steamer Amarynthia arrived here from Glasgow with a mutiny on board. As soon as the vessel dropped anchor in the harbor Capt. Taylor sent for the police to take off thirteen cattlemen who were attempting to take possession of the ship. Chief Clark and a squad boarded the steamer and after a fight, during which knives were drawn, the cattlemen were overpowered and placed in irons. The cattlemen broke into the cargo of whiskey just before the vessel reached port and drank liquor freely.

To Test a Leprosy Cure.

Honolulu, Nov. 23, via Victoria, B. C., Dec. 4.—Experiments are to be made here in the treatment of leprosy with a Venezuela shrub, of which samples were forwarded here by Surgeon General Wyman, of the United States. The shrubs are growing here under the care of Dr. Carmichael, of the United States Marine Hospital, who was asked by the department at Washington to make the experiments.

The Samoan Treaty Signed.

Washington, Dec. 4.—Secretary Hay, Lord Pauncefote and Herr von Holleben, on behalf of their respective governments, have signed the treaty for the partition of Samoa. The ceremony took place in the Diplomatic Room of the State Department. There was no preliminary discussion.

Amateur Golf at Atlantic City.

Atlantic City, N. J., Dec. 4.—Preparations are about completed for the big open tournament for amateur golf players to be held at the Northfield links of the Atlantic City Country Club on Dec. 14. The events will be of a resting nature.

By the same freight we get a lot of Men's ulsters, in black and gray. They are cut good and long and are just the thing for this cold weather. They are good for two winters and all they cost is \$5.

\$5.00

This morning we received 250 all wool suits, in chevots, cashmeres and worsteds. We purchased the entire lot, consequently we got them for 1/2 their value. They are in single and double breasted, cut in the latest fashion—until they're gone \$5 will rig you out.

During the month of December we start to close out our broken up sizes. We have on hand some 25 lots of such goods. There are fancy worsteds, clays and English chevots galore. If one will fit you \$7.50 is the price.

Did you ever see an all wool Melton Overcoat cut in the English box fashion for \$7.50? We've got 'em. They are just the thing, too, and can't be distinguished from a \$15 garment—in black or blue for \$7.50.

Want a handsome stripe for \$10? If you do you'd better hurry up or they'll be all gone. Saturday we sold a stack of them—but we've got more for this week.

Wedding Bells.

A very happy event occurred on Thanksgiving evening at the home of Mr. and Mrs. Squire Howe, when their daughter, Helen Inez, was united in marriage to Harley Nutting Crosby, B. L.; L. L. B., of Falconer, N. Y., in the presence of the immediate relatives and a few friends. The officiating clergyman was the Rev. Kirke F. Richardson, a friend of the groom. The bridal party entered the parlor at half past seven to the beautiful strains of Lohengrin's Wedding March which was impressively rendered by Miss Elma Mastin of Genoa. The bride who was attended by her father was charmingly attired in white silk mull trimmed with lace and carried white carnations. The ceremony took place in the east bay window which had been transformed into a perfect bower of ferns, ivy and mosses, with which the parlors were prettily decorated. After the ceremony a very tempting collation was served to the guests, among whom there were present from out of town, Mrs. Solomon Crosby and Master Rex, Mr. Charles Fairchild, Parish; Miss Freme M. Richardson, Union Square; Mr. and Mrs. E. E. Scribner, Dunkirk; Mrs. W. A. Hedden, Hedden's; Mr. and Mrs. K. F. Richardson, Victory.

The bride is the youngest daughter of Squire and Emma Conklin Howe, and is one of Genoa's most beautiful and accomplished young ladies. The groom is a recent graduate of Cornell University and is at present a member of the law firm of Edson & Crosby, Falconer, N. Y., at which place the happy couple will be at home after a brief trip in the northern part of the state.

The friends of the bride remembered her with many choice tokens of regard.

PAYING DEARLY FOR WAR

Sentiment Along This Line is Growing in London.

WOMEN LOSING HEART.

Each Day Brings Fresh Mourning Into British Homes—Effects of the Transvaal War Being Felt Seriously By the Poor—Last Battle Not so Fatal as First Reported.

London, Dec. 5.—The prevailing sentiment daily growing stronger here is that we are paying very dearly for the war.

A letter written by a member of the royal family to a lady whose son is in the Coldstreams with the Orange River column, and is thus in the thick of the fight, has just been made public.

In it His Highness says: "All these victories sound very grand as heroic encounters and proofs of British pluck, but they are small from the practical military point of view. No victories are great where guns have not been captured. We have taken no cannon from the enemy."

More guards have started, which will further empty London of desirable men in the society point of view.

Ladies are beginning to lose heart as they see each day bringing fresh mourning into new families. Hunt balls and country house parties are being put off in numbers, which points to the coming winter as one of unrecorded dulness. The hunting fields are shorn of their most brilliant riders. In these and a thousand other ways the pinch of war has been felt more keenly each day.

So much for the rich. The poor also feel the war very seriously, for it is almost impossible this winter to get ordinary subscriptions to the usual relief funds. People just say, "We can't give this year, for we have to subscribe all we can afford to the war funds." This can easily be imagined by looking at the enormous sums raised throughout the country.

List of British Losses.

London, Dec. 5.—The War Office has given out the official list of the British killed and wounded at the battle of Modder River, the total being 438.

This comparatively small number created wide astonishment. There were at least 8,000 English engaged. At the battle of Glencoe, where only 4,000 English were engaged, the loss was 209 killed and wounded and 208 missing, or 477. At Elandslaagte fight about 3,500 English were engaged, and the losses were 264 killed and wounded. At Ladysmith on Oct. 23, 301 were killed and wounded and 485 captured. Thus the British loss at Modder River is about 5 per cent. Some military men are inclined to think that the Boer losses must have been very heavy, to account for Lord Methuen's despatch saying it was "the bloodiest fight of the century."

Long Wants Warships.

Washington, Dec. 4.—The annual report of the Secretary of the Navy is a document of unusual interest, dealing not only with the work of the navy during the past year and important recommendations for the future, but also discussing the more important questions relating to the navy, including the authorization of eighteen new warships, the imperative need of special legislation in the early days of Congress for armor of the best quality that can be obtained, and the proposition that the thanks of Congress be given to the Commander-in-Chief of the North Atlantic Squadron and to the officers and men under his command for the part they took in the naval operations at Santiago.

Death Spared Him a Trial.

Newark, N. J., Dec. 4.—John Kofal, the alleged bigamist who drank carbolic acid in Broad street on Thursday night, died Sunday in the City Hospital. Mrs. Annie Kofal of No. 132 East Forty-second street, New York, was the first wife. She met the second two weeks ago and showed her her marriage certificate. Then the second wife told Kofal to leave the house and never return. He went. When he was taken

to the hospital the second wife made a charge of bigamy and if he had recovered he would have been prosecuted. He probably will be buried in potter's field. Both wives say they will not have anything to do with the body.

Ate Rat Poison in Pie.

Somerville, N. J., Dec. 4.—Howard T. Mettler, aged forty-five, a driver for Cawley's bottling establishment, on returning home from work Saturday night, ate a pie containing poison, which his wife had fixed for rats in the cellar. He afterward told his wife that the pie had a queer taste. Upon hearing that he had eaten the poison, he went to Dr. Stillwell and emetics were administered. He then went to his home, where the emetics worked until he collapsed. He died late Sunday afternoon. Mettler leaves three children.

Was Merely a Show Trick.

Anaconda, Mont., Dec. 4.—The dispatch printed in Chicago and Eastern papers under the date of Nov. 26 last to the effect that a petrified body, supposed to be that of Gen. Thomas Francis Meagher, had been found near Fort Benton has proved to be untrue. The story is an unqualified "fake," and was started by the owner of an unknown petrified man, soon to be sent East for cheap show purposes.

Dr. De Costa Becomes a Catholic.

New York, Dec. 4.—Three months ago the Rev. Dr. Benjamin F. De Costa resigned the office of presbyter in the Protestant Episcopal Church. Sunday he was received into the communion of the Roman Catholic Church. The ceremony took place in the Academy of the Sacred Heart, in the presence of a few Catholic and Protestant friends who had been invited to witness it.

Will Keep Open on Sunday.

Englewood, N. J., Dec. 4.—Candy and cigar stores all remained open Sunday despite the Mayor's proclamation that they must close. On last Sunday all except one closed, and no action was taken against the man who kept open, so the others decided to conduct business as usual.

Walked in Front of a Train.

Hackensack, N. J., Dec. 4.—The woman killed by a train of the New Jersey and New York Railroad in Carlstadt has been identified as Mrs. Pauline W. Paugol, 62 years old, a widow, living in Woodcliff. She had been here on business, and was on her way home when she walked in front of the train.

Big Real Estate Deal in Newark.

Newark, N. J., Dec. 4.—A real estate deal by which the Prudential Insurance Company acquires all the property in Broad street between Bank and Market streets, has just been concluded. The company's holdings in Broad and Bank streets now are estimated to be worth about \$6,000,000.

Venezuelan Rebels Win Fight.

Caracas, Venezuela, Dec. 4.—After a fight lasting sixteen hours the city of Maracaibo, capital of the State of Zulia, is in the power of the Hernandez revolutionary force.

One Postal Clerk Kills Another.

Fulton, Ky., Nov. 27.—Flay Goldsby was shot and killed here by John T. Moore. Both are clerks in the United States mail service. The trouble grew out of a dispute over a vacant run. According to Moore's story Goldsby began abusing him and called him names. Moore struck him and was knocked down by Goldsby. Moore drew his revolver and fired four shots, three of which struck Goldsby in the head. Goldsby fired one shot at Moore, which missed him.

Photographing By Heat.

A sensitive plate exposed to dark heat waves will ultimately become affected. With the plate still covered, the same result would occur from light waves such as proceed from the sunlight. A fair test is to expose an aluminum disk to their action. X-rays penetrate this metal, and it is probable that heat waves and others can affect the photographic plate.

Cause For It.

"Hello, Briggs! You are looking well."
"Yes; I am looking for a fellow that loves me twenty."

Chamberlain's Pain Balm Cures Others. Why Not You?

My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well.—ADOLPH L. THE COUNTRY IN GENERAL

A Summary of Happenings at Home and Abroad. THE NEWS CONDENSED

A Review of What Has Transpired of Public Interest.

New Brunswick, N. J., Dec. 2.—Winfield S. Anness, father-in-law of George Valentine, the Perth Amboy bank wrecker, has just committed suicide here. Mr. Anness never recovered from the shock of the disgrace brought upon the family.

Sag Harbor, N. Y., Dec. 2.—Dr. Edgar Miles, one of the best known practicing physicians in Suffolk County, died at his home here Thursday. He was seventy-five years old and had practiced in Sag Harbor and vicinity for fifty-five years. He was the father of Clarence C. Miles, Coroner of Suffolk County.

Toronto, Dec. 2.—So much lumber was exported to Buffalo during the last season that there is a scarcity of it in Canada. Already the box lumbermen have put up their rates 100 per cent. higher than they were at a corresponding time last year, and to meet that the box manufacturers of Toronto will advance prices 50 per cent.

Chicago, Ill., Dec. 2.—S. E. McClelland, traveling salesman for the Moore & Schaefer Clothing Company of New York City, lost his pocketbook, containing \$2,000, and his diamond stud, worth \$500. He thinks he lost them while watching the newsboys eat a Thanksgiving dinner in Wolf's store.

Florence, Ala., Dec. 2.—General Joe Wheeler, in a letter to W. M. Bunting, editor of a local paper, says: "Will you please state in your valuable paper that letters addressed to me at Washington about matters of Congressional business will be attended to, as I expect to be there very soon."

Paris, Dec. 2.—The weekly statement of the Bank of France shows the following changes: Notes in circulation increased 152,875,000 francs; treasury accounts current increased 19,800,000 francs; gold in hand decreased 4,425,000 francs; bills discounted increased 194,275,000 francs; silver in hand decreased 1,200,000 francs.

Washington, Dec. 2.—Thanksgiving Day was closely observed at the national capital. All the executive departments, district offices and business houses were closed. At the White House the President and his household spent the day in the usual quiet way. Mr. and Mrs. Abner McKinley came over from New York to dine at the White House, and accompanied the

Cape Charles, Va., Dec. 4.—The entire business portion of Onancock, Accomac County, Virginia, has been destroyed by fire. The loss is estimated at \$200,000.

Princeton, N. J., Dec. 4.—The boiler at the railroad water tank at Cerulean exploded Friday afternoon, fatally injuring Engineer Calvin Mitchell and his son.

Shelbyville, Ind., Dec. 4.—On a playful wager that he could crawl down the wheels of a moving wagon, ten-year-old John Rhodes did so and had his head crushed to a pulp.

Lexington, Ky., Dec. 4.—John W. Schooler, the colored attorney and leader of the colored Democrats of Lexington, has been acquitted by Commissioner Hill of the charge of bribery at the recent election preferred by John Lair.

Muncie, Ind., Dec. 4.—Frank Coffman, an L. E. and W. freight switchman, was crushed to death between the bumpers on two cars here. His body was held suspended until the cars were pulled apart. Coffman had sued for a divorce only a few days ago.

Washington, Dec. 4.—The monthly statement of the director of the mint shows that the total coinage at the mints of the United States during November was \$9,511,070, as follows: Gold, \$6,643,700; silver, \$2,812,000; minor coins, \$255,370.

Columbus, O., Dec. 4.—Ike T. Jobe, late a captain in the sixth United States Infantry, who was to have been tried before the United States Court here for using war department penalty envelopes for private letters, has escaped from the county jail.

Cincinnati, Dec. 4.—The paper trade is in a serious condition, according to Albert Diem, one of the largest manufacturers in Cincinnati or the West. Mr. Diem says that within a fortnight the trust will raise prices from 20 to 25 per cent. This condition is due not so much to a desire to make profits as to an actual scarcity of the commodity.

Brooklyn, N. Y., Dec. 5.—A patrol wagon, containing two policemen and a large box, drove up to Police Headquarters Friday evening, and the box was carried to the room of President York. The wagon was from the Vernon avenue station and contained the books and papers of the Miller Franklin Syndicate business. President York and Commissioner Abell passed considerable time in examining the contents of the box, but refused to tell what they discovered. It is said the Commissioners are anxious to find out how many members of the Police Department are involved and to what extent.

Washington, Dec. 5.—Mr. Macrum, the United States consul at Pretoria,

is renewing his appeals to the State Department to be allowed to leave his post. The department, realizing the pressing necessity of having some energetic and willing representative of the United States at Pretoria to look after the important American interests in the Transvaal, as well as to carry out our obligations to care for the welfare of British citizens therein, is striving to find some consular officer near Pretoria who will undertake to relieve Mr. Macrum. Probably Mr. Hollis, United States consul at Lorenzo Marquez, will be asked to undertake the charge.

WHOLE FAMILY WIPED OUT. Father, Mother and Two Children Killed in Paterson Wreck.

Paterson, N. J., Dec. 2.—One more victim is certain to be added to the six killed in the wreck on the Delaware, Lackawanna & Western road, physicians at St. Joseph's Hospital pronouncing the case of George H. White, of Ithaca, hopeless.

Of the injured at St. Joseph's Hospital, J. Sterling Smith, a nephew of General Joe Wheeler, is in the worst condition, next to White. Smith's left leg has been amputated at the hospital. He worried much over the loss of a portfolio containing valuable papers until he was shown the receipt for the parcel by one of the Sisters of Charity.

David Roe was informed of his wife's death by one of the Sisters some hours after the accident.

He was in a very weak condition and continually moaned for his wife. He said he was sure she had been killed by his side, in the second from the last coach. At first the hospital nurses told him his wife was not hurt. When finally told of her death he began to rave and his shrieks could be heard in the hospital grounds. It is expected that he will recover unless he sustained internal injuries.

The officials of the road extended every facility to relatives and friends of the injured and the newspaper men in the obtaining of information. General Superintendent E. G. Russell and Division Superintendent R. Du Puy were in Paterson the greater part of the day Thursday, personally attending to those who came to inquire after the victims of the disaster in St. Joseph's Hospital.

"I do not believe in a policy of suppressing the facts in a case of this kind," said Mr. Russell. "The friends of those injured in a railroad accident are entitled to the fullest information, and so is the public. That is why every opportunity is afforded the reporters to get the information they seek. That has always been my policy, and always will be, although I hope it will be a very long time before there shall be a repetition of Wednesday night's fatal accident."

The list of the dead given out on Wednesday night was largely incorrect. The corrected list is as follows:

Alexander Craig, Scranton, Pa., business manager of the Scranton Tribune; Mrs. Esther S. Craig, his wife; Miss Esther Craig, 15 years old, their daughter; Miss Jessie Craig, 11 years old, another daughter; Mrs. May B. Roe, wife of David Roe, of Ithaca; Walter Jacob Brock, 19 years old, a Cornell student of No. 899 West End avenue, New York city.

It was not until Thursday that the identification of the two children killed was made positive. Passengers had said they were with Mr. and Mrs. Roe, but relatives of the Craig family came here from Brooklyn and identified them as those of the Craigs. The accident wiped out the whole family. They were on their way to spend Thanksgiving with relatives in Brooklyn.

Paterson, N. J., Dec. 4.—General Superintendent Russell of the Delaware, Lackawanna and Western Railroad has arrived in this city with officials of the road, and visited the scene of the wreck with the Coroner's jury and Coroner J. S. Yates, who will make the investigation, and try, if possible, to fix the blame for the catastrophe of Wednesday night.

The jury, previous to going to the railroad, went to the morgue and looked at the body of Mrs. Roe, wife of David Roe, one of the men injured in the wreck. Notwithstanding Mr. Roe's injuries, he insisted on leaving the hospital, and went with the body of his wife to Warwick, N. Y., where the funeral services will be held and interment made.

While the railroad officials insist that Engineer Reardon is to blame for the accident, there are those in this city who shift the blame to the company. When the new company took hold there was a man on the Van Winkle street crossing, where the accident occurred but the new management discharged him with others.

For months the Board of Aldermen have been trying to have the men replaced.

At the meeting only two weeks ago inquiry was made from the clerk as to whether any attention had been paid to the demands of the Aldermen for the restoration of this watchman. The clerk said the company did not think there was any occasion for a man at this point.

Railroad men here say had a watchman been at this curve he would have been out with his danger signals, and it would not be left to a flagman of a train to run back in such an emergency.

The Ship Cyrus Wakefield Safe. San Francisco, Cal., Nov. 13.—The ship Cyrus Wakefield, on which the twenty per cent. insurance was paid a few days ago, has arrived here, 221 days from New York.

Letter from California.

428 Galena ave., Pasadena, Cal.

Dear folks at Sherwood and vicinity—There is so much which you would all like to hear concerning us that in order to avoid repetition I will write a circular letter. We arrived at San Bernardino on Saturday. Henry went to look for work and I went to look for rooms. I found a room for \$1.50 per week and Monday I went to Highlands where I could get work in a few weeks in a packing house, but it was not what I wanted as I wanted to be out doors. I came back to San Bernardino and Tuesday went to Whittier and found that a large part of the inhabitants were Friends. I have not seen a well since we left home. All the water comes from the mountains in iron pipes. Wednesday I left Whittier at about 11:40 and came to Los Angeles and went to the depots and requested them to stop our freight and send it here. From Los Angeles I took the electric car to Pasadena, and hunted out Martha Wood and Hannah Williams. In the morning I looked at a house which I could get for \$5 per month with \$1.25 water privilege. I looked for work and found that probably in three or four weeks there would be an opening. Then went back to San Bernardino where E. and the children had been all the time. We talked it over and finally decided to come to Pasadena. We have found a small house at 428 Galena ave., where we moved our trunks, etc. We pay \$7 per month and are as comfortable as could be expected. I got pretty tired last week so that I felt quite miserable for several days but am better now. I shall not try to do anything this month. Everything here is pretty high except flour and sugar, which are but little higher than East. Oil is 18c. per gal., butter 28c. per lb., potatoes \$1.25 per cwt. by the 100 lb. sack, sweet potatoes about the same or less, meat about the same as East. Housekeeping is done on such a small scale here. No. 6 and 7 stoves, foot wood, small houses. Wood costs \$10 per cord delivered, that is three piles of one foot wood, 8 by 4. It is live oak, juniper, white oak, some orange and lemon, and eucalyptus. We are using live oak and it is very hard good wood, all split up ready for use. Everybody here uses wood or oil as coal is so high. We never need a fire for warmth in the middle of the day. The weather since we have been here has been very fine except two or three rainy days. It is raining now. The country is in great need of rain. I am told that if we should have another year as dry as the last two the country here will be ruined. In the fore part of my letter I said we had seen very few wells. There is a fine one in the east part of the town here which I am told will allow continual pumping with a 12-foot windmill. This may be so, as the winds here are generally very light. It is a drilled well, having from 60 to 90 feet of water in it continually. This is indeed a beautiful country in and around the towns where it is irrigated. Roses and all other flowers bloom all the year round. I am told that there is hardly ever a day, except when it is raining, when one cannot sit out of doors comfortably in the middle of the day. Mornings and evenings it is rather cool. There is never a time in the hottest weather when it is not cool in the shade. There is no such thing as sunstroke known here although one can work hard in the sun with the thermometer at 120 to 130. In this locality there does not seem to be much business outside of the towns now. Planting garden stuff, sowing a little barley or wheat and such light work. I do not know what I shall do yet. I think when I am situated so I can I shall get some chickens, a cow, and a few Belgian hares. Eggs are worth now about 30c. per doz. I am told they did not get below 25c. all summer. Milk is from 7c. to 10c. per qt. and as to hares there is a great demand for them for eating and breeding purposes. Pedigreed stock sells for from \$20 to \$25, other stock from \$4 to \$5. Hares are very prolific and one can raise meat for the table very cheaply. Nearly everything is sold for sums divisible by 5. That is crackers are sold for 8 cts. per lb. and put up in 1-4 lb. packages, and most everything on the same plan. We should have written more postals to

our numerous kind friends in the East but we kept thinking we should soon be settled somewhere and we could then finish this letter and all would soon hear about us. With much love to all.
HENRY C. SLOCUM.
