## NEWS OF THE STATE

EVENTS IN AND OUT OF  
THE EMPIRE STATE.Paragraphs of the Week's Happenings  
Clipped from the Tribune's Exchanges.

Benham has cost Genesee county over \$40,000.

The Brookfield fair will be held on Sept. 17th to 20th.

Moravia defeated a Syracuse base ball team the 18th, 7 to 2.

Maybe Atkinson will ask us to sympathize with the Chinese.

The Ninth will go down in history as one of the bravest regiments America ever possessed.

The net receipts of the opera, fair and party for the benefit of the Groton village building is about \$1,400.

A new weekly political paper, the Syracuse Democrat, made its first appearance in that city last week.

The Groton band has taken on a new lease of life and is practicing twenty strong under the leadership of Eugene Starkey.

Bowser, a Chicago bookkeeper and teacher, successfully shot through the whirlpool rapids at Niagara Falls Monday afternoon.

Contracts have been let for the replacing of the burned Alhambra in Syracuse with an \$80,000 structure to seat 3,000 people.

The Ithaca band will give an open air concert at Auburn Thursday evening, August 9, the last day of the firemen's convention.

"Imperialism" is a good, sonorous, mouth-filling word. During the campaign it will at least share public favor with the best rag-time compositions.

And it looks as if Bryan, having nominated himself, went back to Lincoln and notified himself that he had selected himself to run the Democratic party himself.

If Germany were fighting France or if Russia were fighting England, their military movements these days would probably carry a more marked suggestion of dash.

Nicholas Pearson, supervisor of the town of Ithaca, was struck by a Lehigh train at the Burt crossing Monday, the 16th, and instantly killed. The horse he was driving was freed from the wagon, and ran home.

Martha Hemlock, a Seneca Indian priestess of the Cattaraugus reservation, who is supposed to have been over 100 years old, was killed by the cars at Collins the other day. She was married before 1812, her husband having been killed in that war.

Leo Clark, aged 11 years, of Oneonta committed suicide by shooting himself through the head. He had become an inveterate reader of trashy novels which turned his head. He was made despondent over the sad ending of a story he had been reading.

The friends of Jay P. Nye, supervisor of the ninth ward of Auburn, have opened a campaign for him for the office of sheriff to succeed the present incumbent, Sheriff Wood. The latter's term expires with 1901, so the nominating convention will not be held until a year from now.

Brookfield people have been victimized by a fellow who is going through the country plugging shade trees at twenty-five cents a plug and inserting in the holes some substance which he claims will destroy or drive away all injurious insects or worms. He is a downright fraud.

Collis P. Huntington, having bought out his associates in the Southern Pacific, is one of the richest railroad men in the world, being sole owner of a system including ferries, terminals, river and ocean steamboat lines and 7,600 miles of track.

News has been received of the death of Floyd Wilbur formerly a telegraph operator at Locke.

Robert Crawford of Auburn drank enough carbolic acid to end his life last week Tuesday. No reason is known for his desire to die.

H. Elmer Horton, residing in the county jail, started a fire with kerosene and lost his eyebrows as well as a week's growth of whiskers.

So far there is no indication that that distinguished Vermont Democrat, Admiral George Dewey, intends to take the stump for his party this year.

During a shower at Gouverneur Tuesday night, twelve cows gathered under a tree to gain shelter from a storm were struck by lightning and all killed.

The American soldiers who are risking their lives in the bloody Chinese campaign can never call themselves war veterans, for we are told that there is no war.

According to the Cortland correspondent of the Syracuse Post-Standard, a Locke man cleaned the Cortland sports out of about \$250 recently, by betting on the ball games.

The town board of Marathon was upheld in the recent action brought before Justice Lyon and will go on with the construction of the \$8,000 bridge across the Tioughnioga.

The effort to secure an executive pardon for Mrs. Augusta Nack, the she-devil of the Guldensuppe tragedy who is serving a 15-year sentence in Auburn prison, ought not to succeed.

It is said that the Philadelphia league team has offered the Syracuse Stars \$1,000 for Pitcher Lew Wiltse of Bouckville, who has been doing remarkably fine work for the Syracuseans.

J. B. Hawley of Hamden is doing his mowing this year with a machine that has been used every summer for 32 years and is yet in good condition. It goes without saying that he is a good farmer.

Two Skaneateles young men hired a team of horses last Sunday, took their girls with them and drove over 70 miles, giving the team but a half hour's rest in that distance. One of

the horses died as it was put in the stable and the other is ruined. Both chaps are arrested and will be prosecuted for cruelty to animals.

A gentleman passing through the country recently saw a man working among his potatoes which were very diminutive as to size. He said to him: "Your potatoes look small."

"Oh yes," said he, "We planted the small kind!" "But it looks as if you would not realize over half a crop."

"We don't expect to," says he, "as we planted them on shares."

An apparently crippled beggar was captured near Jamestown recently. He limped and had one arm bound up in splints and when a deputy sheriff insisted upon seeing the injury the lameness suddenly disappeared, and he took to his heels. When examined both the lame leg and the sore arm were found to be all right. Sewed in his clothing was \$327.

Moravia will have a hundred men in line in the parade of Central New York Firemen at Auburn August 9.

Tuthill Hose, Fitts Hose and the Day Hook and Ladder company, headed by the Moravia Brass band, will participate. The firemen with their handsome apparatus, nobby new uniforms, and a crack musical organization, will make a splendid showing.

Taxpayers won't have to pay. Robert L. Drummond, who defended Frank N. Sheldon in both his trials on the charge of murder in the first degree, has again been denied an allowance of fees and expenses as assigned counsel for the defendant, an order of Justice Dunwell of Lyons who presided at both trials, to that effect being filed in the county clerk's office.

Hon. and Mrs. George S. Fordyce were riding out one day this week when their horse became frightened by a cow and shied, overturning the buggy, dumping the honorable gentleman full length into the ditch. Mrs. Fordyce was first to regain her footing and with her usual presence of mind and fearlessness grasped the horse by the head preventing further disaster.—U. S. Advertiser.

The passion for cigarettes of young William H. Bennett of Lyons, has cost him his reason and last week he was placed in Willard asylum. He lived with his grandmother, an aged woman, and during her absence from home he is accused of pawing her household belongings, piece by piece, to Hebrew junk dealers for money with which to buy cigarettes. He sold her sewing machine for 10 cents.

Lightning played queer freaks in Owasco last week Saturday. One barn was struck twice within an hour, but to prove the old adage, the first stroke hit one corner of the barn and the other the opposite corner, so it didn't really strike twice in the very same place. A third thunderbolt crashed into a tree right near the barn, and a lad named Perkins, standing near, was stunned for a short time.

James Luce, an old resident of Ludlowville, met with an accident Saturday afternoon. He had been to visit his son, James Luce, Jr., who lives near King Ferry. On the way home near Lake Ridge, his horse took fright and ran away, throwing Mr. Luce to the ground. He was knocked senseless and was badly bruised, but had no bones broken. He was picked up by Horatio Brown shortly afterwards and taken to his home.

The vertical style of penmanship which was introduced into many schools throughout the state some time ago, has come under the ban of the school authorities of New York City, who have directed that its use be at once discontinued and that it shall not be taught hereafter. The reason given for the change is that business houses are reluctant to engage a clerk using that style of writing.

## ROTHSCHILD BROS.

Two Red Letter Days  
Next Friday July 27  
Next Saturday July 28

These days mean  
Bigger bargains and  
Greater inducements  
In every department.  
People from far and near  
Attend these sales.

ROTHSCHILD BROS.  
ITHACA.

It has always been the policy of the post office department to keep actual money out of the unregistered mails by every device of ingenuity could invent. To that end the registry system and the money order system, both elaborate devices for making remittances, have been set in operation. The purpose of all this precaution is a public one. Its aim is to protect the mails from disturbance by making it profitless for any thief to steal a letter or a mail bag. For without doubt when a mail bag is stolen vastly greater harm is done than that represented by the loss of all money letters it contains. Yet just now retail merchants, publishers and others are sending out in great numbers certain cardboard "coin receptacles" and inviting their customers to return them with half-dollars quarters, etc., embedded in their folds. If success attends their efforts, every mail pouch will become a tempting object of plunder, every letter carrier will have a new temptation to resist, and all that the department has done to rid the mails of actual money will be undone.

A great many of the census enumerators have given up their jobs in more or less disgust. When the announcement was made that the population canvassers would be appointed on a certain date, reports the Philadelphia Record, there were several thousand more applications at the office next day than there were places for. Politics was considered very little in the selection of the men, and everything looked promising. When the final work of preparation was begun it resembled clear sailing until the canvassers found out something about the task that confronted them. One of them in resigning to Chief Agent Beaton said: "What do you think I am? I have to ask 22 questions for 2½ cents. That's a good job, nit! You can have it."

A current monthly puts the blame of men's faults on women. It says: "Women make society; they are accountable largely for the faults of the male portion of it, at least for the growth and extent of fault; if men fall short it is because women have not demanded higher standards. And if the woman who works is not treated with the same courtesy as she whose delicately gloved hand holds her own bank book, it is the fault of that same dainty hand which is not held out in kind comradeship to one that wields pencil or scissors. Men get their cue from woman's treatment of women. But men are rarely unkind; theirs is rather the absence of kindness; and of the two the latter were preferable."

The Fairfield Journal quotes with approval the advice of Mrs. Martha Gerald in regard to her new pastor. She said: "We are going to have a new minister here. Some of you may not like him; you did not all like the one we have had. I may not like him as well, but if I do not, I am going to keep still about it. I am not going to talk about him, but I am going to pray for him and with him and pray for myself." Wouldn't this be good advice for other church members to paste in their hats?

A striking example of the extent to which the injunction may be carried is illustrated in the application of an Ogden, Ia., farmer, who is attempting to enjoin a neighbor from keeping bees. The grounds for the injunction are based on the fact that the bees while sipping honey from the plaintiff's flowers insert their business end in unwelcome places. The injunction has been granted.

One of the most novel attractions ever gotten up in Texas is to be given soon at Caddo Mills. It will be an old maids' convention, at which no spinster under 30 years of age will be permitted to take part. There will be a programme, says a local exchange, which for its originality will be as notable as the old maids themselves.

Henry C. Bliss, of West Springfield, Mass., shows public spirit of a novel but intelligent character. Within the last 20 years he has planted over 1,000 trees. The work has been done systematically, and the effect has been greatly to beautify the streets and public places of that town.

There is a large cat "farm" in Lincoln county, Ore., and the residents in the vicinity have obtained the consent of the post office department to the christening of their post office by the name of Angora. The first postmaster of Angora, singularly enough, is Thomas Tom.

Corn Doom cures corns in three days. It relieves the pain and protects the corn while being applied.

## ENGLISH REVERSES.

### Three Days' Severe Fighting With Heavy Loss.

#### PRETORIA IS AGAIN CUT OFF.

#### Boers Capture a Supply Train and One Hundred Highlanders—General Broadwood Thinks He Is on President Steyn's Trail.

LONDON, July 24.—The Daily Express has the following from Bloemfontein, dated Monday, July 23:

"There has been severe fighting during the last three days, and the Boers have inflicted heavy losses upon the British at Dordrecht. Six hundred women and children from Pretoria, including Misses Kruger, Botma and Meyer, have arrived at Barberton."

General Broadwood reports to the war office from Honingspruit that he followed a Boer commando on July 16.

There was a sharp engagement at Palmfontein on July 19. The British had five casualties, and eight dead Boers were found.

Broadwood asks that General Knox send him supplies for 300 men and horses to pursue the enemy. He believes that President Steyn and General De Wet are with this commando.

The railway and telegraph lines to Honingspruit have been cut.

General Kelly-Kenny reports from Bloemfontein that a supply train with 100 highlanders has been captured by a large force of Boers who are moving on Honingspruit. He also states that communication with Pretoria has been cut.

The war office has received the following dispatch from Lord Roberts, dated Pretoria, July 22:

"Methuen continued his march after the occupation of Heckpoort and engaged the rear guard of the enemy near Zandsfontein on July 20. Our losses were one killed and one wounded. On July 21 he again attacked and completely dispersed the enemy's forces at Oliphant's nek, inflicting heavy loss. Our casualties were slight."

"Kustenburg has been relieved, and Methuen and Baden-Powell have joined hands. Hamilton secured on July 21 a strong position at Stitzray. We had three killed and many wounded."

The London morning papers feel compelled to recognize General De Wet's clever strategy in baffling all efforts to catch him, while constantly harassing the British lines of communication.

Only the scantiest details have been allowed to come through. Apparently when nightfall stopped the engagement with Colonel Broadwood General De Wet's forces divided into small parties, one of which cut the railway and captured the highlanders, the Boers afterward reuniting at Rhenoster river.

The latest advices from Pretoria announce that General Stevenson's brigade has occupied Elands river and that General Hamilton has occupied Doorn kraal.

#### Roosevelt at Jewish Chautauqua.

ATLANTIC CITY, July 24.—Governor Roosevelt yesterday afternoon delivered a lecture on "Americanism" for the benefit of the Jewish Chautauqua, which is holding its usual summer session. An audience of about 2,500 people greeted Colonel Roosevelt and exhibited much enthusiasm. The gathering was in the large auditorium on the Steel pier, and the lecturer, who spoke for about an hour, had some difficulty in making himself heard. When the colonel had concluded, an enthusiastic youth called for "three cheers for Teddy Roosevelt," and they were given with a will.

#### Freighthouse and Cars Burned.

BUFFALO, July 24.—The Lehigh Valley freighthouse at East Buffalo, together with 50 cars loaded with merchandise, was destroyed yesterday during a fire which was difficult to combat and which at one time spread out for a quarter of a mile. It originated from an explosion, the nature of which is not definitely known. The loss is estimated at \$150,000. A number of yard and train employees were badly burned while making brave efforts to couple on cars and draw them from the burning structure. None of the injuries is of a fatal nature.

#### A Treasure Ship.

VICTORIA, B. C., July 24.—The richest Klondike treasure ship of the season, the steamship Amur, has just arrived here with 90 passengers, who, among them, had gold dust valued at \$1,000,000 and drafts for another \$1,000,000. Most were claim owners. A few of them have sold out, but the majority are just out after a holiday. They estimate the output of the Klondike at \$25,000,000, the recently discovered claims turning out as rich, if not richer, than the oldest ones of El Dorado and Bonanza.

#### Scotch Steamer on the St. Lawrence.

OGDENSBURG, N. Y., July 24.—The steamer Seafield, from Glasgow, passed up the St. Lawrence river yesterday, drawing 12 feet of water fore and aft. She is built of steel, regular ocean steamship style, and is loaded with Scotch iron for the upper lakes. This is the fifth steel steamer of this type passing up to the lakes within a few weeks. She will return to Scotland next fall.

#### The Monsoon Favorable.

LONDON, July 24.—The viceroy of India, Baron Curzon of Kedleston, telegraphs to Lord George Hamilton, secretary of state for India, that the monsoon continues favorable this week except in Gujerat, Kathiawar, Baroda and Rajputana West, where cultivation is at a standstill and rain is greatly needed for fodder. The number on the famine relief list now reaches 6,281,000.

#### Cut by Mowing Machine.

POUGHKEEPSIE, N. Y., July 20.—Henry Sisson, a farmer of Cokertown, Dutchess county, 73 years old, was thrown from his mowing machine and caught in the knives. His right leg was cut off, and he was lacerated so badly

#### An Alabama Lynching.

HUNTSVILLE, Ala., July 24.—Elijah Clark, the negro who Sunday assaulted Susan Priest, a 13-year-old girl, was taken from the jail in this city last evening and lynched near the spot where his crime was committed. His body was riddled with bullets. Sheriff Fulgham defended his prisoner to the last, but a dense smoke from a combination of tar, feathers and oil fired by the crazed mob was too much for him, and he was dragged from the jail and placed under a physician's care. William Vining, an employee of the street railway company, who attempted to rush through the crowd and up the jail steps, was shot and dangerously wounded.

#### Noiseless as Well as Smokeless.

HAZLETON, Pa., July 21.—A noiseless and smokeless gunpowder has been invented by John Bohneengel, a German, of this city. He is employed as molder in the Hazleton Iron works, but is of an inventive turn of mind and has some knowledge of chemicals and explosives. At a private exhibition given a few days ago the practicability of his discovery was made apparent. A shell loaded with his powder was fired at a target 50 yards away. The only sound indicating the explosion was the falling of the plunger on the shell. The bullet struck the target, an inch board, and went clear through it.

#### Big Purchase of Timber Lands.

WATERTOWN, N. Y., July 20.—The largest and most important purchase of Adirondack lands made this year has been closed by C. H. Turner of Malone. It comprises a whole township in Franklin county and consists of 23,000 acres, with the mill on it. It cost \$250,000. The mill is turning out 15,000,000 feet of lumber yearly. There is 145,000,000 feet on the tract uncut. Mr. Turner now holds 55,000 acres of Adirondack lands.

#### Colombian Insurgents Defeated.

CARACAS, Venezuela, July 24.—In consequence of the last defeats sustained by the rebels the Colombian revolution is now considered lost. The government forces have again occupied Bucaramanga and Cuentra after a bloody battle in which many prisoners were captured.

#### Inheritance Transfer Taxes.

ALBANY, July 21.—State Treasurer Jaecel has received from Comptroller Bird S. Coler of New York city a check for \$352,000 transfer inheritance taxes collected for the state in the boroughs of Manhattan and the Bronx during the quarter ended June 30 last.

#### Snow in Michigan.

MARSHALL, Mich., July 21.—Snow fell here yesterday for a few minutes during a hard windstorm. The wind did much damage.

**POSSIBLE MEDIATION**

President McKinley Answers  
China's Appeal.

WILL ACCEPT UNDER CONDITIONS.

United States Still Proceeding on  
the Supposition That Recent Re-  
ports of the Safety of Lega-  
tions Are Accurate.

WASHINGTON, July 24.—The presi-  
dent has listened to the appeal of the  
Chinese government as transmitted by  
Minister Wu and has signified his will-  
ingness to mediate between the imperial  
government and the powers, but only upon  
conditions which first must be met by  
the Chinese government.

The exact nature of the terms propo-  
sed by the state department cannot be  
stated now. It is expected that publi-  
cation will be made today of the text  
of the Chinese appeal and of the presi-  
dent's answer. It is known, however,  
that the answer is entirely consistent  
with the statement of principles laid  
down by Secretary Hay in his note  
to the powers, and moreover it ac-  
cepts as truthful the Chinese statements  
relative to the safety of the foreign  
ministers at Peking.

It would not of course be possible to  
take even the initial steps toward medi-  
ation were either party to the negoti-  
ations to entertain openly distrust of the  
accuracy of the statements of the other.  
There must be confidence between them.  
The United States' answer does not go  
to the length of the French answer to a  
similar appeal in laying down conditions  
which the Chinese government could not  
meet, even if so disposed, if it actually  
is struggling for its own existence. It  
does, however, look to the immediate relief  
of the foreign ministers in Peking  
and moreover to the protection of all  
foreigners, missionaries and traders in  
China and to the restoration of order.

With that much accomplished the state  
department feels that it can properly ap-  
proach the powers with the Chinese  
propositions for a settlement for what  
has occurred. The Chinese appeal came  
to Secretary Hay Sunday through Mr.  
Wu. The secretary promptly telegraphed  
it to the president at Canton, and after  
taking a full day for its consideration  
the president's answer came yesterday  
afternoon to the state department. It  
was put in the proper diplomatic form  
and a copy delivered to Minister Wu,  
who was to forward it to his own gov-  
ernment. Appeal and answer will be  
made public here today.

The imperial edict made public at the  
state department shows that the im-  
perial government already has taken the  
first steps toward doing what the United  
States requires as the principal condi-  
tion for the exercise of its good offices  
in enjoining the viceroys, magistrates  
and leading men to stop the disorders  
and protect foreigners. Our government  
will await the result of this before pro-  
ceeding further.

It is expected that adverse criticism  
upon the action of the state department  
in this matter will be heard from Europe,  
where the governments are acting upon  
the belief that all of the foreign ministers  
in Peking have perished, but our govern-  
ment nevertheless regards its course as  
the correct one. All of the European  
governments have taken the stand above  
indicated. The last of the answers to  
Secretary Hay's note reciting the Conger  
message have come, and all of them in  
terms polite and diplomatic express ut-  
ter incredulity in the authenticity of the  
Conger message. Consul General  
Goodnow himself, a man of good judg-  
ment, also cabled a warning to Secretary  
Hay against the acceptance of the mes-  
sage without confirmation. But the state  
department has fully considered the mes-  
sage in all of its aspects, has carefully  
weighed the numerous objections and  
suspicions put forth here and in Europe  
and, without guaranteeing the authentic-  
ity of the message, feels it to be a matter  
of prime duty to act upon the theory that  
it is genuine.

**CONFLICTING REPORTS.**

Legations Said to Be Both Safe and  
Killed.

LONDON, July 24.—The Chinese min-  
ister, Sir Chih Chen Lo Feng Lub, has  
communicated to the press the following  
dispatch from Sheng, director general  
of Chinese railways and telegraphs and  
taotai of Shanghai, dated Shanghai, July  
23:

"Information from Peking, dated July  
18, says that the taung-li-yamen deputed  
Wou Jui, an undersecretary of the de-  
partment, to see the foreign ministers,  
and he found every one well, without any  
missing, the German minister excepted.

"General Yung Lu is going to mem-  
orialize the throne to send them all under  
escort to Tien-tsin in the hope that the  
military operations will then be stopped."  
Sir Halliday Macartney, counselor and  
English secretary to the Chinese legation  
in London, asserted last evening that the  
Peking legations were safe and about to  
proceed to Tien-tsin.

The Shanghai correspondent of The  
Daily Mail, telegraphing July 22, says:  
"A letter from a Chinese official in  
Shanghai has been received by a na-  
tive functionary here containing the fol-  
lowing passage:

"At the beginning of the month the  
foreign missionaries (?) made several at-  
tempts to send messages out of Peking,  
but, thanks to the strict watch kept on  
the city, the bearers were all caught and  
executed. On the 4th inst. only 400  
foreigners, much exhausted, were left  
alive in Peking, and one night, when the  
big guns were incessantly fired, it was  
known that all the legations and the  
foreigners were finished, although pre-  
tended telegrams contradict these  
facts."

There is nothing further this morning  
that throws any light upon the mysteri-  
ous situation. Two urgent dispatches  
were addressed yesterday by the Chinese  
minister to the Peking government and  
to the director of telegraph administra-

restoring telegraphic communication with  
a view of enabling the powers to obtain  
proof of the safety of the foreign minis-  
ters. Until such proofs are secured no  
one here is inclined to alter the opinion  
that the Chinese are merely juggling to  
gain time.

**Germany Still Doubts.**

BERLIN, July 24.—The German gov-  
ernment and press continue to disbelieve  
the assurances of the Chinese authorities  
that the Peking legations are safe. The  
foreign office surmises that the Conger  
dispatch was either sent about simulta-  
neously with the dispatches of Dr. von  
Bergen, secretary of the German lega-  
tion, and Sir Robert Hart, but suppress-  
ed, or was captured by the messenger  
to whom it was entrusted and is now  
produced to create the desired effect in  
Washington, or, on the other hand, that  
the whole dispatch was concocted for  
purposes of deception with the aid of a  
cipher key somehow obtained.

United States Ambassador White said  
that the latter theory was quite plausi-  
ble, for if the American legation had  
been captured and the records there seiz-  
ed the cipher key would likewise be  
secured, and then it would be an easy mat-  
ter for anybody to do the rest.

At all events the German foreign office  
will continue to regard the report that  
the legations still exist as a myth until  
the communication, now out of nearly a  
month, shall have been re-established in  
the most indubitable fashion.

**WORD FROM CONGER.**

Alleged Genuine Message From Our  
Minister in Peking.

WASHINGTON, July 21.—Like a  
flash of sunlight out of the dark sky came  
the intelligence yesterday that United  
States Minister Conger had sent a cipher  
cable dispatch from Peking to the state  
department at Washington making  
known that two days ago he was alive  
and that the foreigners were fighting for  
their safety. The minister, Mr. Wu  
Tung Fang, received the message. With-  
in an hour the welcome intelligence that  
Conger had been heard from after weeks  
of silence and evil report was flashed  
throughout the country and indeed  
throughout the world, dispelling the  
gloom which had prevailed everywhere  
and bringing to officials and to the pub-  
lic generally a sense of profound relief.

The dispatch was in reply to Secretary  
Hay's cable inquiry to Minister Conger  
on July 11, and as both messages were  
in the American cipher code they were  
regarded by the officials as above the sus-  
picion of having been tampered with in  
the course of transmission through Chi-  
nese channels. Mr. Wu promptly com-  
municated the dispatch to the state de-  
partment, where the translation was  
made from the cipher figures, and soon  
all Washington was astir with the in-  
telligence.

The message was signed "Conger" and  
read as follows:

"In British legation under continued  
shot and shell from Chinese troops. Quick  
relief only can prevent general massa-  
cre."

The government accepted the message  
as authentic, and Secretary Hay trans-  
mitted it to all our ambassadors and min-  
isters abroad with instructions to lay it  
before the respective governments to  
which they are accredited and to urge  
upon them the necessity of co-operation  
for the immediate relief of the foreign-  
ers at Peking.

**Chaffee a Major General.**

WASHINGTON, July 20.—The presi-  
dent has appointed Brigadier General A.  
K. Chaffee, U. S. V., who is to command  
the American military forces in China, a  
major general of volunteers in order that  
his rank should be commensurate with  
his command. This action was received  
with great satisfaction at the war de-  
partment and in official circles generally,  
where General Chaffee is held in the  
highest esteem.

**All Ministers Safe.**

PARIS, July 24.—M. Deleclasse, min-  
ister of foreign affairs, has received a tele-  
gram from the French consul at Chifu,  
dated July 21, saying: "The governor in-  
forms me that, according to reliable  
news from Peking, all the foreign minis-  
ters are safe, and the government is tak-  
ing all necessary steps to deliver and  
protect them."

Miss Belle Hunt of this village chanced to be near and gave the alarm to some men who were working near, and the body of Miss Travis was recovered, but all attempts at resuscitation proved futile.

Benham, only recently acquitted of the charge of murdering his wife, has signed a contract for his appearance at the Buffalo vaudeville theatre during the week beginning August 6, and says that hereafter he will make his living on the stage. —Miss Jessie Parks, a bright young school teacher, died at her home in Locke recently after a short illness. She had recently taught the Pine Hollow school, and was 19 years old.

—Elsewhere appears the card of Dr. Frank E. Howe, the popular Ithaca dentist, who has returned from New York and is prepared to attend to work in his line with care and satisfaction.

—George Maloney, who spent his youthful days in this vicinity, but for some fifty years a successful business man in Wisconsin, is renewing acquaintances in Genoa and Lansingville. It is his second visit east in 22 years.

—Mr. and Mrs. Frank Woodruff and children of Sayre, and Mrs. Mott Higgins and children of Trumansburg have been visiting their father, C. M. Parr at Goodyears. They enjoyed a pleasant family picnic at Union Springs on Saturday last.

—Dairymen are cautioned about placing bright milk cans in proximity to buildings where the sun hits them, says the Brookfield Courier. One day last week a fire caused by the focused rays from a milk can was discovered and extinguished in time to prevent serious damage, at a farm west of that village.

—The aggregation of ball tossers known (or unknown) as the Columbia Club of Auburn, failed to appear last Saturday as advertised, and many people who came to see the game were disappointed. A "scrub" game was indulged in that the boys might have their weekly practice.

—Apple buyers are around. They come from big dealers every summer about this time, go through the country bargaining for entire crops of the farmers. The same agents generally come back to this county and remain

will not be large this year, many of the young apples having already dropped from the trees because of the drouth.

—Deloss Adams and family are occupying their cottage on Owasco lake for two weeks.

—Moravia defeated the Cuban Giants on Friday 4 to 2 and on Saturday 4 to 1. Both were excellent games. Monday they played the Syracuse league team at Auburn and beat them 3 to 0. Robertson pitched for Moravia and allowed Syracuse but four hits. McElroy made a three base hit. Tuesday the Moravia boys journeyed to Weedsport and were defeated 4 to 1. When are they coming to Genoa?

50 and 75c shirt waists for 38c at Webster's, Moravia, N. Y.

—The Presbyterian pulpit was supplied last Sunday by Rev. L. A. Tchorigian, who has preached here on several occasions. He is a native of Constantinople and came to this country to be educated, graduating from Auburn seminary last spring. It is hoped that he will be here again next Sunday. All the services on Sunday at regular time. Prayer-meeting Thursday evening.

—One of the heaviest expense items on a farm is that of implements. With proper care farm machinery will last for many years. If left to the tender mercy of sun and storm they are short lived, and the shiftless farmer is always whining of hard luck. Along the roads in any direction can be seen all sorts of farm implements exposed to the elements, including self binders, road machines, vehicles and all kinds of tools. And these same farmers, with few exceptions, are howling hard times and crying for free silver.

\$1.00 shirts for 49c at Webster's, Moravia, N. Y.

—On a trip through King Ferry, Goodyears, Lake Ridge, Lansingville, and Five Corners this week, we were surprised to see the condition of the crops along the road. Hay is a very light crop. R. M. Hilliard east of Lake Ridge being the only farmer we saw who was satisfied with his hay crop; he had 60 loads. Wheat is thin and short; oats, with few exceptions, is a poor crop; buckwheat will be good if rain comes, but corn will evidently be light in most fields. Many farmers are sowing millet. The lake side seems to have suffered more from the drouth than this valley; the meadows are brown as in October and several farmers are digging wells. However, the situation is not altogether discouraging. Copious rains, if they come soon, will work wonders in reviving stunted vegetation. We called at the store of C. F. Whitcomb at Lake Ridge, and were surprised to see the extensive stock of general merchandise. His store is far ahead of many in larger villages, and everything is sold as it is represented.

Two Hundred Filipinos and  
Twelve Americans Slain.

SIGNAL CORPS TWICE AMBUSHED.

**Amnesty Resolutions Sent to Aguinaldo by His Mother—Filipinos Will Celebrate the President's Order With a Banquet.**

MANILA, July 23.—It is officially announced that last week 200 insurgents were killed and 130 surrendered or were captured. One hundred rifles were taken. Twelve Americans were killed and 11 wounded. This includes the casualties of Colonel William E. Birkhimer's engagement with a force of the Twenty-eighth volunteer infantry, who attacked 200 insurgents entrenched two miles east of Taal, killing 88.

A detachment of the signal corps while repairing wires was twice ambushed. Captain Charles D. Roberts of the Thirty-fifth volunteer infantry, who was captured by the Filipinos last May, has arrived here on parole. He will not return to captivity.

Senor Buencamino last Thursday sent to Aguinaldo by means of Aguinaldo's mother the amnesty resolutions adopted by the meeting of representative Filipinos here on June 21, together with General MacArthur's answer to them and other documents bearing upon the restoration of peace. It is understood that Aguinaldo will summon his advisers and that a reply may be expected within a month.

Filipinos here will give a banquet next Saturday in celebration of President McKinley's order of amnesty.

**Island Transferred to Naval Control.**

WASHINGTON, July 24.—The island of Basilan, department of Mindanao and Jolo, has been transferred from the control of the military to control of the naval commander on the Asiatic station, and all the United States troop stations on that island have been transferred to other garrisons. The establishment of civil government on the island will be conducted by the naval authorities.

**THE KUMASSI RELIEF.**

**Colonel Willcocks Returns With the Garrison in a Pitiful Condition.**

FUMSU, July 24.—The Kumassi relief column has just arrived here from Kumassi, which it left July 17, bringing the old garrison, about 20 fairly fit men, 70 broken down invalids and some women and children in a pitiful condition.

The success of Colonel Willcocks was due to his choice of a route not suspected by the Ashantis, who had concentrated in thousands along the eastern route, but in much smaller numbers along the western route via Pecci, which Colonel Willcocks adopted.

Even as it was the Ashantis were active and the roads knee deep in mud. Colonel Willcocks took a couple of villages by bayonet charge. Beyond Ek-wanda he found the tribesmen in a strong position behind stockades. It was a large war camp with the chief commander of the Ashanti army, estimated at 4,000 men.

After a heavy fire on both sides for nearly an hour Colonel Willcocks ordered a bayonet charge, and the troops rushed the thick bush, cheering vigorously. The Ashantis did not wait for the bayonet, but fled in confusion.

The casualties of Colonel Willcocks were two officers wounded, two natives killed and 17 wounded.

On finding Kumassi in such a terrible condition Colonel Willcocks, after cutting bush and burning the bodies, placed the whole force upon half rations, an arrangement cheerfully borne. No opposition was met on the return journey.

**Horrible Sight in Kumassi.**

LONDON, July 24.—Advice just received here say that Colonel Willcocks the commander of the relief column in Ashanti, describes his entrance into Kumassi July 15 as presenting a scene of horror and desolation, burned houses and putrid bodies being visible on all sides. He adds that the native soldiers were too weak to stand and that the British officers thanked God for the relief, as a few more days, they declared, would have seen the end. Colonel Willcocks left the garrison well supplied with food and ammunition.

**Typewriter Telegraphy.**

CHICAGO, July 23.—Telegraphy by the use of typewriters in place of the ordinary clicking keys and receivers familiar in telegraph offices has been made possible by two Chicago men, Zalmon G. Scholes and Alfred C. Gilmore. They have devised a mechanism by which a message written with ordinary spelling on a machine that has a keyboard exactly like the keyboard of the ordinary typewriter will be printed if transmitted over a telegraph wire by another typewriter in the office to which it is sent hundreds of miles away. The instruments have been tested over a circuit of 205 miles of wire belonging to the Central Union Telephone company, connecting Bloomington, Springfield and Peoria.

**Fifty Missionaries Safe.**

NASHVILLE, July 20.—A cablegram has been received from Shanghai by the mission board of the Southern Presbyterian church announcing the safety of 50 of its 56 missionaries. They are at Shanghai and in Japan. The six still at their stations are Rev. J. L. Stuart and wife, who have been in China for 30 years; who have been in China for 26 years; who have been in China for 26 years; who have been in China for 26 years.

**Year's Trade Over Two Billions.**

WASHINGTON, July 21.—The total foreign commerce of the United States during the fiscal year 1900 exceeds by 18 2-3 per cent that of any preceding year, being \$320,000,000 greater than that of 1899, the heaviest one on record preceding the one which has just ended. The total commerce of the year, as shown

## NEW GOLD DISCOVERIES.

**Fresh Diggings That Promise Well in the Klondike.**

VICTORIA, B. C., July 23.—The steamer Bristol has arrived from St. Michael's after a passage of 99 1/2 days. The passengers report new discoveries in Tanana. Urek creek diggings are giving from 25 to 40 cents to the pan. A stampede to the diggings is expected.

On June 15 a cave in of the bank of the Yukon buried a boat crew which is believed to number from three to five. Three bodies were recovered, but none has been identified.

On June 20 a boat containing five passengers drifted out to sea from the mouth of the Yukon, and all are believed to have been lost.

Four bodies of miners drowned from the capsizing of boats have been picked up on the Yukon flats.

A son of C. D. Lane is reported to have been shot at Nome in a claim jumping quarrel.

Passengers report over 100, if not more, cases of smallpox at Nome. The steamers Discoverer, Utopia and Morning Star are quarantined at St. Michael's.

Captain McIntyre heard a report at St. Michael's that the steamer Charles Nelson had been driven ashore on the Siberian coast by ice and is believed to be a wreck.

**A YELLOW FEVER OUTBREAK**

**A Number of Cases in the Barracks of American Troops in Cuba.**

HAVANA, July 24.—Yellow fever has broken out in the barracks of the Seventh United States cavalry and the First United States infantry in Pinar del Rio. There have been nine deaths during the present month, and 11 cases are now under treatment in the hospitals. General Lee has ordered the camp moved three miles into the country, and quarantine will be strictly enforced.

The chief surgeon has received orders to institute a thorough investigation into the cause of the outbreak, and special preparation is being made for a thorough disinfection before the First infantry embarks for the United States.

The revolutionary element will probably protest against any provision in the proposed constitution giving a veto power to the United States government with regard to the making of commercial treaties and the contracting of debts. El Cubano, the organ of the National party, says:

"There are some advantages in the way of treaties that are due to the United States in return for the American interest in Cuban welfare, but these should be attained through mutual agreement rather than by the dictatorial policy of Washington."

**Unprecedented Peach Crop.**

MIDDLETOWN, N. Y., July 21.—Investigations regarding the condition of the peach crop show that the yield will be unprecedented, and the growers claim the prices they are likely to receive will not pay for gathering the fruit.

**Eleven Negroes Drowned.**

TUSCALOOSA, Ala., July 24.—Eleven negro men were drowned in the Warrior river near Akron, Ala., by the capsizing of a skiff. The accident occurred at government lock No. 5, now under construction.

**The Best Remedy**

for Stomach and Bowel troubles. "I have been in the drug business for 20 years and have sold all the proprietary medicines of any note. Among the entire list I have never found any thing to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," says O. W. Wakefield of Columbus, Ga. "The remedy cured two severe cases of cholera morbus in my family, and I have sold hundreds of bottles of it to my customers, to their entire satisfaction. It affords a quick and sure cure in a pleasant form." Sold by Banker.

### Racing at its Best.

The seventh annual mid-summer meeting under the auspices of the Auburn Driving Club will be held at the Auburn Driving Park, July 31, Aug. 1, 2 and 3. There will be 14 races on the 4 days' card, for which purses aggregating \$4,200 will be given, and no pains will be spared to make the meeting one of the most notable ever given in Central New York. In fact the club has assurances that the field of horses will be larger, faster and better in every way than ever before. The past spring was backward and it was a difficult matter to secure enough horses to give a nice meeting. Many cities much larger than Auburn and much more advantageously situated declared meetings off because of inability to fill the several classes, but Auburn filled and held a most successful meeting. With such a record the success of the coming meeting seems assured. The track is in superb condition and it is confidently expected that its record will be smashed during the meeting. An inducement will probably be offered to owners to drive their speedy ones with this object in view. The meet will be officered with men of high standing in the horse world, there will be band concerts and other special attractions every day and nothing will be left undone to satisfy the patrons of the racing game in Central New York. The events for the four days are as follows:

\$125,000 personal property was sworn off at the assessors' hearing in Auburn. We suppose, to increase the aggregate receipts from taxes to what it should be, this much more will be added to the real estate. Such things are what stir up anarchy.

For the purpose of holding an annual fair a stock company has been formed in Summerhill under the title of the Summerhill Agricultural society. Officers of the society have been elected as follows: President, A. C. Ranney; vice-president, A. V. Lick; secretary, Edwin Tarbell; treasurer, Judson Van Marter. The dates of the fair this year are September 25, 26 and 27, and the management purpose to have an exhibition which will do credit to organizations of many more years' experience.

Cornell museum has had another addition to it which will never cease to draw interest. A colt was foaled on the farm of Chet Weed of West Danby one day last week and seemed to be perfect in every particular save the front legs. From about half way between the hind legs and where the front ones should be, the animal gradually tapered until it bore much of the slender appearance of the kangaroo. It was utterly helpless and had to be raised to take food from the mother. It only lived a few days but was the cause of much curiosity and speculation from great crowds of visitors.—Spencer Needle.

"Rambler" in the Skaneateles Free Press says: Work is progressing favorably on the Inter-Urban trolley line between Auburn and this village. Track has been laid this side of Remington street. Double overhead wires have been laid nearly the same distance from Auburn. The roadbed is being ballasted in substantial shape. Engineer Mather, who has charge of the construction of the road, was in town this morning. He says the road hopes to be in operation by Oct. 1; that the ultimate schedule time between this village and Auburn will be half an hour, and that the fare will probably be 15 cents one way, or 25 cents for round trip.
