**Jason G. Atwater.**

Jason G. Atwater, a lifelong and prominent resident of the town of Genoa, died at his home in the village of King Ferry on Sunday morning, March 7, at 4 o'clock, after a short illness.

The deceased was born in the town of Genoa Sept. 26, 1834. He taught school when a young man, and later entered business at Tilton's Landing, now known as King Ferry station, which at that time was the shipping and receiving point for all freight and produce by water, this territory extending east of Moravia. Mr. Atwater always took an active interest in affairs of his town. In politics he was a Republican and served the town several terms as supervisor. He retired from business in 1909.

He was married to Mary Elizabeth Tilton on March 11, 1862. To them were born nine children, four passing away in infancy or early youth. Surviving are his wife, Mary E., one daughter, Mrs. W. L. Franklin, four sons, Fred T., J. Dwight, A. Roy, and Dayton B. Atwater, all of King Ferry; there are also twelve grandchildren and three great-grandchildren. He also leaves one sister, Miss Emily H. Atwater of King Ferry.

Funeral services were held at the family residence on Wednesday, March 10, at 2 p. m. Rev. L. W. Scott of Auburn, formerly of Genoa, conducted the services. Burial in King Ferry cemetery.

**Death of Mrs. Cobb.**

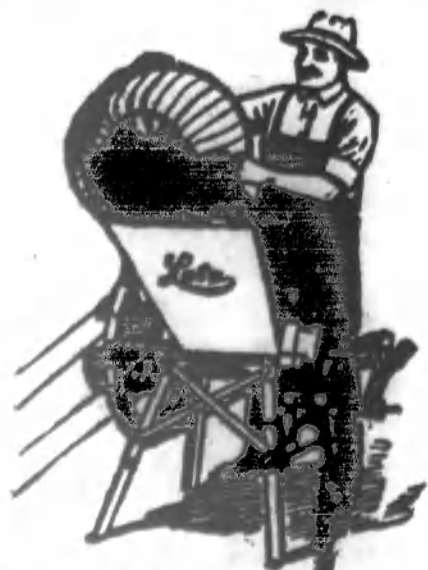

Augusta E. King, wife of E. L. Cobb, died at the home of her son-in-law, Walter L. Corey, in the town of Venice, on Sunday last after a short illness of pneumonia. She was 65 years of age, and besides her husband, she leaves her son-in-law and four grandchildren; a sister, Mrs. Ella Peckham, and a brother, Arthur A. King, both of King Ferry.

Private funeral services, on account of illness in the family, were held at the late home of the deceased on Wednesday. Burial at King Ferry.

A party of Americans, including Frank A. Vanderlip, Darwin P. Kingsley, president of the New York Life Insurance company, and Jacob Gould Schurman, retiring president of Cornell university, will sail from Seattle on April 10 for Japan on an unofficial mission in behalf of better relations between the two countries. The men expect to return on May 30, according to the New York Tribune.

**Fine Grinding Sure!**

**LETZ FEED MILL**

excels all other mills in fine grinding. Why? Because of the wonderful Letz Feed Plates. You should come in and take a look at that plate. You never saw anything like it to get results. The Letz will grind wild oats, wheat screenings, millet seed, grass seed, rye, barley, corn on the cob with or without husks, Kafir corn in the head, Milo maize, alfalfa hay—fine as dust—practically as fine as flour without injuring the plates. One customer says he can grind shelled corn and oats into flour, for hog feed, in one grinding. With other mills he would have to grind it twice.

**Letz Self-Aligning Plates** are quickly changeable, self-running and sharpen themselves when run together empty. One set of buhrs grinds 1000 to 2000 bushels of grain—outlasts three to five sets of ordinary plates.

We sell the Letz because when one is sold it gives satisfaction and sells another.

The realest cow-punch of them all—with a happy grin even when they stole his cattle—even when they kidnapped his girl—even when they drank up his "licker"—because he knew how to get it all back. And he did! Watch happy Harry Carey ride through and over his enemies like a laughing whirlwind. It's punch stuff.

The cattle rustlers stole his cattle for profit; his girl for pure devilry.

She loves me—she loves me not," counted Cheyenne Harry on the bullets in his gun belt. At last it came out right.

C., of the department of agriculture, and Prof. Rea of Cornell.

**Supt. Springer to Resign.**

G. B. Springer, superintendent of schools of the fourth district of Cayuga county, has accepted the principalship of the Interlaken High school for next year. He will resign his present position to take effect Aug. 1, and the school directors of the three townships in the district will appoint his successor.

Mr. Springer was the first superintendent appointed for this district beginning his duties Jan. 1, 1912. In 1916 he was re-appointed for a term of five years, there being a year and a half yet to be completed. He has been an efficient superintendent, taking a great interest in his work. His district includes the schools in Genoa, Venice and Scipio.

A peculiar circumstance in connection with Mr. Springer's resignation is that he resigned as principal of the Interlaken school to take up the work here in 1912, and now after eight years he is returning there. He had also been principal of Genoa school before going to Interlaken. The position having been offered to him without solicitation on his part, at a salary considerably larger than what he is now receiving, he felt that he could not refuse it.

The Interlaken Review of March 5 contains the following announcement: "We know it will be pleasing news to our village readers to know that the Board of Education have engaged Prof. Gordon B. Springer, of Genoa, at present one of the school superintendents of Cayuga county, to be principal of Interlaken High school, to succeed Prof. Greene, who moves to Wisconsin next August. Prof. Springer was at the head of our school a number of years ago and gave such satisfaction that all will be pleased to have him again with us."

**The Barge Canal.**

State Engineer Frank M. Williams is confident that the Barge canal will soon become one of the most important means of transportation in New York state, and he should know something about it inasmuch as he has had the major portion of the responsibility in its construction. While it may not be generally known, feats of engineering were required that equaled any that confronted those who had charge of building the Panama, which proves that things near home are never considered important.

**Next Week Beginning Monday 15th will be general Spring Fashion Display Week and also Automobile Week in Auburn**

This Metropolitan Store as usual on such occasions takes no second place and this spring the statement is made more emphatic than ever.

Whatever the weather condition outside it is spring inside and the door is wide open to your coming. A look at the windows will give you an idea of the character of the stock and in these days of high prices (with the likelihood of their being still higher) we reassure you that your interests are safe here and we think you will find that you will have less to pay than you expect.

You will be interested in the New SPRING TAN POLO COATS and the New SERGE and TRICOTINE SUITS chiefly in Navy Blue, neatly Button and Braid Trimmed--also in the attractive new DRESSES and WAISTS. Then you must see too the new Silks and Dress Goods and Wash Goods and Laces and Trimmings and Hosiery and Corsets and Undermuslins and Fancy Bags and other Dress Accessories.
