The Pennsylvania has just added three more roads to its system, the Delaware River, the Baltimore, Chesapeake and Atlantic, the Cleveland, Akron and Columbus.

There is a race to Manila, as to which of the battleships will reach there first, the New Orleans, Brooklyn, Marietta and Newark, the latter by way of Honolulu.

Reports from Dr. Frank Hoxie recently operated upon in New York for a goitre, are most favorable. His many friends will be pleased to know that he is convalescing rapidly.

The Lehigh Valley railroad company will soon begin to use 80,000 pound steel coal cars, and owners of trestles have been notified to strengthen such structures.

The lodges in the 30th Masonic district, embracing Tompkins and Cayuga counties, will hold their annual convention for the exemplification of the unwritten work, at Ithaca, Friday and Saturday, Nov. 17 and 18.

The heavy villain was plainly maddened. "Girral," he shrieked, "you must die." She did not feel a bit like dying, so she feigned death. "Ah," growled the wretch, "you cannot deceive me. You have not kicked the bucket; you have just turned a little pail."

The Lehigh Valley Railroad's order for steel rails for the coming year which was placed last week, at \$33 per ton, was given to the Carnegie Steel Company. Owing to the great advance in the price of steel rails, the usual yearly order has been somewhat curtailed in amount.

Mason Mitchell, the actor who gained considerable distinction as a member of Roosevelt's regiment of Rough Riders during the Spanish war, is considering an offer from a Canadian friend to accept a commission in a detachment of troops that is being raised for service in South Africa.

At the vendue last Thursday of the personal property of the late Smith Collins, in Lansing, a horse owned by him for twenty years, and that had never been broken, was sold for one dollar. A sister of the deceased made the bid for no other person would make any bid for the horse.

The Fair Haven Hotel has changed hands, Myron E. Barras retiring from the proprietorship and William H. Baggs assuming the duties of landlord. The former proprietor surrendered his liquor tax certificate to County Treasurer Loughborough and a new one was issued to Landlord Baggs.

H. M. Lovell, formerly of Ithaca, is to move his shirt factory from Syracuse to Elmira. The Gazette says: "A stock company is being formed, fifty shares of stock being issued. The entire custom work will be done in Elmira as soon as the plant is running. Mr. Lovell's son will remain in Syracuse as manager of the wholesale business."

Corporal Berry is still at the recruiting barracks on East State st., Ithaca. He says that all the volunteer regiments are full and that he has orders to recruit for the regular army only. The war department prefers recruits from small towns like those in Tompkins county rather than from the large cities. How long he will have a recruiting station in Ithaca he does not know, but if more recruits do not show up here he has an impression that the office may be closed. The value and character of

his later enlistments are pleasing to his superiors and he may be continued for a much longer period.

Frederick Cossum has received his commission as inspector of the G. A. R. for Cayuga county's twelve posts, the commission being given by Department Commander Joseph W. Kay.

The only crematory in Central New York is located at the cemetery at Waterville, Oneida county. It was built in 1890, and so far only 27 cremations have been made in it. So far this year five bodies have been incinerated there.

The Moravia Republican recently claimed to publish more county and vicinity news than any paper in the county. Last week's issue contained 120 inches of leaded matter as against 125 inches of solid matter in THE TRIBUNE, and that is the usual comparison.

Sunday morning the death of Mrs. Caroline V. Vandemark occurred at the residence of her daughter, Mrs. Charles DeReamer at the lake near Ludlowville. The funeral will be held Tuesday morning at ten o'clock. The interment will take place in the city cemetery.

The osteopath is to be succeeded by Dr. R. Bernard, who cures insanity by setting broken bones. He invariably finds a dislocated bone in the neck, the restoration of which cures the demented. He is to have the run of the Iowa State asylum to prove his treatment.

The state assessors find that while every county is commanded by law to assess at 100 per cent. no county is doing so. Only three counties in the entire state are found to assess as high as 90 per cent. and one is rated down to 55 per cent. The average it is stated is under 70 per cent.

Michael Burns, of Fleming, was committed to Willard State hospital Saturday after having been adjudged insane by a commission composed of Drs. Buckland and Smith. Burns has been troubled with cancer for some time past and recently he became violent, threatening bodily harm to his wife. He is 70 years of age.

A man named John Osbeck, living four miles west of Cortland, found one of his neighbor's bulls in his cellar one day not long ago. He had gone down the outside stairway and helped himself to a full meal of potatoes and other vegetables, slacking his thirst with the brine from a tub of pickles.

Jesse B. Wilson of Dryden, who was chairman of the grand jury that investigated the chlorine gas case that made such a stir in this city and state several years ago, said recently among his fellow supervisors: "I administered oaths all through that session on an old hymn book and did not discover the mistake in taking it for a bible till the close of the session. Other grand juries perhaps used it for a bible for years.—News."

A little child in Boston, starting on her way to school, stopped and turned to throw a kiss to her mother who stood smiling in the doorway of her home, watching the little one on its way. A heavy beam fell from the top of a block, striking the child upon the head and killing her instantly before the eyes of the mother. Not all the tragic agonies of life and death are wrought upon the battlefields.

Another change at the Union Springs Sanitarium. The property has been transferred back to Dr. Pierce, and he has reoccupied his former office in the building, and has assumed the management of the institution. Mr. and Mrs. Downey may remain all winter.

They are twenty-three consolidated twenty-wheelers from the Brooks works at Dankirk, fifteen of the same pattern from the Dixon works at Scranton, and seven ten-wheel passenger engines of the Mother-Hubbard pattern, the largest ever owned by the company, will be made by the Brooks Co. The cylinders of these will be 20 by 26 inches and the engines will have 370 two inch lines, a steam pressure of 210 pounds and brakes on all the wheels including those of the tender, and other features.

### UNPREPARED FOR WAR.

The Condition of Affairs in South Africa Discussed in London.

**Boers Prove Themselves Determined Fighters And Splendid Sharpshooters—Even the British Praise Their Bravery—Nearly Every Garrison Surrounded.**

London, Nov. 7.—The War Office has just issued the following:

"Buller to the Secretary of State for War: Cape Town, Nov. 5.—The Commandant at Durban sends the following, received from Ladysmith by pigeon post, dated Nov. 3:

"Yesterday General French went out with cavalry and field artillery, and effectively shelled the Boer laager, without loss on our side.

"Lieutenant Egerton of the Powerful is dead. General Joubert sent in Major C. S. Kincaid of the Royal Irish Fusiliers and nine wounded prisoners. Eight Boers were sent out in exchange no others being fit to travel.

"Colonel Brokheurst, with cavalry, field artillery, the Imperial Light Horse and the Natal Mounted Volunteers, was engaged with the enemy to the southwest of Ladysmith. The fighting lasted several hours. Our loss was very small.

"The bombardment of Ladysmith continued yesterday and to-day, many Boer shells being pitched into the town.

"Our troops are in good health and spirits, and the wounded are doing well."

#### Secretary of State Censured.

London, Nov. 7.—Almost the only subject of discussion at present in England is the disastrous reverse suffered by General White, the British commander at Ladysmith. Public opinion seems to be fairly divided, one section bitterly blaming the General and the other maintaining that he is probably not so much at fault as he made himself out. The latter section, which includes many service men and nearly all the service publications, urges the withholding of definite criticism for the present. The Naval and Military Record says:

"Considering the nature of the country, the lamentable unpreparedness of England and the unwillingness of the opposition to allow a British regiment to go to South Africa until President Kruger's ultimatum was received, it is almost surprising that we have been able to hold our own so far. Not only have the Boers proved themselves determined fighters and splendid sharpshooters as we knew them to be, but they have developed surprising military and strategic qualities. They have nearly surrounded every garrison we hold and have invariably occupied almost unassailable positions, fighting with great courage. Against such fighters our little force, left isolated far from our base and without hope of relief for days to come, has not only done splendid work, but has gained successes which we venture to believe no other soldiers in the world placed in similar positions and in similar unfavorable conditions could have achieved."

Since the first news of the Ladysmith disaster reached England a storm has been gathering over the head of the Secretary of State for War, the Marquis of Lansdowne. Some of the ablest of the government supporters declare privately that almost criminal neglect was shown in not sending at least ten thousand more troops by October 4, and that if Lord Lansdowne's hands were tied by higher powers he ought to exculpate himself beyond the shadow of a suspicion. The failure to send out troops enough cannot be charged to the opposition, for Parliament was not then sitting.

When these criticisms were repeated to a high government official he would not discuss the point, but declared that the broad lines of policy affecting Natal had been much misunderstood.

"We are often asked," said he, "why we sent Sir George Stewart White up the neck of Natal unless we were sure he could hold it. Considering the tremendous reinforcements now on the way to him, it occurs to almost everybody at first sight that he ought to have retired without risking engagements, but it is forgotten what would happen in Natal unless we made a vigorous stand there.

"Natal has risked her little all on behalf of the empire, and the least we can do is to risk something ourselves and prevent the overrunning of her prosperous towns and rich fields by hordes of the enemy. Purely military considerations, I admit, might point to the fact that we ought immediately to have withdrawn from our advanced positions, but purely military considerations have sometimes to be subordinated to the interests of the empire, and, although many good lives have been lost in such a cause, they have not been wasted."

Mr. J. B. Robinson, the South African millionaire, writes that General White will be perfectly safe if he sits tight at Ladysmith, refusing to be induced by the usual Boer tactics into being drawn out with the view of inflicting a defeat on the Boers. This is the expression of universal hope but previous experience of General White's tactics leaves room for much uneasiness during the week.

#### General White Cut Off.

Pretoria, Nov. 7.—Five thousand Boers have crossed Klip River south of Ladysmith, thus cutting off White from Colenso. Ladysmith has again been vigorously attacked and the Boers hope to reduce the town within the next few days. Heavy guns have been sent from Pretoria to Joubert's aid.

John Robertson is now in Pretoria Jail on a charge of enlisting men in the Light Horse to serve against the Transvaal. He will be treated as a

prisoner of war and not tried for treason.

All is quiet at Johannesburg. Colenso will not be attacked unless Ladysmith falls, and if the Boers are forced to retire in the near future from Natal, it will become necessary to destroy Newcastle, Dundee and Charlestown. The general belief is that White will sally out and make a dash for the south.

An unusually large proportion of wounded English prisoners have died in Pretoria Jail. The Boers lost 33 killed and 60 wounded in the Farquhar Farm fight. Kruger is in excellent health.

#### Refuses to Give Details.

London, Nov. 7.—A despatch from Pretoria, says that Colonel Moeller, who commanded the Hussars, captured by the Boers, declined, on being interviewed, to give the details of the misfortune, but praised the treatment he and his men had received from the Boers. The British prisoners were playing football when their commander was interviewed. Their officers are anxious to be exchanged.

#### GIVES ESTATE TO HIS WIFE.

**Disowned Son is Made Rich By His Father's Death.**

Houghton, Mich., Nov. 6.—Victor H. Matson, a member of one of the oldest and wealthiest families of Finland, and a graduate of a university of his native land, but who has been a day laborer here for some time, has received a letter from Finland notifying him that by the death of his father he had fallen heir to the entire family estate, valued at \$100,000.

An hour later Matson formally had assigned the estate to his wife, and as soon as arrangements can be made, Matson, with his family, will return to Helsingfors, the capital of Finland, where the estate is situated.

Several years ago Matson, then a university student, fell into bad habits and was disowned. He came to this country, was married and for a time prospered. Gradually he lapsed into his old habits and lost position after position, finally being compelled to labor on the streets for a living, while his wife and children became dependent on charity.

When Matson received the letter announcing his inheritance, he at once hunted up his destitute family, and in the presence of Judge Curtis, first signed the pledge, then turned over his inheritance to his wife.

#### Suffered in a Refrigerator Car.

Columbus, O., Nov. 6.—A story of terrible suffering and starvation is told by Antoine Gerrard, fourteen years old, who was released from a refrigerator car at Dennison, this State, after having been imprisoned for four days without anything to eat. Though the car was loaded with bananas in cold storage he could not get at them. He had concealed himself in the car at New Orleans, where his parents live, intending to go to Cairo, Illinois, but the car was locked and though he repeatedly pounded on the inside and called despairingly no one heard him until Sunday, after the car had been sidetracked. He was taken out nearly dead and terribly bloated, having suffered intense agony in the cold with nothing to eat.

#### Will Remember Wheeler and Lee.

Chicago, Nov. 6.—Women of Chicago have started a movement toward a systematic effort to show in some substantial way to Generals Fitz Hugh Lee and Joseph Wheeler the appreciation by the American people of their bravery and patriotism. To this end a meeting of those interested has been called for Tuesday in the Chicago Beach Hotel. The idea is to more firmly unite the people of all sections of the country through these two great commanders. Mes. McKinley, Garfield, Grant, Cleveland, Fuller, McLean, Astor, Vanderbilt and others will be asked to act as a general committee to carry out the movement in such a manner as they may deem proper.

#### Minister Accused of Wife-Beating.

Binghamton, N. Y., Nov. 6.—An edict has been issued by the Right Rev. Bishop Huntington suspending the Rev. R. Eugene Griggs, an Episcopal minister of this city, pending the investigation by an ecclesiastical court into charges of wife-beating and desertion made by Mrs. Griggs. Mr. Griggs has already been fined \$25 in the police court for wife-beating, and was compelled to give security to support his wife a year. Other charges affecting his moral standing will come up before the ecclesiastical court.

#### Reagan to Unveil Davis Monument.

Austin, Tex., Nov. 6.—Judge John H. Reagan of this city, the only surviving member of the Confederate Cabinet says he has accepted the invitation extended to him in response to an expressed wish of Mrs. Jefferson Davis to unveil the monument to the late Jefferson Davis at Richmond, Va., on Nov. 9, at the time the monument to Winnie Davis is also to be unveiled. Judge Reagan will also deliver an address on that occasion.

#### Miss Rohrer to Name the Comus.

Newport News, Va., Nov. 6.—The sponsor for the new steamship Comus, building here for the Cromwell line, has been selected. She is Miss Josephine Rohrer, daughter of Commander Rohrer who has been attached to the battleship Kentucky as executive officer. She has arrived here from Burlington, Vt. The Comus will be launched on next Thursday instead of Tuesday.

mus, building here for the Cromwell line, has been selected. She is Miss Josephine Rohrer, daughter of Commander Rohrer who has been attached to the battleship Kentucky as executive officer. She has arrived here from Burlington, Vt. The Comus will be launched on next Thursday instead of Tuesday.

#### Razor May Cause His Death.

Camden, N. J., Nov. 6.—Bert Adams, 8 years old, the son of Elmer Adams, a barber, tried to shave himself, and as a result of injuries probably will die. The boy was playing in his father's shop and, obtaining a razor, began to shave. The blade slipped and cut a deep gash in the lad's throat. Physicians say the young man's recovery is out of the question.

#### The "Peepers" Goes Free.

New Haven, Conn., Nov. 6.—Frank H. D. Chase, instructor of English in Yale University, arrested last week on the charge of trespass for looking into the windows of houses, has been discharged in the police court. There were no prosecutions.

#### Chamberlain's Pain Balm Cures Others, Why Not You?

My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well.—ADOLPH L. MILLETT, Manchester, N. H. For sale by J. S. Banker.

**DEATHS ON TRANSPORTS**

**Many of the Sick Men Said to Have Been in a Deplorable Condition.**

**Major Rafter, of The Twentieth Kansas, Comes in For Heavy Censure—The Transport Service Severely Arraigned by Investigating Board at San Francisco.**

San Francisco, Cal., Nov. 7.—A local newspaper says that the most sensational report of a military board of inquiry ever sent to the War Department from this city has been forwarded to Washington from the headquarters of Major General Shafter. The document consists of nearly one hundred typewritten pages and contains the severest kind of criticism of the methods employed by officers in charge of the sick soldiers who returned from the Philippines on the transports Tartar and Newark, on Oct. 10. Upon Major Rafter, the surgeon of the Twentieth Kansas volunteers, who came back on the Tartar, the heaviest censure is laid. Colonel Metcalfe, of the same regiment, who commanded the ship, General Funston being only a passenger, is indirectly referred to. Many other officers are given a hard measure of criticism, but their names are being withheld until the War Department sees fit to make known the details of the report.

The board of inquiry which has so severely arraigned the transport service was appointed by General Shafter two weeks ago at the suggestion of Colonel Alfred C. Girard, chief surgeon in the General Hospital at the Presidio. Colonel Girard's desire for an investigation was occasioned by the deplorable condition in which he found the sick men from the transports Tartar and Newport. There were about forty of them, and nearly all were suffering from dysentery. Three men who came in these transports died a few days after arrival. They were J. T. Fabisak, and John A. Logan, of the Fourth cavalry, and George W. Mills, of the Twentieth Kansas.

**Are After Aguinaldo.**

Manila, Nov. 7.—A fleet of transports and gunboats has left Manila for the most important expedition of the autumn campaign. Its destination is supposed to be Dagupan or some other northern port.

General Wheaton commands, with a brigade consisting of the Thirteenth infantry, the Thirty-third infantry, two guns of the Sixth artillery and two Gatlings. The transports Sheridan, Francisco de Reyes and Aztec carry the troops, with the gunboat Helena as escort.

A dispatch boat was sent ahead to arrange a rendezvous with the United States cruiser Charleston and the other warships that are patrolling the north coast of Luzon.

The landing will be made under cover of the guns of the fleet. It is assumed here that the purpose of the expedition is to move down the Dagupan-Manila Railroad toward Tarlac, or to prevent Aguinaldo's forces making another base further north.

**Would Not be a Candidate.**

Washington, Nov. 6.—Replying to a question put to him by a newspaper reporter Saturday evening, Admiral Dewey said:

"I would not under any circumstances consent to be a candidate for the Presidency, and I should consider it an act of friendship if the press would treat this decision as sincere and final. I wish they would now drop the matter. I feel that any further boommig of my name for the Presidency tends to make me ridiculous."

**Says it is Not a Trust.**

Albany, N. Y., Nov. 6.—President P. E. Dowe, of the National League of Commercial Travellers, announces that Attorney General Davies has decided that the evidence submitted to prove that the American Spool Cotton Company is a trust or monopolistic combination is insufficient for the purposes of prosecution, but that District Attorney Gardiner, of New York county, has maintained otherwise, and will commence, on the application of Mr. Dowe, proceedings under the Donnelly Anti-Trust law of the State.

**Can Erect The Monument.**

Boston, Nov. 6.—The Board of Trustees of the Cemetery Department has voted to allow the Victorian Club to erect its proposed monument to the British soldiers who fell at Bunker Hill. Mayor Quincy was first petitioned by the club and he turned the petition over to the Cemetery Committee, with the endorsement that he saw no reason why it should not be granted. The monument will be erected in the central burying ground on Boston Common.

**May Save the Parnell Estate.**

Boston, Nov. 6.—Lord Mayor Tallon of Dublin has received a cable that the ancestral home of Charles Stewart

J. D. Bridges, Editor "Democrat," Lancaster, N. H., says, "One Minute Cough Cure is the best remedy for croup I ever used." Immediately relieves and cures coughs, colds, croup, asthma, pneumonia, bronchitis, grippe and all throat and lung troubles. It prevents consumption. J. S. Beaker.

Parnell at Avondale would not be sold until Nov. 24. The sale was originally scheduled for Nov. 4. The Lord Mayor believes that before the date now fixed the sum necessary to save the estate will have been obtained.

**Nine Hurt in Trolley Car.**

Louisville, Ky., Nov. 6.—An inbound Louisville and Nashville train struck a Fourth Avenue electric car at Fourth avenue and G street completely demolishing the car and injuring nine persons, including the motorman. All will recover.

**Gen. Corbin Visiting in Cleveland.**

Cleveland, Nov. 6.—H. C. Corbin, Adjutant-General of the United States Army, is the guest of Col. Myron T. Herrick. Gen. Corbin said that the war in the Philippines would be over by Jan. 1, and that Gen. Otis would probably not be recalled.

ments, two battalions of the Nineteenth Regiment, a detachment of the Sixth Regiment and a battery of the Sixth Artillery. The Filipino force is now supposed to be between 3,500 and 5,000 armed men and many more unarmed. Their lines are about 800 yards from Jaro, which is occupied by the Twenty-sixth Regiment.

Manila, Nov. 6.—Chase's troop of the Third cavalry and Rivers's troop of the Fourth cavalry swam the river and surrounded the garrison at Bong-bong, entering the town. The enemy escaped. Six Rifles and a quantity of ammunition were captured. Castner's scouts had a skirmish with Filipinos near Allaga, killing five.

San Francisco, Nov. 6.—William H. Moreland, bishop of Sacramento, has left for a tour of the eastern and western states in behalf of his diocese. He will also give lectures in all the larger cities in behalf of the great general convention of the Episcopal Church, which is to be held in October of 1901 in this city.

New York, Nov. 6.—It has been decided by the director of the Mint to postpone coining the Paris Exposition Lafayette souvenir dollars until the beginning of the new year. The design has been decided upon. On the reverse of the coin are the faces of Lafayette and Washington in double profile.

Albany, Nov. 6.—The Brokers' District Telegraph Company, of New York, has been incorporated with a capital of \$10,000, to supply messengers for the purpose of delivering messages and other property and to deliver messages by telegraph or telephone. The directors are Samuel M. Richardson and George H. Vandewalker, of New York City, and Henry D. Kuck, of Tompkinsville, S. I.

Syracuse, N. Y., Nov. 6.—W. W. Teall, a prominent financier and the father of Oliver Sumner Teall, of New York, is dying from an attack of hiccoughs. The doctors say that there is no hope of his recovery. Mr. Teall, who is more than 80 years old, was taken with an attack of hiccoughs a week ago, and in spite of the efforts of the physicians it has been found impossible to stop it.

New York, Nov. 6.—Fire late Friday afternoon destroyed the seven-story building at Nos. 94, 96 and 98 Mott street, which was occupied by the Manhattan Iron Beadstead and Spring Company, causing a loss of about \$200,000. Three persons employed in the factory are missing and several were injured in escaping, while engaged in attempts to rescue the inmates and in managing the Fire Department's apparatus.

New Orleans, Nov. 6.—The weather bureau predicted a cold wave Thursday and at night the thermometer was down to 46 degrees. With the coming of the cold wave telegrams were received from neighboring states notifying the Louisiana Board of Health of the lifting of quarantines. By night all quarantines had been raised on every class of freight except household goods. The wholesale merchants of this city have been waiting for the lifting of the embargoes against commerce, and all out-going trains are now carrying traveling salesmen.

Houston, Tex., Nov. 7.—The San Antonio Gas Company has lost its charter because it joined a trust. The company became a member of a local combination to control the private and public lighting of San Antonio. Judge W. S. Ely, of the Fourth State Court of Civil Appeals said: "It does not matter that the immediate result of the combination may be a reduction in the price in commodities. A dangerous arbitrary power has been placed in its hands by which the business of the country may be absolutely dominated and prices arbitrarily controlled regardless of the laws of trade or the rules of supply and demand."

Orange, N. J., Nov. 7.—"No seat, no fare," insisted S. H. Howe and J. E. Rosenbusch, and on that ground they have won a case against the Delaware, Lackawana & Western railroad. The men sued for damages because of a dispute they had with conductor Price at the Newark station last winter. They would not give up their tickets because they had no seats, and the conductor had them arrested for disorderly conduct. The accused were brought before Judge Lambert and he reprimanded them. The two men insisted, however, that they were in the right and they brought suit against the railway company to recover damages. It has now been agreed to settle the case. It is said that the plaintiffs each received \$175.

AS NEAR as can be estimated, New York state went Republican with few exceptions. New York county elected their entire Democratic ticket. James K. McGuire, Democrat, was elected for the third time as mayor of Syracuse. The state assembly will have a Republican majority of about 35. In Ohio, where there was a big fight for governor, Nash, Republican won over McLean by about 50,000. Cayuga county elected the entire Republican ticket, Dayton receiving 3,020 majority. There was a small vote in the town of Genoa, less than 300 votes being polled.

A CRUSHING BRITISH DEFEAT in South Africa is the sensation of the week. The Boers seem not only to have out-fought the English soldiers, but out-generated the English commander. Their capture of three regiments, including one mountain battery is a blow the like of which the English have not experienced in many a long year. It brings home to the world the fact that the Boers, man for man, are the equals, in military valor of any people in the world.

THE FATAL illness of Garret A. Hobart serves to recall that four vice presidents have died during the terms for which they were elected. They were Elbridge Gerry, who was elected on the ticket with James Madison in 1812 and died in 1814; William Rufus King, who was elected in 1853 with Franklin Pierce, and died in 1858; Henry Wilson, elected with Grant in 1872, who died in 1875; and Thomas A. Hendricks, elected with Cleveland in 1884, who died in 1885.

FOREIGN nations will wonder why Americans cannot enjoy the privilege of franchise without the assembling of troops at the polls. It does seem a little queer.

#### King Ferry.

The owners of lots in West Genoa cemetery met at the session house of the Presbyterian church in King Ferry last month for the purpose of electing three trustees for three years from Oct. 2, 1899. Twenty or more were present. The report of the secretary and treasurer was read, showing a handsome balance in the treasury. All present were gratified with the improvements made last year and a unanimous vote of thanks was given to Wm. H. Peckham, the superintendent, for his able management during the year and the many improvements he inaugurated and completed. The King Ferry people are justly proud of their cemetery and many new improvements will be made in the year to come. In this cemetery is a fine soldiers' monument the first erected in Cayuga county. The trustees elected were: W. A. Ogdan, John L. King, and Wm. H. Peckham.

Last week while Roy Atwater was engaged in operating his gasoline engine, elevating grain from the store house at King Ferry, his shirt sleeve was in some way caught by the machine, the cloth giving way and winding up at every revolution until reaching the neckband, which would not give way. Things began to look dark and had it not been for help near by it is quite probable Mr. Atwater would have lost his life.

Irving Brown of Sayre is visiting friends here.

J. E. Burgett and wife were in Auburn Saturday.

L. A. Goodyear, H. L. Goodyear, Mrs. F. A. Dudley, and Mrs. William Peckham made a business trip to Auburn on Friday.

Mr. Peas and family of Mapleton were guests of G. S. Akin and wife over Sunday.

E. S. Fessenden and wife have been visiting friends near Moravia.

Dogs were in E. A. Avery's flock of sheep recently, injuring 16 and killing 4. Damages assessed at \$30.

James Detrich and family now occupy the village property recently purchased of O. King.

Wanted—100,000 pounds of dried apples, at once, at Webster's.

#### Clothing for Young Children.

It is impossible to estimate the amount of suffering to which young children are condemned by the fads of their parents. The poor little things cannot care for themselves, nor can they protest against the well meant cruelty of those whose charge they are. Societies exist for the prevention of cruelty to children, but their right to interfere stops short of the control of the hygienic heresies of parents.

Fortunately for the succeeding generations of mankind, says the Youths Companion, these hygienic faddists are not in the majority and most parents let their children grow up under a common sense method of health training, or perhaps under no method whatever, which is the next best thing.

Mistaken parents may be roughly designated under two grand divisions—the coddlers and the tougheners—and it is hard to say which do the more harm.

The theory of the coddlers is that a breath of cold air is death dealing to the tender child, and that the chief end of man is the avoidance of draughts; and so they bundle up their children with layer upon layer of heavy woolen garments, from the soles of their feet to the crown of their head.

Their children are apt to grow up weaklings, if they grow up at all, but their sufferings are light and their perils few in comparison with those that beset the victims of the toughening or hardening process.

The child of this system is brought up in accordance with the belief that all that is necessary to health and long life is to defy the elements and common sense. Deluded parents think they are creating a strong constitution, and point triumphantly to some robust lad who has survived the process, forgetting that it is only children of naturally the strongest constitution who come through it at all.

Formerly fashion aided the toughening faddists, and tiny tots went around in the house, and often out of doors with half bare legs and arms and low cut dresses hardly reaching to the knees. Nowadays the dress of young children perhaps leans in the direction of coddling, with its unhealthy neck wraps and ear muffers.

It is hard in this changeable climate to keep the mean between the two extremes, but parents do not go far wrong who clothe little children in light flannels, in all but the hottest weather, and who vary the outer clothing in accordance with the temperature. The child should wear clothes enough not to feel cold, but not enough to keep it perspiring, for then cold-catching is inevitable.

The war in the Transvaal, between the Boers and the British, promises to be no child's play for Johnny Bull. Already the English have lost more men in killed and wounded than did the United States in their war with Spain in Cuba, Porto Rico, and in over a year's fighting to put down the Philippine rebellion. England was certainly not prepared for the desperate resistance the Boers are offering, and will have to double and treble her army in South Africa before she can even expect to hold her own or regain the prestige she has lost.

THE VILLAGE MIRROR

What Has Happened in Genoa During the Past Seven Days—An Interesting Page.

In the great game of life there is now and then one who can properly credit with earning a run.

But time's fadeless tally sheets truthfully show that the most of us score on some one's wild throw.

—Rev. W. A. Pugsley preached at Locke Tuesday.

—Some farmers are through corn husking and have the fall work well closed up.

—Foster, Ross & Baucus ask your attention to their advertisement on this page.

—Auction bills, neat, tasty, cheap, and the sale published in the local columns. Call or send to us.

—'Twaunt be long noaw fore mince pies 'n' apples, 'n' popcorn, 'n' pumkins 'll be in season.

—What a jolly old planet this would be if every man would act as he thinks his neighbor should.

—Have you legal notices to publish? If so, it will pay you to confer with us.

—Says the Groton Journal: "Invitations to Thanksgiving dinners are being extended." Where? Which way?

—A subscriber of the West Winfield Star hid in the cistern when the collector came to see him.

—Miss Emma Andrews is assisting at G. W. Miller's for a few weeks.

—Mrs. Esther Van Liew and Mrs. Ella Brown of Scipio visited friends in Genoa Sunday.

—Miss Ruth Wetzel of Union Springs has been spending some time with Mrs. G. Husted at Poplar Ridge.

—Rev. Mr. Gillam finished his pastoral labors last Sunday. The Presbyterian church will now be regularly supplied from the seminary at Auburn the balance of the year.

—E. S. Heaton of Auburn was in town on business a day or two this week.

—Messrs. W. E. Keeler and Joseph Parker of Moravia were in town on business Wednesday.

—Landlord Carson has purchased a fine young horse from Ithaca parties. It is speedy as well as handsome.

—Mrs. C. E. Harris of Rochester has been visiting Mr. and Mrs. Chas. Carson the past week. Mr. Harris is now teaching in one of the Rochester schools.

—A Cannon is making some extensive repairs upon his residence in this village.

—If those who borrow the TRIBUNE of the neighbors could hear to uncomplimentary remarks of such neighbors, they would make an effort

to raise the small subscription price required.

—Charles A. Cannon of Genoa made a short stay with relatives here this week.

—Don't fail to read the new announcement of Benj. Rich, on the 8th page in this issue. Mr. Rich quotes some astonishing prices.

—Saturday, George Karn from Cattaraugus county, died suddenly at the home of his son, Alva Karn, whom he was visiting. The funeral, we learn, was held at the M. E. church, North Lansing, Tuesday, at 2 p. m.—Groton Journal.

—Mrs. Palmer Drake, of Genoa, N. Y., passed Sunday with friends in Ludlowville.

—Saturday morning William Benson, of Lansingville and Miss Clara Dinehart were married at Groton. They are passing a few days in New York city.

—The ladies of the Presbyterian church and society have begun preparations for a fair to be held at the rink just before Christmas.

—A. M. Seckell and N. D. Backus of Union Springs were in town on business yesterday.

—H. P. Mastin is finishing off the third story in Genoa's big store.

—Born, to Mr. and Mrs. Thomas Turney, of Union Springs, Sunday, October 29, 1899, a boy.

—Owing to the press of other matter in our columns, we are obliged to defer the interesting Philippine letter until another week.

—Wm. McCormick and wife of Lansingville were in town Monday last and called on his sisters, Mrs. Weaver and Mrs. Turney.

—The latter part of this month the earth is due to cross the path of an immense swarm of meteors, and the display will be worth looking out for. While meteoric displays are more frequent in November of each year than during the other months, it is only once in 33 years that the main body of celestial tramps is encountered. The display in 1833 was so grand as to make many people believe that the end of the world was at hand. In 1866 there was another display equally fine, and the next 33-year-period is due the present month.

—The question is already asked as to the lady Dewey is to wed, whether a presidential bee is buzzing in her bonnet? It might be a big omen of the future.

—The Dryden cornet band gave a concert recently by which it cleared \$191.50 and has new uniforms for 20 members and a surplus of \$32.40.

—Mr. Hankey, the photographer, reports a very good business thus far. He is certainly the best artist (or the only artist) that ever struck Genoa, and he should be encouraged by a liberal patronage. Mr. Hill, the jeweler, is likewise an adept in his business, and he reports trade improving.

—Half a dozen more of the worthless sheep-chasing dogs, with which this town is so abundantly provided, have met a sad and untimely end the past two weeks, we understand. Matthew Brink shot two of them, but not until they had killed two of his sheep. Why farmers persist in killing these beautiful and ornamental canines is past all comprehension.

—Here are some strong words from a Genoa correspondent: "Our jurymen and witnesses who are obliged to spend so much of their time over the petty snits caused by the drunken quarrels are very dissatisfied. But then liquor selling makes business lively and the liquor seller pockets the cash with a smile that is child-like and bland. Two young boys, under 14 years of age bought one-half pint of alcohol last week and one of them drank most of it. Only vigorous treatment saved his life."

The Dying Missionary.

Listen, Brother, closely listen,  
For my voice is growing weak,  
Of my child in far off England,  
'Tis of her that I would speak.

I chose a distant mission  
On this Island of the Sea,  
To proclaim the Love of Jesus,  
Love, that makes sin's captive free.  
And my wife—her memory blessed—  
Shared my zeal, and came with me;  
A few short months, and then I laid her  
'Neath the shade of yon palm tree.

And she left me sad and lonely  
With our little daughter fair;  
Breathed her wishes softly, gently,  
'This to me, her dying prayer—  
'Take to England little Mary,  
Leave her in some friendly care,  
Then return, and in this vineyard,  
Work while God your life shall spare."

Then I went to good old England,  
Found a home for Mary there.  
Kneel beside her bed, when leaving,  
Breathed to God, a Father's prayer.  
When I thought that she was sleeping,  
Gently from the room I stole,  
While to others farewells saying,  
Grief was welling in my soul.

Her little feet, I heard them patter,  
Down the stairs, along the way,  
Sobbed, as if her heart was breaking,  
"Papa, Papa with me stay!  
Mamma's gone! Oh! do not leave me,  
Do not leave me, Papa dear."  
Broken hearted, could I leave her  
For the sake of heathen here?

How paternal feelings swayed me,  
Should I not my Master serve?  
Would affection for my daughter  
From my duty make me swerve?  
Then there came a power supernal,  
To support and comfort me,  
From the Throne of God eternal,  
Making duty plain to see.

Then I left my native England  
For this Island of the sea,  
Here for years, I've taught the heathen  
How that Christ hath made them free.  
Now I hear my Savior saying,  
"Faithful thou hast been to me,  
Come! No longer shalt thou tarry  
On the Island of the Sea."

Take this ring and send to Mary,  
It is one her Mother wore.  
Tell her that we both await her  
On fair Eden's heavenly shore.  
My Brother, hear my last request,—  
'Neath the shade of yon palm tree  
Where I laid my wife to rest,—  
There, I pray thee, bury me.

Hark! I hear seraphic music  
Falling sweetly on my ear.  
List! Can you not hear it, Brother,  
Drawing nearer, nearer here?  
See! The Angels too are coming,  
In their beauty yet untold,  
To convey me through the Valley,  
Safe into the Shepherd's fold.

**Root Beer In the Melon.**

A distinguished Senator from New England has for twenty years past boasted of his skill in preparing water-melons for the table. Last year, about this time, he asked a number of friends to his house to enjoy a melon feast. In preparing for the event the Senator plugged three fine Georgia melons and poured into each one a quart of champagne. When, several hours afterward they were brought upstairs to the dining-room, the host prepared to do the carving.

All but several of his most intimate friends were served from the two melons first cut. The third one, the finest one of the lot, was kept for the Senator himself and the few others who, in his opinion, could appreciate a good thing. This melon, when cut open, seemed a trifle darker in color than the others, but no one commented on the fact. Each gentleman after he had tasted it remarked, "This is delicious," but their approval had in it a ring of politeness that made the Senator suspicious.

The Senator hurriedly cut out a morsel, held it to his lips several times, and then exclaimed: "Well, I've been fixing melons this way for twenty years, and I never knew one to taste like that before." Some one suggested he had made a mistake, and proposed that they look at the bottles. So downstairs went the whole party, and there on the shelf were the three empty bottles, two with champagne labels and the other marked root beer.—Baltimore Sun.

**An Iron Foundry at Sea.**

A foundry at sea had not been heard of before the cruise of the Vulcan. Whatever other kinds of naval repair work had been executed heretofore on board ship, that of making large brass and iron castings had not been attempted. In her facilities for this new line of work the Vulcan stands pre-eminent and alone. That the unique equipment for foundry work was successful is more than shown by the fact that thousands of pounds of iron and brass castings were made and finished for the ships of the fleet. The brass furnaces were kept in almost constant service, sometimes running off two heats in a day, and making it necessary to carry the work far into the night, much to the discomfort of the men, who were trying to get some sleep and rest before another day's work.

In iron casting not more than one heat was run off in a day, and that usually about 3 o'clock in the afternoon. For after filling the molds and dropping bottom, it was practically impossible to do much more in that part of the ship till the next morning. Kipling has sung for the Scotch engineer and stoker, but there was no heaven-born genius on board the Vulcan to treasure up the memories and scenes incident to dropping bottom. The usual luxuries of such work ashore were entirely missing. Like the fiery furnace of old, the heat seemed seven times more intense than it was wont to be ashore.—Engineering Magazine.

**Horse-Power of Lightning.**

At Klausthal, Germany, lightning struck the wooden post of a house and fused two nails four millimeters thick. Siemens and Halske of Berlin, afterward experimented to ascertain the force required. Assuming one second as the time standard it required a current of two hundred amperes and twenty thousand volts, representing seven thousand horse-power.

The Olme May struck a rock and sank.

Pittsburg, Nov. 4.—The local plants of the American Tin Plate Company are preparing to shut down indefinitely. They are to be idle, probably, after Nov. 15, and when they are to be put in operation again is a question in which 700 workmen are interested. **LEXINGTON GREEN.**

A Spot Which is Dear to the Heart of Every True American.

Lexington Green, the spot of all others most dear to the heart of every true American, lies like a jewel on the bosom of the Old Bay State.

A more striking contrast than that offered by its present appearance and its aspect on the 19th of April, 1775, can hardly be imagined.

Then the six acres of its triangle were scarcely separated from the rough roadways which bounded them. A few weather-beaten houses faced each other across the drill ground of the already apprehensive Minute Men, and "the meeting house windows blank and bare" gazed out upon a primitive landscape.

Long days of unremitting toil, such as fell to the lot of the sturdy men and women of those early times left scant leisure for the beautifying of their homes. More than enough it was for them to fill hungry mouths, to provide a roof cover for flaxen heads, to build barns for their crops, to defend one and all against the wily foe which still lurked around.

But in these years of grace, one who leaves the Boston train at Lexington station and walks along a pleasant street for five minutes will experience

MONUMENT AT LEXINGTON GREEN.

Possibly, were it not for the three memorial stones—one near each corner of the triangle—the history of the past might melt into the poetry of the present, and be lost forever. But there are reminders which cannot be gainsaid.

The first one to be seen on reaching the Green is the Pulpit Monument, a massive stone pedestal or pulpit, on the top of which is carved a large Bible. This stands on the site of the first church of Lexington village.

A few rods to the right is the most interesting site of all, the very ground on which the Minute Men stood in line to await Lord Percy's regulars as they came down the Boston road.

The stone here is a rough boulder, on whose side is cut a musket and powder horn.

**SELLING AT COST!**

Having begun our second year in the Hardware business, we wish to say that we have as fine a stock of goods as was ever shown in Genoa, and while we are not selling exactly at cost, **we are doing the right thing by our customers** in the matter of prices and qualities. Our increasing trade demonstrates this very satisfactorily.

**People's Popular Course.**

The souvenirs containing full information regarding the proposed series of entertainments in Moravia this coming winter, were left at the residences in that village and vicinity the first of the week, and show what the course will be. The committee must know at once how many course tickets can be sold and it is hoped that when the solicitor calls, in a day or two, you will be ready to purchase. The low price should bring the course within reach of all—\$1.00 for the five entertainments and 10 cents extra each evening if you reserve your seats, making them cost but 30 cents a night, and every number is worth 75 cents or \$1.00 in the large towns and cities. This is an opportunity for the people of Moravia and vicinity to enjoy a series of cheap, pure and educating entertainments, and it is earnestly hoped the citizens will give the committee their hearty support, so that an even better course can be undertaken another year.

An exchange makes a rather startling statement in the statistical line which is as follows: The three most populous counties in this state will pay in taxes this year as follows:—New York, \$6,118,055; Kings, \$1,506,303; Erie, \$720,109. This makes a total of the three of \$8,342,467. The entire state tax is \$12,640,228. So the fifty-eight counties outside of New York, Kings and Erie will pay but \$4,296,761, or only a trifle more than half what the three counties pay.

M. H. Kingman has just bought for D. H. Ritter of Jeffersonville, Pa., a carload of the choicest Jersey cattle that he could secure, together with a few Guernseys. Mr. Ritter is the manager of the extensive farms belonging to the director of the United States mint at Philadelphia. Mr. Kingman found the greater part of this carload in Summerhill, which is quite a center for choice specimens of that kind of stock. The cattle were shipped last Saturday.—Cortland Standard.

It is evident that Adjutant General Corbin still remains secretary of war under the sanction of the president, in place of Root, nominally filling the office. The report of the war originates with him, who has practically usurped the place of the commanding general of the army, Miles, and Secretary of War Root. But before he gets through with his lame explanations, outrageous claims and egregious assumptions as to the conduct of the war, he twists a rope to hang himself.
