The measurement fad has spread among women as well as men, says a medical writer. The increase of physical culture among women has brought it about that many society women now have their measurements taken and recorded from time to time. The recorded measurements of a woman who is said to be an almost perfect physical specimen of nineteenth century womanhood are: Height, 63 1/2 inches; mean chest, circumference 35 5/8 inches, (expansion 3 inches); hips, 37 1/2 inches; thigh, 22 inches; calf, 14 1/2 inches; ankle, 7 1/2 inches; waist, 22 inches, and weight 127 pounds.

His face and the top of his head were blown to atoms. His daughter-in-law, Mrs. Hunter, heard the shot and hurried to the door, when the terrible sight greeted her. Mr. Hunter had taken the gun from its place that morning explaining that he wanted to shoot a hawk which had been hovering near the poultry yard. At first it was believed to be an accident, but it was afterwards evident that Mr. Hunter had looped one end of a shoe string about the trigger of the gun, and the other end about his foot. Then sitting in a hammock and holding the muzzle close to his face he had met the death he deserved. He leaves four sons, J. S., C., W., and Ernest Hunter, all of whom are well known.

With automobile harvesters and electrical kitchen appliances for cooking, will it be necessary to earn one's bread "by the sweat of the brow."

Quite a large delegation of relatives went to Catskill to pay the last rites of affection and respect to Mrs. Louisa P. Howland. Another beautiful and exemplary life ended! THE main buildings of the Exposition are so arranged as to form a vast court in the shape of an inverted letter I the horizontal or transverse court lying east and west. At the extreme west end of this horizontal are the Horticultural, Graphic Arts, and Forestry and Mining buildings. The horticultural building, 220 feet square, is flanked on the south by the forestry and mines and on the north by the graphic arts buildings, each 150 feet square. The whole group is connected with arcades, forming a semi-circular court, in which will stand the "Fountain of the Seasons." The horticultural building will have a central lantern 240 feet high at the intersection of the four arms of a Greek cross, which includes in its angles four small domes. Deeply recessed arched entrances are features of each facade. The graphic arts and forestry and mining buildings are companion structures of the same size and style, having four corner towers. On the east facades are vaulted loggias of three arches each, which form the main entrances. Colored bas reliefs will ornament the broad white walls while the pilasters of the facades and arcades will be decorated with arabesques of twining vines, fruit, flowers, birds and children. The colored decorations will be confined chiefly to the vaulted ceilings of the loggias. Two colored compositions will adorn the space above the eastern entrance of the horticultural building. These will represent Ceres, goddess of the harvest, bearing in her arms a sheaf of golden wheat. Three lions, led by Flora and Primavera, will draw her chariot.

AMERICANS DECLINE

Will Not Join Expedition to Pao-tung-fu.

CITY READY TO YIELD TO ALLIES

Russians Abandon Railroad—Join Construction and Operation Favored by Chaffee—Triads Defeat Imperial Troops.

LONDON, Oct. 9.—A dispatch from Peking says:

"The American troops will not participate in the expedition to Pao-tung-fu. General Chaffee has the assurance of Li Hung Chang that if the allies desire Pao-tung-fu the Chinese will readily surrender that city. Li Hung Chang has given the same assurance to the other generals.

"The Americans believe that revenge and military display are the only objects of the expedition, and they hold that it will retard the restoration of peace.

"The Russians are understood to have practically abandoned the railroad and to have stopped its reconstruction. General Chaffee favors the return of the railroad to its owners and its reconstruction and operation on a joint international basis.

"The first re-enforcements of German troops have arrived here."

The Shanghai correspondent of The Times, writing Oct. 7, says:

"It is reported that French troops hold Lu-ko-chiao, on the Lu-han railway. The Russians and Germans hold the Pei-tang forts and have also taken Tong-shan and the Kai-ping mines, thus monopolizing the coal supply in north China.

"It was expected that Count von Walderssee would maintain an even balance between the powers, whereas the actual result of the operations places all the strategic positions in the hands of other nations. A strong feeling prevails that the situation is daily becoming more gloomy."

"Five thousand Triads," says a dispatch to The Daily Telegraph from Canton, dated Oct. 7, "have defeated the imperial troops and occupied several places between Mirs bay and Deep bay. They are now moving southward. The viceroys today dispatched Admiral Ho and General Tong to oppose them."

The Times publishes a report that Emperor Nicholas recently decided to recall the Russian troops from Manchuria after Mukden had been occupied.

By an imperial decree issued at Tai-yuen-fu, capital of the province of Shan-si, dated Sept. 25, Emperor Kwang Su denounces the Boxer movement and designates for punishment nine ringleaders. He acknowledges his own fault and rebukes himself, but he places the chief blame upon the princes and nobles who participated in the movement and protected it.

Prince Tuan, Prince Chung, Prince Tsai Lien, Prince Tsai Ying, Duke San Kang, Yung Nien, president of the censorate, and Chao Shu Chiao have been named to negotiate with the powers.

According to the Shanghai correspondent of The Times, writing Oct. 5, it is announced that Hwai Tapu, nephew of the empress dowager, who was dismissed by Emperor Kwang Su in 1898, has succeeded Prince Tuan in the tsung-li-yamen and has also been appointed generalissimo of the Chinese forces, replacing General Yang Lu.

Where the Troops Will Winter.
PEKING, Oct. 9.—General Yamaguchi will retain 10,000 Japanese troops, 2,000 of them at Peking and the others at Taku and along the line of communications. Eight thousand Germans will pass the winter in Peking and 1,500 Russians. The number of British troops who will be retained has not yet been decided. Sir Alfred Gaselee will probably keep a brigade. The allies are storing supplies for six months. Count von Walderssee's headquarters will be the buildings in the imperial pleasure grounds outside the Purple City.

Dynamite Magazine Explodes.
EVELETH, Minn., Oct. 8.—Seven thousand five hundred pounds of dynamite in the powder magazine of the Spruce mine, about half a mile from town, blew up. A hole 100 feet square and 25 feet deep marks the spot where the magazine stood. The force of the explosion was so great that there is not a piece of glass over a foot square within a radius of two miles of the mine. Practically every window and mirror in Eveleth was broken. The loss in the town is estimated at \$30,000. The explosion was plainly felt 12 miles away.

The Windward Falls to Return.
ST. JOHN'S, N. F., Oct. 8.—The failure of the Peary exploring steamer Windward to return from the north leads local observers to believe that the expedition will not attempt to return.

that have been the case Lieutenant Peary is likely to have taken the Windward into some high latitude, hoping to use her in a further expedition next season. This would mean that he has made no special record during the present year.

NOTED SOUTHERNER DEAD.

Captain Kell of the Famous Confederate Ship Alabama.

SUNNYSIDE, Ga., Oct. 6.—Captain John McIntosh Kell, adjutant general of Georgia and one of the most noted men in the south, died at his home near this place last evening at 6:30 o'clock. He had been in bad health for a long time. He was 77 years of age. At the age of 16 Kell was appointed a midshipman in the navy. He served with distinction in the Mexican war and was present at Mount Airy, Cal., when the United States flag was hoisted over the territory. He was later an officer in Commodore Perry's expedition to Japan.

In October, 1856, he married Miss Julia Blanche Monroe of Macon. A brief service at Norfolk and 18 months at Pensacola constituted his only duties on shore while a member of the United States navy. Upon the secession of Georgia he tendered his services to his native state and in May, 1861, reported for duty to Captain Raphael Semmes at New Orleans, where he served with the Sumter. Later he was with Captain Semmes as executive officer of the Alabama, the famous Confederate cruiser.

LORD ROBERTS TO RETURN.

Will Leave South Africa Soon—Retreat of the Boers Reported.

LONDON, Oct. 8.—Lord Roberts, The Daily News announces, will leave South Africa during the last week of October. The authorities have decided to limit the number of colonial troops who are to be the queen's guests in London to 500.

It is estimated, according to the Pietermaritzburg correspondent of The Daily Mail, that from 4,000 to 5,000 Boers have retreated from Pilgrim's Rest, northeast of Lydenburg, with four Long Toms and 22 other guns. The correspondent understands that their Long Tom ammunition is almost exhausted.

Trying to Surround Boers.

CAPE TOWN, Oct. 9.—The Boers now occupy Wepener, as well as Rouxville and Ficksburg, in Orange River Colony, and the British are attempting to surround them. The Cape house of assembly has passed to a second reading a bill to raise a loan of £500,000 to insure the immediate payment of half the losses sustained by private persons through the war.

Floods in Mexico.

TAMPICO, Mexico, Oct. 8.—The Panuco and Tames rivers, which empty into the gulf at this place, are on one of the biggest rises in their history, and great damage has been wrought by the floods in the populous and cultivated valleys above here. At one point near Chila station, on the line of the Mexican Central railroad, the Tames river is over 50 miles wide and has swept to destruction hundreds of houses occupied by Mexican farmers and laborers. Many cases of drowning are reported. All the tributaries of these rivers in the south and eastern parts of the state of San Luis Potosi are out of their banks and have

YOUNG RE-ENFORCED.

Cavalry and Infantry Sent to Northern Luzon.

FILIPINOS ADOPT AMERICAN TACTICS.

Founder of So Called Filipino Government Released After Long Confinement—Would Not Swear Allegiance—Revision of Tariff.

MANILA, Oct. 8.—Four troops of cavalry and two companies of infantry have recently re-enforced General Young in northern Luzon, where the insurgents are concentrating in the mountains of North and South Ilocos provinces under the leadership of Aglipay, the excommunicated priest and renegade.

General Tinio and General Villanueva, who have been quiet for some time, are now showing signs of becoming active as the end of the rainy season approaches. Of late there has been considerable scouting and skirmishing in the provinces of Abra and North Ilocos, though without decisive results. It is obvious, however, that the maneuvers of the Filipinos are more skillful than formerly and that the field tactics of the Americans are being followed by them.

Senor Mabini, the virtual founder of the so called Filipino government, who was captured by the Americans last December and lodged in jail in Manila, has been liberated. As he had always persistently refused to take the oath of allegiance to the United States government he had maintained his reputation among the Filipinos as a resolute patriot. They now believe that he has reached a private understanding with the American authorities which has secured his release, and consequently he has lost some of his popularity, although he is still considered the leader of the dormant revolutionary element.

This week the commission will begin the work of revising the tariff, making use of the results of the investigation of the army board in this direction. It is the intention of the commission to give American trade a better chance than it has heretofore enjoyed owing to the high duties.

The transports Sumner and Venus have sailed for the island of Marinduque, off the west coast of Luzon, carrying two battalions. The former has already arrived there. The transport Logan will re-enforce the Twenty-ninth United States infantry, now in Marinduque.

NO TRACE OF CAPTAIN SHIELDS

Expedition Returns and a Stronger Force Goes to Marinduque.

MANILA, Oct. 9.—The expedition sent to rescue Captain Devereux Shields and the 52 men who are supposed to have been captured by Filipinos on Marinduque island in September reached Torrijos on Sept. 27. It marched into the mountains over the route which Shields had expected to take, but without securing any definite information, the natives fleeing at the approach of the rescuing party.

Some Chinamen were encountered on the march. They said that Captain Shields had been wounded in a fight nine miles north of Torrijos. After losing seven men killed, Shields' ammunition became exhausted, and his party was overwhelmed and captured. The Chinamen thought that the Filipinos might have taken the prisoners to Mindoro, an unguarded town.

General Hare, with two battalions of the First infantry, sailed from here on Saturday, determined to rescue Shields and his men and punish their captors. General reports indicate that the enemy possesses 250 rifles, including 50 Krag-Jorgensen.

Mr. Bryan in "Egypt."

ST. LOUIS, Oct. 9.—That particular portion of Illinois known as "Egypt" was pretty thoroughly canvassed by Hon. W. J. Bryan yesterday. The principal cities of 11 of the southern counties of the state and three of the congressional districts were visited and large audiences addressed at the various stopping places. Fourteen addresses were made from 7 o'clock in the morning, when the first speech at Salem was delivered, until the train bearing the nominee and his party pulled out of Alton at nearly midnight. At every meeting the candidate was greeted with hearty demonstrations. At East St. Louis Mr. Bryan and Governor Roosevelt passed each other. Governor Roosevelt addressed a meeting there, while Mr. Bryan went on to Alton.

Lipton Denies Pork Corners.

LONDON, Oct. 9.—The review that appears in The Economist this morning denies any corner in pork in Chicago. It says that the price of pork is not higher than it was a few days ago.

or than to raise food prices. What happened was simply this: I received a large government order, compelling me to keep a big stock in reserve. My buyers in Chicago bought extensively, and consequently I hold a rather bigger stock than usual. It is legitimate business to execute my contracts, and their execution will not affect the American public at all. I object to corners on principle."

Two More Treasure Ships.

SEATTLE, Oct. 8.—Two hundred and thirty-three Alaska and British Yukon passengers came on the steamers Humboldt and Alki, which arrived from the north Saturday. As cargo the vessels had \$250,000 of treasure. Twenty of the Humboldt's 117 Klondike passengers owned the bulk of that vessel's cargo of gold. Mrs. Barrett, the wife of a successful Circle City operator, had a sack containing fully \$10,000 worth of dust. Charles G. Denby and Uly Gatsford, Klondike operators and passengers on the Humboldt, had each about \$10,000.

Pilgrims Crushed to Death.

ST. PETERSBURG, Oct. 9.—Five thousand pilgrims assembled at the St. Nikander monastery, in the Porkhoff district, for a religious festival. During the night one of the upper floors collapsed, and many of those sleeping there fell upon those below. A panic was caused by a false alarm of fire, and four men and 36 women were crushed to death, many others being seriously injured.

Passion Play Profitable.

BERLIN, Oct. 5.—It is announced that there were 20,000 spectators at the forty-eight productions of the Passion play at Oberammergau. The admission receipts totaled 1,200,000 marks, and it is estimated that the villagers received from the visitors about 4,000,000 marks.

"THE SHEPHERD PSALM."

The Lord's my Shepherd, and in Him I am of every good possessed; In pasturing fair, by living stream, I'm amply fed, and tranquil rest.

My wandering feet He gently leads In paths of righteousness and grace. By waters still, 'mid flowery meads His ways of pleasantness I trace.

Eternal life He gives His sheep. And justified in Him they stand; His everlasting arms shall keep And none shall pluck them from His hand.

Yea, though I walk the shadowy vale, E'en Death shall from His presence flee; Should all the hosts of ill assail, His rod and staff they comfort me.

For me a table He appoints In face of enemy and foe; My head with oil His love anoints; He makes my cup with joy o'erflow.

Goodness and mercy shall attend Each day and step life's journey through; And when earth's pilgrimage shall end, An endless home with Him ensue. —Rev. A. P. Viets, in N. Y. Witness.

ONE OF LIFE'S PROBLEMS.

Three Men Discuss Their Early Ambitions and Their Present Situation.

Two or three of the doctor's old cronies had gathered on the porch in the evening, and as the twilight fell they began to talk of the days when they were young together.

"A man very seldom can follow out his real bent in this world," said Blynn, the storekeeper, "or do the work in life for which he is best fitted. Now I ought to have been an artist. I began to draw when I was a child. I had a good eye for color. I was never happy except when I was sketching. I might have given the world a great picture—who knows? But father died, and I had mother to care for, so I went into the store as clerk. And now I am an old man and own the store. But I never shall paint the picture!"

"And I," said the squire, "I fancied when I was a boy that I could write, if I could have education and training. Thoughts used to burn in my brain, and when I wrote them down, they seemed to me so true and fine that they brought the tears to my own eyes. But the farm fell to my share, and I have spent my life with turnips and potatoes instead of pen and ink. Very comfortably, too. And yet there was something here," touching his forehead, "that never came out."

"Now I," said the doctor, laughing, "instead of joggling about the country to patients with the measles and rheumatism, ought to have lived in a laboratory and given my life to original research in science. I had the patience for it, the acute sight, and the keen love and desire for the work. I should have been happy in it, and perhaps should have made some valuable discovery."

There was silence for a little while. "It's queer!" said Blynn. "Why should men be thwarted and suffer so in life, anyhow? Why shouldn't everybody be happy?"

"I remember 40 years ago how you hated to learn your arithmetic and spelling lessons, Blynn," said the doctor. "They are useful to you now, and the old hardship counts for nothing. We suffer here to teach us patience and courage and unselfishness—lessons which we shall need in that country to which we are bound."

"But why are we given talents and tastes which we never use—I for art and you for science?" urged Blynn.

The doctor smiled. "We shall use them, too, perhaps, in that other country. Nothing is lost in God's world—not an atom; surely, no power for good in the soul. We carry them with us, it may be, as men on a voyage take garments, packed away, which they will use only when they reach the other shore."—Youth's Companion.

THROUGH FAILURE.

The Way to the Highest and Best Success in Life is in That Direction.

Nothing succeeds like failure. The successes which are made on first endeavors are few, and trivial compared to those which are the results of much experimenting and many discouragements. "The Cemetery" lies beside the government proving-grounds at Sandy Hook. It is a field in which are cast away all the waste products of the station—the guns that burst in the trial, the pieces of armor that could not resist the shell, the patent that would not work. It might be truly said that the foundation of the splendid efficiency of the American navy was laid there in that miserable mass of waste and failure. Those things gave the clear demonstration of what would not do, and so prepared the way for the navy to

block in which was a distinct and special discouragement and failure. Let us not be discouraged! If our endeavors be manly and honest, our lives may be as fruitful and useful in the things in which they notably fail as in those things which were triumphantly successful.—S. S. Times.

Patience.
Patience in its highest sense is spiritual endurance. It means the readiness to wait God's time without doubting God's truth.—A. T. Hadley.

TWO MR. JUDSON'S.
and the Young Lady Came Near Throwing Her Arms Around the Wrong One.

"We were expecting daily a dear friend of my mother's from New York. Mr. Judson, a Presbyterian clergyman," said a Second avenue girl, in the Detroit Free Press. "Of course we were delighted when, one morning, the maid announced that Mr. Judson of New York, was in the parlor. Mother was not yet attired to receive company, so she facetiously said to Minnie, the maid, 'Tell Mr. Judson that the one he most wishes to see will be down directly,' meaning me."

"Minnie returned and said that when she gave the message Mr. Judson had said: 'How?' and when she repeated it he had looked alarmed. I dare say he thought he had entered a private lunatic asylum."

"Then I went down to the parlor and was about to throw my arms around his neck. I just stopped in time to see that our caller was a strange man, young, too. Of course, there was but one thing to do—blush. I promptly did so."

"Said this new Mr. Judson: 'Evidently you thought it was some one you knew?'"

"I admitted that such was the case. 'I am introducing a work on Japanese art,' said the wretch."

"Then I was angry. 'Sir, we already have a hundred books, bought on the monthly payment plan. I would not subscribe for this one if it was ten cents a year.'"

"Well, he said, good-naturedly, a hundred is quite a number, so I suppose you will have to worry along without Japanese art. Good-morning!"

A NOTABLE CHARIVARI.

Exact Make-Up of the Extraordinary Orchestra Given by Peignet.

You read occasionally of a charivari given in honor of a newly wedded couple whose marriage is regarded as incongruous, or is for some reason unpopular, says the Musical Record. At the "skimmington," described in Thomas Hardy's "The Mayor of Casterbridge," the music was furnished by "cleavers, kits, crowns, humstrums, serpents, rari's horns and other historical kind of music." But Gabriel Peignet, in his "Histoire Morale, Civile Politique, et Literaire du Charivari, depuis son origine vers le vie siecle," gives the exact make-up of an orchestra for such celebrations in a town of from 15,000 to 20,000 inhabitants: Twelve copper kettles, ten saucepans, four big boilers, three dripping pans, 12 shovels and 12 tongues, 12 dish covers for cymbals, six frying pans and pipkins, four warming pans, eight basins, six watering pots, ten hand bells and mule bells, four strings of bells, two tambourines, one gong, one or two empty casks, three cornets a bouquins, three big hunting horns, three little trumpets, four clarinets (badly keyed), two oboes (ditto), two whistles (these will be enough), one musette, four wretched violins to scrape, two hurdy-gurdies, one marine trumpet (if you can find one), four rattles, ten screeching voices, eight howling voices, three sucking pigs, four dogs, to be well whipped.

"This is all that is necessary," adds Peignet: "I can assure you that when all this is vigorously set a-going at the same time, the ear will experience all desirable joys."

Doom kills bed bugs. It is certain in its results as the name indicates. It kills the bugs and also kills the eggs, and does not injure furniture or clothing, 25 cts. Sagar Drug store, Auburn.

PRESIDENT MITCHELL of the United Mine Workers' association has called a convention of the order to meet in Scranton today. At this gathering the terms of the operators will be considered and either accepted or rejected. It is sincerely to be hoped that the deliberations will result in a settlement of the strike.

IN HIS recent speech at Brooklyn, former Senator Hill startled his hearers with this declaration:

We stand shoulder to shoulder in this campaign; silver Democrats, gold Democrats, all kinds of Democrats, are now in favor of sixteen to one—a long pause) Sixteen votes for William Jennings Bryan to one for McKinley.

Did Mr. Hill mean that one Democrat out of every seventeen will vote for McKinley? Take the Cleveland vote of 1892, and subtract 6 per cent from it, adding the 6 per cent to the Republican vote, and then figure out how many states Bryan would carry on that basis.

The Teachers' Institute.

One of the most successful teachers' institutes ever held in this district occurred at Moravia last week. An excellent program was thoroughly enjoyed by a large number of teachers from all parts of the district. Through the courtesy of the Moravia Republican we are able to show a likeness of the popular and efficient commissioner Edwin S. Manchester.

Mr. Manchester is a native of the town of Scipio, where his entire life has been passed with the exception of his past two years' residence in Moravia. His early school work included the district school, the Sherwood Select school and the Moravia Union school, fitting himself for teaching and following that vocation successfully for fourteen terms. This district school teaching proves of great benefit to him in the work which he has since been called to perform. In 1896 he was elected school commissioner upon the Republican ticket, entering upon his duties actively and understandingly; last year he was re-elected.

Mr. Manchester has under his supervision 129 school districts, employing 151 teachers. Twice each year these schools are visited by the commissioner, who thus keeps familiar with the educational work in his district. We feel sure that few schools in the state rank higher than those of Southern Cayuga.

Those who registered at the institute from this vicinity were:

Venice—Jennie Andrews, Elizabeth Bruton, Mabel Beebe, John Cahalan, George Guindon, Alden R. Sherman.

Ledyard—Clarence Baker, John W. Corey, Mabel Hill, Mary Heffernan.

Scipio—Albert Baker, Lena Cornwell, Anna Cotter, Seward Parkhurst, Anna Hawley, Catherine Hanford and Clarabel Sisson.

Genoa—Emma Atwood, Flora Alting, Antoinette Bradley, Belle Bothwell, Herbert Bradley, Jennie Doyle, Katherine Detrich, Ida Haskell, Marian Ives, Isabelle Hunt, Milla Sellen, Ida M. Sellen, Mary E. Sellen, Mattie Whitney, Minnie Snushall.

Resolutions.

At the annual meeting of the West Genoa Cemetery association it was unanimously voted that a committee be appointed to offer resolutions expressing the sentiments of the association toward the late W. A. Ogden, who had always been one of its officers and most efficient member. The committee respectfully submit:

Whereas, The best traits of human character and the highest types of civilization are expressed in the manner in which we show respect to our dead and in preparing our last resting place; and

Whereas, West Genoa cemetery does express in an unequalled manner all that is beautiful, peaceful and harmonious in a rural burial ground. Its first preparation, its lawns, its walks and drives, its luxuriant trees and shrubbery, artistically arranged and carefully kept, make the whole place a fitting spot where we can leave our friends with a softened sadness; and

Whereas, We believe the late W. A. Ogden was the originator, promoter and to a large extent the completer of many of the arrangements and improvements of our cemetery; therefore be it

Resolved, That we recognize and wish to express our appreciation of the good work Mr. Ogden has done for the cemetery; its present condition is largely due to his energy, ability and perseverance. During many years he was ever ready to put his mind and hand in the work. He was first to suggest improvements and was most able to perfect them. He conceived the idea and plan of a rural cemetery, whose beauty, proportions and arrangements should be attractive and should remove as much as possible the sadness and repugnance which is usually connected with burial grounds. It is a great pleasure to us to know these plans were so excellent and have been to such an extent completed.

As an association we shall miss Mr. Ogden's advice and counsel. His ability to decide and firmness of decision has been a great help to the association; we shall miss him as a co-worker with us, and feel unequal to the responsibilities left upon us; and we also wish to express how much we shall miss Mr. Ogden as a friend and neighbor among us; his friendship was strong, lasting and substantial. To those whom he esteemed his friends he was ever ready to say an encouraging word or lend a helping hand. To those not his friends he exhibited the same firmness of character. This character was developed by the circumstances of an eventful life, full of wide, varied and unusual experiences. He never heard a mother's voice nor felt a mother's hand. As a child he soon learned he must depend upon himself and through all the years of his life this early inculcated self-reliance has been a marked trait of his character. With undaunted courage, with great ability and with unconquerable will and determination he has finished the struggle of life.

He now rests within that enclosure he has helped to make so pleasant and peaceful. Through the trees which he has watched and cared for the birds will sing in summer and the winds will moan in winter, the sunshine and shadows will come and go, but he will sleep on, and many will walk through those winding paths to his last resting place, and with the tear will say, this man was my friend, indeed. And there within the precincts of God's Acre planned and beautified by him and by others, and hallowed by many sacred memories, we leave him at rest, repeating the poet's words: "Sleep, weary one while ye may, sleep, oh, sleep."

It Happened in a Drug Store.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." It is for sale by J. S. Banker.

Our Sales

To October 1st have exceeded our most sanguine expectations; we are tickled to death at the outlook. We find Ithaca is the finest spot we've ever lived in and the people here, and surrounding towns, the most courteous, charitable and patient lot of folks we have ever attempted to serve.

About our one-price system: A good friend and neighbor selected three of our \$9 iron beds; because we would not sell them to him at a reduction, he passed us by. We are positively sure our competitors in Buffalo, Syracuse and Auburn get \$10.50 to \$12 for the same bed. We might have named \$12 to this customer and then made a confidential rebate of a couple of dollars and presumably have booked his order; but we don't do business that way.

We carry everything for the home; FURNITURE, CARPETS, RUGS, WALL PAPER, DRAPERY, UPHOLSTERY, etc., and have large shops in which to make everything to order.

—A number of Genoa folks attended the Republican meeting at Sherwood last Thursday, among them being J. S. Banker, R. Shurger, G. A. Ward, S. E. Smith and W. D. Mastin. A load of enthusiasts also went over to King Ferry Monday evening and reported a good speech and pleasant time.

—A very pleasant and interesting missionary tea was held at the home of Mrs. F. C. Hagin by the ladies of the Presbyterian Missionary society last week Thursday from 2 to 5 p. m. The subjects on the program were "Persia" and "The Mormons." At the close of the program, dainty refreshments were served.

—Squire Howe has established a new apple record which will probably stand for some time. He brought to this office 40 apples, greenings and a few kings, which filled a half bushel basket, weighed 27 pounds, and when placed side by side in a straight line measured 12 feet. The average diameter of the apples was 3 3/5 inches and the average circumference 11 3/10 inches. Next?

—Wayne Gallup of Venice died suddenly Saturday morning at the home of his niece, Mrs. Mary Wallace near Venice Center. Mr. Gallup rose that morning apparently in good spirits and feeling well. He was just about to join the rest of the family at breakfast when he suddenly sank in a chair and died within a few minutes. Heart trouble is assigned as the cause of death. Mr. Gallup was in his 83d year, having been born in Albany county, Feb. 21, 1818. For the past sixty years he had been one of the most prominent characters in the southern part of Cayuga Co., where he had large real estate holdings. The deceased had never married, and he is survived by one brother, Silas N. Gallup of Macedon, N. Y. About a year ago he became involved in an extended litigation over the disposition of his property. This litigation was finally settled last spring by the conveyance of all his property to William S. Elder as trustee.

Attorney Arthur M. Seekell of Union Springs, N. Y., who has become well known to the people of Genoa by reason of his monthly trips here on his insurance business, has decided to open a law office in Genoa and has arranged to occupy, for a time, the room heretofore occupied by Byron Hunt, over Mastin's store. Commencing on Wednesday, Oct. 17th, and on each Wednesday thereafter Mr. Seekell will be in the above mentioned office where he will be prepared to do all kinds of insurance work and to attend to anything in the practice of law, and he respectfully solicits the patronage of the community. Mr. Seekell informs us that he is particularly desirous of securing the very best class of work, his specialty being Surrogate's Court practice. Mr. Seekell needs no introduction to the people of Genoa and it is to be hoped that he will be patronized liberally enough to induce him to make his Genoa office a permanent thing. Remember next Wednesday is the first day.

—Wood wanted at this office.

—Rothschild Bros. make some great offers in their space this week.

—Edwin Snyder of Venice Center was in this village on business Thursday.

—Owing to an extra amount of work on hand this week, THE TRIBUNE is some hours late; for which we extend an apology.

—A telephone message this morning announced the sudden death of A. E. Holley at the Empire House, Auburn, at 1 o'clock last night. The arrangements for the funeral have not yet been made.

—As will be seen in another column, the firm of Mastin & Hagin, dealers in general hardware, has been dissolved, and the business will be continued by F. C. Hagin, who has purchased the stock. Mr. Hagin needs no introduction to the trading public, having been a popular clerk at Mastin's big store several years before engaging in business for himself, and being an obliging and reliable man to deal with, we bespeak for him a good share of the public patronage in the hardware line.

For sale, a farm of 45 acres situate 1/2 mile east of King Ferry post office. Am anxious to sell this place and will make it an object to prospective purchasers. 15jl G. W. SHAW, King Ferry.

Wedding.

At Moravia on Oct. 4th, at 6:30 p. m., a very quiet wedding took place in the parlors of Father McGrath, where Miss Kittie Clyde Tighe and Mr. J. B. Young were united in the bonds of matrimony. The wedding was attended by only a very few relatives and friends of the bride and groom. The bride was very elegantly attired in silver gray satin, trimmed with lace, diamonds and pearls, with a few white roses, also carrying a bouquet of white roses and smilax. The bride was attended by her sister, Miss Maggie Tighe, who was handsomely attired in green reseda silk, trimmed with Renaissance lace and pink roses, also carrying a bouquet of pink roses. Mr. Thomas Tighe acted as groomsman. After congratulations, the party repaired to the residence of the bride and groom where a sumptuous repast awaited them, and all had a very enjoyable time. After the supper was served the bride and groom departed on the evening train for an extended tour.

CONVENTION CALLED

President Mitchell Appoints a Meeting at Scranton.

PROBABLE OUTCOME A SETTLEMENT.

Quietness Prevails in the Anthracite Coal Regions—Miners Pleased at the Prospect of an Early Adjustment of Differences.

PHILADELPHIA, Oct. 9.—President Mitchell issued his call yesterday for the much talked of miners' convention to consider the operators' offer of a 10 per cent increase in wages.

The convention will be held at Scranton and will open on Friday next. Representation in the convention will be on the basis of one delegate with one vote for each 100 persons on strike.

It is the general expectation that the decision of the convention will be to accept the increase and return to work.

Quietness prevails throughout the anthracite region, the call for the convention being generally accepted as a signal for cessation of hostilities all around. There are many expressions of satisfaction by miners and operators and by merchants and others in the mining settlement over the prospects of an early settlement of the troubles.

Yesterday completed the third week since the strike officially went into effect.

The miners will have parades and mass meetings at Shamokin today and at Scranton on Wednesday. President Mitchell will be in attendance and is expected to speak at both places.

ADVANCE WILL BE ACCEPTED.

It is Considered Likely That Miners Will Not Hold Out Longer.

HAZLETON, Pa., Oct. 9.—The issuing of the call by President Mitchell of the United Mine Workers of America for a joint convention of the anthracite miners to be held at Scranton beginning next Friday for the purpose of deciding whether to accept or to reject the 10 per cent net increase in wages offered by the operators is a long step in the direction of bringing the great coal miners' strike to a close. Genuine satisfaction is expressed by both miners and persons not directly connected with the coal industry that the contest is approaching an end. Business throughout the entire anthracite coal field is practically at a standstill, and it will take some time before normal conditions will again prevail.

It is believed the convention will not be a long one, as it is expected the strikers will almost unanimously accept the advance in wages. There is, however, a possibility that by the introduction of a proposition to abolish the sliding scale and another to have the operators agree to a yearly wage contract the termination of the strike might be somewhat delayed.

Delaware and Hudson Yields.

WILKESBARRE, Pa., Oct. 9.—Notices are posted at all the Delaware and Hudson collieries offering an increase of 10 per cent net to the company's men. The notices are the same as those issued by the other companies. This makes the prospect of a speedy settlement of the strike much brighter. The Pennsylvania is now the only coal carrying road whose coal company, the Susquehanna, has not agreed to advance the wages of the men, but such action is expected in a day or two. Few of the individual operators are holding out, the Pennsylvania Coal company, with 8,000 employees, being the largest and the Kingston, with 3,000, and the Parrish, with 2,000, being next in size.

Panther Creek Mines Running.

LANSFORD, Pa., Oct. 9.—All the mines of the Lehigh Coal and Navigation company went to work as usual yesterday morning, and the 8,000 miners showed no evidence of weakening. Collieries 8 and 11 at Coaldale are short handed, the loaders being on strike. This is the first break in the ranks. Many labor leaders are in the Panther Creek valley trying to organize the miners.

Akron Rioters Indicted.

AKRON, O., Oct. 6.—The special grand jury called to investigate the rioting on the night of Aug. 22 has completed its sessions after continuous sittings for five weeks. Sixty-six true bills were found and 45 indictments returned, a number being indicted on two or three counts. The crimes charged are rioting, arson, dynamiting, burglary and shooting with intent to wound and illegal use of firearms. The majority of those against whom indictments were found are mere boys or dissolute characters of the town.

Zionist Dowry in London.

LONDON, Oct. 8.—Zionist Dowry opened his campaign in England last night at Holborn town hall. He told his hearers that he had come to give London a spanking and intended to wage relentless war against the Church of England. He denounced the archbishop of Canterbury as an incompetent and said his place ought to be filled by somebody who could manage it. Some of the listeners quizzed Dowry, and he lost his temper. He said he would not tolerate interruptions, and one questioner was ejected.

Skeletons Unearthed.

BOSTON, Oct. 6.—Workmen employed in digging a trench between two of the timber sheds at the lower end of the Charlestown navy yard unearthed several human skeletons. The remains were found beneath a large tree only a short distance from the old timber dock. The officers of the navy yard are wondering where the skeletons came from. One theory is that the skeletons are those of British soldiers who were killed at the battle of Bunker Hill.

The Wisconsin Is Fast.
SAN FRANCISCO, Oct. 6.—A record

nita light, 806 miles, in 59 hours. The steamer Queen, which has the reputation of being the fastest boat on the coast, arrived from Seattle the night before, having made the voyage in 65 hours. The Wisconsin's average speed for the run was 14 knots.

A New World's Trotting Record.

CLEVELAND, Oct. 8.—At the Glenville track Saturday afternoon Cresceus made a new world's record for trotting stallions by going a mile in 2:04, which beats his own previous record by three-quarters of a second. Cresceus did the mile without a slip, his time by quarters being 0:31 1/4, 1:01 1/2, 1:33, 2:04.

NEEDY CUBANS AIDED.

General Wood Grants Funds to Santa Clara Province.

HAVANA, Oct. 9.—Governor General Wood, who has just returned from a tour of investigation in the province of Santa Clara, reports only a partial recovery from the effects of the war in that section of the island. Although he found no actual want in the district of Sancti Spiritus, for instance, there was great need of assistance to alleviate agricultural stagnation. This was asked for by the municipality of Sancti Spiritus and has been granted by General Wood from the insular fund.

General Wood will leave for the United States during the present week, returning to Havana about Oct. 25.

Cattle for breeding purposes from Central America and Jamaica will be imported into the eastern districts of Puerto Principe province and the western part of the province of Santiago. The importation will be at the expense of the government.

Mr. Martin C. Fosnes, acting director general of posts, was removed yesterday to Las Animas hospital, suffering, it is believed, from yellow fever.

Homes For Galveston's Homeless.

GALVESTON, Oct. 8.—By action of the central relief committee \$50,000 was appropriated for repairing wrecked homes and \$100,000 for building homes for those whose homes were completely destroyed. The recipients of this assistance are to be determined by the building committee. Ten thousand dollars was appropriated for the purchase of tools, sewing machines, etc., for persons who are able to support themselves, but are unable to buy tools. A dispatch from Dallas says Governor Sayers will turn over \$30,000 cash to the relief committee for the mainland sufferers by the September gulf hurricane. A movement has been started to petition Governor Sayers to use \$150,000 cash of the \$2,000,000 surplus in the state treasury to aid Galveston and coast sufferers generally and to petition the legislature to indorse this action of the governor if he takes it.

Fight With Enraged Bull.

NYACK, N. Y., Oct. 9.—Alonzo Stevens of Spring Valley is in a serious condition from being tossed 15 feet in the air by a bull on Lawyer E. T. Lovatt's farm. Stevens was crossing a lot when the bull rushed toward him, caught him with his horns and threw him high in the air. When the man came down, he landed on the bull's neck and tried to stay there, but the bull threw him off and then put his front foot on his breast and started in to trample the man to death. A farmhand who had heard Stevens' cries arrived on the scene with a rail and drove the bull off just in time to save the man's life, but he was badly mangled and was carried off the field unconscious.

Roosevelt in Illinois.

CHICAGO, Oct. 9.—Governor Roosevelt yesterday made a tour of Illinois. His special train left the Polk street depot at 7:15 o'clock in the morning and made the first stop at Joliet. The workmen in the steel mills had an opportunity to hear the governor and go to work after the speech instead of at 7 o'clock. The next stop was at Streator, and there the governor was met by excursionists from all directions. His train made stops at Peoria, Lincoln, Springfield, Jacksonville, Litchfield and Alton on the way to East St. Louis, where a night meeting was held.

Hill to Speak in the West.

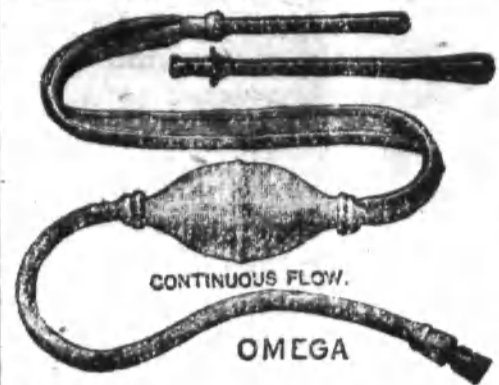

CHICAGO, Oct. 9.—Former Senator David B. Hill of New York, it is unofficially announced at Democratic national headquarters in this city, will take an active part in the presidential campaign in the west. At the request of the Cook county Democratic committee Senator Hill has consented to make an address at a meeting to be held in Chicago Oct. 13. He will also be the principal speaker at the meeting of Oct. 19. Between those dates Senator Hill will make several addresses at various towns in Indiana.

Earl W. Smith of Cortland is under arrest, charged with uttering the spurious checks recently appearing upon the Cincinnati bank. In his examination he implicated Bert L. Cooper of Pitcher as an accomplice and Mr. Cooper was put under bonds, furnished by his father, Robert Cooper, to appear before the grand jury for its action. He is believed to be innocent. Smith subsequently made another affidavit, affirming Cooper to be innocent and saying that Frank Wiles of Cincinnati was the accomplice. Mr. Wiles was arrested and taken to Cortland where he was examined. He is quite satisfactorily identified by Wm. H. Crane of the Homer bank, who cashed one of the checks, as the man who gave him the forged check.
