Gen. Douglas and the Goward

General Henry Kyd Douglas, soldier, jurist, statesman and social lion, added to his long and interesting career of versatility last summer by winning great applause and golden comments at a fashionable cakewalk given at one of the Northern resorts. There is very little that General Douglas cannot do. He was the Chief of Staff under Stonewall Jackson and learned the art of war from that great general. He was called one of the most fearless and dashing riders in the whole Southern army.

Among the stories he tells of his army experience is that of the bravest man he ever knew. He saw a young fellow start to run, then halt, and go forward, marching into what seemed to be the very jaws of death. He expected as a matter of course that he would be killed and gave no more thought to him until after the battle. Riding over the field he recognized the rash youth. He asked him what had impelled him to do such a brave thing. The reply, after some hesitation, was as follows:

"Well, Colonel, it was just this way. I am the worst coward on earth, and I started to run, and I intended to keep on running till I got home, but all of a sudden the face of a little girl rose before me, and when I saw her eyes I knew I just had to fight, and then I waded in and did my best."—Saturday Evening Post.

What Determination Did.

When young Stonewall Jackson, one of the most awkward, ungainly, and, seemingly, unpromising youths that the South has produced, heard of a vacancy at West Point, he immediately went to Washington, determined to get the appointment, and he got it.

When he reached West Point, the other boys laughed at him, but one of them, with more penetration than his companions, said: "That fellow looks like he's come to stay." He did stay.

He worked hard, economized, and saved enough from his cadet's pay, after covering all expenses, to buy his sister a silk dress.

The world knows what battles he fought, what victories he won, in the last years of his life.

It was determination that gave to history this splendid name.—October "Success."

Whereas, God who doeth all things well has seen best in His infinite love and wisdom to take from this world to Himself, the little child of our brother, J. S. Stubblefield; therefore be it

Resolved, That the officers and members of Sherwood lodge tender to Brother Stubblefield and his wife our heartfelt sympathy and love. We are sad and also glad to do so. Sad for them in this hour of their trial and bereavement, and we would commend them to God whose grace he has promised "shall supply all needs." Glad that we may offer this little tribute of respect to one who is so highly esteemed in our order.

Resolved, That while we realize how futile are words alone to pour the oil of healing into such wounds as these, yet we remember that He who said "Suffer the little children to come unto me and forbid them not" hath reached forth His hand and transplanted this tender bud, henceforth to bloom eternally in His kingdom.

Resolved, That a copy of these resolutions be given to the family and that they be entered on the lodge journal.

Elaborate designs have recently been completed for the Electricity Building for the Pan-American Exposition, to be held in Buffalo, N. Y., May 1 to Nov. 1, 1901. Displays of all kinds in the practical and artistic uses of electricity, together with complete exhibits of electrical machinery and appliances, are to be conspicuous features of the great Exposition. The designs contemplate a very handsome and commodious building. The structure is to be 500 feet from east to west, and 150 feet wide, giving an exhibition space of 75,000 square feet. The South Facade fronts The Mall and the north fronts the Midway. The east end is toward the massive Electric Tower, while the west faces the Grand Canal. The building is long, low and inviting. The design of the facades shows artistic grouping. The openings of the pergola-like loggias, placed at frequent intervals, present a delightful effect, showing more and more of the details of the pilasters and openings as the eye travels to the end of the building farthest away from the observer. There is a pleasing ending at each corner of the structure, with a low-domed pavilion tower, and the building is interrupted at the center by a double-towered entrance. This entrance, wide and high, is spanned by an ornamental arch and supported on each side by columns. The towers, also, have minor entrances through them. The connecting work between the towers, the towers themselves, the pavilions at the corners of the building, and similar places, are to be brilliantly illuminated and made gay with banners and flags. The modelled relief work of the building is of the choicest design. The general color scheme follows that of the Machinery and Transportation Building and other groups of buildings of the Exposition. The structure was designed by Green & Wicks of Buffalo.

CAMPAIGNERS BUSY

Roosevelt Goes From Kentucky to Ohio.

BRYAN LEAVES OHIO FOR NEW YORK

Big Reception For the Democratic Candidate in the Metropolis Tonight—A Tour of the State Will Follow.

COVINGTON, Ky., Oct. 16.—Addressing one of the largest crowds that has ever assembled in this city to listen to a candidate for public office, Governor Theodore Roosevelt last night closed his campaign in Kentucky and today will proceed on his tour of Ohio. Long before the governor's arrival here Courthouse square, in which the speaker's stand had been erected and decorated, was congested with men and women anxious to hear him. The vice presidential train reached Covington at 6:30 p. m., and until 8 o'clock, the hour of speaking, the governor was the guest at dinner of Richard P. Ernst at the latter's residence. The governor was given the most respectful attention during his speech, and he was interrupted frequently with applause or by persons who made friendly comments upon different points in his address.

Governor Roosevelt's special train, which stood at Spring Station, near here, all day Sunday, was hauled into town early yesterday morning, and the governor spoke a few words to a crowd before starting for Winchester on his last day's work mapped out for him, speaking at the following places: Lexington at 6 o'clock; Winchester, 8:45 o'clock; Mount Sterling, 9:30 o'clock; Morehead, 10:45 o'clock; Ashland, 1 o'clock; Greenup, 2:26 o'clock; Vanceburg, 3:40 o'clock; Maysville, 4:45 o'clock; Covington, 8 o'clock.

MR. BRYAN IN OHIO.

Brilliant Reception at Cleveland—A Visit to McKinley's Home.

CLEVELAND, Oct. 16.—The reception tendered to Mr. Bryan in this city last night was one of the most brilliant he has received on his entire tour. The Central armory, holding many thousands of people, where he made the first speech of the evening, was filled to the point of suffocation, and Bond street, a broad thoroughfare leading from the Hollenden hotel and along which Mr. Bryan was to pass to reach the armory, was so densely crowded with people that it was difficult to get through the mass. Mr. Bryan arrived at the armory at 7:30, and when he entered the hall a vast majority of the people in the building rose as one man to greet him.

Mr. Bryan yesterday invaded the heart of President McKinley's and Senator Hanna's country. Leaving Akron early in the morning, his first stop was at Canton, the president's place of residence, and later in the day he made a brief speech at Niles. The stops at Canton and Niles were incidental, and the crowds were small at both places. The only important day meetings were those at New Philadelphia and Youngstown.

Big Greeting Planned.

NEW YORK, Oct. 16.—Preparations on a scale the like of which has seldom been seen in New York have been made for the reception of William Jennings Bryan, the Democratic candidate for president, in this city today. East side, west side—in short, the whole city—has been active in making ready for the event and to hear the several speeches Mr. Bryan is to deliver during his brief stay in the metropolis. All roads lead to Madison Square Garden, the scene of the principal speech Mr. Bryan is to make tonight. Here the doors are to open at half past 5 o'clock, although the meeting does not begin until 7, and it is thought the capacity of the great structure will be taxed to its utmost. Mrs. Bryan is preparing to actively enter the campaign and will join her husband here

Hanna in the Northwest.

MADISON, Wis., Oct. 16.—Senator Hanna began his speechmaking tour of the northwest yesterday by making six addresses in Wisconsin, two of them of some length. The principal addresses of the day were made at Wausasha, Wis., where the special train carrying Senators Hanna and Frye and other Republican leaders was held for over an hour, and at Madison. At each of these places Senator Hanna made two addresses. Short speeches were also made at Racine Junction and Racine. Senator Hanna was everywhere greeted by immense crowds.

The "Prohibs" in Western New York.

ROCHESTER, Oct. 16.—The Prohibition special train arrived here at 8 o'clock last night, having made a total of ten stops on the run from Buffalo. Presidential Candidate John G. Woolley and party were received at the station by several hundred of the local Prohibition union and Walsh's band. After a short automobile ride through the down town district the party was conveyed to Fitzhugh hall, where an enthusiastic crowd of over 3,000 persons was assembled.

An Important Discovery.

ROME, Oct. 16.—An important archaeological discovery has just been made at Bosco Reale, where were found the famous treasure vases which Baron Rothschild presented to the Louvre in Paris. It consists of a large edifice belonging to a period prior to Pompeii whose walls are decorated with frescoes of great beauty and in a state of perfect preservation. Emperor William has offered the owner of the property where the discovery was made a large sum for the paintings, at the same time requesting King Victor Emmanuel to facilitate the purchase. Italian archaeologists are agitating to prevent the treasures from leaving the country.

Sun Yat Sen Takes a Town.

HONGKONG, Oct. 16.—Sun Yat Sen, according to reports from Canton, has taken the town of Kin-shan, on East river, and is now investing the prefectorial city of Hui-chou. A force of imperial troops from Canton was defeated by the reformers, 200 being killed. The advisers say also that there is great activity in Canton in preparation for dispatching troops to the disturbed districts.

"Mark Twain" Back From London.

NEW YORK, Oct. 16.—Among the passengers who arrived last night is quarantine on board the steamer Minnehaha were Mr. S. L. Clemens, Mrs. Clemens and the Misses Clemens.

LABOR STATISTICS.

Wages Higher in This Country Than Ever Before Known.

WASHINGTON, Oct. 15.—Hon. Carlisle D. Wright, commissioner of labor, has issued a bulletin giving a summary of data in a previous publication on "Trusts and Industrial Combinations," showing the rate of wages in various occupations for a period extending back in most cases from the present year to 1891. The data was secured directly from the pay rolls of establishments in all sections of the country. The information contained pertains to 148 establishments, representing 26 industries and 192 occupations. Those items for which data for the whole period were not given were excluded from consideration in the summary.

All the data included, except those for mining, relate to manufacturing industries. The data relative to steam railroads and street railways having been excluded from the summary. The bulletin says that while the data from which the table of wages was prepared do not afford the basis for a strictly scientific calculation of relative wages a careful examination of the figures leads to the belief that they are fairly representative and undoubtedly approximate very closely the actual conditions for the whole country. The summary shows as follows: The average of wages for 1891 being taken as a basis:

Year.	Relative wages.
1891	\$100 00
1892	100 30
1893	99 32
1894	98 06
1895	97 88
1896	97 93
1897	98 96
1898	98 79
1899	101 54
1900	103 43

NEW POLAR EXPEDITION.

To Be Fitted Out in New York and Commanded by E. B. Baldwin.

NEW YORK, Oct. 13.—William Zeigler, a well known and wealthy citizen of New York city and large interests in Brooklyn, announces that he will purchase two vessels, fully equip and man them and send them in quest of the north pole during the summer of 1901. The expedition is to be in charge of Evelyn B. Baldwin, who was a companion of Lieutenant Peary in his attempts to reach the pole in 1893 and 1894 and also a member of Walter Wellman's expedition.

It is Mr. Zeigler's intention to have one vessel remain in the arctic regions while the other returns for supplies. The expedition, it is said, will not be dispatched for the north earlier than the summer of 1901, and all the time between this date and that will be necessary for preparation. Ships may be purchased, though vessels better adapted for the work may be built.

Typhoon in China Sea.

TACOMA, Oct. 15.—A typhoon caused great damage last month on the coasts of Formosa and southern China. A number of towns were destroyed. Nineteen hundred houses were washed away or inundated at Taipei, Formosa, and many lives lost. The Japanese steamers Faichian Maru and Seiko Maru went ashore at Taipei and sustained serious damage. The French cruiser Kersaint was blown ashore in Hankow harbor, southern China, and her steering gear destroyed. She was pulled into deep water, and after temporary repairs proceeded to Saigon.

New Coal Mines.

PITTSBURGH, Pa., Oct. 12.—The Pittsburg and Buffalo Coal company has opened one mine near Cannonsburg, Pa., and is arranging for the opening of two more at the same place. Yesterday the company let contracts for mining machinery aggregating over \$500,000. This machinery is to be placed in the two new mines. The Pittsburg and Buffalo company is also developing coal territory at White Rock on the Alleghany Valley railroad.

The Wisconsin Beats All.

SANTA BARBARA, Cal., Oct. 12.—The battleship Wisconsin gained new laurels for her builders, the Union Iron works of San Francisco, on her trial trip in Santa Barbara channel by exceeding her contract speed of 16 knots and making the best record up to date in her class. It is announced that the Wisconsin made 17.25 knots, exceeding the best previous record of 17.1 knots made by her sister ship, the Alabama.

A Novel Claim.

KINGSTON, N. Y., Oct. 16.—For feeding his mother's cats Ernest Hutchings of Esopus, administrator of his father's estate, credited himself with over \$100 in paying her a \$300 legacy in the surrogate's court. There were five cats, and he says that he boarded them for about three years and should be allowed 10 cents a week. The account will be contested.

Coal and Gas Discovered.

ST. JOSEPH, Mo., Oct. 15.—Coal and gas in paying quantities have been found east of this city at a depth of a little more than 1,000 feet. The gas will be piped to the city at once if the supply holds out, as it promises to do. A vein of coal that may reach two feet in thickness was found.

King Oscar Ill. STOCKHOLM, Oct. 16.—King Oscar is confined to his bed with bronchial catarrh, complicated by an accretion of phlegm in the right lung.

"For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says M. E. Lowther, clerk of the district court, Centerville, Iowa. "I thought I should surely die, and tried a dozen different medicines but all to no purpose. I sent for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely." This remedy is for sale by Banker.

FRESH FROM BORNEO.

The Guricoola is a Curious Addition to Philadelphia's Zoo—Lives Largely in Trees.

A missionary in Borneo has just sent a guricoola to the Philadelphia zoo. The little creature is one of the queerest creations in the animal kingdom, and just how to classify it is the problem. At first glance it greatly resembles a monkey, but many radical differences are soon apparent. The guricoola lives largely in trees, and it feeds on small birds. In this respect it differs from the monkey tribe, while another and very apparent difference is its snakelike tail, which is fully eight feet long. This remarkable appendage, when not used in assisting its owner to travel, is carried in a neat, nauticallike coil. When the animal wants to climb a tree it shoots the coil out, larlot fashion, catches the nearest limb, and shins up its own tail with amazing rapidity. Once among the branches, another cast is made, and up goes the guricoola like a spider climbing his thread. So deft is the creature at lassoing that the tallest trees are ascended in a jiffy, and the absence of noise in the operation makes it easy to take the feathered tribe unawares. Ancient scientific writers have casually mentioned the creature in their works, but owing to the inaccessibility of the region whence they come, and the rapidity of the animal's movements, a study of the species has not much enriched natural history. The animal now in the zoo at Philadelphia is the first known specimen in captivity.

GENIUS AMONG COLORED MEN

William Dean Howells Pays a Well Merited Tribute to Several Notable Negroes.

It appears William Dean Howells has come to occupy a position of patron saint of the negro in his artistic endeavors, and to be, as it were, a "discoverer" of the colored man struggling toward artistic achievement, as was Dr. Robertson Nicol, of the "kail yard" novelist some years ago, says the New Orleans Picayune. He has recently found much to commend in Charles W. Chestnutt, the author of "The Wife of His Youth" and "The Conjure Woman," and, speaking of Mr. Chestnutt and of the "colored people," who are almost or quite as white as the palest Caucasian (and Mr. Chestnutt is one of these), he has recently said: "They need not be ashamed of the race from which they have sprung and whose shame they share, for in many of the arts it has already been shown, during a single generation of freedom, gifts which slavery apparently only obscured. With Mr. Booker Washington, the first American orator of our time, fresh upon the time of Frederick Douglass, and with Mr. Dambor among the truest of our poets; with Mr. Lewis, a black American out of the only three Americans from whom the French government ever bought a picture, Mr. Chestnutt may well be willing to own his color."

LIVE SNAKE FOR WAIST BELT.

The Peculiar Experience of a Young Woman on a Maryland Farm.

A singular but well-authenticated snake story comes from Pleasant Valley, Md., the principal actors in which were the snake and Miss Cora Legore, a domestic employed by Frederick G. Yingling, a well-known farmer residing near that place. Miss Legore went to the barn to milk the cows, as was her customary duty. She did not return as promptly as usual, and, becoming uneasy after a time, Mrs. Yingling sent some one to the barn to look for her. She was found lying in a dead faint in a cow stall, and upon being revived appeared dazed and frightened. Finally she became sufficiently composed to tell the cause of her unconsciousness. She said that while milking she felt something moving about her clothing, but supposed it was a cat, until she felt a constriction about her waist, and she found herself looking into the eyes of a snake which had wrapped itself about her and reared its head in front of her face. She was too much frightened to notice what sort of a serpent was thus confronting her, but, striking at it with her hand, fainted away. When she was found the snake had disappeared.

SCORCHERS NOT COMMON.

Reckless Riders of Bicycles on Crowded Thoroughfares Are Now Seldom Seen.

Along with the decline of the bicycle, or rather the wearing off of the craze for the wheel while the people take to it seriously as a means of locomotion, has come an absence of the scorcher. The reckless hoodlum who, astride of a wheel, went at break-neck pace along the crowded Sunday streets, knocking down men and women and frightening children, is now seldom seen. Four years ago it was a common thing for a creature of this sort, and it was not always a man, either, to be the

subtle poison in the gum they chewed, these people ran amuck frequently, and it was not uncommon for as many as 50 to face the police judge Monday morning in answer to any charge from mayhem to murder. But only a small proportion was ever arrested. A far greater number got away to do damage elsewhere.

But even these apparently insane and irresponsible people have sobered down, and to see a bicycle going at more than a moderate speed is an unusual thing.

Quinine for Colds.

Many people who use quinine for the cure of colds say that the effect of this drug is more disagreeable than the disease. Krause's Cold Cure is prepared in a convenient capsule form, and will cure the most deeply-seated cold in 24 hours without any interruption to business. They are pleasant to take and give you a clear, fresh sensation while operating. Price 25c. Sold by Banker.

Long Distance Tickets.

Distance is a thing of the past. When stage coaches lumbered through woody roads, the far West stopped at the Niagara River and all beyond was as dark as the middle of Africa. Nowadays a man desires to go suddenly to Japan. He buys a ticket, a simple, grey slip of yellow-backed paper, and in a month he is there, sprightly, well cared for and safe. Modern travel is an exact science.

These things were proven yesterday in Rochester. A well known business man hurried into the New York Central ticket office at 1 o'clock in the afternoon. Agent Kalbfleisch was at the desk.

"I wish you'd reserve me two berths on the Hong Kong Maru for Kobe, Japan," said he. "She sails August 29th from San Francisco."

Mr. Kalbfleisch made a brief note. "All right," he replied. "Come in about 5 o'clock. Looks like fall, doesn't it; so cold?"

At 4:19 o'clock Mr. Kalbfleisch received a telegram from San Francisco. It read "22." This meant that Agent Avery, of the Oriental Steamship Company, had received his order and reserved stateroom 22 for the two gentlemen from Rochester. At 5 o'clock the tickets were purchased. They are long, slim unostentatious pieces of paper which will carry their possessors 8,833 miles in 27 days, with three changes, one at Chicago, one at San Francisco and one at Yokohama. The travelers will start tonight.

This is one of the longest distance sales made in the Rochester office since General Passenger Agent George H. Daniels brought into working form his idea of co-operative traveling accommodations. The longest passage ticket ever purchased at the Rochester office was sold for Christ Church, New Zealand, a distance of 13,000 miles.—From the Rochester Post-Express.

Literary Note.

"The Awakening South brings the Factory to the Field" is the opening feature of the October "Success." This is a splendid tribute to the New South of which Henry Grady dreamed and Benjamin Harrison prophesied. It shows that New England must look sharply to her laurels in cotton textile manufactures, there being already in operation five hundred southern cotton mills costing \$130,000,000, and using up one-seventh of the great crop of eleven million bales. Not the least agreeable feature of this showing is that 75 per cent of this capital is southern money. Miss Helen M. Gould invested \$300,000 of the remaining 25 per cent.

President Loubet gives to this issue of "Success" the story of his early life. Professor Headland of Peking University, tells of success-winning among the Chinese; Robert Barr contributes a superb railway story, entitled, "The Great Mogul;" while a brilliant coterie of writers, including Ella Wheeler Wilcox, Cynthia Westover Alden, Newell Dwight Hillis, Thomas Dunn English, Ella Van Poole, Leigh Mitchell Hodges, Romeo Hoyt Freer, Robert Mackay, Gertrude Atherton, Myrta Lockett Avery, and about twenty prominent educators, is represented.

These excellent things make "Success" a welcome visitor. It is seasonably exhibited the brown October ale were sung by Robin Hood.

HERE is another sentence from Mr. Bryan's speech of acceptance which has a decided application to those Southern states where the disfranchisement of the negro is now going on, in apparent defiance to the oft-quoted constitution: "Once admit that some people are capable of self government and that others are not, and that the capable people have a right to seize upon and govern the incapable, and you make force—brute force—the only foundation of government and invite the reign of the despot."

IN OSWEGO, the price of coal dropped to \$1.50 a ton last week. There is one dealer who refused to enter into a combine and so the other dealers propose to "cut" him out of business. Now the people of Oswego will buy their coal of the dealers in the combine for 10 or 20 cents less until the honest fellow is forced out of business and then when the prices go up how they will howl about "trusts." An instance nearer home can be cited. We all hear bad things about the Standard Oil trust. We know that they furnish in Genoa an inferior quality of oil at 9c. and that the American Oil, of superior quality can be had here for 12c. However, instead of buying exclusively American oil and thus shutting out the Standard, many of these trust and calamity howlers will buy the "trust oil" and read their anti-trust literature by a yellow light through a smoky chimney.

Dr. MacArthur on the Prayer Chain.

The Rev. Dr. Robert S. MacArthur, pastor of the Calvary Baptist church of New York, preached Sunday to a large congregation. His subject was "The Church, the Canteen and the Prayer Chain," and he said in part: "One of the incidental evils of political prohibition and of the prayer chain is that they have evoked an unpardonable intemperance of speech upon the part of their advocates. A letter has been published indorsing the prayer chain and charging the divine Lord with having made a great mistake in drinking wine and having been guilty of setting 'an example which has proved a heritage of woe to untold generations.' This language is simply blasphemous; it is equally unbecoming that President McKinley should be made the target for abuse by political prohibitionists. No president since the founding of the government has had so many great international questions to settle, and no president has, on the whole, managed such questions more wisely. Why should any American be found willing to lend his influence to dishonor his president? Why should any churchman or church-woman be ready to smirch the name of one of the noblest of sons, most loving of husbands, bravest of soldiers, truest of patriots, grandest of presidents, and humblest of Christians? Both as a citizen and a churchman I repeat such assaults on the President of the United States."

Fire at Locke.

About 4 o'clock Monday morning the store of C. D. Fuller, in the village of Locke, was found to be on fire. A call brought the firemen and citizens to the scene but the flames had made such headway that their efforts were confined to saving the adjacent buildings. The store and contents and the dwelling house in the rear were all destroyed. The damage to other property was comparatively slight. No cause for the fire has been given. It is reported that there was an insurance of \$3,500 on the property.

A lot of things happened:

1st. The new Oriental rugs began to arrive and no doubt the major portion of all lots will be here in time for our reception Saturday night.

2d. One of the carpet buyers returned from the markets, jubilant with his accomplishments there.

3d. A beautiful assortment of Bagdad rugs, throws and coverings came in Saturday; prices to be from 10 to 20 per cent less than similar goods have been bought for before. You will see some in our windows.

4th. Trade was fine last week. Our shops turned out a lot of fine Cabinet Work and special Upholstered goods; and how good it seemed to again be able to give prompt service.

5th. The "EMPIRE STATE" wishes to thank those customers who, during the rush of the past few weeks, have been more than patient. We just couldn't get goods rubbed, polished and otherwise properly prepared and promptly delivered. Not one single customer however has become indignant, and not even one impatient complaint has been made.

6th. The big purchase of wall paper which commenced to arrive last week, bought since the paper trust collapsed, enables us to sell the newest 1901 goods as low as 4c a roll; walls, ceilings and borders to match. Gills as low as 7c. Richer goods in proportion.

MINERS ARE ANXIOUS

Answer of Operators Eagerly Awaited.

MATTER RESTS WITH COAL MAGNATES

Men Will Not Return to Work Until Ordered to Do So by the Executive Board of United Mine Workers.

WILKESBARRE, Pa., Oct. 16.—The striking miners of the Wyoming valley are anxiously awaiting to hear what answer the operators will make to the demands of the Scranton convention. There is a hopeful feeling among the men that the concessions asked for will be granted, but nobody feels sure of an early settlement, and there will be no relief from the present anxiety until some definite information is received from the coal magnates in New York.

If the big coal carrying companies fall in line and conclude to accept the counter proposition made by the men, the individual operators will acquiesce, and there will be resumption of operations in a short time. The representatives of the coal companies in this section say they have no news to give out beyond the fact

PRESIDENT MITCHELL.

that the 10 per cent increase in wages offered by the companies some time ago still holds good.

One operator said last night: "This offer is still open to the strikers if they wish to accept it. It is safe to say, however, that the operators will make no agreement with the miners. In the first place, the operators have lost faith in the men since they have quite recently broken agreements made with their employers. The operators can have no assurance that in case an agreement was entered into President Mitchell would not come along some day and declare it off."

At strikers' headquarters it was given out that the men would not return to work until they had been notified to do so by the executive board of United Mine Workers. If the companies did not meet the men half way and accept the decision of the strike convention as final, the strike would go on. One of the officers of the United Mine Workers said the strikers were in good shape and could carry on the battle for some time yet without entailing much suffering to the men or their families.

Coal Roads Will Agree.

NEW YORK, Oct. 16.—The coal carrying railroads, which control most of the mines in the anthracite region, will in a few days agree to guarantee that the 10 per cent increase in the miners' wages shall be kept in effect until April 1 next. This statement is made by a high officer of one of the principal coal mining companies in this city. The independent operators in all probability will follow any action of the companies. This concession of the chief demand made by the strikers in their convention at Scranton should, this officer thought, end the struggle.

President Mitchell Silent.

HAZLETON, Pa., Oct. 16.—President Mitchell arrived at the national headquarters in this city from Scranton at 8 o'clock last night. He had nothing to say in regard to the strike situation. He declined to give his views as to what probable action the operators will take on the convention proposition.

The anthracite coal miners now on strike after a two days' convention at Scranton late Saturday afternoon decided to accept the 10 per cent net increase in wages offered by the mine owners provided they will continue the payment of the advance until next April and will abolish the sliding scale. If the operators consider the proposition unacceptable, the miners are willing to arbitrate the questions at issue. They also decided to continue the strike until the operators agree to the convention's proposition.

Goebel Law Repeal Falls.

FRANKFORT, Ky., Oct. 13.—The conference committee on the repeal bill to the Goebel election law failed to agree. The house adopted a resolution providing for sine die adjournment today at midnight. The senate adjourned to meet today, the assembly will most certainly adjourn today without repealing the Goebel law, and the election will be held under that law.

Cranberry Crop Good.

NEW YORK, Oct. 15.—The cranberry crop in the Riverhead section of Long Island is exceeding all expectation, and some beds are yielding as high as 300 bushels.

CHICAGO, Oct. 16.—Four boys have been arrested, suspected of having caused the wreck of the New York and Boston express on the Lake Shore and Michigan Southern railroad at South Chicago Sunday night, in which two men were killed and three injured.

Five Sons at a Birth.

LA CROSSE, Wis., Oct. 13.—Mrs. St. Charles gave birth to five boys yesterday. She has had 16 children in seven years, triplets and twins predominating among them.

BOERS UNCONQUERED

Lord Roberts Obligated to Postpone Return to England.

GREAT PRAISE FOR GENERAL BULLER

Unexpected Difficulties Said to Have Arisen—London Press Demands Prompt and Ruthless Punishment For Insurgent Burghers.

LONDON, Oct. 16.—The Durban correspondent of The Standard, wiring yesterday, says:

"Railway communication north of Standerton has been suspended since Thursday. There are persistent rumors of Boer attacks on the railway. Considerable uneasiness has been caused by the postponement of Lord Roberts' departure."

Commenting upon the activity of the Boers and the statement from Cape

GENERAL BULLER.

Town that Lord Roberts has postponed his homecoming, The Standard says:

"There are certain indications pointing to the conclusion that unexpected difficulties have arisen which Lord Roberts deems grave enough to demand his presence for some time to come. All the facts suggest that it is impossible yet to denude South Africa of any substantial portion of the large army now engaged in dominating a sullen and recalcitrant population."

The editorial finally calls for the severest measures against irreconcilable Boers—"prompt and ruthless punishment for every insurgent burgher caught in delicto."

The editorial concludes with the statement that "the imperial government has the country's mandate and need not be afraid to act vigorously."

A dispatch from Pretoria says that Lord Roberts, in an army order announcing the return of General Buller to England, thanks Sir Redvers for his great services while he was commander in chief of the British forces in South Africa and for the ability with which he carried out the operations while serving under Lord Roberts.

The order declares his operations "resulted in the collapse of the Boers in the eastern Transvaal."

A dispatch to The Daily Mail from Lourenco Marques, dated yesterday, says that the American bark Fred P. Litchfield went ashore there from her moorings during Sunday night's gale and was searched for gold in consequence of a suspicion that she was carrying Mr. Kruger's gold to the amount of £1,500,000.

A dispatch to The Daily Telegraph from Cape Town says that a tremendous storm there on Sunday blew a steam crane into the harbor in such a way as to block the entrance to the docks against large steamers. The accident caused several fatalities.

Fighting Near Kroonstadt.

CAPE TOWN, Oct. 15.—The Boers are very active in the Kroonstadt district. General De Wet has proclaimed that burghers who refuse to fight will be made prisoners of war. British mounted infantry, scouting from Lindley, had Captain Wiltshire killed through mistaking a party of 40 Boers in khaki for friends. Boer commandoes continually harassed the British column while marching from Lindley to Kroonstadt. The Boers captured a detachment of the Cheshire regiment which was escorting an empty wagon near Frankfort. They released the driver, but kept the wagon.

Much Damage by the Storm.

HALIFAX, Oct. 15.—Additional disasters to shipping on this coast are reported. The known list of vessels driven ashore now numbers 30, mostly owned in the provinces and Newfoundland. The loss all over the country and in the neighboring provinces through terrific rainfall and washouts and damage to orchards and buildings by heavy wind will be very many thousands of dollars. The Canadian Pacific wires connecting Cape Breton with the rest of Nova Scotia are completely broken at the straits of Canso, where the cable was fouled by a schooner dragging her anchor in the recent gale. Heavy rain fell again yesterday throughout Nova Scotia. Rivers and lakes are everywhere overflowing and destroying property. There has been no Canadian Pacific train from Montreal for four days.

Galveston Relief Fund.

GALVESTON, Oct. 15.—Hogan Sealy, treasurer of the Galveston relief fund, acknowledges receipt of contributions from Oct. 1 to 12, inclusive, amounting to \$198,552. This includes \$125,000 received through Governor Sayers and \$21,021 received through Mayor Jones. The amount previously acknowledged was \$781,043, making the total to date \$979,595.

Miss Gast Completes Her Ride.

NEW YORK, Oct. 16.—Miss Gast completed her ride of 2,000 miles at 7:05 1/2 last evening. She covered the distance in 222h. 57m., beating the record of Will Brown by 3h. 1m. At the conclusion of her ride Miss Gast was examined by two physicians, who pro-

CHINESE COURT DELAYED.

Kwang-si Rebels Said to Have Defeated Imperial Troops.

SHANGHAI, Oct. 15.—The progress of the Chinese court toward Sian-fu, the new capital, has been delayed in consequence of the presence of supposed Mohan medan rebels in the province of Shensi.

From Canton it is reported that the Kwang-si rebels have defeated the imperial troops on the borders of Kwangtung and that General Su has resigned in consequence of his request for re-enforcements being ignored.

Some Chinese soldiers desecrated the cemetery for foreigners at Nam-shih-tu, near Canton, and the viceroy had the offenders decapitated and dismissed their commander.

The Fourth brigade from India has arrived at Taku, but owing to the gale has not yet been able to land.

Sir Ernest M. Satow, who succeeds Sir Claude M. Macdonald as British minister to China, has arrived at Tien-tsin.

Minister Conger's First Letter.

BENTON HARBOR, Mich., Oct. 15.—Dr. E. L. Conger of Pasadena, Cal., arrived here yesterday and found a letter waiting for him from Minister Conger, dated Peking, Aug. 24. The letter in part reads: "This is the first personal letter that I have written since our providential deliverance. We have had a serious siege, and some time I will tell you tales that will make your hair stand. The facts have made mine stand. We are safe and well. Laura not strong, but much better than when the trouble began. Horse meat and rice was the diet she needed. The relief arrived the 14th. I have been overwhelmed with work since. Yesterday I received most touching congratulations from President McKinley and Governor Shaw. It was the first word received by any of us since the relief arrived."

Fatal Accident to Farmer and Hand.

FORT PLAIN, N. Y., Oct. 15.—As James G. De Wandelaer and his hired man, James Cook, were hauling cornstalks from the field to the barn the team of horses became frightened at a portion of the load sliding upon them and ran away, with fatal results. The horses dashed directly toward the barn, and before De Wandelaer and Cook could leap from the load the entrance was reached. The men, both greatly excited and standing erect, crashed against the upper portion of the entrance with terrific force, and of course both were hurled from the load. Cook was killed instantly, his neck being broken, and De Wandelaer was seriously injured, probably fatally, a number of his ribs being fractured, an arm broken and internal injuries received, the extent of which cannot at present be ascertained.

Bought His Bride For \$90.

NEW YORK, Oct. 12.—Frederick Pell, a boss painter, was arraigned in police court for the abduction of Ida Marx, who is less than 16 years old, to whom he was married Oct. 1. Pell further claimed that his wife's parents were aware of his legal marriage to their daughter and that his arrest was for revenge because he refused to pay an additional \$90. The magistrate believed Pell and discharged him.

The woman, Mrs. Annie Hart, on whom Schreiber spent much of the money he stole, is said to have left for the Tennessee mountains.

It Happened in a Drug Store.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." It is for sale by J. S. Banker.

Blood.

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor.

There is nothing else to live on or by.

When strength is full and spirits high, we are being refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood.

This is health.

When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood, is food, to keep the blood rich. When it fails, take Scott's Emulsion of Cod Liver Oil. It sets the whole body going again—man woman and child.

If you have not tried it, send for free sample, its agreeable taste will surprise you.
