**ALCOHOLIC HEREDITY.**  
**History of a Family of Eight Children, Whose Father Was a Hard Drinker.**

I can possibly better illustrate what the term nervous diathesis means by detailing the history of a neurotic family. Its father was a man of vigorous personality, strong of brain and in excellent bodily health. From early manhood, in order to more easily accomplish his work, he had indulged excessively in alcoholic stimulants, yet never to the extent of intoxication. The mother was a gentlewoman of delicate, nervous organization, and refined mental temperament, worrying over trifles, excitable, and, at times, suffering from the milder forms of hysteria. A family of eight children was born to them. In childhood high and frequent fevers without adequate cause were observed. Their dentition was frequently complicated by convulsions, and, at the age of two years, epilepsy developed in one of the children. Another child, delicately molded, and extremely precocious, could read at the age of three, and displayed considerable ability as a musician. She was sent to school when six, and was soon regarded as an infant phenomenon, advancing rapidly in her studies. She failed to develop physically, and early suffered from astigmatism. At the age of 12, owing possibly to a slight fright, she became choreic, improved, relapsed at the end of three months, and finally recovered except for slight habit spasms. A third child, apparently normal and giving but little evidence of any unusual nervous or physical disturbance, yet developed a megrim at the age of 16. Another daughter had always shown a certain weakness of body, a poor appetite, digestive disturbances and constipation. Puberty developed late, and the body remained ill nourished. Like the mother she was nervous, and, at times, morbid. An unhappy marriage and the too frequent bearing of children resulted in a permanent melancholia. The oldest boy was fairly bright, but proved decidedly unruly in the school, and refused a university education. He worked faithfully and untiringly, and rose to the head of a large business establishment, manifesting no bodily or mental peculiarity. The second son was excellently endowed. At an early age he exhibited marvelous activity, rapidly passing through the various grades of the common schools, and entered the university when barely 16. His university course was most brilliant. He was the honor man of his class, was an excellent debater, and led in religious work. What was given him to do he did well, but his mentality was one of doubt, and he could not decide upon his life work. He went to Harvard for a post-graduate course, then to Germany. While there he found brain concentration impossible, worried much over trivial affairs, and became very despondent. There soon developed serious stomach derangements, and he suffered greatly with intestinal dyspepsia. He returned to his home depressed, overwhelmed with morbid fears, incapable of prolonged mental efforts, and remains a confirmed neurasthenic. Another son, with very much the same history, studied law, rose rapidly in his profession, and, except for occasional dipsomaniac outbreaks, is fairly successful. The fourth son was not bright, took but little interest in his studies, shirked when possible, left school at an early age, consorted with evil companions, and seemed unable to comprehend his moral delinquencies, wandered from place to place, gambling and dissipating, and finally became a confirmed criminal. In this family group, only one became insane. The reason for this development the family could not possibly conceive, honestly denying insane heredity, yet every member of the family, except one, presented either physical or mental stigmata of degeneration.—Dr. Robertson, in Occidental Medical Times.

**Settled Rum Question.**  
Sergt. Menzies, of the Gordon Highlanders Good Templar lodge, writing from Ladysmith, says: "We had no difficulty on the rum question. We applied through our commanding officer to Gen. Sir George White for a ration of tea and sugar in lieu, and it was granted at once, and a field force order to the effect that all total abstainers in the garrison could have tea and sugar in lieu of rum was published, which was the best lift we have had, by placing temptation beyond reach of the weaker brothers."

**Star Mail Routes.**  
Postmaster General Smith has invited proposals for carrying the United States mails on the "star" or stage routes in the states of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia and West Virginia and the District of Columbia.  
The United States is divided into four sections, and every year the routes in one of these sections are let for four years. This year the contracts will be for a period from July 1, 1901, to June 30, 1905. There are a score or more of these star routes in Cayuga county, a number of which enter Auburn.  
In former years a contractor has been able to bid upon a number of these routes, but this year the advertisement requires that as a guaranty of satisfactory service the accepted bidder, whatever may be his residence at the time of bidding, must agree to live on or contiguous to the route and personally superintend the performance of the service. All these routes are run on a schedule time and each failure to keep this time means a heavy fine for the contractor.  
A provision of the advertisement for the letting of most of the star routes in a way establishes rural free delivery. The carrier of the mails on routes not excepted will be required to deliver mail into all boxes that may be erected along the route under the following conditions:  
"Any person living on or near any star route herein described, and not within the corporate limits of any town or within eighty rods of any postoffice, who desires his mail deposited in a box on the line of the route by the carrier on said route may provide and erect a suitable box on the roadside, located in such manner as to be reached as conveniently as practicable by the carrier, and such person shall file with the postmaster at the postoffice to which his mail is addressed (which shall be one of the two postoffices on the route on either side of and next to the box) a request in writing for the delivery of his mail to the carrier on the route for deposit in said mail box, at the risk of the addressee."  
"It shall be the duty of the postmaster at every such postoffice, upon a written order from any person living on or near the star route, to deliver to the proper mail carrier for that route any mail matter, except registered mail, with instructions as to the proper mail box at which said mail matter shall be deposited but no mail matter so delivered to a carrier for deposit shall be carried past another postoffice on the route before being deposited in a mail box."

**The Male Hired Girl.**  
In all of our large cities the servant girl problem is a hard nut for the householder to crack. To get good help in the house has been a well-nigh impossibility. Syracuse is trying to solve the question by engaging young men to do the work usually assigned to the "hired girl." Advancing on the idea that all the chefs and cooks in big hotels are men, and the

household duties, and, it is said, with good results. The wages offered are good and include board and rooms. The men are stronger, quicker, and can do twice the work the old hired girl could turn off. They are more accommodating, their employers say, and, just think of it, they keep better hours! Well, the women are practicing law and medicine, and entering the political field, are desiring to vote, and to usurp man's place, and possibly the poor down-trodden man, like the proverbial worm, is going to turn and take the places left vacant by the women.

So vast is the number of valuable and interesting objects for exhibition in the possession of the United States government that none but a building of great proportions could possibly contain them. Instead of one building, however, at the Pan-American Exposition in Buffalo, N. Y., in 1901, the Federal group will consist of three massive structures connected by colonnades. The main building of this splendid architectural trinity will be 130 feet wide and 600 feet long. The others will each be 150 feet square.

The Government work is under the direction of James Knox Taylor, Supervising Architect of the Treasury Department. The group will be treated architecturally in a modified Spanish Renaissance, the details suggesting a Mexican rather than a strictly Spanish origin. Like the others, these buildings will be constructed of staff, already made familiar to the public by its use at the Chicago and more recent Omaha Exposition. The color scheme, in marked contrast to that used at Chicago, will be rich and brilliant, the lavish use of color and gilding giving, with the intricate plastic decorations and sculpture groups, an ensemble both striking and interesting. Portions of the roofs, covered with red Spanish tiles, will add much to the character of the buildings as a whole.

In plan, the buildings are shaped like a letter U, the opening being toward the west. The main building corresponds to the bottom of the U, which will accommodate the greater portion of the Government exhibits, the administrative offices, guard room, etc. Its center will be surmounted by a dome, the apex of which, 250 feet above the main floor level and crowned with a figure of Victory twenty feet in height, will form one of the most conspicuous features of the Exposition grounds. Connected by colonnades to the main building are the two lesser buildings or pavilions, one of which is intended to hold an exhibition typical of life and labor in the Government's new possessions; while the other will contain a branch station of the United States Weather Bureau, and the exhibit, aquariums, etc., of the United States Fish Commission.

Inlets from the lagoon fill the spaces within the colonnades connecting the pavilions with the main building. The central plaza, the space enclosed by the arms of the U, is decorated by steps, terraces and formal flower beds, making an easy and beautiful approach to the main entrance under the dome.

### TUAN'S FALL CERTAIN

Reported Degradation of the Boxer Leader Confirmed.

### CHINA'S PEACE COMMISSION NAMED

General Jung Lu, Who Led Attacks on Foreigners in Peking, One of the Number Whom United States Will Not Accept.

WASHINGTON, Oct. 2.—Mr. Wu, the Chinese minister, has received official confirmation of the issuance of an imperial decree degrading Prince Tuan, Kangi and other officials for their actions in regard to the recent troubles in China. This information agrees with that contained in a dispatch received by the state department yesterday from Consul McWade at Canton.

The minister has heard nothing of the designation of officials reported by Minister Conger to act in concert in peace negotiations, but he has no doubt it is correct.

On reaching the department yesterday Secretary Hay had the satisfaction of finding on his desk a telegram from Robert McWade, the United States consul at Canton, confirming the issue by Emperor Kwang Su of an edict providing for the degradation and trial of Prince Tuan

that he is acceptable. Tin Kun Yi and Chang Chih Tung, named with Ching, Li and Jung Lu as peace commissioners, are the viceroys of Nanking and Wuchang. They are acceptable to the United States and, it is believed, to all the other powers. During the period of the antifeign excitement in China they co-operated with the foreign consuls of the southern Chinese ports in maintaining order in their provinces and showed pronounced proforeign tendencies. Prince Ching and Earl Li are acceptable also, so that General Jung Lu is the only Chinese plenipotentiary to whose appointment there is likely to be any objection.

### RUSSIANS TO LEAVE PEKING.

Other Troops Have Received No Orders—Rockhill Leaves the City.

PEKING, Sept. 25, via Shanghai, Sept. 30.—At the conference of generals today the Russian commander, General Linevitch, announced the immediate withdrawal from Peking of the bulk of the Russian troops and the legation. He will leave on Thursday, Sept. 27, and the legation will follow on Saturday. There will remain a mixed force of about 2,000 to represent Russia.

General Linevitch asserted that the dispatch from St. Petersburg transmitting the order to withdraw contained a statement that all the powers were adopting the same policy. The other generals replied that they had received no orders of that nature.

German and Japanese columns are operating to the southward near the imperial deer park.

Sir Alfred Gaselec, the British commander, has gone to Tien-tsin to inspect the British troops there.

Friction between the British and Russians over the railway continues, each party seizing and guarding small sections. The repairing is unsystematic and the completion of the work very indefinite.

Mr. William Woodville Rockhill, special commissioner of the United States, has left Peking with a cavalry escort for Tien-tsin. He will visit Nankin and the Yang-tse valley, examine affairs there and advise the viceroys to memorialize the throne urging the return of the court to Peking.

**Shot While Gunning.**  
FORT PLAIN, N. Y., Sept. 28.—While gunning in the Adirondacks near Benson, Hamilton county, Tuesday Edward Anibal, aged 50 years, was fatally shot by William Davenport, a boy of 12 years. It was about dusk, and Anibal was resting on a stump. Davenport, thinking the object in the distance was some bird, fired and upon hastening to his supposed game found Anibal in a dying condition. The bullet had passed under a shoulder, through the body and come out on the opposite side of the neck.

### CAPTURED BY FILIPINOS.

Captain Shields and Fifty-two Americans Taken Prisoners.

WASHINGTON, Sept. 29.—The war department has received a telegram from Major General MacArthur at Manila reporting that Captain Devereaux Shields of the Twenty-ninth volunteer infantry and 52 enlisted men were captured while making an overland march on the island of Marinduque. A number of the Americans were killed. Captain Shields was wounded.

A column has been sent out to pursue the Filipinos who effected the capture with orders not to suspend operations until the Americans have been rescued.

Marinduque is a small island close to the south coast of Luzon and is geographically and politically classed with Luzon province. The isthmus south of Manila connecting north and south Luzon is the nearest point to Marinduque.

Captain Shields is a Mississippian, who served in a Mississippi regiment in the war with Spain and was commissioned in the Twenty-ninth volunteer infantry

### SKIRMISHES IN SEVERAL PROVINCES

Insurgent Loss Estimated at Ninety Men During Past Week's Fighting—Two San Francisco Business Men Missing.

MANILA, Oct. 1.—The Filipinos in the vicinity of Manila have been more quiet of late, although last Wednesday night there were brisk attacks at Las Pinas and Paranaque, south of Manila, as well as outpost firing at Imus, Bacoor and Munting Lupa. The American officers are satisfied that the alleged amigos living in and around the towns in question participated in these attacks.

Official reports have been received of insurgent activity in Zambales province and in Batangas province. Two skirmishes occurred during the week on the Bicol river, in the province of South Camarines. It is estimated that the insurgents lost 90 killed in the various districts.

Two civilians, Messrs. John McMahon and Ralph McCord of San Francisco, who started on a business trip for Vigan and Bangued, in northern Luzon, have not been heard from for three weeks. It is feared that they have been killed or captured by the insurgents.

Captain Samuel E. Smiley of the Fifteenth United States infantry, formerly attached to the staff of General Bates in the Philippines, who proceeded to China to join his regiment, but broke down there owing to the climate and hard work, is returning to the United States on the supply ship Celtic.

### LOPEZ BACK HERE.

Aguinaldo's Former Secretary Comes to Appeal For His People.

NEW YORK, Oct. 1.—Sixto Lopez, formerly private secretary to Aguinaldo and now a well known defender of the cause of the Filipinos, landed yesterday from the Cunard line steamship Campania and was greeted by Fiske Warren, an anti-imperialist of Boston. With Mr. Warren was a Mr. George, who declined to throw light on his own identity.

Before leaving for Boston Mr. Lopez gave out the following statement:

"My object in coming to America is not to interfere in American politics, but solely to tell the American people what the Filipinos desire in reference to the future government of our country.

"It has been said that my coming to America is in the interest of certain persons and politics. We, as Filipinos, know no party in the United States. We have only one desire—namely, to secure justice for our country.

"Those who desire to give us justice will no doubt be glad to know the wants and conditions of the Filipinos. All that we want is peace with independence and with honor to both parties, and we hope to be able to show that the conditions in our country are such as to fit us for the maintenance of that independence."

### BIG RAILWAY VENTURE.

Senator Clark and Others to Build a Rival to the Southern Pacific.

CHICAGO, Oct. 1.—Senator W. A. Clark of Montana has consummated plans for the building of the Los Angeles and Salt Lake City railroad after consultation with Salt Lake City and Los Angeles capitalists who are in Chicago.

Another chief promoter is R. C. Kerens of St. Louis, Republican national committeeman, who is also here. Mr. Kerens is the new chief and promoter of the Terminal company

Mormon church has practically promised a terminal site in the Utah capital, and a tract of ten acres will be turned over to the railway for its stations and freight departments.

Between the termini the whole unopened southwest will be spanned. The Sierra Nevada will be pierced through one of its southern passes, and the supremacy of the Southern Pacific railway, hitherto unchallenged on the Pacific coast, will be effectually broken, at least in southern California. The death of Collis P. Huntington removed the last obstacle to the success of the Clark-Kerens syndicate. The construction will require \$25,000,000 in expenditures.

and other antifeign leaders for causing the trouble in which China has become involved. He received also a telegram from Mr. Conger at Peking which contained information that may call for important action by this government.

Mr. Conger's dispatch tells of the appointment of the Chinese peace commission, and among the commissioners named is General Jung Lu, who commanded the imperial troops in Peking during the attacks on the foreign legations and stands accused by Minister Conger and others of being a participant in the attacks.

Unless that accusation is disproved and Jung Lu is shown to have been, as he asserts and the Chinese government professes, a consistent friend of the legations during the period of their ordeal of shot and shell the United States will hardly consent to accept him as a plenipotentiary to negotiate a peace arrangement. This government has declared that it will have no dealings with any Chinese concerned in the antifeign outrages, and Jung Lu stands accused of being in that category.

Jung Lu's absence in the interior is evidently a measure of safety on his part.

**OPERATORS CONFER**

An Important Meeting at Wilkesbarre.

SITUATION THOROUGHLY DISCUSSED.

Decision Reached to Offer a 10 Per Cent Advance and Reduction in Price of Powder—Union Ignored. What Mine Workers Want.

WILKESBARRE, Pa., Oct. 2.—The coal operators of the Wyoming, Lackawanna and Lehigh valley regions held an important meeting in this city yesterday afternoon and decided to offer the miners an increase of 10 per cent in wages and also to reduce the cost of powder to the miners from \$2.75 to \$1.50 per keg. W. A. Lathrop, general superintendent of the Lehigh Valley company presided.

The whole situation was thoroughly discussed, nearly all those present taking part. The powder question was the chief subject of debate, and next came the recognition of the union. So far as can be learned none of the operators was in favor of recognizing the union in any way.

The meeting lasted from 2 until 6 p. m. Last evening W. A. Lathrop, the chairman of the meeting, gave out the following for the Lehigh Valley Coal company:

"This company makes the following announcement to its mine employees: It will adjust its rates of wages so as to pay to its mine employees on and after Oct. 1 a net increase of 10 per cent on the wages heretofore received and will take up with its mine employees any grievances which they may have."

It is understood in the foregoing that powder will be sold to miners for \$1.50 per keg and that the difference between this rate and the old rate of \$2.75 shall be taken into account in figuring the net advance of 10 per cent noted above for this class of labor.

Similar notices to the above will be posted by all the other companies represented at the meeting. The strikers say that under no circumstances will they accept the offer. They claim it is not as good an offer as the Reading company made to its men.

The union is ignored and the net increase must come out of the price of powder.

E. M. Palmer, chairman of the press committee at United Mine Workers' headquarters, said: "The men will not return to work under such conditions. It is not a fair offer."

The operators will make no further move until they hear from the men.

At the United Mine Workers' headquarters this statement was given out:

"What we want is:

"First.—A better enforcement of existing mine laws.

"Second.—To obtain that which is fully our own—i. e., the value of labor actually performed and hitherto taken from us.

"Third.—To obtain the right to purchase our implements of labor at a fair market value and escape from the compulsory rule which forces us to pay the operators more than twice what the same materials can be purchased for at retail in the open market.

"Fourth.—To allow a readjustment of the wage scale that will nearly conform to the normal conditions of the anthracite trade and establish as nearly as practicable a uniform price for each class of work in and around the mines."

The strikers say until these concessions are granted and the union recognized they will not return to work.

Preparations are about completed for the big demonstration to be held in this city today. President Mitchell and other leading officers of the United Mine Workers will be present. After the parade a big mass meeting will be held.

**MINERS IGNORE OFFERS.**

Operators Surprised at the Firm Stand of the Workmen.

HAZLETON, Pa., Oct. 2.—Notices of the increase in wages and the reduction in the price of powder decided upon by the operators at Wilkesbarre were posted last night at all of the collieries in the Lehigh region.

President Mitchell, when shown a copy of the notice, declined to say anything at this time, but intimated that he might outline his position at the Wilkesbarre mass meeting today. He added, however, that there would be no resumption of work until a convention of the anthracite miners had been called and the proposition considered.

Although the labor leaders positively said they did not fear a break in the ranks of the anthracite coal strikers, they were nevertheless, pleased to learn that the 10 per cent advance granted by the Philadelphia and Reading Coal and Iron company in the Schuylkill valley was totally ignored by the striking mine workers. It was predicted that many of the strikers would return to work under the belief that the 10 per cent would be the limit of the operators' concession, but the unanimity of the men in deciding to stand out for a further advance caused many remarks of surprise.

It was expected in some quarters that yesterday would bring a turning point in the strike, but nothing came to the surface that would lead to any indication of the strike nearing an end. Since the operators began to hold conferences President Mitchell is receiving more information than formerly and giving out less. That he knows more about the situation than he cares to tell is hardly doubted by any one. He has practically admitted that he received advices from New York as to the doings of the operators. There is still a lack of anything tangible on which to base the report of an immediate settlement. President Mitchell continues to deny that he knows anything about it.

The strike situation in the Lehigh valley showed a change in favor of the men. Several hundred men quit work at the Calvin Pardee mines at Lattimer as the result of persuasion on the part of 400

**New York State Taxes.**  
ALBANY, Oct. 1.—State Comptroller Gilman has prepared the usual schedule showing the amount of tax to be collected from each county during the fiscal year for state expenses. The total amount is \$10,704,153, as compared with \$12,840,228 last year, a reduction of nearly \$2,000,000. New York county, which usually, with its large property increase, finds its tax increased by over \$1,500,000, has a decrease this year of over \$750,000, having paid \$6,116,055 last year, while this year only called upon to pay \$5,315,175. Kings county gets a reduction of \$180,000.

**New Scheme to Supply Milk.**  
MIDDLETOWN, N. Y., Sept. 29.—Five milk producers named Dubois, all brothers, of Stevensville, Sullivan county, are arranging a new system of supplying milk to New York. They propose retailing it direct to consumers. If the plan is successful, they will handle milk for other farmers, the profits to be divided pro rata between those supplying the milk.

**Killed by Striking a Match.**  
BETHLEHEM, Pa., Oct. 1.—Striking a match to light a cigarette caused Louis Kresge's death. # CAMP FIRE STORIES

## M'KINLEY'S WAR RECORD.

A Thrilling Incident of the Battle of Antietam in Which He Was the Central Figure.

"There are some romances of war which almost resemble one to its grim tragedies, because war alone can weave the threads and develop the qualities of heroes," said a writer in Success.

"The civil war had scarcely broken out when a sturdy lad of 17 walked into the recruiting office of John C. Fremont, the great Pathfinder, in an Ohio town.

"He simply asked to be enlisted and sent to the front. His eagerness was noticed by the veteran plainsman, who spoke kindly to him and ordered that his name be enrolled.

"There began a life romance which culminated in the white house. The boy was William McKinley. He was assigned to the Twenty-third Ohio regiment, of which Rutherford B. Hayes was colonel.

"At Antietam came an incident which, in my opinion, is one of the most thrilling of that awful war. Lee had pushed his victorious legions into Maryland. Stonewall Jackson was by his side. Longstreet was in the front of the fight—all on the southern side. On the northern side were McClellan and Sheridan, grimly contesting every foot of the advance. On the first day of the battle, September 17, 1862, the troops on both sides fought with such desperation that no less than 23,000 men were wounded or killed. On the second day, from early morning, Lee's terrific fire was directed upon the federal line, which had been turned against his right. On the banks of the creek, to the left of the bridge, was the Twenty-third Ohio. Col. Hayes had been wounded shortly before, at South Mountain, so he was not in command of his regiment this day. He was in the village a few miles to the rear, watching the smoke of battle in agonized unrest. Gen. Scammon was in command in his stead. Away to the rear was the commissary sergeant of the regiment, waiting for orders. As the hot and dusty day wore on and evening fell this sergeant grew impatient to be at the front, not to fight, but to carry food and drink to his exhausted comrades, who had had neither breakfast nor dinner. Finally he hooked up two wagons, called for volunteer drivers, and started for the front without orders. As he approached the front one team of mules was shot down. With the other he pushed on, braving the leaden hail and the bursting shells, and succeeded in reaching the boys of his command.

"How they cheered him as he drove up! A few minutes later Gen. Scam-

mon rode up to ascertain the cause of the cheering. Instead of reprimanding the boy, he thanked him for his thoughtfulness and bravery and permitted him to distribute the refreshments under fire. With his own hand Sergt. McKinley—for it was he—passed around cups of steaming hot coffee and liberal rations of bread and meat. The fight was maintained right along. The battle proved to the north that Lee could be defeated.

"Col. Hayes was so pleased when he heard of this exploit that he asked Gov. Todd, of Ohio, to commission the boy a lieutenant. This was done September 24, 1862.

"Thus in one brave boy's life there has been a triple romance—his enlistment by a presidential candidate, his recommendation by another man who became president for a commission, and finally his own accession to the chief magistracy of the nation."

Didn't Know the Article. Some people from the city were camping on the shore of a little lake in Vermont. One day two young ladies of the party went to the nearest store and asked for deviled ham. Of course the rural proprietor did not keep such a wicked-sounding article. After the young ladies had gone out a loafer said to the proprietor:

"What on sirth'd them gals want?"

**The Public Debt.**  
WASHINGTON, Oct. 2.—The monthly statement of the public debt shows that at the close of business Sept. 29 the debt, less cash in the treasury, amounted to \$1,106,155,671, which is a decrease for the month of \$6,122,435. This decrease is accounted for by the increase in the cash on hand and the redemption of 2 per cent bonds.

**American Painter's Good Fortune.**

A storm that raged for two days at Nome destroyed property valued at \$500,000. Many lives were probably lost.

**Belgian King to Abdicate.**

PARIS, Sept. 28.—"From a source worthy of confidence," says the Courrier du Soir, "we learn that the king of the Belgians intends to abdicate before the close of the present Belgian parliament in favor of the Prince of Flanders. King Leopold counts confidently upon the result of his action being the sinking of the quarrels of the rival parties, which would then unite to observe the conditions of the new regime."

**Bold Robbery at Nome.**

TACOMA, Oct. 1.—The boldest robbery yet perpetrated at Nome occurred on the night of Sept. 10, when thieves sawed through the floors of the Alaska Commercial company's warehouse, securing gold dust amounting to \$10,500. The robbers worked so quietly that the watchman in the building did not hear them. The gold dust was stored in a safe in the company's office.

**Transvaal Refugees.**

—Mrs. D. W. Smith and Mrs. S. Wright and children are spending the week with their parents at Cascade.

—Cards announce another social party at East Venice next Friday evening, the 12th. Music will be furnished by the Skaneateles orchestra.

—James Smith of Syracuse is the guest of his niece, Mrs. J. S. Banker. This is his first visit to Genoa in some fifty years, and he finds most of the old landmarks obliterated. Things change, even here in Genoa.

—Mrs. L. H. Hewitt, who has a large class in music in this vicinity, is arranging for a public recital by her pupils to take place next month. This entertainment will be of the class which rarely visits Genoa, and in addition to enjoying some excellent vocal and instrumental music, the people of Genoa may see how proficient some of the young folks are becoming under the direction of this able instructor.

—While on a trip in the northern part of the county recently, a TRIBUNE reporter had the pleasure of paying a visit to the large stock farm of Chas. Conklin of Port Byron. Mr. Conklin has a herd of twenty-five fine cattle from which he supplies milk and butter to a large number of customers in the village. He also deals in horses, being an ardent admirer of that noble animal. He has sold several matched pairs to Auburn and Syracuse parties, and also has some thoroughbred roadsters. Mr. Conklin formerly lived at Poplar Ridge.

F. L. Swart of Crossman & Swart, opticians of Auburn, will be at the Moravia House, Moravia, N. Y., Tuesday, Oct. 16, from 9 a. m. to 6 p. m. Eyes examined and glasses fitted that are guaranteed to give satisfaction.

—Mr. and Mrs. Wm. H. Hoskins of Grand Rapids, Mich., were in town last Thursday and Friday. They accompanied the remains of Mrs. Hoskins' mother, Mrs. Mary Pressey, who died at the home of her son in Cleveland, O., Sept. 23, aged 83 years. Mrs. Pressey was very bright and active for a person so advanced in years, and her death was very sudden as she only lived about an hour after she was taken sick. She was a resident of this town and county for many years and was respected as a woman of very estimable character by all who knew her.

—The railroad situation does not improve with age. As far as we can learn there has been no change during the last month. Some two or three weeks since Attorney Rich went to New York to interview the officers of the company, and returning he said that apparently they were making every effort to find the necessary cash with which to construct the road, but that many capitalists and bond concerns were not desirous of investing until after election. However, occasionally some wag in Auburn telephones down the line that there is a train load of iron there waiting to be called for, or that a car load of wheelbarrows is sidetracked in the Central yards waiting for the Italians, etc., etc. How any one can have the heart to joke about this thing in such a manner we don't know.

Weston A. Ogden.

In the death of Weston Allen Ogden which occurred at 4 o'clock a. m. Thursday, Sept. 27th, at his home in King Ferry, there was removed one of Cayuga's most sturdy sons, one who had lived a life of active energy, and who died full of years, enjoying the respect of the whole community. Four years ago he attained the scriptural allotment of three score years and ten. A year later he began to feel the approach of infirmities, but it was not until the Saturday before his death that serious premonitions were experienced. On the evening of that day while sitting in his store in the village he was seized with a violent chill. He went home and for the next three days he lay in a semi-comatose condition. He rallied slightly Wednesday, but it was the last struggle in the brave battle for life and the end came peacefully next morning. The survivors of the family are the wife and two children, Walter Ogden, who for a year has been journeying in Europe with his wife and daughter and has not yet returned, and Mrs. Augusta Smith, wife of Ledyard Smith of Madison, Me.

Weston Allen Ogden was the grandson of one of the pioneer settlers of Cayuga county. He was born March 27, 1826, in the town of Genoa in which he died and where, with the exception of a few years, his life was spent. He acquired a fair education in the district schools of Genoa and at the Moravia academy, after which he engaged in farming. The same energetic spirit which marked his course through life was early displayed by his venturing into an entirely new field of speculation. He was the first man in this county to ship eggs to the New York market. In these days of rapid transit this undertaking is not looked upon as so formidable as it was in those early times.

Mr. Ogden was one of the original 49ers who was attracted to the gold fields of California by golden visions of a fortune. He was one of the sixty who bought the sailing vessel Belvidere that made its voyage around the Cape, taking seven and a half months to complete the trip. The history of this famous expedition has been written. It may only be said that young Ogden, then 23 years of age, encountered all of the discouragements and hardships which befel the prospectors with the same grit and determination that was a characteristic of his ancestors. Upon his arrival at the Pacific coast, he worked by the day during the following winter and spring to earn sufficient money to pay his way to the mines. After that he delved industriously for the precious metal but his efforts were not lavishly rewarded, and so in 1853, the gold fields were abandoned and he returned to New York state.

Two years later he went to Galesburg, Ill., where for several years he conducted a general store, but owing to the poor health of his wife to whom he was married in early manhood, he again came East. For a year he worked in the oil fields of Pennsylvania, and then he settled down in the general store at King Ferry to which for many years he had given his personal attention up to the last.

Since the birth of the Republican party, Mr. Ogden had been a staunch adherent and advocate of its principles. For years he held the position of postmaster in the village, and he was the incumbent of the office at the time of his death. For many years past he had also filled the position of Republican county committeeman from the West Genoa district. His first vote was cast in 1848 for Zachary Taylor. In religious affairs Mr. Ogden was an active participant and a member of the Presbyterian church.

The funeral was largely attended on Saturday afternoon, many being present from Auburn among whom were D. W. Adams, Mr. and Mrs. Chas. R. Fay, Mrs. F. W. Richardson, Judge Underwood, Surrogate Turner, Lewis E. Lyon, J. L. Barker, F. E. Storke, F. E. Huggitt, W. P. Robinson, W. H. Meaker. The interment was in the Rural cemetery which Mr. Ogden was largely instrumental in securing for the village many years ago.

#### Against Voting Machines.

NEW YORK, Sept. 28.—Attorney General Davies came to this city yesterday on a hurry call from the Republican state committee. One of his deputies had preceded him with an opinion that the ballot machines could not be used in their present form in casting ballots for presidential electors, and Mr. Davies is wanted for a conference. The opinion of the attorney general is that the ballot machines, not having the names of the electors in detail, would disfranchise any voter using them. In other words, the attorney general decides that the machine must contain each elector's name on each ticket and not merely a single button to push for a party's electors bunched. The decision is of serious import unless the machines can be changed in time, and the purpose of the conference at which the representatives of the ballot machines are to be present is to determine if this can be done.

from the Cascade mountain district of Washington, bringing samples and news of the location of vast fields of pure anthracite coal. In company with Professor Burchell, a mineral expert of Seattle, Judge Dennett penetrated into the Cascade range, 60 miles from the railroad, and after two days of prospecting located veins showing 19 feet of coal and located on 640 acres of land. He estimates the quantity of coal in sight at 25,000,000 tons. Judge Dennett first discovered the coal on a prospecting trip in the sixties, but lost track of the location till his recent trip. He will form a company to work the veins. The samples shown are of the same quality, but lighter than the Scranton product.

#### Bunkoed and Robbed.

DETROIT, Sept. 29.—A Tribune special from Coldwater, Mich., says that William E. Nevison, a wealthy farmer living four and one-half miles from Coldwater, was bunkoed, assaulted and robbed of \$5,000 three miles from there on one of the most public roads leading to Coldwater. Nevison says a well dressed stranger giving his name as Gosmer, a banker at Jonesville, came to his farm and offered to buy it providing he could get an adjoining farm with it. Nevison drove to Coldwater with the man, drew \$5,000 from the savings bank and started back to buy the adjoining farm. The couple were met on the road by a third man who, aided by the alleged banker, knocked Nevison senseless and robbed him of the \$5,000. Officers are in pursuit of the thieves.

#### Roosevelt Campaigning in Nebraska

MCCOOK, Neb., Oct. 2.—Governor Roosevelt's first day in Nebraska may be regarded as successful, though the morning started out wet and chilly and the audiences as a necessity were small. Thirteen speeches were made during the journey yesterday and last night. Probably 80,000 or 40,000 people were addressed during the day. Governor Roosevelt's special train remained at McCook until late in the night, when it pulled out for North Platte. Today's journey will cover a distance of 600 miles and will include within that distance 11 speeches. Tonight a journey will be made to Broken Bow, at which point the train will arrive at 8 o'clock in the morning.

#### Cubans Thank Governor Wood.

HAVANA, Oct. 2.—Governor General Wood started today for Sancti Spiritus. He expects to be absent from Havana for several days. Four hundred Matanzas property owners have sent a memorial to the governor general thanking him for the recent decree which protects owners of property from certain fraudulent practices to which dishonest lawyers were wont to resort under the old order of things, and on his return General Wood will receive from leading Havana merchants a similar memorial of thanks for the decree recently issued which prevents the fraud and extortion to which they were formerly subjected.

#### Meteor Explodes.

RAHWAY, N. J., Sept. 28.—The explosion of a meteor startled the people of this neighborhood. A large meteor was seen traveling through the air in the vicinity of Edgar's Hill, near this place. It exploded with terrific force, causing houses in the neighborhood to shake, and sulphuric fumes could be detected in the air for hours. The sound of the explosion could be heard plainly in Rahway.

Many Provinces In Luzon and Elsewhere Terrorized.

### AMERICAN LOSS ONE HUNDRED MEN

Renewed Activity of Insurgents Ordered From Hongkong - Aguinaldo Declines to Consider Peace Proposals.

MANILA, Sept. 24.—The insurgent demonstrations last week prove to have been more extended than was at first reported. From Cagayan and Isabela provinces and the northwestern district of Luzon come accounts of insurgent operations and American precautionary measures. Merchants in the province of Albay are getting their hemp to Manila as rapidly as possible, fearing that otherwise it would be burned by the insurgents. At Iloilo there was considerable anxiety lest an uprising should occur, but the insurgents there are ceasing their activity and returning in white clothing to the garrisoned towns of the district. As a resumption of insurgent operations is considered quite probable the Americans there are taking the necessary steps.

The American casualties in killed, wounded or missing during the last ten days approach 100, including those at Siniloan, at the east end of Laguna Bay, where the insurgents after the engagement delivered ten bodies of our dead.

Documents captured in Manila show that the insurgent activity in this vicinity was ordered by rebels here, following instructions from the Hongkong junta.

Senor Buencamino has received from Aguinaldo an answer regarding his peace proposals. Aguinaldo declines to consider them and declares that he is unwilling to agree to a compromise.

Archbishop Nozaleda, with Bishop Hevia and ten friars, will leave for Spain Tuesday. He goes to render his decennial religious report. He says he expects to return here. During his absence the affairs of the archdiocese will be administered by Mgr. Chapelle.

The amnesty expired Sept. 21, and the conditions that existed previously have been resumed.

An insurgent proclamation, signed last month by Aguinaldo, directing that American prisoners be set at liberty, that good treatment be accorded to captives and that \$40 be paid to each American surrendering, has reached Manila. Few prisoners were released under the proclamation. Two who have just arrived from the Cailless district report that the insurgents in that locality are in "better spirits" than they had displayed at any time before since April.

The insurgents recently murdered ruthlessly three persons in the Lukban district.

Samar is short of rice, but as the hemp supply is abundant the people are shipping hemp to Buluan island and smuggling rice in exchange.

#### Dowieite Elders Mobbed.

MANSFIELD, O., Sept. 24.—A mob formed here yesterday, and the Dowieite elders, Ephraim Bassinger of Bluffton and Silas Moot of Lima, were its victims. The two elders came in on an Erie train unknown to the authorities. They were recognized by a small crowd at the depot, which refused to let them enter a cab, then followed them up the street and surrounded them near the center of the city. They were then taken by the mob to the Richland Buggy works, where Bassinger disrobed, but the crowd tore Moot's clothing from his body, as he refused to disrobe himself. A paint bucket and a brush were then secured, and a smokestack varnish, a tarlike substance, was daubed over them from head to foot. It was matted in their hair, and no part of their bodies escaped but their faces. Their bodies were then partially covered with their clothing, and the elders were marched to the home of E. H. Leiby, a Zion follower here, who was driven out of the city last week. There they promised not to return to Mansfield, but later they said they agreed not to return unless Overseer Piper ordered them to come. They were then marched to the city prison and locked up. By applications of lard and benzine the black varnish was cut, and after new outfits of clothing were furnished they were deported on a Pennsylvania train at noon.

#### Rockhill to Advise Withdrawal.

PEKING, Sept. 19, via Taku, Sept. 24.—Mr. William Woodville Rockhill, special commissioner of the United States, has already conferred with Mr. Conger, the United States minister, but he has not yet met Prince Ching. It is understood that he will advise Washington to withdraw the American troops as speedily as would be safe. The plan to withdraw the German legation from Peking has been temporarily abandoned pending the receipt of further instructions from Berlin. The Russians report a Boxer demonstration against the railway, and the Germans are discussing an expedition to Pao-ting-fu after the arrival of their main force. General Chaffee will go to Tien-tsin soon.

#### A Gas Well Gusher.

BIRMINGHAM, Pa., Sept. 24.—A gas well gusher has been struck at Lane's Mills, six miles from this city, at a depth of 3,000 feet. The well was drilled by a local company, and when the drill struck the vein the gas, coming to the surface with terrific force, blew tools and rocks over 100 feet in the air. It is estimated by experts that the well is good for 3,000,000 feet every 24 hours. The well is in an entirely new territory and will come into direct competition with the Standard Oil company, whose wells supply this city and neighboring towns and are located 25 miles from here.

#### Missionary Refugees Murdered.

PEKING, Sept. 19, via Shanghai, Sept. 24.—A native who has arrived here from Shansi brings definite and reliable news

ed while attempting to reach Kaigan. In the party were Mr. and Mrs. McKee, Mr. and Mrs. Carlson, Mr. and Mrs. Parsons, Mr. and Mrs. Blomberg, Mr. and Mrs. Coulberg, E. K. Jacobson and two young ladies.

#### Rector Dies in the Pulpit.

NEW YORK, Oct. 1.—The Rev. Dr. Gilbert H. Gregory passed away yesterday in the presence of his congregation at the morning service in St. Stephen's Methodist Episcopal church, Marble Hill, at the upper end of Manhattan Island. Physicians had urged Dr. Gregory to retire from active church work, as he had long been a sufferer from heart trouble. They told him that he might live for years if he would cease labor, but that if he continued to work he was liable to be stricken any moment. Dr. Gregory was 63 years old. He was a man of great energy, a forceful speaker and possessed an attractive personality. He had been a Methodist minister for 37 years and had a host of friends in this city and in Hudson river towns where he had charge.

#### French Market For Our Coal.

MASSILLON, O., Oct. 2.—Robert P. Skinner, United States consul at Marseilles, who was largely instrumental in the introduction of American coal into Europe, is now spending his vacation here at his former home. Mr. Skinner is enthusiastic in regard to the prospects of American coal products in the European markets. "In Marseilles alone," he said, "during the first six months of this year 8,000 tons of American coal were sold, and by January I expect the importations to reach 100,000 tons. In the early part of August, when I left Marseilles, American coal was selling at \$6.75 a ton, or \$1 lower than Cardiff coal."

#### Much Gold From the North.

SEATTLE, Wash., Oct. 2.—The steamship City of Topeka has arrived from Linn canal points. She brought about 160 passengers and \$200,000 in gold, mostly in small amounts in the hands of passengers. The Topeka's officers report that the steamer Cutch, which is on the rocks this side of Skaguay, appears to be but slightly damaged. A wrecking company is endeavoring to float her. **A Family Mix Up.**  
SYRACUSE, Oct. 1.—C. M. Smith and his son Ira of Cortland each mistook the other for a burglar in their home early yesterday morning. The son fired several shots at the old gentleman, and the latter retaliated with a kettle of boiling water and a lighted lamp. The appearance of the mother and wife put an end to the hostilities. The elder Mr. Smith then came to the conclusion that his son was trying to kill him and had him arrested. Afterward a reconciliation was effected.
