The regular army of the United States is of about the same size as that of Roumania, which has a population of 5,800,000, and that of Norway and Sweden, population 6,785,000. "Militarism" in this country is a threatening evil, to be sure.

The Croker convention is opposed to "imperialism." Yet the "cornfield" Democrats composing the majority of the party allow themselves to be tyrannized over and spit upon by the thugs and blackmailers of Tammany.

Sheriff Wood on Tuesday sold the stock and fixtures belonging to Thomas J. Church, the jeweler. At first the sale was made in lots which aggregated but \$848. The property was then put up in bulk and sold for \$2,000. Frank S. Coburn as attorney for Theodore M. Fisher was the purchaser.

S. L. Billings, a Boston commercial traveler, visited relatives near Virgil one day recently and returned to Cortland late at night to catch the 11:33 express for New York. About 2 miles from Virgil two men stopped his horse and took his gold watch and \$112 in bills and then ran. He caught the train and notified the sheriff by letter next day, and an effort is being made to capture the robbers.

The concert given at the Lansingville M. E. church, Friday evening, Sept. 7th, was a fine success. The Ithaca male quartette was unable to be present. A quartette of young men filled their places very acceptably. Mrs. Lelle Rhodes Mangang, of Ithaca, gave a solo and reading which were heartily encored. The reading by Miss Ina Williams, of Ithaca, was also enthusiastically encored. The net receipts were forty dollars.

It is said that school ma'ams in the rural districts are scarce and that it is hard to get a teacher who has the proper qualifications to obtain a certificate who is willing to go into the country districts and teach. Quite a number of schools in Madison county are without teachers. The trustee of Milestrip, has been hustling for a teacher ever since he was elected, last month, and is still unable to find one.—Canastota Bee.

A Firemen's Fair will be held in Locke village, on Thursday and Friday evenings, December 13 and 14, for the benefit of Chemical Co., No. 1, who desire funds with which to purchase new uniforms. Although the time is still far off, the boys are hustling and expect a grand time. On Thursday evening there will be a concert and the distributing of presents, the principal one being a \$250 piano. On Friday evening there will be a social party.

The representatives of the Manufacturers and Jobbers association of Buffalo paid their visit on schedule time Thursday at 12:10. Harry Parry, general agent of the Central, and four others were in the cab. They made Skaneateles junction to Auburn, 9 miles, in 6 minutes, reaching at times nearly 100 miles an hour. The party dined at the Osborne and left at 2:34. Mr. Parry counted the time with his watch. The party was a highly representative one.

Oneida Lodge, No. 270, F. & A. M., has proved to be more popular than any other society or church in Oneida. It was recently awarded the piano for which votes were to be cast for the most popular society, church or school in town. This is rather discouraging from some standpoints as it would seem to indicate that it is more desirable to be a Mason than a christian or a student.—Moravia Register. We would like to ask the Register how a man can be a Mason without also being a christian? A church member is not necessarily a christian.

Allen H. Knapp, whose picture we present to our readers today and who is the newly elected head master of the Portsmouth, N. H., city high school, was born in King Ferry, New York, February 20, 1864. His parents were of New England origin. Nicholas Knapp, the progenitor of this branch of the Knapp family, settled at Watertown, Mass., in 1630 and moved from there to Stamford, Conn., in 1648. From there the grandfather of the present sketch moved to Genoa, about a century ago. Mr. Knapp's parents, who were farmers, moved to Pennsylvania in 1870. His father

was William Knapp, and he died at Westfield, Pa., in 1884. Principal Knapp seems to have early manifested a preference for educational and literary pursuits. After a few terms at Westfield, Pa., high school, he began, at the age of eighteen, teaching a country school. In 1888 he was graduated from the Mansfield, Pa., State Normal school and later from Harvard University, and has been a highly successful teacher since he was 18 years old, excepting that time he spent in the higher schools.

Standing at the great Electric Tower and looking to the north, the visitor will have before him the Plaza or square, a beautiful open space 350 by 500 feet. On the opposite, or north, side of the Plaza, will be the Propylaea or monumental entrance, connected by a curved colonnade 280 feet long. These form an architectural screen of exceptional beauty, shutting out the steam and trolley railway station at the northern end of the Exposition grounds.

A large building at the left, 341 feet long and 52 feet wide, with towers 164 feet high, will be used for restaurant purposes. This forms also the eastern entrance to the Midway or pleasure grounds, where the visitor may find a collection of novel entertainments that will astonish the most cosmopolitan traveler.

Directly across the Plaza from the Restaurant Building is a companion structure of the same dimensions, forming the entrance to the Stadium, or Athletic Field, where 25,000 people may be seated to enjoy the high-class contents in the athletic sports, in which champions from all parts of the world will participate.

A terrace, slightly raised above the general level, will form the central portion of the Plaza. This terrace will surround a sunken garden, in the center of which will be a band stand, the terrace affording a large space for listeners.

112,000 MEN ARE OUT

Strikers In Pennsylvania Have Reached That Number.

EACH SIDE CONFIDENT OF WINNING

Foreign Miners Leave For New York En Route to Europe—Mr. Mitchell Says This Is the Biggest Industrial Contest of Country.

HAZLETON, Pa., Sept. 18.—The great struggle between the anthracite coal miners of Pennsylvania and their employers is now well under way. Each side is confident of winning, and neither of the contending forces shows any disposition to yield. With the exception of a trivial incident at No. 3 colliery of the Lehigh Coal company, where a gang of boys compelled a mule driver to seek cover by throwing stones at him, the contest thus far has been entirely devoid of violence of any kind.

About 100 foreign speaking miners have left Hazleton for New York, where they will take a steamer for Europe. These men expect a long strike and rather than remain idle here they preferred to go to their former homes.

President Mitchell has given out the following statement:

"Information received up to this time indicate that 112,000 mine workers are on strike in the anthracite region. Of this number 72,000 are in district No. 1, 30,000 in district No. 9 and 10,000 in district No. 7.

"Reports received are to the effect that large numbers of those who have gone to the mines will soon join the suspension."

"We feel confident that the entire number of men employed in and about the coal mines of the anthracite district will be idle in the next few days.

"The men appear determined to continue on strike until their demands for justice have been acceded to.

"The number of men now out on strike exceeds that of any other industrial contest in the history of our country."

Reports received by the United Mine Workers' officials from the entire anthracite region were to them most satisfactory. The district south of this place known as the South Side has been tied up completely with the exception of Coleraine, Beaver Meadow and Carsons washeries. In this territory the United Mine Workers are very strong. On the north side, the upper Lehigh, Milnesville, Ebervale and Drifton No. 1 collieries, employing about 1,500 men, are shut down, the mines at Lattimer and Pond Creek, employing 1,200 men, are working full, but every other mine in that big territory is working with badly crippled forces. Three of the Marple mines, over which there has been so much contention, worked with about 65 per cent of their men. On the west side every colliery has started up minus its union men except at the Hazle mines, where the union miners went to work in consequence of a misunderstanding.

Hazleton presented an animated appearance yesterday. Strikers from all the surrounding mining towns came here and gathered in groups on the street corners and discussed the situation. It was a most orderly crowd. Around strike headquarters at the Valley hotel there was more or less of a crowd of men all day. President Mitchell, who has arrived from the west, was kept busy receiving reports from every section of the region. Messengers bringing information to him from nearby points kept coming regularly.

Mr. Mitchell decided an important point in the matter of arbitration. It will be remembered that last week the miners employed by G. B. Markle & Co. decided not to strike until the firm had passed upon a set of their own grievances which differ somewhat from those of the United Mine Workers. The firm has an agreement with its men that if any differences fall of adjustment then the grievances shall be arbitrated. John Markle of the firm has agreed to have Archbishop Ryan of Philadelphia arbitrate the differences if the mediators already decided upon by the firm and the men cannot come to a satisfactory agreement. Mr. Markle gave out an interview to newspaper reporters to this effect and suggested to the reporters that they go see what President Mitchell would have to say to the proposition, Mr. Markle not caring to be put on record as recognizing the union.

President Mitchell decided to ask the men employed by Markle to strike. Father Phillips, who suggested the idea of having Archbishop Ryan brought in

of an early settlement of the strike he said:

"There can hardly be anything done for a few days, and it is likely that the nature of the arbitration may depend upon the contingency that may arise in the meantime or due to the continuance of the strike. I will watch events closely and keep him informed of every opportunity where mediation or intercession can serve to make this strike of brief duration. That is about all that can be accomplished or even attempted now that the conflict has begun unless overtures for arbitration should be made to him, but of course that will have to come from both sides agreeing to it. It is too early to look for a basis of negotiations or mediation, as the contending forces will probably test each other's strength before deciding on peace or continued war. It is yet hoped that it will be peace."

Historic Tavern Burned.

GREAT BARRINGTON, Mass., Sept. 14.—The old Ford tavern at Van Deusenville, built in 1775 and owned and occupied by H. L. Wilcox, has been burned. The building was filled with valuable furniture, which also was destroyed. The fire was discovered by railroad men, who kicked in the doors and saved the family. The loss is estimated at \$7,500. The insurance is \$3,500. It is thought a defective chimney caused the fire.

Sixteen British Soldiers Killed.

LONDON, Sept. 18.—The British commander at Taku cables that a fatigue party engaged in destroying gunpowder at Tungchau has been blown up. Eleven Welsh fusiliers were wounded, two British Indian soldiers were killed and 13 British Indian soldiers were wounded, and Captain Hill and 11 British Chinese infantry soldiers were wounded. Latest advices show that 16 were killed and 22 injured in the explosion.

Five New Plague Cases in Glasgow.

GLASGOW, Sept. 18.—Five additional cases of the bubonic plague have been reported here, four of the stricken persons being members of the same family.

WOMEN AND BABIES BURNED.

Twelve Suffer Horrible Deaths in Cincinnati Fire.

CINCINNATI, Sept. 18.—An old four story tenement building at 403 East Front street used as a branch nursery of the Salvation Army burned last night, and its occupants were so incensed that many were suffocated to death and others seriously injured. Twelve are known to have perished.

On account of the cold weather a fire had been started in the stove for the little tots who are cared for there during the day while their mothers are engaged at work elsewhere. It is thought that this caused the fire through some defect in the flues. Most of the mothers knew nothing of the calamity until they were through with their day's work. At the morgue and at the hospitals as well as about the burned building the scenes were indescribable.

The firemen made heroic efforts to rescue women and children, but most of those on the upper floors were beyond hope. The patrol wagons dashed with all possible speed to the hospitals with those that were rescued, and their cries were heard along the streets. All of the hospital physicians were called in, and the nurses did their utmost to relieve those suffering from burns.

The first floor of the building was used as a church, the second floor as headquarters for the destitute and for cooking and the upper floors for the nursery. The women and children could be seen from these upper stories pleading for help when the stairways were enveloped in flames. The fire was soon controlled, but not until many had died from suffocation and others were seriously burned.

The fire occurred near the river front, the most densely populated part of the city. The nursery is near the old Spencer House, and children from that tenement were in the burned building. Captain Lodge was suffocated while carrying children from her floor. John Hawkins, who lives in the old Spencer House, now used as tenement quarters, lost his life while endeavoring to save his children.

PROGRESS IN GALVESTON.

Waterworks Now Running and Tele-

streets lighted, many others nearly cleared of debris and telegraphic communication with the outside world re-established, the people of Galveston are anxiously looking forward to the re-establishment of rail communication, and they will not have to wait long, for the work of relaying the tracks and rebuilding a bridge across the bay is being pushed with great energy. The officials in charge of this work believe that they will be able to run trains into Galveston on Thursday.

The work thus far done has been remarkable and has been accomplished under the greatest difficulties. Track has been laid along a right of way which was swept by the sea and washed into ravines, along a line strewn with dead bodies of men and animals. The men worked under a blazing sun, in water and slush and mud, in surroundings sickening to the senses and at first without supply of food. Great difficulties in getting material to the places where it is used have been encountered, yet the work has gone on day and night, and the structure that is to bring Galveston in real touch with the outside world is being steadily pushed forward.

The Santa Fe system has concentrated nearly all its best bridge and track men on the work of restoring communication. Vice President Barr has 600 trackmen and 250 bridgemen at work. The track was completed to Virginia Point last evening.

It is said that State Health Officer Blunt in his report to the governor will estimate the mortality at 8,000 souls.

McKinley Goes to the Capital.

CANTON, O., Sept. 18.—President McKinley will start for Washington at noon today to attend to some public business and will return here the latter part of the week. It is said that some matters bearing upon the Chinese question require early attention and that other things that can be better attended at Washington have been accumulating faster than expected. Only Secretary Cortelyou will accompany the president. Secretary Dick did not come to Canton to see the president, as Columbus reports said he would. Judge McAtee of the supreme court of Oklahoma has had an interview with the president.

No Change in Carnegie Company.

PITTSBURG, Sept. 18.—No material changes will occur among the officials of the Carnegie company. The meeting at Skibo castle last month was for informal discussion of the general status of affairs in the big corporation, and harmony prevailed in very detail considered. Mr. Carnegie is pleased with the manner in which the business of the company has been conducted and will come to Pittsburgh on Nov. 1 to attend the exercises at the Carnegie institute on founders' day.

ROOSEVELT ACCEPTS

Vice Presidential Candidate Makes Public His Letter.

CONDEMNS KANSAS CITY PLATFORM.

Says Trust Problem Should Be Carefully Studied—Names Thomas Jefferson as First Expansionist. Our Territorial Acquisitions.

NEW YORK, Sept. 17.—Governor Theodore Roosevelt has made public his letter accepting the nomination for vice president on the Republican national ticket. Mr. Roosevelt reviews the various issues brought to the front by both the Republican and Democratic parties. The currency question, trusts and expansion are the subjects to which he has devoted the greater part of his letter.

"I feel that this contest is by no means one merely between Republicans and Democrats. We have a right to appeal to all good citizens who are farsighted enough to see what the honor and the interest of the nation demand. To put into practice the principles embodied in the Kansas City platform would mean grave disaster to the nation, for that platform stands for reaction and disorder, for an upsetting of our financial system which would mean not only great suffering, but the abandonment of the nation's good faith, and for a policy abroad which would imply the dishonor of the flag and an unworthy surrender of our national rights. Its success would mean unspeakable humiliation to men proud of their country, jealous of their country's good name and desirous of securing the welfare of their fellow citizens. Therefore we have a right to appeal to all good men, north and south, east and west, whatever their politics may have been in the past, to stand with us because we stand for the prosperity of the country and for the renown of the American flag.

"If this nation is to retain either its well being or its self respect, it cannot afford to plunge into financial and economic chaos; it cannot afford to indorse governmental theories which would unsettle the standard of national honesty and destroy the integrity of our system of justice. The policy of the free coinage of silver at a ratio of 16 to 1 is a policy fraught with destruction to every home in the land. It means untold misery to the head of every household and above all to the women and children of every home. When our opponents champion free silver at 16 to 1, they are either insincere or sincere in their attitude. If insincere in their championship, they of course forfeit all right to belief or support on any ground. If sincere, then they are a menace to the welfare of the country."

Speaking of trusts, Mr. Roosevelt says: "The first thing to do is to find out the facts, and for this purpose publicity as to capitalization, profits and all else of importance to the public is the most useful measure. The mere fact of this publicity would in itself remedy certain evils, and, as to the others, it would in some cases point out the remedies and would at least enable us to tell whether or not certain proposed remedies would be useful. The state acting in its collective capacity would thus first find out the facts and then be able to take such measures as wisdom dictated. Much can be done by taxation. Even more can be done by regulation, by close supervision and the unsparing excision of all unhealthy, destructive and antisocial elements. The separate state governments can do a great deal, and where they decline to co-operate the national government must step in."

Concerning expansion, he says: "In 1803, under President Jefferson, the greatest single stride in expansion that we ever took was taken by the purchase of the Louisiana territory. This so called Louisiana, which included what are now the states of Arkansas, Missouri, Louisiana, Iowa, Minnesota, Kansas, Nebraska, North and South Dakota, Idaho, Montana and a large part of Colorado and Utah, was acquired by treaty and purchase under President Jefferson exactly and precisely as the Philippines have been acquired by treaty and purchase under President McKinley.

"The parallel between what Jefferson did with Louisiana and what is now being done in the Philippines is exact. Jefferson, the author of the Declaration of Independence and of the 'consent of the governed' doctrine, saw no incongruity between this and the establishment of a government on common sense grounds in the new territory, and he rallied at the sticklers for an impossible application of his principle.

"Properly speaking, the question is now the acquisition of Florida. This was partly acquired by conquest and partly by purchase, Andrew Jackson being the most prominent figure in the acquisition. Our next acquisition of territory was that of Texas, secured by treaty after it had been wrested from the Mexicans by the Texans themselves. Then came the acquisition of California, New Mexico, Arizona, Nevada and parts of Colorado and Utah as the result of the Mexican war. Then came the acquisition of Alaska, secured from Russia by treaty and purchase. Nearly 30 years passed before the next instance of expansion occurred, which was over the Island of Hawaii.

result of the most righteous foreign war that has been waged within the memory of the present generation. They must be administered in the interests of their inhabitants, and that necessarily means that any question of personal or partisan politics in their administration must be entirely eliminated. We must continue to put at the heads of affairs in the different islands such men as General Wood, Governor Allen and Judge Taft, and it is a most fortunate thing that we are able to illustrate what ought to be done in the way of sending officers thither by pointing out what actually has been done."

New York Burglar Sentenced.

Lynch Law in Georgia.
DOE RUN, Ga., Aug. 20.—An armed mob numbering 50 men forcibly entered the jail here last night, and, taking out Bill Carter, a negro, riddled him with bullets. He died instantly. Carter was charged with attempted criminal assault on a white woman. As soon as Carter was captured he confessed his crime.

A Century Ride Each Day.
POUGHKEEPSIE, N. Y., Aug. 20.—Miss Jane Yatman, a bicyclist of New York, arrived here at 4 o'clock yesterday afternoon riding her bicycle on which she started from New York at 5:30 o'clock in the morning to go to Chicago. Her intention is to ride a century every day no matter what the weather may be. She was paced from New York to this city by Paul Thomas and was in first class condition on her arrival.

Colombia Rebels Surrender.
COLON, Colombia, Aug. 20.—General Alban, civil governor and military commander of the department of Panama, telegraphs that he has received a dispatch from Socorro announcing the absolute surrender of the rebel forces under Vargas Santos, Pochon Soto and Uribe at San Vicente. General Uribe escaped to Barranca.

Severe Storm in Santiago.
SANTIAGO, Cuba, Sept. 4.—Santiago is now experiencing the severest weather known here since 1877. Yesterday the lower part of the city was five feet under water. The firemen and police are assisting the sufferers. The German steamer St. George, Captain Hengsbach, from Philadelphia Aug. 5 and Norfolk Aug. 8 for St. Lucia and Daiquiri, which was chartered by the Spanish-American Iron company to load ore at Daiquiri, collided last Thursday with the Daiquiri pier and put into Santiago pending repairs to that structure. Yesterday morning she ran ashore at Daiquiri, and she now lies broadsides on the rocks, abandoned and a total wreck. The captain and crew got ashore in safety.

Mail Carriers March.
DETROIT, Sept. 4.—Twenty-five hundred of the men who deliver the mails in the various cities of the country appeared in Detroit yesterday, marched at 5 o'clock in the afternoon in attractive imposing parade, lunched together in Light Guard armory and at night took part in a public reception and listened to addresses of welcome, commendation and encouragement. There are but 750 delegates to the annual convention of the National Association of Letter Carriers.

Across English Channel in Balloon.
PARIS, Sept. 4.—Jacques Faure, treasurer of the Aero club, successfully crossed the channel in a balloon. He left the Crystal palace, London, at 8 o'clock Saturday night and arrived at Alette-Quas de Calais at 3 o'clock Sunday morning. The crossing of the channel occupied four hours. During this time the aeronaut kept his balloon at a height of 700 meters.

THE big ratio of increase in the population of New England cities revealed by the Federal census continues to excite wonder. The latest batch of returns gives New Bedford, Mass., a population of 62,442, a gain of 53 per cent in ten years, and Cambridge, Mass., 91,886, a gain of 31 per cent. The New England cities almost invariably show a much larger proportion of increase than the New York cities, excepting only New York and Buffalo.

How Bryan Was Saved.

Marcus A. Hanna will not go down in history as an orator, but on Saturday he went over into Indiana to speak at Delphi and he immediately proceeded to say things.

One thing he said was that Bryan owes his nomination to the policy of expansion. The Democratic leader has said that he would not accept the nomination unless the platform specifically declares for the free and unlimited coinage of 47-cent dollars. When the resolution came up in committee it was met with stout opposition, and when it was put in the platform by a majority of one vote the vote was cast by the delegate from Hawaii.

Cleveland had hauled down the American flag in Hawaii, but now it is on the "picket line of imperialism." Mr. Hanna says that it was a visitation upon Mr. Bryan that he should be saved only at the expense of one vote, and that vote from the territory which makes the country an "empire."

Auburn Masonic lodge will dedicate their new temple October 10. Grand lodge officers will be present and confer the third degree.

Clarence Main, the latest resident of Scipio Center to be arrested for alleged implication in the riot at that place on the evening of July 14 last, had his examination before Justice Hitchcock at Scipioville Saturday and was held to await the action of the next grand jury in the amount of \$500 bail, which was furnished, Ephraim Main, a brother of the defendant, and Emma Devonshire being the sureties on the bond.

Watkins Review: We some time ago mentioned the fact that the daughter of Rev. DeWitt Talmage VanDorn—a Baptist preacher well known in this region—was going to Dawson City, in the Klondike, from her home at Norfolk, Conn., to marry a man to whom she had been betrothed for some years. Miss VanDorn made the trip, but was disappointed in the appearance of her lover, whom she had not seen for several years, and it was mutually agreed that she return to her home and take some time to consider the matter of marrying him.

The measurement fad has spread among women as well as men, says a medical writer. The increase of physical culture among women has brought it about that many society women now have their measurements taken and recorded from time to time. The recorded measurements of a woman who is said to be an almost perfect physical specimen of nineteenth century womanhood are: Height, 63½ inches; mean chest circumference, 35 5-8 inches, (expansion 3 inches); hips, 37½ inches; thigh, 22 inches; calf, 14½ inches; ankle, 7½ inches; waist 22 inches and weight 127 pounds.

Last week a stranger came to town who proved to be Mr. Cornelius Feek, an old time resident of Scipioville, 30 or 40 years ago. He found an old friend in Isaac Jump of Scipio, who happened to be in town, and the son of an old friend in J. W. Race of this city, son of the late Andrew Race. Cayugans never forget the place of their nativity and early years. Mr. Feek is now in Binghamton and has returned from taking in the State fair at Syracuse on a visit to his brother, A. J. Feek, the noted horseman of that place, and so stopped by Auburn to notice its progress and revive old acquaintances. It is needless to say that Messrs. Jump and Race and others whom he met gave him a hearty welcome.—Auburn Independent.

Dear Me!

Didn't we have a good time at the Fair! Yum! Yum! Yum! How good the taffy and popcorn tasted! How the squeals of the pigs, the bleats of the sheep and the whinnying of the colts carried us back to the dear old home in the country, where the smell of the meadows came into our nostrils, and the plow handles whacked our young ribs! Welcome the glad day when we shall have sold enough Kitchen Tables to go out and live in the

God-made country, away from the man-made town. So this is another invitation to you to give us a fair chance to sell you Furniture, Carpets, Wall Paper, Drapery and any other thing needed in the Home. We are doing our level best to get together an ideal stock of Housefurnishings at the lowest possible prices, and to give you service which is right in every way; honestly and truly, we are; angels only do the best they can.

THE VILLAGE NOTES

NEWS PICKED UP BY THE TRIBUNE REPORTERS.

What Has Happened in Genoa During the Past Seven Days—An Interesting Page.

—A. A. Miller has been home the past few days.

—Well, it is about time to see about that lecture course.

—Mrs. Caroline Booker has returned from her visit in California.

—Pearl Hunter is spending the week with his sister at Moravia.

—Don't fail to read the "specials" at the head of these local columns.

—D. C. Mosher, who had a slight relapse last week, is again upon the gain.

—The advertisement of the Union Springs Sanitarium appears on another page this week.

—Mr. and Mrs. D. C. Smith of Cortland, were calling on friends in town a day or two last week.

—Byron Hunt, traveling collector for D. M. Osborn Co., of Auburn, spent Sunday with his family.

—The lumber for D. W. Gower's new house has arrived, and the building will be commenced soon.

—We hear of some large yields of wheat. Benjamin Gould's, west of Scipio, measured 42 bushels to the acre from the machine.

—O. W. Ferrigo is nursing a badly injured wrist. He was standing in a chair when it tipped over and his wrist was seriously cut.

—Some cases of typhoid fever are reported in this vicinity. People cannot be too careful about their drinking water these days.

—For the first time since this river was damed, hay has been cut from the pond bottom this season. All things indicate that we have had a dry season.

—Manufacturers say that tan shoes are going out of style, and here we are with a pair that ought to last a year longer. This fashion business

—N. D. Backus, the hustling manager of the Spring Mills at Union Springs, was in Genoa on business Thursday evening. C. Vreeland accompanied him.

—There is a state law imposing a fine on any person who allows the Canadian thistle seed to ripen on his premises. Now is the time to cut them.

—The Genoa roller mill is grinding every day as usual. The shut down was only for one day. Hubert is too much of a worker to allow the mill wheels much rest, and he dug a little dyke with a hoe which supplies his engine with water.

—On Tuesday last, Mr. and Mrs. A. Coburn entertained a large number of friends at their pleasant home in Union Springs, in honor of the fiftieth anniversary of their marriage. Mr. Coburn has many friends in this vicinity who will join in THE TRIBUNE'S congratulations.

—The windstorm of yesterday broke large limbs from village shade trees and blew off great quantities of fruit says the Union Springs Advertiser. If the high wind could have blown the limbs from the lame instead of the trees, 'twould not have been an ill wind, at least.

—While D. W. Gower was at work on a silo for Frank Wood at Groton, last week Wednesday, the silo was blown over by the high wind and a portion of it came down striking him on the head, cutting an ugly gash. He was taken to Groton where the wound was dressed, and is so far recovered to attend to his work again.

—Monday morning Mrs. Charles Carson and Miss Florence Wilcox started to drive to Ithaca. A dog frightened the horse which jumped and overturned the carriage in the ditch by the road. Mrs. Carson suffered a fracture of a bone in her left arm and several lesser bruises, and Miss Wilcox was fortunate in being uninjured.

—Mr. Clapp of the Empire State Housefurnishing Co., is one of the best advertisers in this city. His advertisements are prominent in all our exchanges from about this section. If all merchants made their advertisements as spicy and original as his, advertising columns would be read first, news columns next and editorials would get only a passing glance from busy people.—Ithaca Democrat.

—The young firm of H. J. Bool & Co. (so recently inaugurated for the manufacture of cabinet work, picture frames, etc.) have added new blood to its personnel and furniture, wall paper, window shades, etc., to its stock. They are located on the north side of the center of the busiest business block of the city. They lease of Henry Bool the furniture factory east of the campus. They bring comparative youth yet full experience to their new quarters. They are a body of 27 skilled workmen expecting to act as one man in their efforts at catering for Tompkins and surrounding counties in the Housefurnishing line. We here speak for this firm the generous support of our readers. The new firm occupy the large store at 130 East State St., Ithaca, and the second and third floors over Nos. 130 and 132, being the quarters occupied a few years ago by Warner Bros., as a department store.

Remember that J. B. Liberman the reliable dealer in watches, diamonds, silverware, etc. makes regular trips through this section every 30 days. All the best grades in stock. Write him at Moravia for a special want.

—With the re-opening of our public schools, parents and guardians should not lose sight of their children. During the most impressive years of their lives they are in charge of teachers in the public schools. One might argue that this is because of the great confidence felt by parents for the teachers. If so, it is the confidence in strangers. Few teachers know the faces of the parents unless it is because they visit their homes. It is not alone the thought of educating the child which places him in the schoolroom; it is not unbounded and merited confidence in the teacher which gives into her care the youths of a village for six hours a day during the best years of their lives. There are reforms necessary

—The Model Clothing Co. announce their fall opening in this issue of THE TRIBUNE. One will travel a long way before finding a finer assortment of wearing apparel than that carried by this hustling firm.

A MEMORY OF SCHOOL DAYS.

Sometimes a feller's mind goes on an escapade that's wild, and frisks back o'er the years when he was nothin' mor'n a child; The days when with his spellin' book McGuffey drove one sick, An' White gave bitter doses in his third-part rithmetic. When dusk and dew's a fallin' and the work that filled the day I'm restin' from my memory jes' travels back that way. An' lingers longest with a vision time can ne'er destroy—The freckled-faced divinity I worshiped when a boy.

Her face was pure, each feature stamped with innocence, forsooth, An' yet I call her pretty would be stretchin' in of the truth; Though I dreamed all night full often of her cheeks, sun-tanned and brown, Her starched-stiff pink sunbonnet and her ruffled gingham gown. The little girls of these days never have such pansy eyes, An' lips have lost the way t' frame such soft an' sweet replies As those I heard when rambling with, in happy-hearted joy, The freckle-faced divinity I worshiped when a boy.

I plucked the first wild roses of the spring for her to wear, An' helped to braid the blossoms of the orchard in her hair; I stood her knight an' servitor through boyhood days the span, An' held her in my heart until I'd grown to be a man! But here's a truce to memory, since late the hour grows to the hour of sleep, Upstairs to bed I softly steal to dreams and sweet repose, An' kiss my wife good night, she who has been life's dearest joy, The freckle-faced divinity I worshiped as a boy.

—Roy Farrell Greene, in Detroit Free Press.

HER JEWELS.

I OUGHT to have been a radiantly contented face that was turned toward the dress lying like a snowdrift across the lounge, so beautiful, so tasteful it was, and so certain to be wondrously becoming to the fair, dainty little lady who stood looking at it, her blue eyes frowning, her red lips a little pouty.

Mrs. Clifford touched the thick, shining satin bodice caressingly and looked up at Jennie.

"Don't you like it, dear? I can't see where there is room for the slightest improvement. The skirt is elegant and the bodice is exquisite."

Jennie laughed at her mother's evident distress lest she was not perfectly satisfied.

"It is perfectly lovely, mamma!" she replied. "There can be no doubt of that, and I am quite sure I shall look nicely in it, and I am also quite sure Phil will admire it. Only—"

And the little discontented look came back into the pretty blue eyes—that Phil Courtenay swore by, that had played sad havoc with his heart until he had conquered their owner.

Mrs. Clifford looked inquiringly. "Only what, Jennie?"

Then the secret dissatisfaction came out in a burst of emphatic earnestness: "If I didn't have to wear flowers, mamma, with it! Oh, I am so sick of flowers—flowers, always flowers, for ornaments—and I am just dying for jewels—a diamond cross and earrings."

And accompanying the words was a defiant little nod of the head and a compression of the red lips.

Mrs. Clifford gave an exclamation of startled astonishment.

"Jennie! A diamond cross and earrings! The idea! Why don't you wish for a queen's crown or an angel's wing, and be done with it? A diamond cross and earrings! Child, how silly to waste even a thought, a wish, much less a word, on such an utter absolute impossibility!"

Instead of being hushed by Mrs. Clifford's positive determination, Jennie only smiled, with a little more of defiance in her blue eyes.

"But I do wish for them, all the same, mamma; and I think I ought to have them, too. And so does Phil, and he has as good as told his rich old granduncle to give me just such a present. He's horridly stingy, old Mr. Bemerton is, and if I wait until he gives them to me—"

The willful little beauty crested her head and shrugged her shoulders very becomingly.

"But, dear, I cannot see what that or anything else can have to do with your insane desire. Wait until Mr. Bemerton sees fit to present you with some handsome jewels; and meanwhile you will look just as sweet as ever in fresh, lovely flowers!"

Mrs. Clifford had a caressing, gentle way of speech that was the very essence of motherliness.

"But, mamma, you see, I must have the diamonds, or else I won't go to the ball."

Her mother sighed over the sweet, willful girl.

"And," Jennie went on, in a decisive sort of way her mother knew would be of no avail attempting to prevent, "I can easily enough have them, mamma. I'll hire them for the occasion!"

The girl's suggestion fairly took Mrs. Clifford's breath away for the minute.

"Jennie! Hire them! Child, what folly you are talking! Wear hired jewels—hired finery! Jennie, surely you are not in earnest when you propose

Jennie's eyes sparkled as she listened impatiently.

"Mamma, what nonsense. Better people than we do such things, and I'm sure it can be no worse than hiring masquerade suits, and everybody does that, or imposing upon people with hired wedding presents, as Cousin Amy did!"

"What your Aunt Olive does is often very different from what I would do. Besides, Jennie, you know Philip would be indignant. You know he would never tolerate such a thing."

Bad Use for Him.

Barry Sullivan, the Irish tragedian, was playing in "Richard III." some years ago at Shrewsbury. When the actor came to the lines: "A horse, a horse! My kingdom for a horse!" some one in the pit called out:

"Wouldn't a donkey do, Mr. Sullivan?"

"Yes," responded the tragedian, turning quickly on the interrupter. "Please come round to the stage-door." —Tit-Bits.

Willing Martyrdom.

Sollicitous Parent—Evelyn, you mustn't ride in this open street car such a cold day as this without your jacket. Put it on, child. You will have pneumonia if you don't.

F. D. PIERCE, M. D., Supt.

EXTRACTS FROM ANNUAL REPORTS OF CASES TREATED AT THE SANITARIUM.

CASE 4019—Nervous Prostration with Insomnia (Wakefulness).—Last spring and for a long time previous, I had been suffering from insomnia and the worst kind of nervousness. If I laid down and wanted to sleep I could not sleep for a few minutes, a terrible crawling of my nerves aroused me and the only relief I could get was to walk the house for an hour, often not getting one hour of sleep during the night. I got no relief from the doctors, and was fast wearing out for the need of sleep. A friend advised me to consult Dr. Pierce, at the Sanitarium, Union Springs, N. Y. I did so and received from Dr. Pierce and his assistants, as long as memory serves me, I shall hold the place and the people most dear. —B. D. ANNENWALT, Cleveland, O. (Mr. Annenwalt is President of the Cleveland Directory Co.)

CASE 1856—Nervous Prostration.—I was at the Union Springs Sanitarium in the winter of 1890-1891. I was carried there upon a bed most of the way. I left there unattended and traveled about until Nov., 1891. I cannot ever forget the kind care and the benefit I received from Dr. Pierce and his assistants. As long as memory serves me, I shall hold the place and the people most dear. —B. D. ANNENWALT, Cleveland, O. (Mr. Annenwalt is President of the Cleveland Directory Co.)

CASE 1467—Paralysis of both upper and lower limbs of 18 years standing—Cured.—For the benefit of suffering humanity and in justice to my benefactor, I feel that it is my duty to report the marvelous cure that has been effected in my case. Nineteen years ago I had Spinal Fever, since which time I had been paralyzed and unable to stand or walk a step. Seven long, weary years I spent in bed and for three years was not able to even feed myself. Twelve years ago, Rheumatism set in and my joints became swollen, enlarged and painful and remained so. In this condition I went to the Sanitarium, at Union Springs, N. Y., and placed myself in the care of Dr. Franklin D. Pierce, the superintendent of that institution. As the result of his skillful treatment and the unsurpassed facilities of the Sanitarium for the application of electricity, mechanical massage and baths, I am to-day comparatively well, able to walk and able to walk without a cane and go up and down stairs. When I went there, my body was wasted to a skeleton (50 lbs. weight), my appetite was poor and I could sleep but little, whereas now I am fatter than before my illness nineteen years ago. —ELIZABETH TRAPPAUGH, Lodi, Seneca Co., N. Y.

CASE 302—Hemiplegia, or Paralysis of one side of the body.—I went to Dr. Pierce's Sanitarium in 1886 to be treated for Paralysis. There was great loss of power and sensation on the left side of my body, drowsiness and pain in my head and back, great impairment of memory and of all my mental faculties, and a tendency to turn to the left and pitch forward when I attempted to rise or walk, which I could not do without a person at each side to assist me. Five weeks' treatment restored my health and vigor, there being not the slightest trace of paralysis left, and I have since conducted my business. I am now 78 years of age. —ALLEN ACRA, Port Byron, N. Y., July 7, 1900.

CASE 710—Uterine Disease, (Femal Weakness), with Heart Affection.—For years I had been a sufferer from general declining health, female weakness and sympathetic heart trouble. At times I would despair of ever being any better. Physicians afforded me only temporary relief. It was not until I placed myself under your skillful treatment, at Union Springs, that I experienced any decided benefit. My health has gradually improved until now I feel like a new being. It is now more than a year since I was at the Sanitarium. I have gained twenty pounds in flesh, and I do all my own work. Language fails to express my gratitude for this cure. —Mrs. S. HOWARD, Onondaga Valley, N. Y.

CASE 3502—Laceration of the Uterus and Peritonium, with prolapsus of the womb, bladder and rectum—Double Operation—quick recovery.—One year after, she reports: "My health and general condition are very good. I believe I am enjoying about perfect health for a person of my age. What my physical condition was when I placed myself under your care no one can describe so well as yourself. I was simply a physical wreck from female weakness. I only wish that every poor sufferer similarly afflicted could know of your ability to cure them. I acknowledge with gratitude not only your professional ability and skill, but also your gentle kindness while at your Sanitarium." —Mrs. SARAH A. HUNAY, East Genoa, N. Y.

Cancer.—Dr. Pierce, I had suffered for six years from disease of the womb. During this time I had consulted several physicians who were considered very skillful, but they could do me no good. At last I was confined to my bed for five months, and my case was given up as a hopeless one. Finally, I came to you for treatment, where I remained one month. I then returned home, treated myself a few weeks with your medicines, since which time I have been able to attend to my household duties. —Mrs. MARY E. VAN ETEN, Van Etten, Chemung Co., N. Y.

CASE 327—Abdominal Tumor.—Twenty-one years ago I was very ill after confinement. I was tapped and 40 pounds of matter drawn away, and afterwards wore a silver drainage tube for three years. Later an abdominal tumor developed, and I became so bad that my friends considered my case hopeless. I went to a prominent doctor in Syracuse, who said there was no hope except to remove it with a knife, and that the chances would then be against me. I then went to you and was under your care five weeks. The growth of the tumor was arrested and its size reduced by your treatment, and I have since enjoyed a fair degree of health. —Mrs. FRANCES KELLOGG, Mexico, N. Y.

CASE 2216—Cancer of the Breast, advanced stage of development, with severe pain and offensive discharge.—Was treated at the Sanitarium, Union Springs, N. Y. in 1898 and 1899. I have been in health ever since. "My health is very good. I grow stout all the time—weight at present 165 lbs.—Your friend, M. M." (Full name and address will be furnished interested persons on application.)

CASE 1976—Cancer of the Face.—F. D. Pierce, M. D., Dear Doctor: In the month of May, 1892, I took treatment of you for cancer on the right cheek, involving the right eye, and was permanently cured, and after a lapse of nearly five years there are no symptoms of a reappearance of the morbid growth. I feel it my duty to help all suffering humanity with this loathsome disease. —J. E. LEEH, Warrenburg, Mo.

CASE 2721—Tumor of the Testicle weighing nine pounds—Removed by Operation—Speedy Recovery.—Eight months after reports as follows: "I have been in health ever since I turned my back on you last winter. We often speak of you and the kind friends we met at your home." —(Rev.) Jas. Whiour, Ridgeway, Lenawee Co., Mich.

CASE 2705—Gastritis, or inflammation of the Stomach.—Two years after being at the Sanitarium reports: "I am very thankful to say that I am able to work all the time, and have never since I came from there. You see you did too much for me." —RUTH BURN, Farmer, N. Y.

CASE 479—Rheumatism and Sciatica.—I was taken to your Sanitarium, suffering with rheumatism and sciatica, which had existed for five months. There was great swelling of the joints, and the pain was excruciating. I was so that I could not turn in bed or help myself at all. After three weeks' treatment, I was able to walk through the halls, down stairs and out to a carriage, without assistance. I most heartily recommend the Sanitarium to all chronic invalids, from whatever disease they may be suffering. —Mrs. E. C. BOWEN, Union Springs, N. Y.

CASE 2907—Bright's Disease, with bloody urine and a large amount of albumen and tubercula; had been pronounced hopeless by prominent physicians, who predicted he would come home in a box from the Sanitarium.—Three years after being at the Sanitarium, his wife reports as follows: "Doctor, you saved my husband. To-day I think he is as well as he ever was; the urine has been of the right color, normal amount and in every way, to all appearances, as healthy as it ever was. There is no bloating anywhere, no pain or soreness in his back and has not been for a long time—no symptoms of the disease any more than as though he had never had it. There is never a day of my life I do not think of you and thank you for giving him back to me. I think it the most wonderful case I ever heard of; I knew he had Bright's disease and consequently thought he must die, for I had never heard of one getting well of that—I supposed it was but a matter of only a few weeks at most when I must give him up. When he went to you, I had no hope of your doing him any good, but it was the last straw and I caught at it as would a drowning man. He went and was cured—there is no more to say about it." —

LETTER OF BRYAN.

He Formally Accepts the Presidential Nomination.

FAVORS LAWS AGAINST THE TRUSTS.

Recommends Free Coinage of Silver at Ratio of 16 to 1—Advocates Establishment of a Department of Labor—Condemns Imperialism.

NEW YORK, Sept. 18.—William J. Bryan, presidential candidate on the Democratic national ticket, has presented his letter accepting the nomination. Mr. Bryan leads his text with his views on the trust question. He touches on interstate commerce and reviews the currency issue, the labor situation and devotes considerable space to expansion and imperialism.

In regard to trusts he says: "The Kansas City platform very properly gives prominence to the trust question. The appalling growth of combinations in restraint of trade during the present administration proves conclusively that the Republican party lacks either the desire or the ability to deal with the question effectively. If as may be fairly assumed from the speeches and conduct of the Republican leaders that party does not intend to take the people's side against these organizations, then the weak and qualified condemnation of trusts to be found in the Republican platform is designed to distract attention while industrial despotism is completing its work. A private monopoly has always been an outlaw. No defense can be made of an industrial system in which one or a few men can control for their own profit the output or price of any article of merchandise.

"Under such a system the consumer suffers extortion, the producer of raw material has but one purchaser and must sell at the arbitrary price fixed, the laborer has but one employer and is powerless to protest against injustice either in wages or in conditions of labor, the small stockholder is at the mercy of the speculator, while the traveling salesman contributes his salary to the overgrown profits of the trust. Since but a small proportion of the people can share in the advantages secured by private monopoly it follows that the remainder of the people are not only excluded from the benefits, but are the helpless victims of every monopoly organized. It is difficult to overestimate the immediate injustice that may be done or to calculate the ultimate effect of this injustice upon the social and political welfare of the people.

"Our platform, after suggesting certain specific remedies, pledges the party to an unceasing warfare against private monopoly in nation, state and city. I heartily approve of this promise. If elected, it shall be my earnest and constant endeavor to fulfill the promise in letter and spirit, I shall select an attorney general who will without fear or favor enforce existing laws, I shall recommend such additional legislation as may be necessary to dissolve every private monopoly which does business outside of the state of its origin, and, if contrary to my belief and hope, a constitutional amendment is found to be necessary I shall recommend such an amendment as will without impairing any of the existing rights of the states empower congress to protect the people of all the states from injury at the hands of individuals or corporations engaged in interstate commerce.

"The Democratic party makes no war upon honestly acquired wealth. Neither does it seek to embarrass corporations engaged in legitimate business, but it does protest against corporations entering politics and attempting to assume control of the instrumentalities of government. A corporation is not organized for political purposes and should be compelled to confine itself to the business described in its charter. Honest corporations engaged in an honest business will find it to their advantage to aid in the enactment of such legislation as will protect them from the undeserved odium which will be brought upon them by those corporations which enter the political arena.

"The currency question: "The platform reiterates the demand contained in the Chicago platform for an American financial system made by the American people for themselves. The purpose of such a system is to restore and maintain a bimetallic level of prices, and in order that there may be no uncertainty as to the method of restoring bimetallic the specific declaration in favor of free and unlimited coinage at the existing ratio of 16 to 1 independent of the action of other nations is repeated. In 1896 the Republican party recognized the necessity for bimetallic by pledging the party to an earnest effort to secure an international agreement for the free coinage of silver, and the president immediately after his inauguration by authority of congress appointed a commission composed of distinguished citizens to visit Europe and solicit foreign aid. Secretary Hay in a letter written to Lord Aldenham in November, 1898, and afterward published in England declared that at that time the president and a majority of his cabinet still believed in the great desirability of an international agreement for the restoration of the double standard, but that it did not seem opportune to reopen the negotiations just then. The financial law enacted less than a year ago contains a concluding section declaring that the measure was not intended to stand in the way of the restoration of bimetallic whenever it could be done by co-operation with other nations. The platform submitted to the last Republican convention with the endorsement of the administration again suggested the possibility of securing foreign aid in restoring silver.

"Now the Republican party for the first time openly abandons its advocacy of the double standard and endorses the monetary system which it has so often and so emphatically condemned. The

and silver coinage of the constitution and is not willing that other nations shall determine for us the time and manner of restoring silver to its ancient place as a standard money. The ratio of 16 to 1 is not only the ratio now existing between all the gold and silver dollars in circulation in this country, a ratio which even the Republican administration has not attempted to change, but it is the only ratio advocated by those who are seeking to reopen the mints."

Election of senators: "The demand for a constitutional amendment providing for the election of senators by direct vote of the people appears for the first time in a Democratic national platform, but a resolution proposing such an amendment has three times passed the house of representatives, and that, too, practically without opposition. Whatever may have been the reasons which secured the adoption of the present plan a century ago new conditions have made it imperative that the people be permitted to speak directly in the selection of their representatives in the senate. A senator is no less the representative of the state because he receives his commission from the people themselves rather than from the members of the state legislature."

Relative to labor: "Several planks of the labor platform are devoted to questions in which the laboring classes have an immediate interest, but which more remotely affect our entire population. While what is generally known as government by injunction is at present directed chiefly against the employees of corporations when there is a disagreement between them and their employer it involves a principle which concerns every one. The purpose of the injunction in such cases is to substitute trial by judge for trial by jury and is a covert blow at the jury system. The abolition of government by injunction is as necessary for the protection of the reputation of the court as it is for the security of the citizen.

"I cannot too strongly emphasize the importance of the platform recommendation of the establishment of a department of labor, with a member of the cabinet at its head. When we remember how important a position the laborer fills in our economic, social and political fabric, it is hard to conceive of a valid objection being made to this recognition of his services.

"The Chinese exclusion act has proved an advantage to the country, and its continuance and strict enforcement as well as its extension to other similar races are imperatively necessary.

"The Democratic party is in favor of the immediate construction, ownership and control of the Nicaragua canal by the United States. The failure of the Republican party to make any progress in carrying out a pledge contained in its platform four years ago, together with the substitution in its latest platform of a plank favoring an isthmian canal for a specific declaration in favor of the Nicaragua canal, would indicate that the Republican leaders either do not appreciate the importance of this great waterway to the maritime strength and commercial interests of the country or that they give too much consideration to the interested opposition of transcontinental lines.

"Arizona, New Mexico and Oklahoma have long been ready to assume the responsibilities and enjoy the privileges of statehood, and it will be a pleasure as well as a duty to carry out the platform pledge concerning them. There will be a popular acquiescence in the demand for home rule and a territorial form of government in Alaska and Porto Rico. Both are entitled to local self government and representation in congress.

"The recognition contained in both the Democratic and Republican platforms of the right of the Cubans to independence removes the general principle involved from the domain of partisan politics. It is proper, however, to consider whether the accomplishment of this purpose can be safely intrusted to the Republican party after it has yielded to the allurements of the colonial idea and abandoned its earlier faith in the natural and inalienable rights of man.

"By inadvertence the income tax plank agreed upon by the resolutions committee was omitted from the platform as read and adopted. The subject, however, is covered by the reaffirmation of the Chicago platform, and I take this occasion to reassert my belief in the principle which underlies the income tax.

"The reasons given by Washington, Jefferson and the other statesmen of the early days in support of the doctrine that we should maintain friendly relations with all nations, but enter into entangling alliances with none, are even stronger today than they were 100 years ago. Our commerce is rapidly increasing and we are brought into constant communication with all parts of the world. Even if we desired to do so we could not afford to alienate many nations by cultivating unnecessary intimacy with a few."

Speaking of expansion, he says: "The position taken by the Republican leaders and more recently set forth by the Republican candidate for the presidency—viz, that we cannot protect a nation from outside interference without exercising sovereignty over its people—is an assault upon the Monroe doctrine, for while this argument is at this time directed against the proposition to give to the Filipinos both independence and protection it is equally applicable to the republics of Central and South America. If this government cannot lend its strength to another republic without making subjects of its people, then we must either withdraw our protection from the republics to the south of us or absorb them. Under the same plea, that the guardian nation must exert an authority equal to its responsibility, European nations have for centuries exploited their wards, and it is a significant fact that the Republican party should accept the European idea of a protectorate at the same time that it adopts a European colonial policy."

here to or abandon those ideas of government which have distinguished this nation and given to its history its peculiar charm and value is a question the settlement of which cannot be delayed. No other question can approach it in importance; no other question demands such immediate consideration. It is easier to lose a reputation than to establish one, and this nation would find it a long and laborious task to regain its proud position among the nations if under the stress of temptation it should repudiate the self evident truths proclaimed by our heroic ancestors and sacredly treasured during a career unparalleled in the annals of time. When the doctrine that the people are the only source of power is made secure from further attack, we can safely proceed to the settlement of the numerous questions which involve the domestic and economic welfare of our citizens."

Nearing the End.

The flight of President Kruger to Lorenzo Marquez, the principal port of Portuguese Africa, is doubtless a prelude to the early conclusion of the Anglo-Boer war. He is now at the home of the Portuguese Governor of the district, and, by the right of asylum, is secure from capture, for the present at least. Upon the heels of Kruger's departure from the Transvaal, Lord Roberts issued an adroitly worded proclamation, pointing out to the Boers the hopelessness of their cause and the folly of further resistance. The Boer army still in field is sufficiently large to give the British army serious trouble for some weeks, if not months, to come, but it seems hardly probable that the burghers will persist in a guerrilla warfare that cannot possibly bring any political advantage. Two months ago a ray of hope illuminated the Boer situation, desperate as it was then, in the shape of the Chinese complication; but that has been extinguished. Nothing is left for the Boer troops still under arms but to surrender.

Nearly a year has elapsed since the Anglo-Boer war commenced, and that year has witnessed an exhibition of offensive and defensive fighting on the part of the Boers that has perhaps been unexcelled in all the history of warfare. The size of the Boer army did not exceed 35,000 men at the outset, and it was of course steadily depleted by losses; but it challenged, and withstood for many months, all the available military resources of the British empire, inflicting a damage on the enemy incomparably greater than that sustained by itself, a damage that exceeds anything in military records, considering the numerical strength of the Boer forces. But the Boers have nothing but military glory to show for their marvelous prowess as belligerents. They have lost not only the cause for which they originally contended, but their national sovereignty as well. It is decreed by the British government, and apparently with the approval of the British public, that the Transvaal republic and the Orange Free State shall be wiped from the map of South Africa. A sadder fate could scarcely confront a brave and industrious people.

Our Milliners, two in number, have been in the city four weeks to equip themselves in the latest styles, up-to-date styles Millinery establishments, and will be in Ithaca the latter part of the week. Our Domestic, Flannel, Linen and Bedding Buyer is now in the market and shipping goods daily, so you see every department is looked after by competent and separate people just making a study of one particular department. While you give us credit for handling many departments, still each one is a store by itself, looked after with but two views in aim, to serve you better each season, and have the best the market affords for the least possible margin. We, therefore, bespeak to be ready in a few days to offer you the full supplies at still better terms than ever.
