Interesting Items That Our Correspondents Have Gathered For TRIBUNE Readers.

Poplar Ridge.

Feb. 23—Our sleighing was of short duration again this time. Allen Landon and wife were in Moravia on Friday last, visiting her brother, Dr. Frost, of that place.

Mrs. Clara Beebe has returned after visiting friends in Auburn and Scipio.

Mrs. Dayton Atwater and daughters also Mrs. Mary Ingalls are spending a few days at George Husted's.

Arthur Landon and wife will entertain the five hundred club at their home this week.

Mr. Bert Todd and son, Howell Mosher of Five Corners, visited Phebe Mosher, also Wilson Mosher and called on other friends the first of the week.

Agreat many are confined to the house with severe colds.

Mrs. Mary Yawger is spending a few days at Ledyard with her nephew, Fred Starkweather and family.

In response to invitations from Mr. and Mrs. George Husted between twenty and thirty relatives and friends gathered at their pleasant home at six o'clock on Monday evening to remind their father, Henry Wheeler, that he had added another year to his life. It was also Mr. and Mrs. Husted's twenty second wedding anniversary, which was not known by all the company.

Fine refreshments were served soon after the company arrived by the hostess, after which the evening was pleasantly spent in visiting and games. Dayton Atwater entertained the company with a solo, also some instrumental music, after which the friends dispersed wishing all parties many returns of the day.

Church and Society Notes.

PRESBYTERIAN CHURCH—Rev. John Sharpe, who is assisting Rev. Mr. Dresser in revival meetings at Five Corners, will preach in the Presbyterian church at Genoa next Sunday morning. Come and hear this evangelistic preacher. You are cordially welcome.

BAPTIST CHURCH—Morning worship, 11 o'clock; Bible school at noon; evening worship, 7 o'clock. Prayer meeting Wednesday evening, March 3, at the parsonage. The meeting of the Ladies' Aid society at Mrs. Gillespie's last Friday was the largest in the history of the society 70 being present. A splendid supper was served and much enjoyed by all. The next meeting will be held at Mrs. Frank Miller's March 5.

Man is an admirer of the beautiful. He invariably selects the umbrellas that has the prettiest handle.

Consumption

is by no means, the dreadful disease it is thought to be—in the beginning.

It can always be stopped—in the beginning. The trouble is: you don't know you've got it; you don't believe it; you won't believe it—till you are forced to. Then it is dangerous.

Don't be afraid; but attend to it quick—you can do it yourself and at home. Take

SCOTT'S EMULSION

of Cod Liver Oil and live carefully every way.

This is sound doctrine, whatever you may think or be told; and, if heeded, will save life.

Send this advertisement, together with name of paper in which it appears, your address and four cents to cover postage, and we will send you a "Complete Handy Atlas of the World."

SCOTT & BOWNE, 409 Pearl St., New York

Five Corners.

Feb. 23—Dr. Allen of West Virginia has located here and may be found at Wm. A. Palmer's. He has been kept very busy since his arrival. We are all glad to welcome him as our physician and wish him great success in his new field.

John Palmer and Oscar Hunt made a business trip to Summerhill last week, remaining for several days, and have gone there again this week to remain a few days.

Mrs. J. D. Tood and son Howell visited relatives at Poplar Ridge from Saturday until Monday.

Homer Algard, wife and daughter Veda and Mrs. Chas. Barger visited at the home of Chas. Davis and wife at North Lansing last Sunday.

Rose, the little daughter of Mr. and Mrs. Erwin Snushall, entertained sixteen little girls and her cousins, John Stewart and Lloyd Rosecrans, this week Monday, it being her 9th birthday. She received some nice presents and the afternoon was pleasantly spent by the little ones and very nice refreshments were served.

E. B. Stewart and wife entertained some friends from Trumansburg from Saturday until Tuesday.

Mrs. Oscar Hunt caught her fingers in the cogs of the clothes wringer while washing last Monday and hurt them quite badly. The wounded fingers are very painful. No doubt she thought there were not clothes enough to run through so she would try her fingers.

Mrs. Mary Parr is house-keeping for George Crouch while her daughter, Mrs. Crouch, is taking care of an invalid sister near Trumansburg.

The social which was held at Jump's hall, under the auspices of the L. A. S. of Belltown last week Friday was not very largely attended on account of the terrible rain storm.

A company of friends by invitation gathered at the pleasant home of Mr. and Mrs. W. W. Atwater last week Thursday. It was beautiful outside and just as beautiful inside. Mr. and Mrs. Atwater know just how to entertain company and the day was one of pleasure. Last but not least was the grand dinner which was served and which was highly appreciated by all. Some of the invited guests on account of sickness and other disappointments were not able to be present for which we were all very sorry. As the hour came for departure all assured the host and hostess that they had enjoyed the day supremely.

Clyde Mead of Ludlowville visited his parents, S. B. Mead and wife, from Saturday until Sunday evening.

Mrs. Chas. Barger is spending a few days with her son, Henry Barger and family near Ludlowville, as little Ira is quite ill.

William Munger of Scipio.

William Munger of the town of Scipio, aged 74 years, who had resided in that town for 43 years, died at the family home, about one mile from the Owaseo Lake station, on the farm where he has resided for several years, Monday afternoon, Feb. 15. Mr. Munger was a member of Cayuga lodge, F. and A. M., of Scipio Center, who with Rev. Arnold S. Yantis of the Universalist church of Auburn had charge of the funeral services. Mr. Munger was not only a highly respected citizen, but one who had made for himself a character which is well worthy of emulation. He is survived by his wife, Hannah Robinson Munger, one son, Supervisor William L. Munger of Scipio, and one sister, Mrs. Sarah Williams of Wolcott, N. Y. Funeral services were held at the house Thursday afternoon at 1:30 o'clock. Burial was made in the family plot in Fort Hill cemetery in Auburn.

Satan seldom puts off till the morrow what he can do to day.

Few farmers realize what it costs to be rough with cows.

Too much cream for the calf is about as bad as to much money for the boy.

A careful milker, quiet in his way about the stable, is worth many dollars more in a single season than one who is brutal.

It is when to-morrow's burden is added to to-day's that the weight is more than man can possibly bear.

—Farm Journal.

Soldier Barks Death Plot.

It seemed to J. A. Stone, a civil war veteran, of Kemp, Tex., that a plot existed between a desperate lung trouble and the grave to cause his death. "I contracted a stubborn cold," he writes, "that developed a cough that stuck to me, in spite of all remedies, for years. My weight run down to 130 pounds. Then I began to use Dr. King's New Discovery, which restored my health completely. I now weigh 178 pounds." For severe Colds, obstinate Coughs, Hemorrhages, Asthma, and to prevent Pneumonia it's unrivaled. 50c. and \$1.00 Trial bottle free. Guaranteed by J. S. Banker, Genoa, and F. T. Atwater, King Ferry, druggists.

Found Dead in his Home.

James Coss, aged 70 years, was found dead in his home in the town of Fleming, Sunday morning by Thomas Lynch of Scipio, who called to pay the deceased a visit about 10 o'clock. Coss was found with his head over the back of a chair at the kitchen table with a meal already prepared and untouched.

He was last seen alive by Milton Parsell, a neighbor, emptying his coffee pot in the back yard on Saturday afternoon about 4:30 o'clock. The cause of death as given by Coroner Smith was valvular disease of the heart. The deceased has lived alone since the death of his wife about nine years ago.

The funeral was held from Mullen's undertaking rooms Auburn, Tuesday morning at 9:15 o'clock with services at St. Mary's church at 9:30 o'clock. Burial was made in St. Joseph's cemetery.

Washington once Gave up to three doctors; was kept in bed for five weeks. Blood poison from a spider's bite caused large, deep sores to cover his leg, the doctors failed, then "Bucklen's Arnica Salve" completely cured me," writes John Washington, of Bosqueville, Tex. For eczema, boils, burns and piles its supreme, 25c. at J. S. Banker's, Genoa, and F. T. Atwater's, King Ferry, drug stores.

Many Children are Sickly. Mother Gray's Sweet Powders for Children, used by Mother Gray, a nurse in Children's Home, New York, Break up Colds in 24 hours, cure Feverishness, Headache, Stomach Troubles, Teething Disorders, and destroy "Worms." At all druggists, 25c. Sample mailed free. Address, Allen S. Olmsted, LeRoy, N. Y.

Anybody can keep hens, but not anybody can have hens keep him.

Ledyard.

Feb. 23—Our new justice was called on to perform a marriage ceremony on Monday, but as he had not been sworn into office was obliged to decline the honor. The young couple then repaired to the parsonage, but having no license and for other reasons their plans were again foiled. The last heard from they had taken the train for Union Springs, where we hope they will meet with good success.

Miss Susan Jump has returned to her home here, after spending several weeks with her nephew, Hiram Jump.

Mrs. Ellen Atwater of Auburn is spending a short time in town.

H. M. Purdy and wife are both under the care of Dr. Hatch at present.

Mr. and Mrs. Rynders have been visiting at Mr. Brightman's the past week.

Geo. Kirkland is visiting friends at Dresserville.

Mr. and Mrs. R. H. Thorpe of Venice and Miss Ida Thorpe of Auburn were visitors at Frank Main's on Sunday.

Indian Field.

Feb. 19—Mrs. Minnie Eaton of Moravia visited Mr. and Mrs. Will Weyant recently and also called at her former home.

Clara Andrews entered the Moravia training class last week and boards with Mrs. Eaton.

Mr. and Mrs. Will Hoskins of Genoa visited Charles Miller and family Sunday afternoon.

Frank King and wife called at F. Purinton's Tuesday and seemed pleased over their new prospects.

John Snyder and family visited at Arthur Coomber's Tuesday evening.

J. H. Cruthers escaped what might have been a serious accident Monday afternoon. While going down Genoa hill, the neckyoke gave out letting the tongue down. John Snyder, who was riding with him, saw what had happened and leaped from the wagon upsetting his big pile of eggs, in his haste to secure the horses, thus making his ride to town quite expensive for a short distance.

Forks of the Creek.

Feb. 24—Mrs. Roscoe Baker is ill with the grip. Dr. Allen of Five Corners is attending her.

George Austin and wife took a load of pork to Ithaca Tuesday.

Edith Sill spent the latter part of last week with F. H. Tarbell and family.

George Marshall has been spending a few days with Clarence O'Hara and wife on the Lansingville road.

A. S. Reeves and Sidney Reeves made a business trip to Ithaca Tuesday.

Earl Burlingame and wife of Kelloggville have been visiting friends and relatives in this place.

Satan seldom puts off till the morrow what he can do to day.

Few farmers realize what it costs to be rough with cows.

Too much cream for the calf is about as bad as to much money for the boy.

A careful milker, quiet in his way about the stable, is worth many dollars more in a single season than one who is brutal.

Scipioville.

Feb. 23—Miss Myrtle Johnson and friend, Mr. Lozon of Auburn were guests at Wm. McCormick's on Sunday.

Chas. Pattington has purchased Sarah West's property east of the Ville.

Miss Edith Johnson of Mapleton visited her sister, Mrs. Warren Strong, a few days last week.

F. C. Gifford spent Sunday in Auburn.

Mrs. Earl McAllaster of Genoa has been visiting Wm. McCormick's family for a few days.

Rev. Bruce Corbin gave a very interesting lecture on Burma with 100 illustrated stereopticon views at the M. E. church Tuesday evening Feb. 23.

The Ladies' Missionary society of the M. E. church held a meeting, and dinner was served at the home of Mrs. Alfred Simpkins on Feb. 23.

L. S. Atwater was in Genoa on Monday.

Mr. and Mrs. Leeson were in Auburn, the guests of Warren Houghton, last week.

Supervisors Elected.

The following supervisors were elected at the recent town meetings:

Aurelius—William Patterson, D
Brutus—Michael Grace, R*
Cato—Ernest Pooler, R*
Conquest—Judson Green, D*
Fleming—John G. Langham, D
Genoa—Florence Sullivan, D*
Ira—John F. Coulling, R*
Ledyard—Millard Streeter, D*
Locke—A. C. McIntosh, R*
Mentz—George Newkirk, R
Montezuma—Charles Higgins, R*
Moravia—J. Fitch Walker, R*
Niles—Earl Odell, D
Owasco—Daniel McGarr, D
Scipio—Day Chamberlain, R
Sempronius—Clinton Rhoads, D
Sennett—Charles Lawrence, R*
Springport—Oscar Spencer, R
Sterling—William Bailey, R
Summerhill—Charles Ranney, D
Throop—Charles W. Hadden, D*
Victory—John F. Manroe, R*
*Re elected.

The Republican majority has been reduced from 5 to 3.

Deafness Cannot be cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

F. J. CHENEY & CO., Toledo, Ohio.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

Apples, butter, chickens, ducks and turkeys wanted at the Carson House, Genoa, from 8 a. m. until 3 p. m. Tuesday, March 2, 1909. Prices are high.

S. C. HOUGHTALING, Auburn, R. D. 5 3011

Placing Him.

"Papa," inquired little May, after Sunday school, "was George Washington an Israelite?"

Before her father could answer this somewhat unexpected question, May's six-year-old brother broke in.

"Why, May, I'm 'shamed of your ignorance! George Washington is in the New Testament, not in the Old."

Last Chance to Buy Parlor Stoves At Big Cut Prices.

'Tis cheaper now to buy new than patch up the old stove.

Only Ten Left

One Oak Stove, nickel trimmed, good size fire pot, was 10.00, now 7.50.

One Oak Stove, large size. Will heat one large room or two small rooms, 16.50, now 13.00.

One large high grade Base Heating Stove beautifully nickel trimmed was 36.00, now 26.00, and seven more almost at your own price.

H. TRAUB & SON,

40-46 Geneva Street,
AUBURN, N. Y.

Dr. Frank C. Hoskins.

The following account of the death of Dr. Frank C. Hoskins appeared in the Cleveland Plain Dealer of Saturday, Feb. 20:

Dr. Frank C. Hoskins, thirty, head of the Fairmount home sanitarium, 2219 Fairmount-rd., S. E., died early yesterday morning at Charity hospital from la grippe peritonitis. An operation was performed Wednesday, but failed to relieve the patient.

Dr. Hoskins was prominent among the younger physicians in the city. A week ago he was apparently in full health. Following a street car ride he suffered a chill and took to his bed. His condition rapidly grew worse and Wednesday he was taken to the hospital, where an operation was performed in the hope of bringing relief. It was unavailing and in spite of every effort of the physicians he died yesterday morning.

The deceased was a graduate of Western Reserve, 1904. Shortly after his graduation he was appointed head of the Fairmount home sanitarium. He was a member of the American Medical association and the Academy of Medicine.

He is survived by his parents and a wife, whom he married about a year ago. His father, William Hoskins, is seriously ill with the grip.

The funeral will be held from the home of W. H. Hoskins, 10120 Wilbur-av., S. E., at 2 o'clock Monday afternoon. Rev. Dan F. Bradley will officiate. Dr. Hoskins' fraternity brothers of the Phi Rho Sigma chapter will attend in a body and act as pallbearers. Interment will be in Lakeview cemetery.

Town Officials.

In Venice the following officers were elected at the town meeting last week, after a hot contest:

Supervisor—M. W. Murolock, R, 38 maj.
Town Clerk—S. W. Kenyon, R, 44 maj.

Justices of the Peace—C. C. Culver, R, 70 maj.; R. C. Wyllie, R, 73 maj.
Justice of the Peace, (vacancy) R. C. Wyllie, R, 57 maj.

Assessors—W. E. Whitman, R, 95 maj.; J. P. Northway, R, 2 maj.; G. B. Husted, R, 77 maj.

Overseers of the Poor—W. B. Teeter, R, 90 maj.; David Nolan, R, 75 maj.

Constables—Fay Teeter, R, 83 maj.; Elias Beach, R, 78 maj.; John Fawcett, R, 65 maj.; Arthur Painter, R, 81 maj.

Sealer of Weights and Measures—Eliha Cook, R, 187 maj.
Commissioner of Highways—John W. Bruton, D, 97 maj.
Collector—George B. Crawford, D, 78 maj.

In Ledyard, the following were elected:

Supervisor—Millard H. Streeter, D,
Town Clerk—William P. Maloney, D.

Justices of the Peace—John J. Maloney, D.; Murray Lisk, D.
Highway Commissioner—George Helles, D.

Assessors—Charles M. Young, D, George W. Gifford, D, Arthur M. Close, R.

In Locke, the Republican ticket was elected as follows:

Supervisor—A. O. McIntosh.
Town Clerk—R. D. Lung.

Justices of the Peace—George Hewitt, Henry Cornwell.
Commissioner of Highways—William J. Young.

Superintendent of Highways—W. J. Young.

Assessors—A. A. Slocum, George Greenleaf, D. B. Heath.
Overseers of the Poor—Smith Min-turn, John Carroll.

Collector—Jefferson Thomas.
Auditors—D. B. Satterly, Daniel McIntosh, Fay Cruthers.

Constables—Frank Pelham, Chas. Hotchkiss, Thomas Steele, A. C. Heath, Fred White.

In the town of Scipio, the entire Republican ticket was elected as follows:

Supervisor—B. K. Chamberlain.
Town Clerk—Hiram Woodward.
Justices of the Peace—Orson B. Comstock, Daniel Mullaley, Clark Booth.

Assessors—Wallace Bowen, J. W. Chamberlain, Carlton Botsford.
Commissioner of Highways—Chas. Hoskins.

Collector—A. E. Bigelow.
Overseers of the Poor—Charles F. Comstock, Jacob Post.

Constables—William Silkworth, Wesley Ward, Henry Brewster, Edward Hartnett.
Sealer of Weights and Measures—John Snyder.

No License won by a large majority on each of the four propositions.

THE VALUE OF LAY PREACHING.

Feb. 28, '09—(Acts 8:14-25).

In the original church the idea seemed to be accepted that if any man felt called upon to preach the gospel he had a right to do it. Hence it came about that such men as Stephen the deacon, and Philip the evangelist, men who had never been called to the apostolic college, and set apart by the laying on of hands for this special work, assumed the right, inherent in every man to tell the story, and they did it mightily. In this lesson we see Philip, one of the deacons of the Jerusalem church, going up into Samaria, and starting a revival that swept everything before it, like a prairie fire. His work was just as efficient and just as acceptable as that which was done by the regularly ordained ministry.

Devine Credentials.

In these days, we are apt to look with suspicion upon the ministrations of any man who does not hold the credentials of ecclesiastical orders. A man may be dry as dust, but if he has been through college and theological seminary and had the hands of the presbytery put upon his head, we feel bound to listen to him, while the man who is his mental, physical, and spiritual superior is shut out of our pulpits because, forsooth, he does not carry in his pocket a diploma from Yale or ordination papers from the presbytery. Forgetful of the fact that if the Lord does not send men into the ministry, no canon of the church can shoot them into it, but if He has put His hand on a man's head, he is ordained, though his sacerdotal robe is a leather apron, and his pulpit an anvil.

Net Troops Enough.

We have made the mistake of supposing that this world can be converted by a few ministers. The trouble is not that the sword of the Spirit is dull. The difficulty is not that the great guns are of too short range to throw the bombshells into the enemy's camp. The trouble is, we have not troops enough to wield the sword of the Spirit, and to man the guns. Victory is promised to the church in the great battle of the ages, but not by distributing titles to the commanding officers, and expecting a few major-generals to go out and capture the foe. One man may chase a thousand, and two put ten thousand to flight, but what is needed is men enough to round up those stampeding forces and bring them into camp. The church is in too many instances carrying on a Peninsula campaign, marching "on to Richmond" and then marching back, its movements characterized by "masterly retreats."

Not enough men for the battle. It is a great farce this work of trying to save the world by a few clergymen. Peter the apostle, needs a striker in the person of Philip the evangelist. Jerusalem must have the gospel, but Samaria must not be neglected. A great central fire must be kindled in the capital city, but the conflagration will be more extensive if contributory flames are kindled in the surrounding country. And anybody that can strike a match can start a fire. There is such a thing as being too profound, and too heavy for the work of evangelism. The United States army has some high officers who are handicapped because they are too heavy to ride a horse. So there are men in the ministry more concerned about their grammar than the souls of their congregation, more interested in getting the right kind of sermon paper than in getting men right with God. Their sentences are Miltonic, they make their hearers stare but never repent. They read essays on the art of swimming to drowning men, they talk learnedly of fire escapes to those who are far out of reach of the ladders.

Pulpit Dreadnoughts.

You would not think of sending the Dreadnought up a mountain stream. These men are pulpit Dreadnoughts; they "draw too much water" to get into some of the places where Philip can paddle his canoe and come back having whipped the stream clean. We do not need fewer great guns, but a great host of sharpshooters. Not less parchments from the seminaries, but more leaves of healing among the nations. Not fewer church pulpits, but more street corner altars. Not a reduction of Major-Generals but a vast increase of privates. Not a retrenchment in great battleships but an amplification of torpedo boats. Not a subsidence of continental operations but an expansion of town, county and state movements. Phil Sheridan's raid in the Shenandoah is just as important as Sherman's march to the sea. Let not magnificent cathedral look down on the back alley mission. Religion will never make conquest of the world until consecrated laymen, plumbers, and masons, and carpenters, and printers throttle the sins of their own trades. The church has been working the pumps of a few ministerial cisterns until the buckets are dry, while all around us are fountains of living waters from which may be dipped up the cool, sweet water of life. Let all hands lay hold, and carry this refreshing water to the dying multitudes.

Short Sermons For a Sunday Half-Hour

THEME: In Perfect Peace.

By REV. S. T. WILLIS, LL. D.

"Thou wilt keep him in perfect peace whose mind is stayed on thee, because he trusteth in thee."—Isaiah, xxvi, 3.

It is to be noted that man does not keep himself in peace, for in the sense of this grace that would, in fact, be impossible. But it is a gift. Jesus said, "My peace I give unto you; not as the world giveth give I unto you."

It is also to be noted that it is a perfect peace, for, indeed, God's peace could be nothing less, and it passes all human understanding. Like the gracious God by whom it is imparted, it is incomprehensible even to him who experiences it. It is perfect in its nature and perfect in its work, imparting a divine calmness and serenity of soul and a sweet, heavenly rest that the world can neither give nor take away.

This peace does not occupy the world of material things; its realm is in the hearts and minds of men. He is kept in perfect peace whose mind is stayed on God. The world promises only tribulations, persecutions and afflictions, disappointments, heartaches and death. Its sweetest smiles are delusive, its trusted friendships bring danger and its brightest hopes are fraught with evil. But God does not leave alone and unaided the soul that is stayed on Him. He is an ever present help in time of trouble. He gives and sustains such peace of mind and composure of soul in the thickest of the fight that one can say: "The Lord is my light and my salvation; whom shall I fear? The Lord is the strength of my life; of whom shall I be afraid?" For greater is He who abides in the trusting heart than all the combined forces of the world, the flesh and the devil. The soul kept in perfect peace can say when it comes to the valley of shadows, "I fear no evil, for Thou art with me."

And what is the secret of this sweet peace, the gift of God's love? It is all summed up in one word—trust—"because he trusteth in thee." That is to say, it is faith in God; faith that takes Him at His word. It is that condition of mind that says hold on God and yields all unto Him in perfect confidence. This giving up of all to God and the staying of the mind on God means three things—prayer, obedience and happiness. There is no hour so free from care or to exempt from temptations and ills that will not be brigateness and sweetened if we direct our thought in faith to God, looking through what may seem to be a "frowning Providence" to the "smiling face" of divine love and mercy beyond. Listen to this infallible and all comprehensive prescription for human happiness: "In nothing be anxious; but in everything by prayer and supplication, with thanksgiving, let your requests be made known to God. And the peace of God, which passeth all understanding, shall keep your hearts and your minds in Christ Jesus." Here is prayer, including supplication and thanksgiving. The hand of faith stretched out in earnest prayer relieves the heart from worry and anxious care and brings sweet peace and contentment—that calm, trustful, reposeful prayer that believes in God's love and that lays the soul down upon His bosom, that in Him it may find rest.

It goes one step further in faith, rendering unquestioning obedience. God is yearning to bestow this grace in lavish abundance. Hear Him: "Oh, that thou hadst hearkened unto my commandments! Then had thy peace been as a river, and thy righteousness as the waves of the sea." Peace as a river—that is, abundant, free, full, living and never failing. It includes all other divine gifts, and the mind that is so stayed on God, through trust in Him, is kept in security and happiness, for deep down in the soul, far beyond any disturbance from any earthly enemy or ill, there flows, from the throne of God, an eternal and gladdening river of peace.

Gifts.

It is very plain that what is now most wanted in the Christian world is more faith. We too little respect faith, we dabble too much in reason; fabricating gospels where we ought to be receiving Christ; limiting all faith, if we chance to allow of faith, by the measures of previous evidence, and cutting the wings of faith when, laying hold of God, and bathing in the secret mind of God, it conquers more and higher evidence.

Be it unto you according to your faith, in the true principle, and by that the whole life-state of the church on earth always has been, always will be graduated. "Increase our faith, then, Lord!"; be this prayer.—Bushnell.

No Excuse.

No man knows the love of the Father who thinks of it as an excuse for his laziness as a son.

Spring Styles in Raincoats.

We have received the New Spring Raincoats in both the fancy and staple styles. Our assortment is very large.

THE GRANGE

Conducted by
J. W. DARRROW, Chatham, N. Y.,
Press Correspondent New York State Grange

MICHIGAN STATE GRANGE.

G. B. Horton, Master For Eighteen Years, Succeeded by N. P. Hull. One of the most active grange states in the Union is Michigan. Under the excellent leadership of George B. Horton for many years, the grange in that state now occupies a position in respect to numbers and influence second only to New York. There are 750 granges in the state, with about 50,000 members.

The executive committee reported that the contract system of purchasing farm supplies amounted to \$6,300 the past year, and other receipts amounted to about \$14,500 and the year ended with about \$15,000 in the treasury and \$40,000 in invested funds. The committee will renew its efforts to secure more just and equitable representation in the national grange. It proposes that the representation be accorded to grange membership in each state.

The grange favors the New York system of tax on mortgages, amendatory primary law for all parties and for all offices, Torrens system of land transfer, direct legislation and referendum and tax on copper and iron. The resolution favoring the New York tax on mortgage called forth a very earnest discussion and was adopted only after a long debate. The grange also favored the regulation of all public utilities and, if such regulation fail, then government ownership. The grange also recommended a tax on automobiles, the income from which was to be applied to road improvement. A resolution condemning the extravagance in state funds was passed and also another resolution protesting against granting state funds to any county or state fair which permitted the sale of liquor on the grounds. The resolution to limit the term of office in the grange to two years did not pass.

One hundred and twenty candidates took the sixth degree. Past Master Horton was elected to the executive committee and was presented with a gold watch. Mrs. F. D. Saunders, who has been an efficient lecturer for several years, resigned, and Miss Jennie Buell of Ann Arbor will succeed her.

NEW JERSEY STATE GRANGE.

The Little State Has a Grange Membership of 24,000.

The good roads question was very prominent in the discussions of the New Jersey state grange, which met at Atlantic City in December. State Master Gaunt set the ball rolling in his annual address when he said on this point: "In view of the fact that the means in the farming sections are inadequate to provide for the proper road systems, the farmers are now realizing that the question is not only local, but national, in its bearings. There is a growing demand for national aid for road building, and the farmers are preparing to demand their fair share of the immense sums appropriated every year by congress for bettering the rural highways." He also believed that a federal commission on good roads was demanded. He further called attention to the fact that the state grange of New Jersey was becoming a powerful influence in the state legislature in fostering agricultural pursuits so that the farmers' products in that state have increased in value from \$24,000,000 in 1900 to \$50,000,000 in 1907.

Nothing but the united efforts of 24,000 grangers in the state, he said, had secured the appropriation for the state board of agriculture and the state commission of tuberculosis in animals. He criticized the custom of tinkering with the game laws. He said that they were such that even the law abiding citizen would be liable to break them because they were constantly changing them for the purpose of pleasing the wealthy sportsman.

Among the resolutions adopted at the meeting were the following: Demanding that the use of highways for automobiles be made secondary to their use by the farmers for their farm products and that the speed of motor cars be regulated by stringent statutes. Another resolution demanded that the standard weight of 105 pounds to a barrel be set for all tubers bought and sold in the state. It appears that some buyers are now demanding 180 pounds to a barrel. Another resolution called for a change in the curriculum of rural schools to provide for nature study. Mr. Gaunt was re-elected state master.

Death of First Grange Master.

The death of Ulysses E. Dodge of Fredonia, N. Y., occurred Jan. 5. He was not only one of the most distinguished residents of Chautauque county, N. Y., but was the first master of Fredonia grange, No. 1, which was the first grange ever organized and which held its first meeting April 10, 1868. He was also the first man to plant grapes as a commercial enterprise in the Chautauque belt. His age was eighty-seven years.

Woman's World

IDOL OF THE NATION.

The Queen of Italy's Devoted Service Appreciated by Her Subjects. The frightful woe wrought in Italy by the earthquake that destroyed Messina and Reggio has had one slight ray of consolation for the queen of the devastated realm. Her heroic conduct in the midst of the horrors of the first few days, the bravery with which she nursed the suffering, keeping so close to the danger zone that she was actually injured in a belated shock that came a week after the main upheaval, have made the beautiful queen the idol of Italy.

QUEEN HELENE.

no Italian sympathies at the time the crown prince went a-wooing. In fact, all her inclinations were in favor of Russia, the czarina of which nation she just missed becoming.

At first the substitution of the throne of Italy for that which she had lost did not afford full consolation. For one thing, the king of Italy is frail in health, and it was feared that the union might never be blessed by an heir who could succeed to the throne.

The coming of the heir was the first point that inclined the people toward regard for their new sovereign. Her beauty had some influence on the impressionable Tuscans, for no one could discount that. It is said by many that she is the handsomest woman of royal birth in Europe.

Italians liked to know that at every gathering of royalty there stood none to dispute in point of beauty with their own haughty and handsome queen.

But it began to be discovered that there was more to the queen than her physical charms. Gradually she began to evince a mentality that ought not to have been a matter for surprise, considering that she springs from the heroic stock of Montenegro, that little principality that has not hesitated to boldly defy with force of arms on more than one occasion the power of the Turk.

The queen gradually developed an understanding of the Italian nature. She became proud of the art traditions of the country and of the heroic deeds of Garibaldi, Cavour and the other giants who had brought about the independence of Italy.

She appealed to the ladies of her court to be patriotic even to the extent of declining to take their fashions from Paris, but of adapting Italian ideas to their costumes in order not only to obtain more beautiful effects, but to promote nationalism.

Moreover, in her home life she has demonstrated a simplicity that appealed very strongly to the people. She who at court has a bearing unapproached by any sovereign of Europe declined to live in the stately palace at the Quirinal, but persuaded her royal spouse to take his residence in the small palace at the bottom of the garden, built by Pope Corsini and set apart during the life of Victor Emmanuel II. and Humbert for princes visiting Rome.

It is of modest dimensions, but it is pleasant and comfortable, and is fitted out with refined simplicity quite in the English style.

The queen enjoys the admiring devotion of her husband, and by preference they nearly always dine alone, their merry laughter heard by those in the next room showing the happiness they get out of their quiet life.

while, not because it was useful, but because it was not; not because it would help a man or woman to make a better living, but because it was of no practical aid whatsoever. It was of use, he pointed out, because it was useless.

And in the university professor's contention there is a truth that reaches much further than a discussion of "classical education" in our schools and colleges. It is a truth that strikes straight home into the lives of each of us, that may well be listened to by American women today. We are in danger of forgetting nowadays the transcendent use of the useless thing.

As the professor says, we are falling into habits of "trivial utility." "Usefulness" is the criterion by which education, employment, even pastime, is judged. "Practical," "efficacious," "valuable," these are the test words by which we prove the worth of pretty nearly everything, it seems, in life. It is a principle that goes along with our commercialism, though it reaches beyond the consideration of dollars and cents; our materialism, though it passes the domain of material things; our boasted "progress," to prove its emptiness.

And we need today, all of us, a recognition of the use of the "useless" thing—the thing that is "only" beautiful. We need to look away now and then from the manifold "conveniences" for our bodily welfare, our material prosperity, toward the light that only shines upon our souls. We would be better mothers, we American women, better wives, better housekeepers and stenographers and schoolteachers and librarians, if we forgot once in awhile those "trivial utilities" of our existence and saw the use of the useless, the wonderful, the transcendently worthy thing.

If thou of fortune be bereft And of thy store thou hast but left Two loaves, sell one and with the dole Buy hyacinths to feed thy soul.

Absurd it sounds nowadays. And it is because it sounds absurd that we need it. The girl who spends her wages on books instead of shoes isn't so foolish, after all, no matter how much her wise mother may rail at her "silly extravagance." She "never will learn the value of money," as her mother says, a girl like that. But she may learn greater values none the less.

And it may be that if we stop fighting solely for crowns and kingdoms we may be found worthy of better desires and may set out with our faces toward the sunrise upon the quest of the Holy Grail.

Absentminded Agent.

An absentminded agent is responsible for the fact that a tenant in an apartment is having all her rooms repapered this season. By the terms of the lease certain repairs were to be made, but repapering, it seemed, was not included. Not knowing this, the woman telephoned the agent and asked where she should go to select papers. He, having much else on his mind and taking it for granted that she would not ask for anything not allowed, told her the dealer's name and sent her on an order. The paper was selected and paid for, and the woman supposed it had been hung until, going into the apartment last week to see, she found it still on the floor. Investigation proved that no orders for putting it up had been given, and the agent's telephone wire became hot, "Why isn't the apartment in order?" the tenant demanded, and the agent went scurrying to his books to find out. Then it was discovered that no agreement had been made as to paper, and that was why no orders to hang it had been given.

But, as the woman said, as long as they had bought it, was it worth while to let it stay on the floor? Wouldn't it be more economical to put it on the walls and not repaper next autumn? The argument was so logical that the agent was obliged to succumb, and seven rooms are being done now that except through error would have remained unrefreshed.

Suffragettes in Ancient Rome.

The suffragette is no new thing. There have been suffragettes for a long time. They had them in ancient Rome. For Professor Ferrero, who lectured in Columbia university the other day, said so.

What's more, the old Romans, just like the men today, thought that things would go to rack and ruin just as soon as the women got the ballot. The Italian professor said: "The suffragette agitation is not new, for the victory of the feminine over the masculine spirit was a part of the history of the second empire, when greater wealth and security broke the bond of women during the earlier struggles toward imperialism. The Romans at a slightly later date complained that the dressmakers and the jewelers would send Rome and the empire to ruin and passed a great many laws in an attempt to restrain a great many extravagances in living and dress."

Dear, dear Rome fell. Somebody better be restraining these American women.

For Chapped Hands.

This jelly is delightful for chapped face and hands and other winter ills; Seven ounces of rosewater and thirty grains of gum tragacanth. Let soak for three days, strain forcibly through muslin and add one ounce of glycerin, one ounce of alcohol and one-half teaspoonful of pure borax.

Keeping House Plants Healthy.

The leaves of house plants should be cleaned with equal parts of milk and lukewarm water, applied gently with a sponge. This should be done at least once a week to keep the plants in good health.

THE HIGHER LIFE

Selected Gems of Thought from Pre and Post of All Ages.

The Road to Christ.

A young man had been preaching in the presence of a venerable divine, and after he was done he went to the old minister and said: "What did you think of my sermon?"

"A very poor sermon," said he. "A poor sermon!" said the young man. "It took me a long time to study it."

"Ay, no doubt of it." "Why, did you not think my explanation of the text a very good one?"

"O yes," said the old preacher, "very good, indeed." "Well, then, why do you say it is a poor sermon? Didn't you think the metaphors were appropriate, and the arguments conclusive?"

"Yes, they were very good, as far as that goes, but still it was a very poor sermon." "Will you tell me why you think it a poor sermon?"

"Because," said he, "there was no Christ in it." "Well," said the young man, "Christ was not in the text; we are not to be preaching Christ always, we must preach what is in the text."

So the old man said: "Don't you know, young man, that from every town, and village, and every little hamlet in England, wherever it may be there is a road to London?"

"Yes," said the young man. "Ah!" said the old divine, "and so from every text in Scripture, there is a road to the metropolis of the Scripture, that is Christ. And, my dear brother, your business is when you get a text, to say, 'Now, what is the road to Christ?'" and then preach a sermon running along the road towards the great metropolis—Christ. "And," said he, "I have not yet found a text that has not had a road to Christ in it. I will get one; I will go over hedge and ditch, but I would get at my Master; for the sermon cannot do any good unless there is a savor of Christ in it."—Lutheran.

Doctrine of Redemption.

No doctrine has ever yet made its appeal to the human heart with power equal to that of the doctrine of redemption by a divine redeemer. High-born human spirits there may be, products of a happy heredity and a gracious environment, who are scarcely conscious of their need of an atonement. But for the mass of men, for man, the common man, the average man—for universal man—the doctrine of the cross is very music of heaven. They understood it, they see the reason of it, they know their need of it, they seize upon it, they appropriate it, they glory in it. If it were conceivable that the theologians and the evolutionists could explain it away—which it is not—the heart of humanity would reinstate it. It is the one gospel which men will not let die.—Christian Advocate, Nashville.

In sickness, if a certain hidden nerve goes wrong, then the organ that this nerve controls will also surely fail. It may be a Stomach nerve, or it may have given strength and support to the heart or kidneys. It was Dr. Shoop that first pointed to this vital truth. Dr. Shoop's Restorative was not made to dose the Stomach nor to temporarily stimulate the Heart or Kidneys. That old-fashioned method is all wrong. Dr. Shoop's Restorative goes directly to these failing inside nerves. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these failing organs. And it is indeed easy to prove. A simple five or ten days' test will surely tell. Try it once and see! Sold by J. S. Banker, Genoa.

Threatening feverishness with children is quickly and safely calmed by Preventics.

These little Candy Cold Cure Tablets should always be at hand—for promptness is all-important. Preventics contain no quinine, nothing harsh or sickening. They are, indeed, "the stitch in time." Carried in pocket, or purse, Preventics are a genuine safeguard against Colds. 25c. Sold by J. S. Banker, Genoa.

Two good second hand upright pianos nearly new, and plenty of new ones on the floor.

F. B. PARKER, Moravia.

Tramp—Lady, I'm near perishing from exposure.

Lady—Are you a congressman or a senator?—Town Topics.

GOOD WORK FOR BOYS

How They Can Help in Keeping the Streets Clean.

URGE OTHERS TO DO LIKEWISE

Campaign of Education Carried on by a Civic League of Schoolboys—Call Attention of Offenders to Gravity of Their Offense.

Clean streets add greatly to the attractiveness of towns. In small communities especially, if every one, young and old, did what he could to keep the streets clean, many an unkempt town would be wonderfully improved. Boys can band together and help to do such good work as the schoolboys of the Crowell Civic League in New York are doing. They are not only aiding the city to keep the streets clean, but they are training themselves and educating their parents in civic righteousness. While the league was organized under the auspices of the street cleaning department and is supervised by an employee of the department, Mr. Rueben S. Simon, the boys themselves are doing the work. So far as possible they are keeping the streets of the lower east side clean.

The boys don't get into white duck and go about the streets with a broom, of course. They attack trouble at its source. When they see a man or woman violating one of the city ordinances by throwing refuse into the streets, they call the attention of the offender to the gravity of the offense. If that does not serve they hand out one of the circulars given below. Every boy carries a supply, neatly folded, in his inside pocket. It is as follows: AN APPEAL TO OUR FATHERS AND MOTHERS

By the Crowell Civic League of Public School No. 2

We, your sons, have organized to help keep the streets of our district as clean as possible. We ask you for your help. We and you, too, do not like to hear people from other sections of the city remark on the dirty condition of our streets. Won't you aid us in showing these people that we are just as good citizens as they? We will distribute among you from time to time copies of the law. But there are two things we want to mention here:

We feel very much ashamed of the alarming habit among some of us of throwing garbage and slops into the streets through windows and call upon you to help us stop it.

Garbage and ash cans are fitted to overflowing and scattered over the sidewalks. We recognize that the landlords are also at fault in not providing enough cans. We welcome all complaints.

Take heed of our appeal! Help us become good citizens of our great city that we may justly say, "We are proud of our clean city of New York."

CROWELL CIVIC LEAGUE, Public School No. 2, 116 Henry Street, N. Y.

These circulars are printed in English and Yiddish, and as the funds of the Crowell Civic League increase other languages may be added. Branches of the league have been established in a number of schools, a teacher being placed in charge of each.

At regular intervals a meeting is held, when the boys make a report of what they have done. These reports are in regular form, addressed to the commissioner of street cleaning. The name and address of the offender are given when the name is known, and each boy tells the measures he took to prevent a recurrence of the offense.

The boys of the Crowell Civic League of Public School No. 2 are the only ones as yet to circularize the residents in the district in which they live. They have little money, but they have managed to have a few circulars printed, which they distribute as needed. They realize that ignorance lies at the root of the fault and that few would offend again if they realized that they were violating laws of health as well as of the municipality.

The officers of the Crowell Civic League of Public School No. 2 consist of a president, vice president, recording secretary, corresponding secretary and a foreman.

The chief purpose for which the league was organized, that of keeping streets clean and urging others to do the same, can be applied to any town and will be found beneficial.

Must Not Throw Paper on Streets.

Scraps of paper and newspapers thrown aside on sidewalks and roads soon make a town look untidy and anything but attractive. Any movement to prevent such a state of affairs is worthy of consideration. In Indianapolis, Ind., the women who throw bits of paper into the street from their carriages, men who tear up letters or bills and toss them where they will mar the looks of the city and those who throw bills and circulars from the housetops will not be permitted to do so in the future. Mayor Bookwalter has decreed it; so has the board of public works, and the board of public safety has passed it along to the police department for enforcement. "Washington is one of the cleanest cities in the country," said Mayor Bookwalter, "and it is kept clean largely by seeing that citizens do not litter up the streets. Indianapolis is also a clean city, and we want to keep it so."

Progress and Value of Nature Study.

More and more of nature study is being introduced into schools from the highest to the lowest, and no small part of it consists of studies in plant life, added to which is the experience gained in the school garden or field studies along botanical lines. In the next generation a marked improvement will be seen in the general appreciation of parks, street trees and other means of making the town beautiful along strictly horticultural lines.

Desperate Coughs

Dangerous coughs. Extremely perilous coughs. Coughs that rasp and tear the throat and lungs. Coughs that shake the whole body. You need a regular medicine, a doctor's medicine, for such a cough. Ask your doctor about Ayer's Cherry Pectoral.

We publish our formulas. We banish alcohol from our medicines. We consult your doctor.

Ayer's

Any good doctor will tell you that a medicine like Ayer's Cherry Pectoral cannot do its best work if the bowels are constipated. Ask your doctor if he knows anything better than Ayer's Pills for correcting this sluggishness of the liver.

Made by the J. C. Ayer Co., Lowell, Mass.

The Jap's Santa Claus.

The patron saint of Japanese children is named Kotie. He is always pictured with a big sack, which is said to contain presents for the good children. When Kotie wishes to cross a river he uses this sack as a boat. He is believed to have eyes in the back of his head to watch the little ones and has various other qualities which remind us of our Santa Claus.—London Chronicle.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alogie brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, heartburn, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

Dr. Shoop's Restorative

Scenery as a Resource.

The public reservation principle, grand as it is in theory, is likely to follow the general law and strike a snag whenever strong interests clash. The Yosemite reservoir is a case in point. The Yosemite reservation owes its existence to the fine scenery included in the area. The dispute between the defenders of scenery and the people who want to break in and get drinking water which the scenery guards and makes pure resolves itself ultimately into a question as to who shall come in for the benefits of a reservation. In a double sense the "protected" scenery is a resource. It attracts tourists, who must spend money to get there and to live there, and it supplies water in abundance.

There are numerous instances of natural scenery proving a valuable resource. Switzerland's chief resource is tourist money. Italy's scenery and history attract tourists from all over the world. Norway and Scotland have found their scenery to be veritable gold mines. In this country the White mountains and the Adirondacks draw money to the neighborhood. The people nearest are the greatest benefactors, but all within the sphere get something out of nature's plan. It isn't all profit, and naturally those who make access possible and sojourn comfortable and are always "right on the job" expect to be consulted as to the fate of the scenery. It is their problem first, and their states will not be inclined to tolerate federal restriction here more than with mines or any of nature's bounteous gifts. Whether the scenery is the most valuable or the only valuable feature of the reservation seems to be essentially a local matter.

When the president says that some means must be found to insure coordination among the naval bureaus he probably intends to hint that some means must be found to stop their disgraceful wrangling.

Paris had but one day of sunshine in two months, yet the Parisians insist that things shady in the gray metropolis vanished with the second empire.

These centenary celebrations throw a side light upon the contemporaries of the great and bring up history that otherwise would be neglected.

A simplified spelling reporter can have a man "dogd," "clubd" and "kild" by a "led" bullet, yet he'll not be done dead, simply "ded."

"We are coming, Father Abraham, eighty thousand thousand more!"

The Right of Asylum.

The principle of the right of asylum has been put to a severe strain in this hemisphere within a few months. The defense of the Russian refugees Rudovitz and Pouden has been that they were political offenders and not ordinary criminals. In the case of Rudovitz the mere fact that the evidence left our state department in doubt as to the nature of the offenses for which Russia asked his extradition entitled him to the protection of the flag under which he sought asylum.

The ruling of Secretary Root was a liberal one, yet accords with the practice of the United States in the past. The question as presented when the Haitian dictator refused to permit the embarkation of subjects who sought asylum in the French consulate after being condemned as revolutionists was not thrashed out because the dictator was deposed by the people. The case in Haiti was clear. Only political crime was alleged as justification for attack on the right of asylum. In like circumstances South American revolutionists have found asylum under the stars and stripes and would have had the protection of warships if necessary.

Professor Ferrero has discovered that American business men hustle in town and live in the country, hiring city slum dwellers to go out and till their gardens and keep their lawns in order—a sort of "going back to the land" and letting the heathen do the work.

As to the defendants getting out from under Kenesaw Mountain Landis' huge fine, history shows that the other fellow dodged the original Kenesaw mountain clip and came up smiling to repeat the malefaction.

The Cubans in this country are getting the junta habit again, probably on the principle that one Cuban rule is as good as another.

If marriage is "involuntary servitude" for the woman, then the man who backs out is some sort of emancipator.

Advertise in THE TRIBUNE.

"Old Fashioned Winters?"

It isn't necessary to go back to other days to know what "old fashioned winters" are. We have that kind right along. A bit of December with much October and a touch of April the first few weeks of winter is nothing new. The oldest inhabitant will confess that if cross questioned. Of course he remembers the tough winters and likes to harp on them just to make the "tenderfoot" shiver. But it is down in his diary, if he has one, and if not there it is in the officially compiled records that there have always been "all sorts of weather," and the label "exceptionally mild" and "exceptionally severe" was often placed within the same decade.

Ten years ago we had a severe winter when compared with the many mild ones which had preceded it. Five years ago there was another cold winter, and as the one following was also colder than some that had been experienced it was argued by certain prophets that increased severity might be expected right along. The prediction failed. And if we should have rivers frozen to bear the heaviest traffic and good sleighing across country, over the highest fences, it would not argue that the climate is changing. Such winters are remembered by the oldest inhabitant, but he is stopped from claiming that they were the fashion in his boyhood by the official records of temperature for the past fifty years. The winter averages have been about the same, and there have been no cold groups or periods. If anything, the cold weather record belongs to the last twenty-five rather than to the first twenty-five of the fifty years here considered. So the ways of winter have not changed, and the old sort lingers with us.

The lawyer who fired "dementia Americana" at the Thaw jury probably picked up the wrong ammunition and certainly wasted good powder. It would score a hit on the more and bigger battleship craze.

Cuba had ideal weather to inaugurate Gomez, but there's time yet for the power behind that inauguration to hatch storms which will make our cyclones green with envy.

After all, the change March 4 is only a change of figurehead, for the ship of state remains the same old ship, and the people are the sovereign.

While congress is about the work of resurrecting the Maine in Havana harbor it might be well to bury the mystery of San Juan hill.

Another Stage Downfall.

Manager Belasco's latest dramatic production is a reckless plunge from the moral plane of "The Rose of the Rancho." This romantic and wholesome picture of old Spanish days in California had a long run and seemed to refute the allegation that the theater going public demands degeneracy on the stage. Unless the police interfere Belasco's new play may beat the record of "The Rose of the Rancho" if the degenerate and even the curious elements in New York are numerous enough.

The ultra bohemian drama, "The Eastest Way," is what its name indicates, the story of one who seeks the broad and glittering path for his pleasures. The one moral of the play is, "Do not lie," for lying will rob the liar of the spoils of sin. The role of the heroine in "The Eastest Way" has been assumed by the actress who played the part of the unsophisticated Spanish girl in "The Rose of the Rancho" and in which she displayed unusual talent. From the dramatist's point of view she has scored a success in the newer and more difficult role. Nevertheless it is of the type which many self respecting actresses refuse to appear in because it is necessary to stink the woman in order to depict the creature.

It seems that Senator Bailey spoke up for 20,040,000 horses when he "knocked" the auto as an all round menace to the horse. Last year the number was just under 20,000,000, so there is no horse suicide to mourn over.

Having struggled so long and got so close, the forty-seventh and forty-eighth states ought to count on having a boom with life enough to bridge the gap between congresses.

The same nerve that kept Jack Binns at the wireless key right where the Republic got the punch was equal to turning down that \$1,000 a week offer to go on the stage.

The seismograph, which is to warn us of earthquakes, will have to set the clock ahead a bit since it took but twelve seconds to level all Messina.

If your picture shows a whiskerless Lincoln, just remember that he was a whiskerless Old Abe in 1860-1.

It was not a heroic stunt that lifted Binns into the limelight, but the doing commonplace duty heroically.

As things are drifting the area for dry farming may be increased.

WINNING PUBLICITY.

What Can Be Done by Judicious Advertising.

BRINGS SHOPPERS AND TRADE

Value of Attractive and Extensive Advertising as Proved by Successful Venture of Enterprising Storekeeper. Print Prices, Use Plenty of Space.

Many merchants who pay for space fail to receive desired results because their advertising is so poorly arranged as to attract little attention and not impress those who read it. Sometimes the printer fails to make the right kind of showing, and, while the reading matter of the advertisement may be all right, the display is such as to be unattractive.

It is always well to present prices in your space. Pick out reasonable goods and make a run on a few specialties. It requires only a little thought to fix up a few exceptional bargains in certain lines of goods. These should not be sold at a loss, but at a good profit if the matter be managed rightly. The principal thing desired is to get the people to call at the store, and when they call be sure to make good and prove that your advertisement means all that it represented. If you advertise cheap canned goods, cheap anything, and you know the goods are cheap, not up to the standard of such articles, tell the people so and have something just a little better and tell them the difference. There is little use in advertising to attract people to your store and then fall down in the salesmanship part. The fact that one calls at your store and asks to see certain kinds of goods is evidence that that person is in the market to buy, and it is your business to supply his wants.

Not long ago in a western town of some 7,000 population the merchants had an illustration of what can be done by judicious advertising. The proprietor of a clothing and dry goods store decided that he would add a grocery department. This met with the disapproval of other merchants in the town, particularly the grocers. They combined and commenced an advertising campaign directed chiefly against him. Small space was used. They were greatly surprised one morning to find that the object of their attention had in the daily paper a four page advertisement. They were further surprised when the weeklies of the surrounding towns came out with one and two page advertisements offering wonderful bargains and to pay the railroad fare of those who would purchase a certain amount of goods. For miles around the town large posters announced the great sale.

Other merchants of the town looked upon the venture as foolish and predicted that there was something wrong, a failure or a fire in sight. Neither happened, but in two weeks' time the enterprising storekeeper, who advertised to sell twenty-six pounds of granulated sugar for a dollar when the jobbing price was more than \$5 a hundred, provided the purchaser ordered other goods, did a business amounting to more than \$16,000, or as much business as the average small storekeeper does in a year. Not alone that, but he is still doing the biggest business in the town. He advertised rightly.—Agricultural Southwestern.

How Women Work For Better Towns.

What are the women doing in the way of municipal housekeeping? In Massachusetts they had nine bills before the last legislature, in Pennsylvania about the same number and at least half a dozen in most of the other states—for child labor, juvenile courts, better conditions for women wage earners, temperance legislation, vacation schools, pure food, school savings banks, civil service reform, better pay for teachers, girls' industrial schools, women factory inspectors, children's playgrounds, women police matrons, anti-expectoration in public places—all for the betterment of the community, not one for "graft," not a "job" of any kind, all clean, wholesome, much needed laws.—Ida Husted Harper in Delinquent.

Value of Shade Trees.

Shade trees should be planted in all towns and cities, and enough of the pavement should be removed to let these trees grow. Many old families in New England towns owe not a little of their longevity to their shade trees. The healthiest folk are in the northwest, where there are most clouds. It is well to get away from the erroneous traditional opinion brought to the United States from cloudy northern Europe that sunlight is good for people. In a measure it is; in excess, fatal.

Watchword For Tradesmen.

Organization is the watchword of the day. It is the part of system. It means force and economy. A single twig can be easily bent and broken. A bundle tied together has strength that defies the efforts of a giant. The same in organization. One merchant, one tradesman in any line, cannot well bring about needed reforms. It requires united action, and this action can only be had when there is perfect and harmonious organization.

Good Way to Attract Trade.

A merchant to be successful must not depend on his regular trade alone, but must be constantly reaching out after new customers. Make your store so attractive that when a new family comes to town the first place they will want to go will be to your store.

Farmers Take Notice

We will offer our entire stock of Blankets, Robes, Fur Coats, Cutters and Bobs at

Cost For the Next 30 Days

to make room for Spring Stock. A golden opportunity to buy all wool square Blankets at slaughtering prices. Call and look them over, first come first served. No trouble to show goods.

FARMERS' SUPPLY HOUSE, GENOA, N. Y.
W. P. Parker, Proprietor. B. J. Brightman, Manager.

Rothschild :- Brothers,

ITHACA, N. Y.

VILLAGE AND VICINITY NEWS.

—Henry DeShong of Levanna was in town yesterday.

—Mrs. J. S. Banker has returned from a visit with Auburn friends.

—Mrs. D. L. Mead has been spending several days in Moravia this week.

—Jay Newman and mother have moved to Auburn to reside.—Groton Journal.

—J. H. Smith of Ithaca was a Sunday guest of his parents, A. T. Smith and wife.

—Born to Mr. and Mrs. John B. Mastin of Genoa, Feb. 21, 1909, a daughter. Weight 7½ pounds. 4000 souvenir post cards, 1 cent each, at Smith's, Genoa.

—Mrs. Freeman of Elmira is spending a few weeks in town, at the home of Mrs. H. M. Raymond.

—W. A. Counsell and family and A. H. Smith and wife moved from King Ferry to Genoa last week.

—Mrs. D. Marble suffered a severe hemorrhage of the nose on Tuesday. She is convalescent, though very weak.

—Don't forget your taxes just because you have a good-natured collector. He will give you till March 6 to pay them.

—Titus VanMarter and wife have moved to the T. A. Miller place, and Emmett Karn and family to Mrs. Sarah Mack's place.

Apples, butter, chickens, ducks and turkeys wanted at the Carson House, Genoa, from 8 a. m. until 3 p. m. Tuesday, March 2, 1909. Prices are high.

S. C. HOUGHTALING, Auburn, E. D. 5.

—Timothy Mastin is moving from North Lansing to the place north of the village which he purchased of John Hutchinson. Frank Hunter of Venice will move to the Chas. Wilcox farm in Lansing.

—Mrs. L. B. Norman was called to Pitcher on Tuesday by the serious illness of her father, A. B. Fox of Ithaca, who with Mrs. Fox, is visiting relatives at Pitcher. The trouble is said to be peritonitis.

—Aurora item: "Walter A. Bartlett seized Lincoln's birthday as a fit opportunity to make the trip to Ithaca from Auburn on the Ithaca-Auburn Short Line. He reports a very smooth roadbed, a vast improvement on the Lehigh."

—Mr. and Mrs. Edgar Tift of Ithaca are taking a trip to Washington to attend the inauguration of President Taft on Thursday next, and will also visit Mr. and Mrs. E. H. Shangle at Sabot, Va. Both families were former residents and neighbors in this vicinity.

I am prepared to repaint wagons, cutters, etc., at the old stand, next to hotel. Also repairs pertaining to such work. A. T. VANMARTER, Genoa. 29 Apr. 1

—The town of Brutus, in which is the village of Weedsport, voted "no-license" for the first time in thirty years. The other towns of the county, who voted on this question, all went "no-license" except Conquest, Aurelius and Montezuma.

—There are unfortunately so many accidents with burning gasoline that no one can object to a large number of suggestions for extinguishing such a blaze. Here is one more which may be added to your list. Whenever gasoline is used in a household, keep a quantity of household ammonia within reach. A large bottle full of this thrown over the blazing gasoline is one of the best possible things with which to put out the flame.

—A large barn on the Jay Hunt farm about 3 miles north and east of Moravia, burned Wednesday evening. The fire caught from an overturned lantern, and all the stock was saved. A high wind was blowing and it must have been a difficult matter to save anything. The house which stands north of the barn did not catch fire as the wind carried the cinders away from it. The reflection from the fire attracted the attention of many people in this vicinity.

—Mrs. Hiram Teeter is quite ill with the grip.

—Genoa was quite well represented at Ithaca during "Farmers' Week."

—Mr. and Mrs. Alton Rynders of Sempronius are guests at B. J. Brightman's.

—Mr. and Mrs. Fred Corning of Groton were over-Sunday guests at D. C. Mosher's.

—Mr. and Mrs. Frank Myer of Interlake were recent guests of James Myer and family.

—Mrs. Lafayette Allen and Miss Charlotte Bush spent two days with Ithaca friends this week.

I say? have you seen that sulky plow that Armstrong sells—the Oliver. It's a beaut.

—Mrs. Jane Mastin tell the first of the week at the home of James Heaton at East Venice, and was quite badly bruised, though she did not sustain a fractured hip as was at first reported.

—Miss Maude Lottie Young of the town of Genoa and Clarence G. Snover of Locke were married in Moravia Feb. 17, at the residence of the officiating clergyman, Rev. Stephen Hancock.

—Mrs. Susan Farley, aged 83 years, the owner of Farley's Point on Cayuga lake, died Sunday last as the result of a stroke of paralysis. She is survived by two daughters and two grandchildren.

—Miss Lena Gilkey returned to Rochester on Thursday after spending a few days with her mother and sister here. She had just been released from a typhoid case which she had been nursing at Canoga.

Ask your farm neighbor what he thinks of the Superior drill. Sold by R. W. ARMSTRONG, Genoa.

—George Howland, who was seriously injured in a sawmill at South Lansing last week, died on Tuesday evening. Death resulted from a weak heart in addition to his injuries. Funeral services will be held to-day at his late home at South Lansing.

—Among the articles to be shown in the New York state building at the Alaska-Yukon exposition will be a Wegman piano, especially constructed for the exposition. The piano will be on exhibition in the Auburn show room before being shipped to Seattle.

—Thomas McCormick of King Ferry has been very ill for several days and was reported as no better yesterday. He is delirious and has a very high temperature part of the time. A nurse has been employed in the family for the past five weeks, the two little daughters of Mr. McCormick having been very ill during the past few weeks.

Dr. J. W. Whitbeck, dentist, Genoa, N. Y., is prepared to do painless extracting of teeth by the use of Sleep Vapor or Somniform, the latest and safest anaesthetic known, which can be had at his office administered by a physician. He also has for extracting the best preparation for hypodermic; and also a local application for extracting children's teeth, perfectly harmless. In fact, everything in the dental line can be found at his office. Charges as reasonable as in the city or elsewhere, consistent with first-class work.

—Word was received on Saturday last of the death early Friday morning of Dr. Frank C. Hoskins of Cleveland, Ohio. Dr. Hoskins was born in Genoa and was the son of Mr. and Mrs. Wm. H. Hoskins who resided on the Hughitt farm, Indian Field road, for many years, removing to Michigan nearly twenty years ago. They later moved to Cleveland, O. The deceased leaves besides his parents, a wife to whom he was married Oct. 30, 1907, and three sisters,—Mrs. Rollin Foster of Richmond, Ind., and Mrs. Carroll Brown and Miss Clara Hoskins both of Cleveland. The family have many friends in this place who will sympathize with them in their affliction. An extended account of the death of Dr. Hoskins may be found in another column. A letter received yesterday morning states that Mr. William Hoskins is in a critical condition, and that there is just a chance for him to live.

—A. B. Van Marter has been in town for the past week.

—E. F. Keefe has been in Rochester and Elmira a few days this week.

—Mrs. Sidney Smith returned Wednesday evening from a week's visit with her sister and family at Ithaca.

—Fishing through the ice is reported good at Cayuga. One man caught 140 perch and seven pickerel last Saturday.

—The annual Men's Entertainment and supper of the King Ferry Presbyterian church will be given on Friday evening, March 5, in McCormick's hall. Admission 15 and 25 cents. The program includes solos and quartets, orchestra selections, readings and a short original play.

—Mrs. Caroline Weyant returned yesterday to her home at Cortland after a visit of several days with her son, B. S. Weyant. . . . B. S. Weyant spent the day yesterday with his mother at Cortland. Today, accompanied by Dr. Ryan, he went to Syracuse to the Good Shepherd Hospital for an operation on his arm, which has given him much trouble recently.—Dryden Herald.

—Benjamin F. Taber, the last of the old time boat builders at the head of Cayuga lake, died at his home in Ithaca, Friday last, at the age of 85 years. Mr. Taber's grandfather settled at Ithaca in 1810 and built many of the first boats on Cayuga lake. His father followed and he in turn took up the same business. Many of the boats used to transport coal and produce between the New York Central at Cayuga and the Lackawanna at Ithaca, were constructed by Mr. Taber as at that time there was no road connecting Ithaca and Cayuga along the lake and it was necessary to use barges. The dead boat builder also built most of the steamers that plied Cayuga's waters and many of the handsome pleasure craft were also the result of his skilled labor. He built in his time more than 250 boats of which 20 were steamers. The steam yacht Kellogg, which runs to the cottages along the lake was built by Mr. Taber.

Auction Sales.

Stephen Myers as manager and auctioneer will sell at the Scipio hotel, on Thursday, March 4, at 10 o'clock, 13 good horses, consisting of 4 matched pairs, 3 single drivers, 3 good milch cows, 50 Barred Rock pullets, 2 top buggies, democrat, incubator and brooders, etc. This is a combination sale and any one wishing to bring anything to put up for sale can do so.

Administrator's sale. Fanny T. Slocum and Frederic V. Slocum, administrators, will sell at the Giles F. Slocum place, ½ mile east of Sherwood, on Monday, March 8, at 1 o'clock, 8 choice cows, 20 breeding ewes, Dorset ram, sow, 50 hens, 2 top buggies, 3 farm wagons, bobs, cutter, harnesses, farming implements, some household goods, etc. J. A. Hudson, auctioneer.

Fair Privileges.

Bids will be received for the next 60 days, beginning March 1, '09, for the following privileges for the Genoa fair, Aug. 25, 26, 27, 1909:

- Soft drinks and cigars.
- Frankforts.
- Peanuts.
- Ice cream.
- Hot taffy.
- Popcorn.
- Score cards.

The association reserve the right to reject any bids. 10 per cent must be paid at time privilege is let; balance the first day of the fair—Aug. 25, '09.

B. J. BRIGHTMAN, Secretary.

Statement of Town Account.

Following is a statement of town accounts as presented by Supervisor Sullivan to the Town Board and accepted to Feb. 9, 1909:

Town Fund	\$1936.58	\$1931.58	\$ 5.00
Local School Fund	2463.41	2326.11	125.30
Special Fund	449.35	371.21	78.14

HIGHWAY COMMISSIONER'S SALARY.

(NOT TO BE PAID FROM HIGHWAY FUND.)

Compensation per day for services \$3.00.	
Number of days service 150½.	

Statement showing machinery, implements and tools owned by the town and the districts of the town and the condition and the present value of the same:

Road Machines:	
Number owned by town 3.	
Number in good condition 3.	
Estimated present value	\$ 400.00
Rut Scrapers:	
Number owned by town 3.	
Number in fair condition 3.	
Estimated present value	\$ 15.00
Wheel Scrapers:	
Number owned by town 1.	
Number in good condition 1.	
Estimated present value	\$ 10.00
Total estimated value	\$ 425.00

OATH OF SUPERVISOR AND HIGHWAY COMMISSIONER.

STATE OF NEW YORK,)
COUNTY OF CAYUGA,) ss.

Florence Sullivan, Supervisor, Clarence Hollister, Highway Commissioner, being duly and severally sworn, depose and say: that the foregoing report showing the amounts of money received and the expenditures thereof are correct; that the expenditures stated therein were necessary and were made for the purposes specified and for value received, and that the annexed inventory contains a true statement of all machinery, tools and implements belonging to the town and districts therein.

FLORENCE SULLIVAN, Supervisor.

CLARENCE HOLLISTER, Highway Comr.

Subscribed and sworn to before me this 20th day of January, 1909.

WM. H. SHARPEEN, Justice of Peace.

STATEMENT OF HIGHWAY COMMISSIONER.

1. When was the work of turning up and smoothing the highways completed? June 30.

2. Is the town properly supplied with machinery, tools and implements for work? Yes.

3. Have the noxious weeds and brush within the bounds of the highways been cut and removed as required by section 53a of the Highway Law? Yes.

CLARENCE HOLLISTER, Highway Comr.

My term of office expires Feb. 1, 1909.

Town of Genoa, County of Cayuga.

Old newspapers, for shelves and putting under carpets, at this office 5 cents a package.

SPECIAL Clearance -:- Sale

on all winter goods for 10 days only to close out rather than pack away for next season. Commencing Saturday, Feb. 27. Special sale in Rubbers, Felts and Shoes, Carpets, Rugs, Curtains, Draperies, Cloaks, Shawls, Rose Blankets, Quilts, Underwear and Hosiery. Lowest spot cash prices in Groceries.

Yours for more business,
Robt. & H. P. Mastin,
GENOA, N. Y.

SAGAR QUALITY DRUGS...

This store is never dull. It is always interesting, and is constantly winning new customers, and at the same time holding the old ones by sheer force of merit.

Hearing Horns

Deaf people are assisted in hearing by these instruments. Understand we do not claim they will restore the hearing. A wooden leg is not as good as a real leg. Neither is a hearing horn as good as perfect hearing, but a hearing horn will help in most cases.

Price \$2.75

CONVERSATION TUBES

Mohair and silk covered. Several sizes and lengths. Let us show you.

Price \$1.50 to \$2.75.

CANDY DEPARTMENT.

Our store is the exclusive agency for Auburn for Huyler's, the world famous candy. Half, one and two pound boxes. Fresh twice a week.

A Candy Special, Oakdale bulk Candies, all special this week at 29c the pound.

Knut Butter Kisses. A delicious molasses candy with a nut butter center, 19c the pound.

Sagar's Olive Oil can be depended upon. In November, long before the earthquake in southern Italy, which destroyed great quantities of Olive Oil, we had contracted with our importer for Olive Oil equal to twelve barrels, all to be of the very best quality. Part of this lot is now in our store. We have tested the oil received and found it perfect. It is pure, not the slightest trace of Cottonseed oil, Peanut oil or any other adulterant. It is bland, sweet, and for salads or medicinal use is as good as is possible to find.

FARM ORCHARD AND GARDEN BY F.ETRIGG REGISTER. ROCKFORD, I.A. CORRESPONDENCE SOLICITED

[Copyright, 1920, by American Press Association. This matter must not be reprinted without special permission.]

A QUERY ABOUT SOUTH DAKOTA.

A reader of these notes, a young tenant farmer living near Hettick, Ill., writes asking about farm lands in the vicinity of Pierre, S. D., especially as to their adaptability to growing corn and if this can be counted on as a sure crop. Our correspondent also inquires if there is alkali water in the sections mentioned. With a view to securing more accurate and reliable information than was at hand regarding the locality in question, inquiry was made of Professor C. Willis of the state experiment station at Brookings, S. D., who writes that land in the vicinity of Pierre, north, south and east, may be had at from \$16 to \$40 per acre; that this section is the driest portion of the state, the average rainfall for the past eighteen years being 16.5 inches per annum. In spite of the low rainfall, which is about half of that in states lying east of the Missouri river, Mr. Willis states that at the college station fifty miles east of Pierre he has been able to secure a yield of sixty-five bushels per acre from the variety of corn known as the Minnesota No. 13, and at the main station at Brookings the same variety yielded 74.5 bushels. This is an excellent showing and would be considered so for most any portion of the corn belt, but whether equally large returns could be counted on during a period of years we are not in a position to state. It is well to remember that during the past seven or eight years the rainfall in the longitude of Pierre, which is usually classed as in or bordering on the semiarid section of the west, has been considerably larger than for a number of years preceding. A question that arises is whether this cycle of dry years is likely to return. Should they do so it would make the raising of corn as a primary business in the territory named somewhat precarious. Nobody can answer this question with authority. Only time can tell. If our friend rather inclines to the Pierre country, it would seem wise for him to visit the section he plans to locate in and give it thorough inspection from as many viewpoints as possible. If the system of "dry farming" has to be followed—briefly that in which the land has to be summer fallowed every other season to conserve enough moisture to produce a crop—the prosecuting of agricultural operations in such locality by one who had been used to Illinois conditions would be fraught with a good deal of hardship and discouragement.

CRIMINAL CARELESSNESS.

A case was reported to us the other day in which a renter of a tract of land knew a certain portion of the meadow was infested with Canada thistles, but notwithstanding this allowed the crop to get overripe, the thistles along with the rest, and on harvesting the hay crop sold it to a large feeder in the vicinity. Nothing but a careful inspection would determine what per cent of these thistle heads contained mature seed; but, if any at all, some one, either the owner of the land, the renter or the feeder, ought to be liable under the law. We incline to the view that the first and second parties certainly are. With such wholesale carelessness and indifference as this on the part of men who ought to know and do better it is little wonder that pests like the Canada thistle, quack grass and other noxious weeds are being scattered broadcast much faster than they can be isolated and eradicated. When it is clear that one's neighbors will not be patriotic enough to exercise care in a matter so vital and one that concerns the public welfare he is under necessity of establishing, as it were, a rigid quarantine against the products—hay, straw and grain—from such infested farms.

AN INTERESTING BIRD.

The American crossbill is one of the most interesting of native bird species, particularly because of its peculiar nesting habits. Unlike most other birds, the crossbill nests very early, its nests, containing eggs or young, having been found as early as the latter part of February or early in March. How the young birds are able to withstand the rigorous temperature of this season of the year is not clearly understood, but they do. The nest of the crossbill is usually made of moss, about the size of a football, with walls about two inches thick, and has a door just large enough for the parent birds to enter. The food of these birds consists largely of the seeds of pine trees, its odd shaped bill seeming to be especially suited to extracting them. They also feed upon garden fruits, upon the seeds of some varieties of grass and cankerworms. The mature birds are a trifle smaller than the English sparrow. In color the male is of a deep brick red and the female a mottled olive green.

England is said to consume annually 4,400,000,000 eggs. Foreign hens do the cackling for 2,130,000,000 of this number.

The total production of rice in the United States for the year was 21,800,000 bushels from 655,000 acres, valued at \$16,081,000. In 1908 the acreage was 627,000, the yield 18,738,000 bushels and the cash value of the crop \$16,081,000.

Considering the way flax pulls on the soil, it should be a source of satisfaction that the area sown to this cereal during 1908 was 185,000 acres less than in the year preceding. However, because of better prices the crop gave a return of \$30,577,000 against \$24,713,000 for 1907.

The increased prosperity of the southern states during the past fifty years is quite accurately gauged by the production of cotton, its leading agricultural crop. In the year 1890 the cotton crop of the south was 4,609,700 bales and the price 11½ cents per pound, the highest up to that time. In the year 1907 the crop totaled 13,550,760 bales, the price ranging from 10.70 to 13.55 cents per pound.

In order to clear up some confusion which may exist in the minds of a few it may be well to state that the Swedish Select oats and the Regenerated Swedish Select are two distinct varieties. The former has been grown in the northern states for a number of years, is thoroughly acclimated and is rated by the department of agriculture as being one of the best varieties grown in this country, if not the best. The latter variety, the Regenerated Select, is a type developed by an English seed firm and, while remarkably vigorous and giving a good deal of promise, is still considered in the experimental stage.

Considering the expense connected with the laying of a system of tile, from \$10 to \$12 per acre for the area drained, it is well to have the work done in the very best possible manner, including the surveying and laying out of the system, the establishing of the proper grades, the selection of good tile and the laying of them carefully and evenly. A sag of a few inches in any section of the system will likely result in a clogging of this portion and the putting of it out of commission. It costs money to tile well and still more to tile poorly; hence it is economy to do the job as it ought to be done.

An Illinois farmer who evidently mixes some brains with his work and incidentally makes some observations on his own account has suggested the possibility of putting to a new use a system of drain tile which was put in the ground primarily for the purpose of removing surplus water. His idea is that in very dry seasons water might be pumped into the upper end of such drainage systems, thus furnishing the soil with the moisture necessary to a proper maturing of the growing crops. The least that can be said of the proposition is that it is original and unique. It is certainly practicable if the water needed could be pumped without too great expense. The putting of the above suggestion into operation would be watched with a good deal of interest.

Readers who may be interested in changing their location and have been more or less interested in reports of cheap farms for sale in some of the New England states would do well to write to the States Land and Improvement company of Oneida, N. Y., for its descriptive bulletin of farms which are for sale in three or four of the central counties of the Empire State. The bulletin is vouched for by the state experiment station officials. The farms are well adapted to stock and dairy purposes and fruit, vegetable and poultry farms. There seems to be little question that in the craze for western lands eastern farms have been abandoned or sold for a song when they were as well suited to the above pursuits and could be worked with much better prospect of success than many western tracts, to secure which the former have been passed by. A hurried perusal of the descriptions of some of these lands would seem to indicate that among them were some first class bargains that will not go begging long.

Mr. Henry Wallace, editor of a leading western agricultural magazine and a member of the country life commission, who has taken some pains to look into a number of western irrigation projects carefully, sounds a word of warning that it would be well for all prospective purchasers of land in the vicinity of such enterprises to take into account—namely, that before investing the settler should have an absolute guarantee that the land he buys, supposedly under ditch, is so located that he can get water on it at those seasons of the year when water will be most needed. He calls attention to the fact that in a number of private irrigation enterprises land is being sold at high prices outside of the area which could ever be adequately irrigated by the water available. He cites the fact that Uncle Sam is straightforward enough with settlers to state the truth about the amount of land which can be supplied with water from a given drainage enterprise, not offering for sale more land than there is likelihood of supplying with an adequate amount of water. Mr. Wallace states that a few of the privately owned irrigation schemes are being managed as commendably as those which are backed by the government, but that they are the exception.

The laws operative in most states hold the owners of dogs responsible for the damage done by them to the property of others, and this is true whether the damage consists in injury to live stock or from runaways caused by the frightening of horses.

Gypsum is one of the interesting mineral products of the United States. Chemically it is known as calcium sulphate, containing, besides calcium, sulphur and oxygen, water in crystallized form. Alabaster is a fine, white, siliceous variety of gypsum, while selenite is a transparent, crystalline variety. Calcined gypsum, that reduced to a fine powder by intense heat, appears as the familiar plaster of paris of commerce.

The verdict of those who have had a good deal of experience with tilling is that the installing of such a system will not only make a wet soil drier, but also by drying it make it warmer and therefore better adapted for the raising of crops. It also seems well agreed that the presence of a system of tile on high lands by increasing the absorptive power of the soil tends to lessen the surface washing and gully-ing of hill slopes. Thus, viewed from most every standpoint, the laying of tile seems to result in definite benefit.

There is little wonder that sections where alfalfa can be grown are thriving in an agricultural way. One Mississippi valley farmer whose location is none too favorable for growing this legume had a five acre patch the past year, from which he secured three cuttings averaging a ton and a half per acre to the cutting. He places the value of the twenty-one odd tons of hay from this patch at \$300, while he hopes to still further increase the value of the hay by grinding it into alfalfa meal. This is an agricultural crop if there ever was one.

The difference in cost between a brick or wooden house or other structure of like character is said by those who have made a careful study of the subject to be the cost of paint on the latter. Considering the fact that wood must be painted frequently to properly protect it from the action of the elements and the likelihood of rot and decay the brick structure would seem to be by far the most economical in the course of a long period of years. The use of the hollow blocks for all but the facing of a structure gives both lightness and strength, and the dead air spaces in the wall mean a much warmer building. Those intending to build should look into this matter of the cost and durability of building materials thoroughly.

The annual loss from insect and rodent pests in the United States annually is placed at about \$300,000,000. The first pest largely and the second to quite an extent are held in check as much as they are by the bird life of the country. Keeping the above facts in mind, it is with a feeling of humiliation that one learns that the National Association of Audubon Societies of America, whose chief business it is to spread the good gospel of bird protection, last year received but the paltry sum of \$24,000 with which to prosecute its most valuable and far-reaching work. And when it is known that this amount had to be apportioned among several branches in forty-four states it will be realized at once how inadequate this sum must have been. If the amount placed at the association's disposal were \$2,400,000 instead of \$24,000, it would not be out of proportion to the vast economic importance of the work in which it is engaged. Persons of wealth who desire to perform a real service to humanity, and in particular to future generations, could hardly make a bestowal of their money that would accomplish this result in larger measure than by placing a generous endowment at the disposal of the National Association of Audubon Societies.

Judging from reports which come from various sources, it is apparent that a word of warning should be spoken in regard to the use of cement tile which are shoddily made—that is, which do not contain a sufficient per cent of cement to give needed strength and in the manufacture of which proper care has not been taken in the selection of the raw materials which are to be mixed with the cement. Should these contain but a small per cent of clay or other earthy material which will not withstand the action of the acids and moisture of the soil it is money and time absolutely thrown away to buy them and put them into the ground, as in a very short time they are sure to go to pieces and render the drainage system of which they are a part worthless. If the right kind of sand is mixed with the proper amount of strong cement, a tile can be made which is probably as good as the burned clay tile, but the greed of irresponsible manufacturers of cement tile to make a larger profit than is consistent with good quality has resulted in the manufacture of an inferior grade of cement tile that is a reproach to the industry and a worthless as well as costly proposition for the man who puts them into the soil. Some state experiment stations are making tests of cement tile and are in a position to designate those manufacturers who are making a standard and durable article. If these or other trusted authorities cannot commend a given brand of cement tile, they would better be let alone.

F. E. Trigg

WE HAVE ON HAND

Do You Want a Bargain?

This ad is intended for the man who has been waiting for an Overcoat bargain; if he heeds what we have to say here, he will not have waited in vain.

We have cut the price of every Overcoat in stock and cut it deep enough to make it an object for a man to buy now.

If you are satisfied to wear this year's style next year (and the difference in cut will be very slight) you can get an Overcoat that in point of service, fit and comfort will answer every purpose and save from 2.50 to 10.00.

THE GENOA TRIBUNE and N. Y. World \$1.65

The Cayugas' Dinner.

The annual banquet of the Society of the Cayugas at the St. Denis hotel, New York City, on Saturday evening, Feb. 20, was attended by about 70 Cayugas, and their friends. A letter from Dr. Theodore L. Cuyler, which was read at the banquet, will be of interest to many in this vicinity:

Brooklyn, Feb. 16, 1909

My heart is with the Cayuga tribe at their annual banquet, and I regret that a sharp attack of bronchitis prevents me from being there in person. I regret this the more because I am now the only living person whose ancestors took part in the laying the foundations of our county. My great great grandfather, General Benjamin Ledyard, from whom the township was named was the first county clerk. My grandfather, Glenn Cuyler, of Aurora, was the first surrogate. My maternal grandfather, Chas. Horton Morrell, was the high sheriff appointed by the governor, when the county extended from Lake Ontario to the Susquehanna river. My father, B. Ledyard Cuyler, was the surrogate at the time of his death in 1826; and some of the wills in your surrogate's office were recorded there in the handwriting of my beloved mother.

If I were with you I should like to call the roll of some famous members of our Cayuga clan.

Cayuga gave birth to the Hon. Millard Filmore, who was president of the United States from 1849 to 1852. The township of Moravia gave birth to sturdy John Wood, who became governor of Illinois, the founder of the city of Quincy and a leader in the anti-slavery movement in the Northwest. One of Scipio's sons was Charles Loring Elliot, the brilliant artist who painted the portraits of a great number of eminent Americans. The township of Springport is fragrant with the name of John J. Thomas, the distinguished horticulturist and pomologist whose memory is sweet to all of us who relish fine fruit.

My beautiful native village of Aurora was also the birthplace of Hon. Christopher Morgan and Hon. Edwin B. Morgan, who honorably represented our county in the halls of congress.

Cayuga in addition to her own sons, has the names of two illustrious adopted sons on her escutcheon. The township of Throop perpetrates the name of the Hon. Ernest Throop, who was governor of New York who resided at Willowbrook on Owasco lake and whose ashes slumber in St. Peter's churchyard in Auburn, but the most resplendent jewel in our crown is the name of the great statesman, the great diplomatist and the great patriot who has made the name of William Henry Seward familiar to the broad world over. At this time when we are celebrating the centennial of our beloved Lincoln it is fitting to pay our honor to his eloquent and illustrious secretary of state, who shared with him the glory of founding the Republican party and also shared the peril of assassination on that terrible April night in 1865.

How I would rejoice to be waiting around the campfire on Saturday evening! On my recent 87th birthday, I thanked God that I was born in the keystone county of the Empire state, whose capital, Auburn, is the most beautiful city in our commonwealth, whose people have been so kind to me and mine, and in whose soil reposes the dust of my ancestors. An Indian chief at Aurora, told General Benjamin Ledyard that his "daughters were very handsome squaws." To all who may gather around the campfire and to the braves in our noble Cayuga tribe, I send a hearty God bless you all, and I am

Yours thoroughly to the core,
THEODORE L. CUYLER.

A Promise of Spring.

A day or two ago we received a copy of Vick's Garden and Floral Guide, the annual catalogue of one of America's oldest seed firms. This issue is full of interest to anyone who makes a garden of Vegetables or Flowers, likewise to the man who cultivates a large farm. It is handsomely illustrated with photo engravings direct from nature; the illustrations of Ailsa Craig Onion, "Good Luck" Pea, Golden Nugget Sweet Corn, Carmen Seedling Potato, and the famous Vick Aster, being particularly attractive. It will be greatly to our readers' advantage to write to James Vick's Sons, 143 Main St. Rochester, N. Y., and ask for a copy. It is free.

A REAL REMOVAL SALE

Having leased the remodeled Brixius Store at 49 Genesee Street, we have decided to place on sale our entire stock of Ladies' Suits, Skirts, Shirtwaists, Furs, Underwear, &c., at about 50c on the dollar. We do not want to move anything from our present store and we are making prices that surely will clean up this entire stock. It will pay you to buy now for future needs, as this sale enables you to get two dollars worth of goods for one dollar. Not a garment in this big stock is reserved—everything has been cut below the profit line. We are willing to stand the loss rather than pack and move the goods. This is the greatest saving opportunity you have had or will have this year, and to miss it will mean the loss of dollars to you.

SALE OPENS TOMORROW MORNING AT 9 A. M. And will continue until every salable garment is disposed of

Note carefully the following prices, and don't forget that these goods are strictly high class and seasonable in every respect. Early buyers, of course, will have the choicest selections and we urge you to call at once.

Removal Sale Prices.

One lot of Suits, Etons and Short Coat style Suits that sold regular for \$12 up to \$27.50. Removal sale price \$4.98
The skirt alone is worth double what we ask for this Suit.

**Who Cuts the Grocery Prices?
Said the Public to the Grocer!
ATWATER, said the Grocer!
I can not tell a lie.**

Washington cut the cherry tree and said he did it. ATWATER cuts the price of Groceries and says so.

117 E. State St., 320 W. State St., 105 N. Aurora St., Ithaca

J. S. Banker a Success.

J. S. Banker, the enterprising druggist rather than await the ordinary methods of introduction, urged the Dr. Howard Co. to secure a quick sale for their celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half price.

The wonderful success of this plan was a great surprise even to J. S. Banker, and to-day there are scores of people here in Genoa who are using and praising this remarkable remedy.

So much talk has been caused by this offer, and so many new friends have been made for the specific that the Dr. Howard Co. have authorized druggist J. S. Banker to continue this specific half price sale for a limited time longer.

In addition to selling a 50c bottle of Dr. Howard's specific for 25c J. S. Banker has so much faith in the remedy that he will refund the money to anyone whom it does not cure.

When your head aches, your stomach does not digest food easily and naturally, when there is constipation, specks before the eyes, tired feeling, giddiness, bad taste in the mouth, coated tongue, heart burn, sour stomach, roaring or ringing in the ears, melancholy and liver troubles Dr. Howard's specific will cure you. If it does not, it will not cost you a cent.

This latest achievement of science is of great value in curing sick headache. Thousands of women are today free from that painful disease solely through the use of this specific.

FARM FOR SALE.

I offer for sale one of the best farms in Southern Cayuga county, 200 acres, 1 mile southwest of Locke, known as the Goodrich or Corydon Edsall farm, extra good buildings, silo, well watered, 60 acres of thrifty timber, 140 acres tillable, 100 acres now seeded, can make fair and good terms to suit good man. Can sell 160 acres and buildings if desired. Consult C. E. GOODRICH, 15 Orchard St., Auburn, N. Y.

The Secret of Long Life.

A French scientist has discovered one secret of long life. His method deals with the blood. But long ago millions of Americans had proved Electric Bitters prolongs life and makes it worth living. It purifies, enriches and vitalizes the blood, rebuilds wasted nerve cells, imparts life and tone to the entire system. It's a godsend to weak, sick and debilitated people. "Kidney trouble had blighted my life for months," writes W. M. Sherman, of Cushing, Me., "but Electric Bitters cured me entirely." Only 50c. at J. S. Banker's, Genoa, and F. T. Atwater's, King Ferry, drug stores.
