Farmers, Take Notice! Many of you have old plow points, thrown in the old junk pile. Now I can draw them out for a small cost to you and some have told me they have worked better than when new. Now is the time to get your wagons and farm tools repaired, wood work rone repaired at Huson's, Genoa. M. T.

Merrifield.

JULY 3-Mrs. Charles Atwood and daughter Alta of Moravia are spending a week with Mrs. Huldah Wheat and other relatives.

Miss Marguerite Clark of Auburn is the guest of Miss Elizabeth Finn.

Volney Mosher and wife of Hillsdale, Mich, are visiting their son, Clinton and other relatives in this vicinity.

Mrs. Sarah Barnes and daughter, Gertrude of Auburn, were called to this place Saturday by the critical condition of their aunt, Miss Rowan Tabor, who passed from this life at 10:30 Saturday evening. Miss Tabor was in her 86th year. The funeral will be held to day at 2 o'clock at her late home and 2.30 at the Universalist church, with burial in Scipio Rural cemetery.

Franklin Nellis and wife of Auburn while on a piano tuning trip in from Ithaca are guests at M. L. this locality last week, spent two nights at the home of A. E Bigelow and wife.

Hiram Wallace and wife of Venice were over-Sunday guests of Mrs Martha Powers and family.

Miss Effic Blair is visiting her Scipioville last week. sister in Sempronius.

Benjamin Baldwin of Geneva is in

town for a few days. Miss Marion Gilbert of Auburn are

the guest of Miss Eliza Post. Mrs. Mabel Loveland and children, Clara and Herbert of Auburn, is spending a few days with Mrs. Vir-

tue Loveland and other relatives. Miss Bernice White of Ithaca is a

The Scipio base ball team was defeated by the Stump City Stars of Auburn on the Auburn field Saturday, by a score of 15 to 12.

Mrs. Lewis Smith has returned from a week's visit with her daugh. from the Union Springs High school ter in Moravia.

Mr. and Mrs. James Carmody and two children of Cleveland, Ohio, and Mrs. Anna Anderson of Auburn were guests of Daniel Bresnahan and wife two days last week.

Mrs. John Good of Boston is spending a few weeks at the home of her daughter, Mrs. James Cotter.

The new stage is running between

Poplar Ridge and Merrifield. The reunion of the Post family held last Saturday at the pleasant home of Hobart Loyster and wife was a very enjoyable affair. A sumptu oue dinner and supper were served on the lawn to the thirty-four members present, Volney VanLiew being the only one absent. The day was also the anniversary of the birth of one of the older members of the family and among the pleasing features of the day was the presenting of a large cake upon which were seventy lighted candles representing the years of the life of Mrs. Esther Post VanLiew. The candles were blown out by the various members of the family as they expressed a wish the t she might live to enjoy many more happy birthdays. Those present from a distance were: Warren Tompkins, wife and daughter, Mrs. Mary Rorapaugh of Union Springs; Elmer VanLiew and family of Dresserville and Miss Sarah Tompkins of Mount

Sage.

June 26-Mrs. Nellie Tuller and daughter, Lucy of Bemidji, Minnesota, have come to reside with the former's mother, Mrs. Fame Smith.

ALL DRUGGESTS

Under the Shadow of Baldhead

A Mining Expert Who Held Honor Above Love

By George Ethelbert Walsh Copyright by American Press Asso-

The sickly light from the single oil lamp gave a peculiarly weird, fantastic effect to the men seated around the plain pine table.

In the murky light the dark, heavy bearded faces took on a grimmer expression than by daylight, and the shifting gaze of eyes were of a nature to cause uneasiness. But Bertran had not followed his profession of expert mining engineer without ac-

"CHARLEY, ARE YOU IN THIS DEAL TOO?" quiring a certain amount of courage to carry him through unpleasant and even dangerous situations.

"Well, gentlemen," he exclaimed. after a nod of welcome from the circle, "I suppose you have something to say to me.'

"You have finished the examination of the mine, I suppose, Mr. Bertran?" tentatively queried Carstack, a thickset mining adventurer, who Bertran understood was at the head of the syndicate anxious to acquire the Bald-

shall return in a few days to report to | cle his adversary merely with the idea

"You haven't sent any word yet-by letter or by telegraph!"

"No, I have sent no word."

"And the report is to be"-A flush of annoyance mounted to his

cheeks at this unfinished question, "My report is a matter of business secrecy with my employers," he answered simply, but with emphasis.

"We understand your position, Mr. Bertran," said Carstack. "Business honor-professional etiquette - makes you sensitive about giving us an inkling of your report. But as our offer for this mine is a liberal one and we have much at stake in the transaction you can realize our anxiety to know

what you have found." Bertran turned slowly toward the speaker and replied evasively:

"You know what my findings have been and can guess what the tenor of my report will be."

Then your estimation of its value

is far greater than the price we've offered. Would you mind stating what value you place on it?" Bertran laughed.

"It would be dishonorable for me to do so," he replied quietly.

Topham, who up to this point had remained a passive listener, suddenly burst all restraint and said sharply: "What is your price for the informa-

tion? We'll meet you on reasonable grounds." Bertran swung around angrily, a

sharp retort on his lips. But the row of grim faces dissuaded him. They were not men easily intimidated. The gugged, scarred faces were not pleasant to look at. With a sudden change of his features Montrous took up his companion's lead and added:

"We'll not mince matters, Mr. Bergran. There are millions in that mine. You know it, and we know it. Send in a report to suit us and your fortune is made. One-fourth interest-a mil lion or more will be your share."

The full extent of their plan was remealed by this blunt speech. Bertran disliked circumlecution, and now that he knew fully their scheme he breathed easier. He breathed easier for another reason. A fourth share of the mine meant that there were only three in the comspiracy. This let out Churles Ross Charles, who had been so dear to him in the old college days. Good metered, but weak in character and easily lad, Bertran had feared that the friend of bis younger days had become involved in the swindle. It was for Churley's sake-and another's that he had fell the painfulness of his position.

When he came weet in the interest of the owners of the Baldhead he had no thought of meeting Charley Bloos. The reunion had been more

had been between Gunner's and Easteru islands and nearly as convenient to one as to the other. Gunner's was much more frequently visited. There were two fishermen's huts on the shore, as Lenoir could readily see, but the other island had no sign of habitation, chiefly because there was no water on it. Moreover, there was a ledge of white rock on the highest part of Eastern, with a very tall spruce tree near by.

Gil's service on the cutter kept him a prisoner, and the days dragged on. Lenoir and his seamen were released and sailed on the little fishing smack, which was speedily reported lost in a gale. A rumor arose that his ghost was already haunting Gunner's island and had been seen standing on the water at the point where his brigantine had lain at anchor. "Probably walking across to Eastern," said Gil to himself when he heard the tale.

He was as superstitious as most people of his class and time, but his chief anxiety was based upon the possibility that the figure seen on Gunner's island might have been the real Lenoir and not a ghost. Immediately upon hearing the story, therefore, Gil was taken sick, and the revenue cutter sailed away upon an errand of Uncle Sam's without our friend's services. Then Gil started on his expedition with all possible secrecy.

His boat was already in an out of the way cove, with a basket of food, a jug of water and some digging tools concealed on board, and in the late forenoon he set forth to seek his fortune. When he got out into the bay the fog was advancing, a vast gray pall over a black water streaked with lead color. The wind was against him. His boat compass was of little use, and when he stumbled upon Eastern Island near the close of the afternoon he was amazed to find that it was not some other land.

Gil made a sort of camp in a thick clump of spruce trees, weaving some boughs for a shelter overhead and laying others on the ground for his bed. Here he deposited the basket of food and jug of water with the spade and pickax, and as there was still some light he decided to have a look at the white rock and the tall spruce. In the fog he lost his way and approached the spot by the most inconvenient access, finally scrambling up a steep bank to the top of the white

When he rose from all fours after this scramble he saw, barely ten feet distant, the seafaring man with the black beard. This must have been a considerable shock to Gil, and I doubt whether his nerves were ever in normal condition during the remainder of his adventure. He seems to have believed at first that what he saw was a ghost, and, though he himself carried a double barreled shotgun while the apparition bore no weapons, Gil had no thought that the advantage lay with him. He advanced because he dared not stand so near the edge "Yes, my work is finished, and I of the steep rock, and he tried to cirof getting into a better position for re-

The figure remained still, except that it turned slowly to keep its face toward Gil; then suddenly it rushed upon him. He saw a knife in its hand. Of the struggle which ensued Gil retained no accurate memory except of the enormous relief which came to him at the contact with a human body. This was not a ghost-it was a man. The knowledge ran through Gil like fire in his blood and gave him a glant's strength. Yet it was his adversary and not himself who was probably responsible for the result. Gil is sure that he did not fire his gun; it went off while the other was trying to wrench it away, and there lay the black bearded man dead in an instant with such a wound as blanched Gil's lips to describe more than fifty years afterward.

Gll took one look at this horror and fled. He ran until the limits of the island checked him, and then, collecting a part of his wits, he tried to find

his way back to his camp. The last daylight was now dying in the gray sea fog, and Gil could see not more than ten feet before him. He must therefore have been very close upon the second apparition when be perceived it. The seafaring man with the black beard stood in his path, precisely as Gil had seen him first upon the rock, except that his breast was now stained crimson.

"This is a ghost for sure," thought Gil, and fled again. "He wasn't a ghost before, but now he is. I've killed him, and I'm haunted by him."

By chance he ran toward the ledge, and when he burst through some bushes and found himself almost upon the spot where the encounter took place a dreadful curiosity took possession of him. Did a ghost use his own body or another one? Was the corpse upon the rock or walking? He went to the spot where the body had lain, and it was gone. This was con-

clusive; the man's ghost was using it. Gli found his way back to his camp. He had been shaking as if with cold; he was now burning with fever. Thirst consumed him, and he thought first of

his water jug. It was gone. As he had come toward the camp he had been conscious of being attended by the specter, although it remained invisible except for one instant at the very last. Gil had then seen it or had imagined that he saw it and had rushed in pursuit, he knew not why. But this had been a brief folly, and he had not gone far. The ghost meanwhile must have stolen the water jug, a fearful vengeance, for there was not a drop of drinkable water on the is-

"I can't stay here," said Gil, "I'll

boat. Thirst now that he knew there was no water to be had was tenfold

When he came to the beach and saw the mast of his boat with the sail brailed upon it he felt a sense of safety, followed instantly by the most dreadful terror. The boat was some distance from the shore and was floating slowly away in the light air under the lee of the land. This, indeed, was death visibly confronting him. Without a moment's hesitation he flung down his gun and plunged into the

The boat was moving slowly. He overtook it without great exertion. He was an exceptionally expert swimmer and of such vitality that the cold of those waters did not affect him excessively. It was with vast relief that he raised up his hand and grasped the rail of his boat. But instantly a black bearded face appeared above him, a hand selzed his wrist, and he was thrust back into the sea.

This is the extent of Gil's recollection. A gap of several years succeeds. I know from other sources that he swam to Gunner's island and was found there unconscious the next day. When revived he was out of his wits and raving about Lenoir's ghost. It was supposed that he had gone to Gunner's island to search for the treasure, had capsized his boat and swum ashore and had encountered supernatural adventures which had overthrown his reason. Nobody guessed that he had really been to Eastern island. The scrap of paper with the French writing remained hidden in the lining of

Gil's madness subsided into a mild and harmless form, accompanied by loss of memory. For fifty years he was a local character; latterly a sort of gypsy and fortune teller.

I made his acquaintance two years ago and treated him in an illness by tion of causes too obscure to be very down the skirt. relevant even to the professional mind. Suffice it to say that he experienced a considerable restoration of memory regarding the events of his youth, although the middle portion of his life remained a blank to him.

Perhaps his liking for me had some impulse toward reticence. At any rate, he told me, piece by piece, the adventure which I have here described, and around the neck and sleeves, a line on the day before his death he gave, around the waist and, if you wish, a me Lenoir's paper, which had lain hid- little more around the hem are quite den and forgotten I knew not how long. Gil himself could not remember when he had discovered and concealed

As to what happened on Eastern island fifty odd years ago the reader has doubtless already formed the correct opinion. The smuggler's vessel was not called the Three Brothers idly, but because there were three black bearded seamen who owned her. After Captain Lenoir was drowned the other two went in search of the treasure, and Gil Barker encountered them. One was shot. I found his

moldering skeleton. The other, after dragging his brother's corpse into some shelter, "haunted" Gil, but kept away from him in fear of his gun.

Perhaps the two had been set ashore upon the island and had no boat with them; perhaps their boat had gone adrift. At any rate, they probably expected to find water on the island and had begun to suffer from thirst So the survivor took risks to steal the water jug from Gil and then stole the boat. He had just cast it off and got into it when he heard Gil coming. Fearing the gun, he lay down in the bottom of the boat and let her drift until Gil overtook her, swimming, when the last brief encounter took

Gil's boat was never seen again. Perhaps she sank with the last of the

As for me, I visited Eastern island and readily found the white rock and the stump of the spruce tree. I took a line forty fathoms long and fastened an end to the extremity of the white rock and the other to the stump. There was a good deal of slack. I had put a mark on the line at thirty fathoms, and I pulled this over to the west as far as it would go. At the spot indicated I dug diligently and eventually disinterred a sea chest in a fair state of preservation containing gold com to the value

EMBROIDERED GOWNS.

They Are Fashionable In White Colored Decorations.

This pretty gown, appropriate for a girl's graduation or for afternoon wear consent of the local practitioner and during the summer, is made of linen, won his good will. His partial resto- beavily embroidered on skirt and ration to reason was not due to my waist. It is finished with a knotted ministrations alone, but to a combina- girdle of velvet that falls balfway

Lingerie dresses are exceedingly pretty this year, and they are quite simple too. The girl with spare min utes on her hands may employ them profitably in beading a frock for summer. White is the most popular mateeffect in removing the subconscious rial, and the color scheme is given by colored headwork or by embroidery that simulates beadwork. A little sufficient.

The waist for the lingerie frock may be made with a square, round, pointed sleeve is still correct, but it is getting shorter, an inch or so above the elbow being the preferred length. Make your dress with a slightly rais-

ed waist line and wear a pretty sash.

GIRL'S MUSHROOM HAT.

Lace, Ribbons and Flowers Combined Make a Dainty Chapeau. Mushroom hats of lace or embroidery

are very popular for little girls. They may be easily fashioned by the amateur milliner, since no great skill is required in adjusting the soft lace over the wire frame. A few knots of ribbon or clusters of tiny flowers knotted here and there among the lace

CHILD'S LACE MAT.

ace the only trimming required. These hats are most appropriate for wear with white lingerie dresses.

Children's bats seem to be prettier than ever, whether we consider them in the rough and ready sailor shapes for morning wear or in the more elaborate creations for full dress. The headgear of even the they tota is picturesque. Bonnets for little ones are made of white liberty satio. They are close fitting, but the satin is fulled on the crown, the band around the face being plain. Embroidered side pieces are set in. The most attractive designs are tiny forgetmenot wreaths. Where the ribbon ties are set on there are resettes of the white satin, in the ter of which are tiny rosebuds.

Embroidered betiste caps have th lest bouquets of pink and blue ers set on the left side of the

Old Gleves The paims of old kid gloves make very serviceable kneecaps, which can be stitched into children's stockings. thus avoiding constant darning, while the arms of long evening gloves make good polishes or handy receptacies for

CARE OF ANTIQUE SILVER.

How to Handle and Polish Without Making It Bright.

Do not give your silver a bright polish, for the vogue now is to have antique silver for the toilet table as well as for the dining table.

You will have to do the polishing cleverly if you do not want it to assume the brightness of newly manufactured silver, so you must know how to remove the discoloration without too much brilliancy appearing,

Do you know that a bath in soapy water that is boiling hot is quite as effective as polish if a little ammonia g added to the water?

After washing it should be rinsed in lear hot water, and ylu will find that all spots will have vanished. Too high polish will not appear if wiped with coarse dry towels as each piece emerges from the bath.

You should make it a point never to leave a lot of silver to dry by draining, for some of the pieces will partly dry and the water collect on other sections, thus losing the clean look that is supposed to be supplied by the washing and quick drying necessary. If silver which is in constant use is washed in this way it will not need

polishing more than once a month at the most, and then the polishing should be done discreetly, so that the new appearance is not given to it. In homes where gas is used as an

illuminant the silver discolors soon, it reduces this to some extent.

HOW TO COOK CARROTS.

Humble Vegetable Can Be Made Into Appetizing Dishes.

The humble carrot has an especially good effect on the system at this time. and despite its strong taste it may be made into the most delicate dishes,

Winter carrots are slightly boiled in three different waters to remove this rankness, but the new spring sort is dainty enough to require one water only. Spring carrots, which begin to appear in March, are delicious when boiled plainly and served with maitre d'botel-clarified butter sauce. A dust of finely chopped fresh parsley on top gives them a new piquancy to those who tire of the carrot taste.

Carrots served with cream are first boiled in plain water and then drained and warmed anew in the sauce that has been preparing. To make this sauce dilute a little of the boil water with two-thirds cream and thicken slightly with cornstarch; season with black pepper and salt and add a table-

Carrot fritters are made with the cold boiled vegetable mashed up and mixed with breadcrumbs and egg; enough cream to make a thickish batter is used and the fritters are fried in oil. Oyster plant and parsnips are also delicious when served in fritter form, the various ingredients used giving the vegetables a most delicate taste.

How to Roll Umbrella.

A badly rolled up umbrella, besides looking unsightly, does not wear half as long as it ought to. The process of rolling an umbrella up neatly is simple. The majority of people hold it by the handle and keep twisting the stick with one hand, while with the other they twist and roll the slik. Instead of this they should take hold of the umbrella just above the ribs of the cover.

These points naturally lie evenly with the stick. They should be kept hold of and pressed tightly against the stick and then the cover should be rolled up. Holding the ribs thus prevents them from getting twisted out of place or bending out of shape, and the silk is bound to follow evenly and roll smooth and tight. If an umbrella is rolled in this fashion until it is old enough to look rusty it will look as if newly bought.

How to Launder Black Clothes,

First, black clothes must never be washed in water that has been used for either washing or rinsing white things, as there is always fine lint in this water which sticks to the black. and no amount of after rinsing will get it off. Wash in hot, clean soapsuds and rinse in the ordinary way. To starch, take a cupful of white corn' meal, place in a frying pan and set next the fire in the range. Burn this until it is a black, sticky mass, stirring it steadily. When all is black, pour in boiling water, stirring all the while. Then strain and you have a splendid starch. Iron on the wrong side, and your shirt waists will be beau- unappreciative, not all are duty blind. | a muslin cloth. tifully fresh and sweet.

THE MERE MAN'S VIEWPOINT

WHAT MEN OWE WIVES

By BYRON WILLIAMS

O woman can make a silk purse of a sow's ear or a great man of a dolt, yet many women have made successful men out of mighty poor material. I have in mind a particular woman who has inspired a writer friend of mine to excel even himself. She is not only his rainbow in the storms of life, but the patient power behind that urges him to better things. Without her he would be dilatory, mediocre, almost shiftless. The talent he has would lie comatose. unused. And the beautiful part of it is from the mere man's standpoint she does not try to rule him, being satisfied with inspiring him.

If husbands would the more often stop to strike a balance and consider

THE PATIENT POWER BEHIND.

what they owe their wives women would be more appreciated. I and you have known wives whose unselfish devotion and never failing aid are deserving of the greatest praise, and many times they are satisfied to sacrifice themselves absolutely for the satisfaction of knowing that their efforts have helped men accomplish something, the real appreciation and expression of gratification from the men themselves being sadly lacking.

class to spend years building up a busband to reap as a reward only neglect and sometimes-separation. I have seen old men, men with the snows of years at their temples, seeking advice from their lawyers as to the easiest and quickest methods to be rid of wives who no longer appealed to their fancy-the same wives who have given up everything that is glad and happy in life to be matrimonial slaves.

Years ago in a certain village where by chance I was a more or less permanent fixture there lived the sweetest, gentlest little maid I have met in many years. She was one of those demure creatures with the pool of her thoughts ever tranquil on the surface, but capable of bubbling depths.

One day there came to the village a young lawyer. He was a dashing. debonair disciple of Blackstone, a hale fellow well met, and, despite these characteristics, a natural student. He met the maid in the course of a few weeks and seemed strangely attracted to her. In a year they were married, and from that day forth all the dreams of the woman became visions in which he figured. Her own longings were lost in her desire to see im succeed.

She economized and planned, having ever in mind that a certain amount of show in this world is necessary for a man's success. Therefore she re nounced everything that did not in some manner have a bearing upon his future achievements. She took personal care of his wardrobe and dressed him much better than she did herself. Night after night she sat up for him when important cases kept him at his office, and the amount of thought she expended in helping him win the judgeship he now occupies will never be understood by any one not thoroughly conversant with the facts. As for the man himself, he has been too

busy all these years to understand, Yesterday in a home paper I saw a local item hinting there was something amiss in the marital relations of the judge and his wife. I called up a boyhood friend, for I have been interested in watching this woman's wifely career, and asked him what he knew about the matter. He had been "back yonder" recently.

"Oh, he's tired of her, they say, and is infatuated with --!" naming the richest widow in a nearby town.

That was all. And it was enough. This woman made this man what he is, and now he wearles of her. She is not fashionable enough for him, perhaps, but in the end, when St Peter strikes the balance, surely this man will be made to understand the greatness of his sin, or while still on this earth there may come to him a time when through bitter tears he will see

a great light. This isn't a remarkable case as the world goes. There are many others at least similar. She made him, and he deserted her. Almost any issue of a great newspaper will tell you the story; varied a bit, colored differently. And yet, in the face of these regrettable instances, women still are sacrificing themselves for their husbands, and the only happy thought comes with the realization that not all busbands are

Seasonable Suggestions For Those About to Begin Sowing.

Almost all flower seeds germinate more quickly if soaked in warm water for a few hours before planting. In some instances this is almost a neces

The advantage of treating sweet peas this way is most marked. Cypress vine will stand quite warm water quence. poured over the seeds twelve hours be fore planting.

Canna seeds and those of the other large, hard shelled sorts sometimes up on end, put a require careful filing to break the tough outer cover, but extreme care must be taken not to injure the germ.

The finer greenhouse seeds should be merely sprinkled on the surface of very fine soil and kept continually moist. During germination glass should be kept over the pots. After the plants have come up this should be removed to admit air.

Extreme care must be taken of the tiny seedlings, for if allowed to get dry they will almost surely die, and if kept too moist they incline to "damp

The sowing of fern spores on a brick covered with just a sprinkling of earth is an interesting study to the nature lover, the necessary water being supplied by keeping the brick in a dish of

Most of the greenhouse plants and similar delicate ones are scarcely profitable for the amateur to raise as a source of experimental study, though large gerantums and a number of the larger seeds are as easily managed as a pansy or an aster, and one can get a good variety at a small cost.

As a rule the seed should be planted twice its own depth, and in the case of small seeds it is essential to have the ground finely pulverized.

How to Make Pulled Bread. The following recipe for pulled bread is given by a high authority: Have ready a loaf of dough such as would be used for ordinary bread and di vide the loaf into eight equal parts Roll these pieces into strands the length of the bread pan. Braid these strands as if they were strips of tape Press out this braided mass until it is about the size of the pan. Let it rise in the pan and then bake it like an ordinary loaf. After it comes from the oven let it stand undisturbed for about ten or fifteen minutes, then tear it apart into long, thin pieces. Spread these over the bottom of a large drip ping pan or upon a tin sheet. Bake again, this time in a very hot over until crisp and brown. It will take bot. This bread, so popular with a soup or cheese course, may also be served at simple luncheons with coffee or chocolate. To be just right at meal time the work of preparing it must be carefully timed. The bread should be ready to slip into the oven about one and three-quarter hours before time for serving. The bread, however may be prepared, so far as its first baking is concerned, at any time and then reheated when desired, but it is not quite so nice as when newly pre-

How to Wash Gloves. Girls who wear the convenient wash able gloves-either wash kid ones or. on warm days, silk gloves-will find that the easiest and most effective way to get them clean is to wash them on the hands. They should be carefully drawn on so that they are smooth over the fingers; then the hands are washed with a good white soap just as if they were bare. Make a thick lather and rub them thoroughly together. If the ends of the fingers are especially soiled use a soft nailbrush for them. After rinsing off the soap it is a good plan to give them a second gentle rubbing with soap and another rinsing to finish the process.

If the owner has time to let the gloves dry on her hands that is the best way. But they can be taken off wet by turning them inside out and re-turning when off the hands. But do not pull them off by the fingers-it will stretch them badly.

How to Choose Bananas.

Not every one knows how to choose bunches of bananas. Look at the thick end of the bunch on which they hang. If it be black the fruit will ripen too fast and rot, but if the branch be green of good flavor. If all the stem be green the bananas will keep a long time, but if half or three-fourths of the stem is black it shows that its time generally the sweeter. The rind should be thin and there should be no ridges The larger the ridges the coarser the

How to Clean Bamboo.

Now that bamboo furniture is used so universally a suggestion about cleaning it may not go unnoticed. This should be done with soap and warm water to which salt has been added. And the mixture must be put on with a brush and then wiped off with clean cloths until the article is dry and glistens. Ordinary laundry soap will remove the natural gloss of the wood and leave it dull if salt is not added.

How to Keep Olives.

Many housekeepers know that after opening bottled olives or buying them in bulk they are apt to mold or spoil To prevent this pour a little olive oil on top of the liquor in which they are kept and they will keep indefinitely.

How to Whiten Clothes. A simple but easy method of whitening clothes is when boiling them to drop in a few peach leaves tied up in

@@@@@@@@@@@@ A ROAD WASTE.

The appropriations made by the different states for improved roads have been wasted to a very large extent. New York has built about 650 miles of improved highways, Pennsylvania perhaps one-third as much. And neither state nor any other so far as we know has made proper provision for their maintenance. Here is where the waste comes in. More millions will be wasted unless some plan of keeping state roads in repair is put into operation soon. No sense in building costly roads and then letting them go to pieces for the want of attention at the right

ASPHALT FOR ROADS.

Will Make Excellent Binding, Says

London Engineer. Cecil Nathan, an engineer of London who gives especial attention to roadmaking, expresses the belief that asphalt is destined to take the place of tar as a binder of macadam roads. He defines the "essential desiderata" of a satisfactory road as "smooth appearance and even surface following the camber of the road, which must be sanitary, dustless, noiseless and nonslippery." Mr. Nathan also stipulates that the ideal road must not only have these qualities, but be reasonable in initial cost and above all in main-

"Many of the present generation will remember the phrame 'Electricity is only in its infancy." says Mr. Nathan "Well, today the road board is in its infancy, and I have no doubt that it will grow into as fine and healthy a child as electricity did. Like other infants, the road board is just beginning to speak, and the first word that it has been taught is 'tar.' Now, I hope it will very soon grow up and learn words of two syllables, such as 'asphalt,' and then be able to expound to road engineers the real meaning of

this much misunderstood word. "This is the tar age, and as an indifferent palliative tar is serving its purpose today as a temporary expedient, but something much more permanent than the primitive methods of tar spraying or even tar macadam is required for the future, and I maintain that permanency will be obtained only from the adoption as waterproof road crust binders of either Lake Trinidad asphalt or Cuban asphalt, but prefer ably Cuban asphalt, owing to its having a higher melting point and its ability to withstand the rotting effects of

Oil Concrete Road,

The first stretch of oil concrete high way to be laid in Pennsylvania has just recently been completed on the Harrisburg-Linglestown road. It is about a quarter of a mile in length and is between Progress and Paxtonia. The oil concrete road is an experiment on the part of the state highway department, which in 1907 rebuilt the highway from the bananas will ripen slowly and be the eastern terminus of the city to

The section just laid replaces a quarter of a mile of road constructed of is shortening. The smaller bunches are made of concrete into which are mixed asphaltic oils. The top surface is not arched so much as the rest of the road, the crown being constructed on a basis of three-eighths of an inch to a foot. The crown is the same as that used in laying a brick pavement.

> Missouri's Oldest Road. Twelve miles of the old "king's

highway" near Sikeston, Mo., the oldest road in Missouri, is being rebuilt with rock macadam. Curtis Hill, the state highway engineer, has organized a special benefit assessment road district to carry on the work. Later the road will be extended to New Madrid.

********************** FREE ROAD DRAGS.

To encourage road work Roy Williams, highway engineer of Macon county, Mo., gives a road drag free to every farmer who makes application for one. If the farmer does not use his drag it is taken from him and given to some one more industrious. The roads of the county have been much improved by

the arrangement.

Summer Institute.

The department of agriculture an nounces a summer institute for Cayuga county to be held at Poplar Ridge, Wednesday, July 12, on the farm of Samuel Searing.

F. E Gott, conductor of farmers institutes in Cayuga county, and a successful orchardist, will have charge of the meeting and will be assisted by speakers of known ability. Mr Gott has an orchard of about 2,000 trees which are in profitable bearing His farm has been steadily improving under his management and at present is highly productive He has established a system of tile drainage on his farm and has laid several miles of tile drains with most satis factory results. He is especially well qualified to speak on the subjects which he takes up.

PROGRAM 10:30 A M to 12 M General Inspection of Farm, Stock and Buildings.

F. E Gott, Spencerport. 1:30 P M

General Outline of the Object of Mr. Gott. Meeting. How May we Increase the Pro ductiveness of our Land?

D. P. Witter, Berkshire. The Planting and Care of Fruit Trees. Mr. Gott.

General Discussion. A question box will be provided at the institute and everyone is invited to present questions on agricultural problems and take part in the discussions. Admission is free and ladies are requested to be present.

Hawley Family Reunion.

The annual reunion of the Hawley family was held Saturday, June 24. 1911, at the home of Mr. and Mrs Alden Dee Ward of Fleming. The day was ideal and nature was at her best. The guests began to arrive early from Syracuse, Auburn, Moravia, Scipioville, Aurora and Levanna, and soon swelled the number to thirty-eight. After a short time spent in greetings and best wishes we were invited to the dining room where a bountiful dinner was served to which all did ample justice. A three o'clock we were called to order by the president, Daniel Hawley, and the business meeting was held. The following officers were elected for the ensuing year: President, Andrew S. Hawley; secretary and treasurer, Maud M. Hawley; Anna L Austin, scribe A telegram was received from a sister, Mrs. Marion Holt, of Philadelphia and read by the secretary. One birth was reported, a daughter, Ernestine Margaret, to Mr. and Mrs Edwin Hawley of Syracuse. A very pleasing literary program was ren dered by the younger members.

After all had voted it the jolliest reunion ever held we departed for our homes to meet again June 29,

Mrs. Philip H. Miller.

Harriet Amelia King, daughter of John and Harriet Budlong King, and wife of Philip H. Miller, who died at her home on North Homer-ave., Saturday morning, was born Nov. 28, 1833. Her education was received at Genoa academy and Mount Holyoke college She was preceptress of the Groton High school with Prof. Williams and taught for some time in Genoa academy.

On Dec. 16, 1857, she was married to Philip H. Miller in Genoa and they lived there till May, 1901, when they moved to Cortland and have since made their home here. Mrs. Miller had a great liking for literary work and wrote for several papers and magazines. She was a faithful wife and companion and much beloved by by all her neighbors and friends. -Cortland Standard.

How a Place Is Judged.

A village or town is judged by its newspaper, the advertising columns of which reflect the energy or apathy of its local business men Many wholesale houses nowadays have a habit of sending for a copy of the local paper before extending credit or undertaking to do business in that locality. Every business and profession in a town should be represented by an advertisement in the columns of the local papers.-Ex.

Try a Special Notice in THE TRI-

Che

It Occasions a Struggle Between Love and Duty

By CLARISSA MACKIE

Copyright by American Press Asso-

Sylvia Moore was visiting at her uncle's Texas ranch when she read the flaring headlines announcing that Timmaneuvers on the Mexican border. She stared at the newspaper until the members of the family made no secret of their alarm.

"What is the matter, Sylvia?" demanded Annie Lake curiously. "Has Timothy eloped with a pretty widow. or is he the victim of"-

"He might as well be dead and buried," cried Sylvia tragically as she tossed the paper across the table. "He's gone to war."

"War!" they repeated. "What war?" "Why, the war with Mexico, of to-what? course. Hasn't the president ordered a large force to the border?"

Mr. Lake picked up the newspaper and read aloud the surprising intelligence that the war department had ordered a large body of men, arms and supplies to El Paso to take part in army maneuvers. He read that troops were already on the way and that within a few days at the latest a tented city would spring up beside the southwestern border.

Last of all be announced that the regiment of which Timothy Robeson was a lieutenant was on its way to Texas.

"On the strength of this report you are positive that Tim's going to be killed?" asked her uncle, with a quizzical smile at Sylvia.

"Yes," said Sylvia positively. "I had the queerest feeling when I said goodby to him in New York. You know he's always joking, and when he said. 'Be sure to return in time to dance at your own wedding, Sylvia,' it came over me that I might never come back; that there might never be a wedding at all. But I never thought of Tim being the one"- Tears came into Sylvia's forgetmenot eyes, and her cousin extended a sympathizi

"Pooh!" uttered Mr. Lake contemptuously. "You make me extremely weary, Sylvia. As an American girl I thought you had more pride of country than to weep because your young man is called to arms."

"A man's first duty cannot always be to his country. Oh, I know that's treasonable or something horrible, but I would not have thought so much about it if we had not gone over to El Paso the other day and witnessed all the fighting across the river in

"We didn't see very much, just some puffs of smoke and lots of noise. It wasn't nearly as bloody as I antici-

pated," remarked Annie thoughtfully. "I saw enough. I wouldn't go there again for anything in the world," declared Sylvia, rising from her chair and dropping a good night kiss on her

aunt's unconscious brow. "Then you won't ride into El Paso with me on Thursday and see the troops arrive?" suggested Mr. Lake, returning to his newspaper with an indifferent air. "Want to go, Ann?" "Of course I do, dad. And you, Syl-

via?" she questioned her cousin. "I must go, too!" cried Sylvia eagerly. "Why. I might see Timothy

there." "You probably will, my dear, if he has arrived." And Mr. Lake buried himself in his newspaper, this time oblivious to everything save the good

night kisses, to which he submitted with genuine pleasure. The next morning Sylvia and Annie mounted their horses and rode to the farthest boundaries of the ranch. From here, on the highest ridge, they paused and looked under shading hands toward the southwest, where a

the city of El Paso. "Perhaps by tomorrow he will be

cloud hung over the place where was

there," said Sylvia aloud. Annie nodded her black curls. "It may be that he will arrive today," she suggested, with a gleam of amusement in her dark eyes.

Sylvia's blue eyes turned to the eastern horizon, where against the pale gray blue of the sky there blurred a dark plume of smoke. "Perhaps that is his train now, Ann." She pointed with her whip at the smoke.

"It may be, honey. I think you're the luckiest girl in the world, Sylvia Moore. Tim's such a fine fellow. I wonder"- Annie stopped abruptly and fell to musing, with her black eyes fixed on the rolling alfalfa that

rippled before her. "What do you wonder?" asked Sylvia curiously, withdrawing from her own reverle.

"I was wondering if you really meant what you said about asking Tim to stay away from a battle if there is to be one," said Annie, her eyes now gravely fixed on her cousin.

"A man owes some duty to the girl he loves, and there are plenty of men who can fight for the country-men who have no friends or relatives or blue flash of patriotism that Sylvia's have no ties to bind them. How selfish I am, Annie, and yet somehow I can only seem to think of two things today. One is Timothy Robeson, and the other is myself."

"Let's talk about something else,"

turned to the beauty of the March day and thence to the absorbing topic of

It was not until two days after this conversation that the little party set forth to go to El Paso. They started just at daybreak.

All the way to El l'aso Sylvia's ears were eagerly alert for the sound of warfare. She did not dare voice her fears, but they were very large fears and very agonizing ones too.

She had been proud indeed that her future husband should be an officer in a fine regiment. She thought the sight of Timothy in his uniform the dearest thing in the world, and the very thought of the military wedding that would mark her marriage to the handsome young man sent her into ecstasies of delight.

This was the other side of the war picture. Here was the beat of the othy Robeson's regiment had been or drum calling to arms. Real powder and dered to El Paso to take part in the shot had been issued to the men, and real shot would be fired. In fancy she saw her beloved killed at the head of his column, always leading, always waving his sword and shouting encouragement to his weary men.

They came upon the new city, the tented one, all of a sudden and looked with awe upon the results of a deep thinking war department, a capable executive staff and a well trained army. A day or two ago and there had been a cactus plain; today there were a field of snowy tents and a multitude of orderly men awaiting the summons

To Sylvia Moore war meant desperate fighting, the sudden death of Timothy Robeson and for herself a lifelong

separation from the man she loved. When they were in the city and saw the flying flags and heard the outpouring of martial music the heart of Sylvia beat quickly, and she felt more like crying than ever. If she could only see Timothy for one moment she was sure she could persuade him to

Presently through Mr. Lake's influence it was made possible for Sylvia to meet her lover, and in the first joyful moment the strangeness of the meeting was quite forgotten. At last Timothy pushed back his cap and said: "I'll bet you were surprised to bear

was on the way, eh, Sylvia?" "Yes," said Sylvia, suddenly very quiet. Then, after a pause, she said in low tone, "Timothy, I wonder if you care enough for me to do a big thing for me-a great thing-the greatest thing you ever did in your life."

"Of course," said Timothy prompt-"My life's yours, you know, dear-

"Then stay with me. Do not go into active battle." Sylvia's voice was were fixed eagerly on her lover's face. She saw the mask of reserve that dropped over his surprised face a reserve that seemed to place her and her love upon some distant pinnacle of space, leaving him here in the active present with the duty that lay before him. She saw all this and realized what was passing through his mind. and yet, with a selfishness which had not yet been overcome by a nobler impulse, she set berself to exact from him a proof of his love for her.

"Shall I desert?" he asked, with a cold smile.

"Oh, no! Tell them you are ill. Perhaps I might explain. You know we are to be married in the fall, Tim-

"I know, dear," he said steadily, that this is the bardest moment of your life. I'll think over what you said, and if at the end of another day you still feel the same way about it perhaps something can be done."

"Oh, Timmy, you are an angel-and was so afraid you'd get killed!" balf sobbed Sylvia.

Timothy Robeson smiled rather mysteriously and turned away. "Perhaps I'll see you later, dear, if Mr. Lake will come around after parade. Time's

up now." They spent the day in the city, and as the afternoon advanced they once more approached the parade ground, where they expected to meet Timothy Robeson again. Mr. Lake and Annie stopped to view some passing soldiery, and Sylvia had paused to find herself the onlooker at a curious little scene.

A handsome though rather dissipated looking young man in military khaki lounged against a tree talking to a very indignant young woman. "Ah, what's the use?" be was muttering sullenly, when his companion interrupted him with blazing eyes and

angry voice. "Matt Mears, you're a coward, that's what you are!" she cried. "I wouldn't give a snap of my finger for a man that didn't put his country before the girl he loved."

"Oh, pshaw. Laura," began the young man weakly, when the girl suddenly walked away from him with her pretty chin in the air.

Her words rang in Sylvia's ears as they went to meet Timothy. Before her was the city of tents, busy with the hum of preparation, the flutter of myriads of flags-her own red. white and blue emblems-and a choking feeling came into her throat. She knew now that never, never would she have Timothy belong to anything except this glorious company, organized to protect her, her relatives, her friends-everybody in the country. There were great industries, vast enterprises, to be protected. Oh, her Timothy was of the noblest profession in the country-the protectors!

When Timothy's grave eyes questioned hers he was startled by the eyes declared.

"Timothy," she whispered eagerly and with emphasis laid on each word -"Timothy Robeson, don't you dare dream of not going into battle. If you don't go-why, I'll never speak to

GRIFFIN'S BIG HORSE SALE.

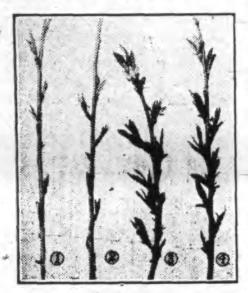

The large shipment of horses which I advertised to arrive last Monday are here, and they are as nice a lot of horses as have ever brought to Auburn. I purchased this lot cheap in that part of Oklahoma where the crops are short and can give you the same low price. If you want stock this is your opportunity. Don't miss it. Every horse as represented or no sale and money refunded.

GRIFFIN.

PEACH YELLOWS.

Not Much Known About Course and Treatment of This Orchard Trouble. Little is known about the course of the peach tree affection known as the yellows. Unlike other diseases common to fruit trees, it does not seem to be an organism, or, rather, not one that can be discovered with the modern high power microscope. Not being able to locate the origin of the trouble, no effective treatment has as yet been discovered.

It is claimed by those who have done some experimenting with the disease mat a fair percentage of the trees will

PEACH TREE TWIGS.

ITwigs Nos. 1 and 2 were cut from a normal tree. Twigs Nos. 3 and 4 were cut from a tree which showed early symptoms of yellows the previous fall. Note that the development of the leaf and fruit buds on twigs Nos. 3 and 4 is much in advance of that upon twigs Nos. 1 and 2-From Bulletin New Jersey Agricultural Experiment Station.]

grow out of it if properly treated. The tree must be pruned back quite heavily. The roots should then be mulched with preferably a strawy stable manure. In the early spring the soil should be given a dressing with a complete fertilizer in which nitrogen predominates and should be well cultivated throughout the season. The tree should be sprayed with the lime and with bordeaux mixture to cleanse it from other pests and diseases.

been extensive in the past few years. It claims whole orchards and at times saps the vitality of the orchards of a whole community. Again it will infect orchards of a community with a single or perhaps several exceptions. It is the orchard that is well situated, well pruned, well sprayed, well cultivated and well fertilized that escapes the ravages of this yellow plague. If they are well cared for trees are strong and healthy, and they do not easily fall the prey of the disease.

Once the tree becomes affected the only sure and safe way is to pull the tree and burn it on the spot, being careful that no infected branch comes in contact with a healthy tree. This may seem like a beavy loss, but it will prove the most satisfactory way, as it may be the means of saving the rest of the orchard.-American Culti-

********************** STRAIGHT TALK.

Progressive farming requires more planning than the ordinary farmer imagines. It does not pay to work without plans nor strive without a purpose. Select a definite object, like the surveyor, and then go to it. The straight line is always the shortest distance between two points. **5**&&&&&&&&

Fix Up the Grindstone. "When a grindstone gets out of true, says the Prairie Farmer, "a balf inch rod of soft iron held to the stone like a turning chisel while the stone is turned will true it up nicely. If this is not at hand, a spade with the handle against the ground and the edge like a turning tool will soon put the stone in good shape. If the stone becomes glazed over, nitric or sulphuric acid will cut the glazing down to the grit."

Advice About Onions.

Onions require a deep, mellow soil for best results. They should there fore be frequently cultivated and opportunity given for the bulblets to enlarge and mature onlons of good quality. They must mature before the summer sun retards them; hence it is advisable to permit rapid growth.

@@@@@@@@@@@@@@@@@@@@@@@@@@@@@@ The waste on many a big farm would buy a little farm and often causes the sale of the big one.

Avoiding Spread of Cockleburs. One of the best ways to combat weed pests is to prevent their spread. If the horses get a number of burs in their tails or fetlocks pick them out at once. If the roots of the pea vine collect on the shovels of the cultivator pull them, off before they are carried to other parts of the field.

On The Early Planting For Small Fruits. Planting the current may safely be done from Sept, 1 and the gooseberry from Oct. 1716 the running and the shade the better. Twenty-seven per ground, or in ithe spring in some as cent less sifalfa and 28 per cent less the frost is out, until May 1 in most grain were required where barley replaced either in a ration.

LOOK OUT FOR DODDER!

Seed Imported From Chile Badly Mixed With Harmful Weed Product. The United States department of agriculture announces that since July 1. 1910, twenty-three lots of clover seed of probable Chilean origin aggregating 370,000 pounds have been imported into the United States. In all of these shipments two kinds of dodder seed characteristic of Chilean red clover seed are present. At a normal rate of seeding these shipments are sufficient to seed approximately 46,000 acres, and at this rate of seeding an average of approximately 450 dodder seeds would be sown on each square rod.

The sowing of this Chilean seed means that the clover crop on a considerable proportion of the area on which it is seeded will be destroyed by dodder, and farmers should be on their guard against purchasing this seed. Unfortunately most of these importations have gone into the southern part of the clover producing region where this dodder will undoubtedly prove disastrous. This Chilean clover seed is itself especially fine looking seed, being dark colored and approximately 50 per cent larger in size than ordinary red clover seed produced in the United States. It will therefore doubtless receive a ready sale on account of its fine appearance.

TO HANG A DOUBLE GATE.

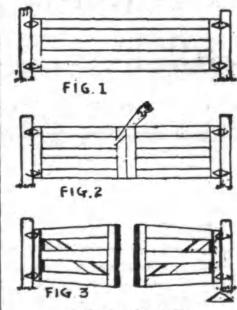

Directions For Making So It Will Swing True and Latch Properly. There are many farmers who prefer to use a double gate, and yet there are comparatively few who are successful in hanging these double gates so that they swing true or latch pro-

perly, says the Kansas Farmer. The drawing herewith indicates a method by which this may be accomplished with very little trouble and absolutely accurate results.

Build the gate all in one structure and nail the crosspieces in place in the middle. Prop the gate into position between the two posts and attach the hinges to both ends. Be sure that the hinges are large enough and strong enough to support the gate when in use. It is better to have them too large than too small. After the gate has been attached to the hinges at both ends saw it in two, as shown in the drawing, and the work is done. It may be desirable to place the

middle crosspleces which will be the

ends of the half gates a little distance

DOUBLE FARM GATE. [From Kansas Farmer.]

apart and saw out the boards between in order that they may not bind in case of wet weather. This will simply require two sawings instead of one. If diagonals are necessary they may be attached either before or after the gate is sawed, but they should always be put on in the manner shown in the lower drawing. Have the upper end of the diagonal attached near the upper hinge, as this is the only way it can be put on to absolutely prevent sagging. If the diagonal is reversed and the upper end placed at the other end of the gate it encourages sagging by its faulty construction as well as Binders, Mowers, Rakes, by its added weight.

A neat farm gate of whatever type adds materially to the appearance and value of the farm home.

********************** To be obliged to make a poor farm pay is good training, for when you get a better one you know the trick 600000000000000000000000000

Live Stock Notes.

Wheat, bran and oats make strong bones in the colt.

A poorly nourished, stunted twoyear-old filly should not be bred. Don't leave a horse beated by driving to stand exposed in a cold wind. Too many farmers sacrifice quality

for mere size in the selection of a ram. It never pays to keep old wornout animals except as a matter of sentiment. It is well to cull very closely in cattle, swine and poultry.

There is nothing like milk for making hogs out of pigs. It is their natural feed, and when used with a grain ration will develop pork more rapidly than any other feed. It pays to keep cows just for the pigs.

Do not feed pigs too much corn while they are young. Corn is a fat producing food and does not accelerate growth. Feed shoats tankage, shorts and bran in sufficient quantity to cause rapid growth.

The Wyoming experiment station, after repeated trials, concludes that corn and the bearded or Scotch barley when fed with alfalfa were about equal in value for mutton production Barley in this test proved to be a

A Peek Into His Pockets

would show the box of Bucklen's Arnica Salve that E. S. Loper, a carpenter of Marilla, N. Y., always carries. "I have never had a cut, wound, bruise, or sore it would not soon heal," he writes Greatest healer of burns, boils, scalds, chapped hands and lips, fever-sores, skin eruptions, eczema, corns and piles. 25c at J. S. Banker's Genoa, F. T. Atwater's King Ferry.

Untainted.

Tempted by an offer of considerably more than the property had cost him. Mr. Kreezus, who counted his wealth in millions, had parted with his suburban villa.

"You didn't need the money." said his disgusted business partner, who had just heard of the transaction, "yet for a little filthy lucre you sold that beautiful home."

"I didn't!" exclaimed the equally indignant Mr. Kreezus. "I sold it for clean cash!"-Youth's Companion.

Bell Tones.

The peculiar magic in the tones of a bell is due to its striking not a single note, but a chord, and to obtain the perfect octave entails an immense amount of calculation as well as skill. The bell caster, therefore, has to be not a mere mechanic, but a highly trained specialist.

Regular Turn. "What? You're engaged to Mr. Brown? Then you won't marry Mr

Jones, after all!" "No, not after all, but perhaps after Mr. Brown."-Milwaukee News.

RELIGIOUS THOUGHT.

Gems Gleaned From the Teachings of All Denominations.

More life today is what people need. the sense of such immortality as shall keep us true to the very best there is as fleshed by Christ himself.-Rev. J. H. Hobbs, Episcopalian, Utica, N. Y.

Critics Are Cheap. The cheapest kind of a man to meet is a critic. He can spend considerable time at that when he has neither the ability nor the manhood to do any thing else .- Rev. Heury Ostrom, Pres

byterian, Chicago. No One Reaches Perfection. The idea we ought to keep repeating to ourselves is this: No one in this world has ever reached perfection. 1 see no sign that anybody is likely to reach it. Therefore I am not going to act toward my brother as though I expected him to be what no one else has ever become.-Rev. F. E. Hopkins, Congregationalist, Gary, Ind.

Pews Should Back Pulpit. The reason our churches have not the strong preachers that they once had is because our pews are not filled with the men and women backing up their pastors as they once did. Mark this: The pew has more to do with the pulpit than the pulpit has to do with the pew - Frank De Witt Talmage, Presbyterian, Philadelphia.

Strive to Lessen Shadow. To daily strive to lessen the shadow cast by our ignorance, folly and sin, to seek ever to let the sunshine in, is the sweet privilege and the noble duty of all human beings. The glad truth is also that through the shining life of man God appears to his children and the light of the world beams radiantly. -Rev. Lesile W. Sprague, Congregationalist, Brooklyn.

The Bible In the Schools. We cannot afford to banish the Bible from our public schools any more than we can afford to banish religion from our nation. At present in some of our Chicago schools teachers are reduced to the necessity of teaching morals from the stories of Greek and Roman mythology. Think of it, with the Sermon on the Mount and the life of Jesus Christ within reach Rev. Joseph A. Vance, Presbyterian, Chicago.

Future of America. The soil that will grow a great crop of weeds will also grow a great crop of grain. In the farrenching plan of Providence as demonstrated in centuries of history America is destined to become a crown of glory and a royal diadem in the hands of our God. He will keep us through all storms and dangers to fulfill the sublime mis sion for which we were brought into being as a nation .- Rev. J. M. Barkley,

Temptations of Men. Some of the noblest and brightest men have been hurled from lofty heights to deepest depths of shame and eternal overthrow. Of one thing I am sure-no man in his own strength is able to fight successfully the enemy of his soul. He needs God's help. God knows he needs it and has provided it and urges us to use it, knowing full well that without it we are playthings in the devil's hands.-Rev. Charles B. Mitchell, Methodist, Duluth,

Bible Is Word of Hope. The Bible is a word of hope and promise, not merely in certain passages, though these abound, but as a whole. Its manifest plan is a progressive announcement of God's taking man's part in the struggle against sin, of his warnings and invitations and instructions as their friend, of his infinite interest in their well being and in the riddance of his creation from sin and sorrow and of the impossibility of his failure .- Rev. E. S. Hod gin, Unitarian, Los Angeles, Cal.

Causes of Poverty Poverty is an economic condition. the product of a selfish industrial policy. It is true that there are some poor who are so by choice, but there are not 10,000,000 who choose to go to work half fed, half clothed and live half housed. When 10 per cent of the people of the United States hold 99 per cent of our wealth, how will the remaining 90 per cent of the people fare when you divide the remaining I per cent of wealth among them?-Rev. Ben Wyland, Congregational, Brooklyn.

do our best. It is a goad and spur that discovers our best paces. We often say we learn by experience, but if we stop to think of it the experiences to which we refer are mostly painful. It takes fire to temper steel, and the sword blade never yet took and held its temper without it. We none of us want

Pain Has Its Value.

Pain is power. Pain stimulates us to

to live over again the difficult crises of our lives, yet not one of us would be willing to part with the experiences those crises gave us. Great pain warns us. A wounded dog holds up its foot and so keeps out the dirt. Pain told it to do that.-Rev. Harold Patterson.

Settling the Sin Question. Settling the sin question does not

settle the life question. If you do not

find the somber and the distracting here it is merely an evidence of your shallowness. Only of animals is it true, as Walt Whitman says, "They do not sweat or whine about their condition; they do not lie awake in the dark and weep for their sins; they do not make me sick discussing their roofing, cement, plaster board, duty: not one of them is respectable or unhappy." Your life is ever poised over an abyss. A knowledge of what the future holds in store for you might make you even more miserable than you are, but the uncertainty most surely makes for unrest, for doubt and fear.-Rev. John W. Welsh, Congregationalist, Chicago.

********** Sentence Sermons.

Slander soon dies if you take it out of circulation.

The very best way to lift men is to meet them on the level. Heavy words in meeting will

not make up for short weight in market Heresy hunting is simply an obsession of omniscience.

We find the worst in all by trying to get the best of any one. The worst foe you have is the

man who would kill all your en-

emies. It is no use holding up the divine throne if you're treading on the children's toes to do it.

¥00000000000000000000000000 RELIGION AND FACTS.

Science Does Not Stop With What Can Be Demonstrated.

"Nothing else has to do with so many facts and so great facts as religion," says the Advance of Chicago, and to call only those things fact which physical science considers and to ignore the facts which fall within the sphere of religious fairh and action is to be blind to the most important thing of life.

"What more absurd than to see in the wall which houses a hospital a fact and not to see a fact in the spirit which prompted and pervades the institution, or to see a fact in the chemical change produced by an experiment in a laboratory and not to see a fact in the change wrought in a community or an individual life by a re vival or other spiritual influences?

"But it is said that Christian faith reaches beyond facts into the unknown. This is not disputed. There is no need to dispute it. Science does the same thing. It never yet discovered a fact great or small which did not carry it over into the unknown. Indeed, notwithstanding all the claims to the contrary, science does not confine itself to facts. 'Any one who is practically acquainted with scientific work, says Mr. Huxley, 's aware that those who refuse to go beyond fact rarely ever get as far as fact'

"Indeed, science brings its followers at last to the borders of the unknown, where hope and fear quiver at the thought of the mystery beyond. But here faith takes the believer up in its arms and bids him look to the everlasting l'ather, who holds all things in his hauds."

STATISTICS FROM BIBLE.

Collected by Reader Who Gave Scriptures Much Study.

The Bible contains 3,566,480 letters 810,697 words, 31,175 verses, 1,189 chapters and 66 books. The longest chapter is the One Hundred and Nine teenth Psalm, the shortest and middle chapter the One Hundred and Seventeenth Psalm. The middle verse is the eighth of the One Hundred and Eighteenth Psalm. The longest name is in the eighth chapter of Isaiah. The word "and" occurs 46,627 times.

the word "Lord" 1,855 times. The thirty-seventh chapter of Isaiah and the nineteenth chapter of the second book of Kings are alike. The longest verse is the ninth of the eighth chapter of Esther: the shortest verse is the thirty-fifth of the eleventh chapter of John. In the first verse of the seventh chapter of Ezra is the alphabet. The finest piece of reading is the twenty-sixth chapter of Acts. The

name of God is not mentioned in the book of Esther. It contains knowledge wisdom, holiness and love.

The American Preacher In Paris. The American chapel in l'aris has been for years an evangelical landmark, having been made so by such able and devoted pastors as Drs. Kirk. Seeley, Prentiss, McClintock, Sunder land and Robinson, the hymn compiler also Drs. Beard and Thurber.

As you enter you feel that you are welcome, and soon you are as much at home as though you were in a New England church, so closely do service and sermon resemble those of the home churches. The Rev. Chauncey W. Goodrich of Ohio is the present pastor. For six years he has carried on the work skillfully and acceptably. His twenty minute sermons, like those of Dr. Babcock, are full of concentrated thought. He lays claim to all American Paris as his parish and glo week World also abounds in other ries in its size, for on a summer Sunday from 40,000 to 50,000 are in Paris markets, cartoons; in fact, everything "from the States," and the larger au ditorium is usually well filled. Dr Goodrich marries, baptizes and officiates at the funerals of many who dwell in hotels and pensions.-Chris tian Herald.

Missionaries In China. At this moment the religious impact

of the west upon China is delivered to the two papers is \$2.00. 1,400 Roman Catholic unissionaries and 4,000 Protestant missionaries, of whom, however, fully 1,000 are wives and therefore not always free to do full ful death," writes H. B. Martin, Port work. The Roman Catholic work is three centuries old, and more than a million baptized Chinese are in its fold The Protestant work is the growth of a century, and about half a million are within its churches, although its communicants do not exceed 200,000 .- Century Magazine.

He Didn't Get Over. Arthur Balfour, the British ex-pre-

mier, once was in a great hurry to get to England from his post in Ireland, and, there being no regular steamer for some days, he proposed to cross over in a cattle boat. But in the man from whom he sought information he found a home ruler of most ardent

"Can I cross in tonight's boat?" asked Mr. Balfour.

"No. ye can't, thin," said the Irish-

"And why not?" "Because 'tis a cattle boat." "Never mind that. I'm not particu-

The home ruler gave a little laugh. "No. Mr. Balfour," he retorted; "I dare say ye're not, but the cattle are."

Don't Feel Blue. Oh, I like to hear a feller who will whistle at his work;

I like to hear a worker who will hum little tune. Ef a feller's got some music, why, he

ain't so apt to shirk. He kin change a bleak December into mild and merry June. There's enough uv gloom an' sorrer uv the

kind that hez to be. Lots uv it's imaginary; you kin whistle it away. When you see ol' trouble skulkin' in the lots behind a tree

Let him see you're merry hearted; put your record on an' play. What's the use o' feelin' blue?

Natur's happylike an' true. Help the world to be more cheerful an twill do the same fur you. Blue is all right in the sky,

All right in a maiden's eye, But don't git it in your system. It will kill you by an' by.

A Premature Question. When President Eliot of Harvard was in active service as head of the university he was noted among the students for his abrupt and brusque manner. Reports had come to him that one of his young charges was in the habit of absorbing more liquor than was good for him, and President Eliot determined to do his duty and look into the matter.

Meeting the young man under suspicion in the yard shortly after break-fast one day, the president marched up to bim and demanded, "Young man, do you drink?"

Boston Transcript.

Badly Twisted. An Irishman and his wife were asleep in bed when the wife thought she heard a noise downstairs, which she imagined was made by burglars, and, awakening her husband, she said, "Wake up, Pat; there are burglars downstairs." So Pat arose and hastily dressed himself, but in his haste he put his trousers on backward. Quickly grabbing a lamp, he started down the stairs; but, owing to the trousers being tight, he stumbled on the first step and fell down the whole flight. His wife heard the racket and went to the top of the stairs. "Are you hurt?" she asked. Pat arose and, feeling himself to ascertain if he was hurt, found the way he wore his trousers. "No, darlin', I'm not hurt in the least. But I'm all turned around entirely. I gave me body the divil's own twist"

Quite Informal.

Arthur Brisbane, editorial writer for Mr. Hearst, has been a great friend of John L. Sullivan, the former heavyweight champion, for many years. When Brisbane was a newspaper writer in London, John L. was given an audience by the late King Edward. then Prince of Wales.

"By George," exclaimed Sullivan to some of his friends, "Brisbane is the leading young journalist of America. and if I meet the Prince of Wales

Brisbane does too." When the little party arrived at the palace for the audience the court attendants nearly bad heart failure as John L. introduced Brisbane in these

"This is my pal, He's Arthur Brisbane, the leading young journalist of America."

They pointed out that a newspaper man, especially an American of that profession, could not be present at the

"No Brisbane no me!" said Sullivan

Finally they were admitted, and then was Brisbane's turn to get heart failure. Sullivan strode up to the Prince of Wales, grasped him by the hand and said in his deep voice:

"Hello, prince! Let me present Ar thur Brisbane, the leading young jour natist of America."-Popular Maga-

Two Sootch Stories.

A Scotch schoolmaster in Banfishire years ago had strong views on the subject of dress. In the day when crisoline was the rage a girl came to school with a very extensive one, which much exceeded the space between the desk and the form on which she had to sit. The teacher, seeing this, said to her. "Gang awa' home and tak' off thae girds (hoops) and come back to the school as God made ye."

Another rough and ready dominic was examining his boys in a catechism and asked if God had a beginning. "No," said the boy. "Will be have an end?" "Yes," be replied. This was followed instantly by a buffet on the side of the head. "Will be have an master was skileded.

SIGHTED AN ELK.

One Party Lost the Game, While the Other Side Won the Match.

Sometimes the autumn is very hot in the Rockies-hot, still, glittering weather, with the thermometer at 90 or more.

Three hunters on such a blazing autumn day sat on the botel porch of a small mountain town. Their shirts were open at the throat, and they were fanning themselves with their big felt hats. But suddenly one of them exclaimed:

"Look, boys, look!" They looked where the man pointed, and a wonderful sight met their eyes. On a peak at the summit of the high trail, 3,000 feet above their heads, stood a superb elk. There he stood like a statue, his antlers beautifully outlined against the bright blue sky. "Bucks are scarce enough, but an elk!" gasped the three bunters, and in

Pulling Teeth In Scotland.

An old Scotchwoman journeyed to London to visit her son. She was taken with a jumping toothache and upon the advice of her son visited a dentist, who soon had the offending molar flying in the air. With a sigh of relief the old lady climbed out of the chair and asked: "How mooch?"

"Ten shillings, mam," replied the dentist.

"Tin shillings, is it, ye robber?" screamed the woman. "Why, I'll ha' ly traversed on inferior and sometimes ye know, Sandy MacPherson 'ud haul nearly impassable roads; hardness and me all about the smithy for saxpence."

Youthful Pangs of Hunger. There's a youngster in Boston whose appetite is a constant source of amazement to his family and relatives.

On one occasion this lad was taken to spend the day with an uncle in the Minnesota. It has been shown that suburbs. At dinner he ate so much 95 per cent of all products carried by that finally it became actually neces- rail or steamship must first be transsary to forbid him to eat any more. His Good Resolution. In a little Irish village there lives : certain worthy who never could pass quiring after the expenditure of large

a public house without "calling in just to ax the time."

One night, however, he made up his mind to pass by for once. It was a very hard job for him, and at intervals be stood still and said, "Stand firm, resolution, stand firm!"

After a hard struggle be gained little bridge just beyond the inn, and, halting there, was heard to say: "Begorra, resolution, but yer did stand firm that time. To desarve a reward, so ye do, and, begorra, I'd just go back and trate ye."

Kith and Kin. "The small boy," said Robert Ede son, "Is an invention of Satan. At

least that is what my friend Jackson thinks. Poor Jack is the devoted slave of a fair damsel cursed with a strict father and an imp of a brother. The other night dad came into the parior about 9:30 with a 'good night' expression on his face and tactfully asked what they had been talking about to keep them so interested so

" 'Oh,' said Jack carelessly, 'we were discussing our kith and kin." "Just then the imp's bead popped

from behind the plane. "'Teth, dad,' he fisped exasperat--Young's Magazine.

TO HONOR ALBERT A. POPE, "FATHER OF GOOD ROADS"

Memorial Committee Proposes Dedicating a Drinking Fountain.

Since the death of Colonel Albert A. Pope in August, 1909, a movement has been quietly going on which has for its purpose the erection of a memorial in his honor. The movement was started by the Bicycling World, a New York publication, and afterward taken up by the board of trade of Hartford,

The purpose is to pay a deserved tribute to the memory of the man who was not only a pioneer in the agitation for good roads, but who is considered by many to have been practically the leader in the formation and development of such agitation into the tangible results which have been achieved

Finally as their red, dripping and in road improvement throughout the breathless leader peered on hands and country. Some have called him "the

The memorial selected by the committe in charge is a drinking fountain for man and beast and by permission of the Hartford park commissioners is "Why-why," stammered the The other, with a laugh, pointed to be placed in Pope park, which of art and will cost about \$7,500. Of this amount something over \$4,400 profit by or enjoy the improved roads of the country, will be glad to contrib-

ADVICE TO ROAD BUILDERS.

Engineering Skill, Competent Super vision and Money Are Needed.

The true value of a system of highways to the state depends upon many conditions, among which may be cited continuity, thus providing for the requirements of transportation over distances greater than can be economicalsmoothness of surface with easy grades, permitting a reduction in the cost of haul, and an administration that will furnish an economical and judicious expenditure of the funds used in construction and maintenance, says G. W. Cooley, state engineer of ported over the primary roads of the our attention is at present directed.

"What have you there?" demanded One of the greatest mistakes generally materith the opening up of a road system in a new country is that induced by the belief that no engineering skill is necessary and that any man versed in the handling of tools or road machinery is thoroughly competent to build a road. Such a mistake frequently finds its legitimate fruitage in expensive changes of location, regrading or insufficient drainage and reamounts of money for construction that much more must be provided to remedy the errors originally made.

The subject of road building on a plan commensurate with the necessities and financial ability of the people then resolves itself into but three parts -first, sufficient engineering skill to properly locate and drain our highways; second, competent supervision in construction, and, third, money to pay the bills,

******** GOOD ROADS ATTRACT POP-ULATION.

Counties which are neglecting the improvement of their highways need not be surprised when the census figures show that they are losing population, while more progressive counties are gaining. Good roads attract population, while bad roads drive it away.

Grange News.

[This space will hereafter be devoted to the news and interests of Venice Center Grange, No. 1189. W. H. Crandall, Grange correspondent, Moravia, R. D. 19. Items of interest that can be furnished by the members should be addressed to the above correspondent who will see to their being carefully prepared and published.]

The last meeting of Venice Center Grange, No. 4189, was held Saturday evening, June 24, in the new hall which has been leased by the Grange for its regular meeting place. Now that we have the most commodious, convenient and beautiful place for assemblage in Cayuga county, we feel assured of a large and ever increasing attendance at each succeeding meeting. That the small numbers in attendance for the past few months was due to not having a and Frank H. Johnson of Interlaken. suitable meeting place was made manifest by the large gathering, nearly every member of our Grange and many visitors being present.

A very interesting meeting was held, the third and fourth degrees being conferred upon a class of five new members, the secret work being exemplified by District Deputy Carl Botsford in a very pleasing and finished manner, after which a most elaborate and bounteous banquet was served by the ladies of the Grange in the rooms below. That the supper and entertaining committees consisting of Mrs. Richard Clark, Mrs. Arthur Bennett, Mrs. Mabel Cranson and Miss Jennie Hutchison were anmirably selected by Worthy Overseer Brother Frank Mosher was proven by the host of good things with which the tables were supplied, and the delightful manner in which each one was served, all uniting in expressions of joy and gladness for the good time spent.

Our next meeting will be held on Friday evening, July 14, when we will have for our guests of honor our Worthy State Master, Brother Frank N. Godfrey of Olean, N. Y., and Brother Carl Botsford, Worthy District Deputy. We are fortunate indeed to have with us at this time these celebrities who by their presence always make a Grange meeting one of great pleasure and profit, and that the vital questions to all Patrons of better our chances for improved condi-Husbandry will be fully and comprenensively discussed we are assured.

The ladies of the Grange will again make up the remainder of the evening to be enjoyed by serving dainty refreshments of ice cream and cakes. All members of neighboring Granges are cordially invited to come and assist us in greeting Worthy State Master God-

Next week we will give in these columns a complete program of our work and entertainment for the quarter. All members are hereby reduested to be is the education of the public on postal ready and willing to assist our Worthy Lecturer in making our Grange worthy of a place at the top of the list of Granges in this county.

Club Meeting and Banquet.

The King Ferry Historical and Literary club held its third annual meeting and banquet at the home of Mrs. C. E. Slocum on Wednesday evening, June 28, 1911.

The following officers were elected: President, Mrs. C. E Slocum; vicepresident, Mrs. Richard Wanstall; \$170,000 to the department of salaries secretary and treasurer, Miss Antoinette S. Bradley.

guests did ample justice. An interesting program was given consisting of music and selections from the late English poets. Mrs. Frank King rendered several piano solos, which were much enjoyed by all present, as was the violin and piano duet by Leslie and Jennie Ford. Rev. Robert a placard, "For Rent," could be hung Ivey sang delightfully, "Rocked in in front of the vast office rooms and the Cradle of the Deep" also "Saved storage houses now required. by Grace." J G Barger contributed much to the pleasure of the occasion his recitations "When Bill sent to the Legislature" and "Sandalphin, the Angel" as did also Mrs. F. T. Atwater in ber rendering of the solo, "The Bridge" by Longfellow.

The club expect to resume their fortnightly meetings in the early fall, but as yet the work for the year has not been decided.

It Is Up To The Town.

The trade territory of a town is not all dependent upon the distance to neighboring trading points, says an exchange. The trade territory depends upon the enterprise of the town. If a town does not reach after the trade, it will come only as it has business in surrounding country, ent and complete cures. trade will come from an ever increasir g radius, he town will gain a reputa ion for being awake and it will petite, make food taste good and digest forge to the front. Advertising does the trick. It is the men in town, and not altogether the men living within a certain number of miles from it, that makes the town.

want anything, have lost or found the day that I saw you alight from a m article, make it known through a Special Motion in Two Taxaywa,

District League Convention.

The Ithaca News of June 28 contained the following account, of the Postmasters' convention held in that city:

D. W. Smith of Genoa was re-elected president of the association of third and fourth-class postmasters of the district comprised of Cayuga, Seneca, Tioga and Tompkins, G. S. Aikin of King Ferry was elected secretary and treasurer.

Eight delegates were elected to the state convention of the National League of Postmasters which will be held this fall. The delegates from this county are S. E. Smith of North Lansing and L. J. Townley of Groton. Those of Tioga county, F. G. Miller of Apalachin and F D. Cowles of North Spencer; from Seneca county, John Mahoney of Willard while Cayuga county will be represented by President Smith and Secretary-Treasurer Aikin.

About twenty postmasters of the four counties were present at the meeting vesterday afternoon. Resolutions were passed recommending that district meetings to be known as "schools of instruction for postmasters,"be held each year, and that postmasters of the third and fourth class be required to attend these schools. Another resolution passed recommends that the postal department take under advisement a schedule for clerical help allowances for offices of the fourth class.

President E. E. Cummings of the state division addressed the meeting on league matters. Postoffice Inspectors Young talked on that branch of the service and explained a number of the new rules and regulations. Following his remarks he answered many questions regarding interpretation of the rules.

The remarks of President Smith were in part as follows:

The object of the league is to improve the condition of the third and fourthclass postmasters, and it is my opinion that we must work out our own salvation and that the league is doing just this particular thing by making better postmasters. I think the more efficient service we render the department the

"The requirements from the department's side fare always in the interest of good service, though it may not at all times appear so to the patrons. Therefore the public will occasionally make demands that are inconsistent with the best interests of the service, through unfamiliarity with the experiences of the department. Aside from the imperative clerical duties of a postmaster, I believe one of the most important functions within reach of the Model Postmaster

"The many important benefits to be derived from a well-arranged system of education, as outlined by the department some time ago, are so numerous that it is a subject within its own sphere, and can not with suitable brevity be given justice as a branch of a discussion under another caption.

"Permit me, however, to point out what results might be looked for in the dead letter bureau alone. Do you realize that there are to-day employed in the dead-letter office a small army of people, maintained at an annual expense of alone? Do you realize that more than 12.000,000 pieces of mail are sent there A bountiful supper was served to each year? And I say again, do you tically indestructible. Venise point, which the club, and their thirty realize that if all the postmasters in the unlike ordinary point, which is only of United States were ideal officials this army could make a charge on the deadletter office and practically annihilate

> "At least they could come so near doing it that the business left to be done there could, figuratively speaking, be conducted in some little ante room, and

"But, you say, how is this to be done? By the simple process of educating the public to put return cards on every piece of mail posted, regardless of class, The whole country would be amazed at

Challenge from J. S. Banker.

J. S. Banker is seeking the worst case of dyspepsia or constipation in Genoa or vicinity to test Dr. Howard's new specific for the cure of those diseases.

So confident is he that this remarkable medicine will effect a lasting cure in a short time, that he will offer to refund the money should it not be successful.

In order to secure the quickest possible introduction J. S. Banker will sell a regular fifty cent package of this medicine at half price, 25 cents.

This specific of Dr. Howard's will cure sick headache, dizzy feelings, constipation, dyspepsia and all forms of malaria to, and it will grow as it is forced to; and liver trouble. It does not simply but if the merchants go after the give relief for a time; it makes perman-

It will regulate the bowels, tone up the whole intestinal tract, give you an apwell, and increase vigor. Joy and happiness will take the place of that "don't care whether I live or die" feeling.

Geraldine-Why did you ask for an introduction to me, and why do you now, knowing so little of me, ask me If you have snything to sell, if you to be your wife? Gerald-I decided street car and noticed that you did not get off backward that you were s remarkable woman.-New York Press.

Woman's World

Mrs. Raymond Robins of the Women's Trade Union League.

The biennial of the National Women's Trade Union league, to be held in Boston June 12, draws attention to the fact that trade unionism is making great strides with the woman who toils. It is due to the interest and the agitation of such women as Mrs. Raymond Robins that women's unions are now on a substantial basis.

Mrs. Robins is a woman of wealth and culture and has no practical experience as a working woman. She was Miss Margaret Dreier of Brooklyn and was educated in private schools and by tutors. In 1905 she married Raymond Robins, the Chicago sociolo-

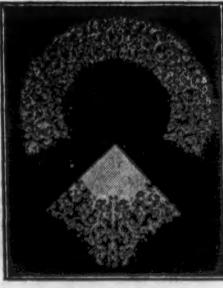

gist and advocate of organized labor. In 1906 Mrs. Robins was president of the New York Women's Trade Union league and has been president of the Chicago Women's Trade Union league since 1907. She has also been president of the National Women's Trade Union league since 1907. She is a member of the executive board of the Chicago Federation of Labor, president of the Chicago Political Equality union, member of the committee on industrial edu-Labor, member of the executive committee of the Illinois section of the American Association For Labor Legislation, chairman of the industrial committee of the Illinois Federation of

VENISE LACE.

A Revival of Many Quaint Yet Exquisite Medieval Patterns.

Patterns beautiful enough to have adorned the state robes of the doges are shown in the new point de venise laces, many designs of which have been actually adapted from exquisite laces now treasured in Italian museums. Venise lace is one of the most fashionable of the season's laces, and if a good quality is purchased it is prac-

VENISE POINT LACES.

thread, is made on a foundation of fine sheer linen, which is worked over with buttonhole stitch. When the pattern is completed the unworked linen is cut away. A heavy lace like the point de venise can be worn with heavy or sheer fabrics, combining as it does the light and heavy workmanship. Collars of the venise lace are especially popular. Point de France or French point resembles greatly the venise point on which it is believed to have been modeled. King Louis XIV .- who was a great admirer of beautiful laces, brought a number of the best Venetian lace makers to France and established a school, the workers in which laid the foundation for the present colonies of French lace workers.

A round collar and a handkerchief border of venise point lace are shown

Warming the Eggs. There was once an old lady in Scotand who kept a few heas. As she lived close to the house in which a church minister lived he asked her to send him two new laid eggs every morning and he would pay her for

So the old lady sent her girl to the two eggs, and the minister's servant always thought the eggs were newly laid because they felt quite warm, as if they had just been taken from the

the servant asked: "Are the eggs fresh today, Janey? They do not seem

The simple girl looked at the maid and then said, "Ou, aye, they're quite fresh, only my mother could not get Mrs. Robins was one of the founders the cat to sit on them this morning,

> Locating losbergs. The captain of an ocean steamer in

most cases finds out when his vessel is approaching an iceberg from the men down in the engine room. That sounds queer, but it is a fact nevertheless. It appears that when a steamship enters water considerably colder than that through which it has been going its propeller runs faster. Such water usually surrounds the vicinage of icebergs for many miles. When the propeller's action therefore is accelerated without the steam power being increased word is passed up to the officer on the bridge that icebergs may be expected, and a close lookout for them is established. There are natural reasons for the propeller acting in this way, and see captains will assert the same thing.

A Remarkable Shawl.

The empress of Russia was once presented with a shawl of a remarkable kind. It is contained in a box only a few inches square, in which it fits easlly, yet when it is shaken out it is ten yards square. This notable gift was the work of some women weavers in Orenberg, southern Russia, by whom it was presented. The box containing it is of wood, with hinges, hoops and fastenings of beaten silver.

Trapped.

"I saw the cutest thing today," began Miss Passay coyly. "It was a painting of the-er-what is the name of that little god that represents matrimony?"

"you've got me." "Oh. Mr. Timmid, this is so sudden!" -Catholic Standard and Times.

Ferce of Habit.

A burgiar went home one night, fumbled noiselessly at the keyhole and let himself in without making a sound. He was about to creep softly upstairs when his wife appeared on the upper landing. "Dan," said she, "wot makes ye come in so quiet?" "Blame it," bellowed the burglar, "I thought I was in another house!"

The Puzzling Point Teacher-And did you make out a list of the nine greatest men in the history of the world, as I told you?
