

The Genoa Tribune.

VOL. XXI. No. 30

GENOA, N. Y., FRIDAY MORNING, MAY 3, 1912.

EMMA A. WALDO

From Nearby Towns.

Ludlowville.

APRIL 29—Born, April 25, an 8 pound boy to Mr. and Mrs. Clarence O'Hara.

Mrs. Nicholas Maloney of Baldwinville, was a recent visitor of her son William at the Goodwin House.

John Pierce is working Mrs. Ninette Ives' place this year.

Mrs. Ephraim Davis, who has been in poor health for some time, was taken to the Auburn hospital last Monday for an operation.

Mrs. Walker and Mrs. Norma McArthur have moved into the rooms on the upper floor of the brick block.

The musical social, which was held in the Goodwin House last Wednesday evening, was well attended. The proceeds were about \$7, which will be used to buy new hymnals for the Methodist church.

Mrs. Thomas McGill recently purchased a new piano.

Chas. Justice has moved into part of Chas. Barr's house.

M. L. Ford has a force of men engaged in shingling the barn on the Benjamin place which he recently purchased. They are also tearing down the house.

The roads are very much improved since Commissioner Buck used the rut scraper on them.

Mrs. Clarence Howell is spending some time with F. N. Howell and wife.

Grinding at the Thayer mill will be only on Wednesdays and Saturdays.

The Ladies' Aid of the Presbyterian church met at the Manse last Thursday afternoon.

Dr. Evan Evans will be installed in the Presbyterian church this afternoon. There will be special music.

A number from this place attended Sage chapel last Sunday to hear Henry VanDyke preach.

Mrs. Maria Wildman, who was very ill for ten days, died at her home Saturday afternoon. The funeral will be held to-morrow.

Mrs. Harriet Mead is able to be around with the aid of crutches. She fell on the ice a few weeks ago, injuring herself quite severely.

A. J. Sperry was in Rochester, recently, on business.

Mrs. Adrian Wood has returned from Groton after spending some time caring for her father, who is ill.

Miss Luella Northup, of Forest Home is visiting George Northup and wife.

J. O. Beebe and wife have been visiting their son, Roscoe in Elmira.

S. W. Underwood leaves Saturday afternoon for New York City to attend Grand Lodge as a delegate from Lansing Lodge, No. 774, F. & A. M.

Dr. C. L. Swift was in Auburn last Saturday.

Sherwood.

APRIL 28—Rain, rain, go away; We'll need these more another day.

Mrs. Kirkland of Ledyard spent last week with her daughter, Mrs. Herbert Brewster.

Mrs. W. G. Ward and daughter spent one day last week at the home of M. A. Ward.

Mrs. Hetty Morrison and sister, Lydia King, spent last Friday at I. N. Brewster's at Merrifield.

Several from here attended the funeral of Henry Golden last Sunday at the M. E. church in Scipioville.

Mark Reynolds and Harold Yawger of Union Springs spent last Sunday with F. C. Smith and family.

F. V. Slocum and family attended Friends quarterly meeting in Union Springs last Saturday and Sunday.

Wm. Neville, Jr., lost a fine horse on Sunday last. The animal had lock-jaw.

Evans Morgan of Savannah was in town for Sunday.

Louis Houghton and wife spent Sunday at Geo. Smith's in Lansingville.

Chas. Koon leaves on Tuesday for Calgary, Canada, where he expects to spend the summer.

Mrs. Helen Buckhout of King Ferry was a Sunday guest at her son's.

A. B. Comstock is building a large brooder house, seventy-two feet in length.

Subscribe for THE TRIBUNE.

Venice Center.

APRIL 29—Miss Jennie Hutchison went to Auburn on Friday last to see her sister, Mrs. Eben Rowland of King Ferry, who recently underwent an operation at the city hospital.

Capt. M. W. Murdock, who has been so very ill for some time at the hospital in Auburn, is said to be slightly improved.

Mr. and Mrs. Myron Personius and Anson Bo-sard and wife of South Lansing spent Sunday with M. D. Lane and wife. They are the parents and grandparents of Mrs. Lane.

Leonard Main of Auburn is spending a few days with his sister, Mrs. C. Fox.

Mrs. William Crouch of Richmond, Va., is spending some time in town and in Auburn, having been called here on account of the serious illness of her father, M. W. Murdock. The son, Stanley of Cleveland, Ohio, has also been here the past week, having been called the second time.

The death of Calvin Fox occurred at his late home in this place on Monday night of last week, after an illness of only a few days, in the eighty first year of his age. He was an honest, upright man and was highly esteemed by all who knew him. He will be greatly missed, not only in his home but in the neighborhood, where he has resided for many years, also in church where he was nearly always seen at its services and where he had served faithfully as janitor for a long time, until failing health and sight would not permit him to do so any longer. He was always a kind and loving husband, and to the wife with whom he had lived more than fifty years, it was a crushing blow. The services were held at the church on Thursday at 11 o'clock and were conducted by Rev. E. E. Warner of Auburn. Mrs. Fox is very grateful to all who so kindly assisted her in many ways and for the expressions of sympathy and condolence which came to her on every hand.

The Hall Association committee are making arrangements for a corn-planters' dance to be held in the hall at this place on Friday night, May 24. It is expected that Ercanbrack's orchestra of Moravia will furnish the music.

M. D. Lane made a trip to Ithaca on Monday on business.

O. H. Tuttle spent a few days last at Port Byron.

Five Corners.

APRIL 30—Not very much plowing done as yet. Does not look now as if it would be much use to plant any corn.

Chas. Stevenson is assisting Nelson Parr with some farm work this week.

James Curtis and wife of Groton were last Sunday guests of his parents, Mr. and Mrs. George Curtis.

House-cleaning seems to be the order of the day.

Chas. Barger and wife spent Monday at the home Mr. and Mrs. Wm. Sill of North Lansing, it being the 80th birthday of Mrs. Sill's mother and also a sister of Mrs. Barger.

Mrs. Rachel Sanford and Ella Alger spent Monday in Ithaca. They are being treated by Dr. Lockerby of that place.

Mrs. D. E. Singer of Genoa has a splendid assortment of millinery goods every Tuesday at the home of Mrs. Chas. Barger.

The W. C. T. U. tea which was held at the home of Mrs. Wm. White last week Wednesday was quite largely attended.

A man who was in Auburn one day last week, bought a very nice umbrella; when he got off the train forgot all about the umbrella of course.

We learn there is going to be a little station put up at Sill's crossing. It will be appreciated by more than one.

Clarence Hollister had the misfortune to be kicked by one of his horses Tuesday. Dr. Skinner of Genoa was called. It was thought the leg was broken, but the physician said it was not.

Mr. and Mrs. Bert Corwin wish to express thanks to the friends who sent their little daughter Luella so many Easter cards.

Old newspapers for sale at this office. You will need them when you clean house. 5 cents a bundle.

North Lansing.

APRIL 30—Mrs. Ephraim Davis was taken to Auburn last week for an operation. She is reported as doing nicely.

Mrs. Allington is still very critically ill. Her cousin, Mrs. Mallory, of Rushville is caring for her.

Supervisor Fox Holden has been sick, but is able to be out at present and attend to business.

Mrs. Margaret Boyles is visiting her daughter, Mrs. Geo. Forbes, at West Groton.

The W. O. T. U. met with Mrs. Edna Beardsley on Saturday.

Many of the men went to Locke during the fire.

Mrs. Hattie Woodruff is suffering from rheumatism.

News comes from Detroit that Mrs. Chas. Bower is still confined to her bed.

Mrs. Noble Keeney is much better. Monday, April 29, Mrs. Helen Osmun celebrated her 80th birthday.

Her sisters and brother spent the day with her—Mr. and Mrs. Benton Brown, Charles Barger and wife, Andrew Brink and wife, Frank Beardsley and wife. It was a very enjoyable day.

Mr. and Mrs. Nathaniel Rundell have come back to their home, after spending the winter with Dr. Skinner in Genoa.

East Genoa.

APRIL 30—Mrs. Mary Branch is somewhat improved.

Lizzie Fallon Bace is able to be out.

Mrs. Fitch Strong has returned home.

Miss Ethel Bower who has been visiting her aunt, Mrs. Leroy Lobdell at Lansingville, has returned home.

Elmer Starner and wife of Ithaca visited their grandmother, Mrs. D. Sharpsteen Sunday.

Wm. Ewell and wife made a business trip to Moravia recently.

Mrs. Nellie Tupper and daughter Mildred, spent Sunday at Genoa.

April 29th Mrs. Helen Osmun celebrated her 80th birthday at the home of her daughter, Mrs. Frankie Sill. Those present were Benton Brown and wife, Chas. Barger and wife, Andrew Brink and wife, Frank Beardsley and wife—three sisters and one brother. Not many are able to have such a gathering. Hope she may live to enjoy many more birthdays.

A new walk is seen in front of Joel Coon's residence.

Frank Huff and wife and David Nettleton and family spent Sunday at Bert Smith's.

Merrifield.

APRIL 29—Mrs. M. M. Palmer is on the sick list.

Mr. and Mrs. Leslie Luther and William Kind of Syracuse were recent guests of Clinton Mosher and family.

Allen Hoxie and wife attended the funeral of their niece, Miss Edna Gulliver, in Fleming Friday.

One of Homer Gillespie's fine black horses has the lock jaw.

Mrs. Emanuel Kind attended the W. C. T. U. institute recently held in Genoa.

The remains of Mrs. Silence Burwell, who formerly resided here and whose death occurred in Auburn Tuesday, were interred in Scipio Rural cemetery Thursday afternoon.

Mrs. Wm. Grant is quite sick and Dr. F. C. Smith is attending her.

Lansingville.

APRIL 29—Miss Jessie Boles of Auburn Business School was home over Sunday.

Mrs. Hattie Smith of Genoa spent a few days at her home here.

Miss VanDeBogart was a week-end guest of Mrs. L. A. Boles.

The Grange served warm maple sugar Saturday night.

The Woman's Home Missionary Society will meet with Mrs. Chas. R. Bower Wednesday afternoon of this week.

Fred Bothwell of East Genoa has moved his saw mill to Wm. Breese's where he began this week sawing lumber for Mr. Breese and others.

If you have anything to sell, if you want anything, have lost or found an article, make it known through a Special Notice in THE TRIBUNE.

Ensenore Heights.

APRIL 29—Burwell Barnes and wife are occupying the house on the H. S. Barnes farm.

Miss May Wheat, who has been working in Rose Hill the past year, has returned home.

Charles Wyant of Auburn was a recent guest at C. H. Wyant's.

Mr. and Mrs. Wm. Pope drove to Niles last Wednesday to visit their daughter, Mrs. Ivan Coulson. Mr. Pope returned on Friday, Mrs. Pope will remain a week or more.

Miss Marian Manchester of Scipioville spent a few days recently with Miss Muriel Barnes.

Mrs. Lez Harter and son Donald of Auburn have returned to their home after spending a week at Harmon Sawyer's.

Wm. Coulson, Jr., and family rowed across the lake from Ensenore Sunday and spent the day with Ivan Coulson and wife.

Miss Bossie Hanlon spent the week-end with relatives in Auburn.

Dr. Frank Kenyon of Auburn was a recent guest of Joseph Wyant and family.

King Ferry.

MAY 1—M. B. Swayze and wife of Sherwood were callers in town last week.

Mrs. Sarah Ryder and Miss Effie Allen have returned from Cortland for the summer.

Mrs. John Dallahan has been spending a few days visiting in Cortland.

John Jefferson, James McDermott, E. C. McCormick, Allen Starrow and L. A. Goodyear took the train for Auburn on Friday.

Frank King of Syracuse was in town over Sunday.

G. W. Shaw of Ithaca was in town a few days last week.

J. A. Greenfield, who has been ill for several weeks, is out again.

H. G. Council of Auburn was here over Sunday.

Potatoes are selling readily at \$1.50 per bushel.

Mrs. G. S. Aikin and daughter, Mrs. Earl Buckhout, were in Auburn on Saturday.

Mrs. Geo. Post has been visiting her sister, Mrs. Mary Main at Locke.

Poplar Ridge.

APRIL 30—Frances Ladd has returned to her uncle's after a few weeks' visit with her mother at Ludlowville.

Miss Florence Peckham has engaged to teach the spring term near Owasco lake.

Mr. and Mrs. Samuel Searing have returned from their visit, bringing a more encouraging report of their daughter, Mrs. Loveland, at Nunda.

Mrs. Clara Beebe is suffering with throat trouble.

We regret the departure of Chas. Hazard and family May 1. Miss Iva Mosher will accompany them to Auburn.

Mrs. Elizabeth Collins is visiting at Poplar Ridge.

Grange Scholarship's.

The State Grange has appropriated \$600 to pay for 12 scholarships in the New York State College of Agriculture at Cornell University, to be awarded on competitive examination based on a general knowledge of arithmetic, geography, history and English composition. Examinations will be held on the third Saturday in June in each county. Persons desiring to compete should apply to the Master of Pomona Grange in his or her county. Applicants must be 17 years old or older and members in good standing of any subordinate Grange. The scholarships are \$50 each.

In Cayuga county, the examinations will be held on the 3rd Saturday in June, at 10 o'clock a. m. sharp. Supervisors' rooms, Auburn, N. Y. Applicants in this county should apply on or before June 5 to James A. Gould, Pomona Master, Merrifield, N. Y.

Assertive Ego.

"Billings always seems anxious to impress his own importance."

"Yes. He can't even remark that it is a pleasant day without suggesting that you ought to thank him for the fact."—Washington Star.

Supreme Court Jurors.

The following jurors from this part of the county have been drawn to serve at the May term of supreme court in Auburn, beginning Monday, May 6:

GRAND JURORS.

Auburn—Joseph Berry, Frank G. Bobbet, John Dunning, George Evans, Fred W. Gardner, George Gleason, Joseph McDowell, Jay P. Nye, Wm. J. Peacock, Frank Shaw, Arlie S. Van Patten, K. W. Vosburg, Walter Webb.

Genoa—Cornelius Leonard, Thomas C. McCormick.

Ledyard—Thomas Heffernan.

Locke—Louis Lester.

Moravia—Charles Miller, Horace Rosecrans.

Springport—Earl C. Waldron.

TRIAL JURORS.

Auburn—Charles E. Beacham, Harris Bradshaw, P. M. Cutter, Patrick Kiely, H. Mapes, Leonard C. Sant, John J. Seath, Walter J. Sevier, Fred L. Swartwood.

Fleming—George Skillet.

Genoa—Newton Sellen.

Ledyard—Henry Morgan.

Locke—Arthur Bangs, William Brigen, William Wilcox.

Moravia—George H. Reynolds.

Owasco—William Lee, William Foote.

Scipio—Austin Comstock.

Springport—John Keough.

Venice—Lowell Mason, Frank Saxton.

Don't Carry A Burden.

Following is an extract from a little article in the current issue of Farm and Fireside:

"An aged, weary-looking woman, with a heavy basket upon her arm, entered the train at one of the way stations. Carrying her burden with some difficulty down the aisle, she found an empty seat of which she took possession. Instead of placing her burden upon the floor or upon the seat beside her, she continued to hold it, shifting its weight now and then from one knee to the other. A working man across the aisle watched her for some time in silence, but at last when he could stand it no longer he reached over and touched the woman upon the arm. 'Madam,' he said, 'if you will set your basket down, the train will carry both it and you.'

"How much of human nature there is in this little incident! Some people never try to 'ease the burden' which circumstance has decreed shall be theirs. They insist on carrying it even when they might temporarily lay it down and ease their breaking backs."

Mothers' Day.

"The second Sunday in May has in recent years had the distinction of being 'Mothers' Day.' Services in honor of the mother, and in recognition of her faithfulness, gentleness, and devotion to the home, are held in many of the churches and in most of the Sunday schools. The white carnation has been selected as the flower to be worn on the corsage, belt, or coat lapel on Mothers' Day. No flower of the garden or field could be a happier choice than this is worn as Mothers' own flower. Pure as the drifted snow, spicy and fragrant, and possessing a lasting quality beyond that of lily or rose, the white carnation stands for all that Mother is to the family and the race."—Woman's Home Companion.

Death of Henry Golden.

The death of Henry G. Golden of Scipioville occurred at his home Friday morning, April 26, at the age of 56 years. The funeral was held on Sunday afternoon at the M. E. church at Scipioville. Burial in Scipioville cemetery. The deceased went to Syracuse in March for treatment, and blood poisoning followed an operation. He was brought to his home at Scipioville about ten days before his death. Surviving are two sisters, Mrs. Susie K. Gulliver and Mrs. McFall of Auburn, and a brother, Arthur Golden of Albany, and several nieces and nephews.

Remember that we print calling cards, programs, auction bills, circulars, stationery, by-laws, and all kinds of fine job work.—Also orders taken for engraved cards and invitations.

Mid-week Service, Wednesday evening at 7:30.

A Cordial Welcome Extended to all.

About Advertising.

It is a noticeable fact that optimists among the merchants of a small place are the progressive, enterprising ones, those not afraid to spend a few dollars for printers' ink in inviting the buying public to their places and calling attention to the merits of their line of goods and the reasonableness of their prices. The business man who uses a few inches of space in the newspapers during the holidays, or on other special occasions, and then grumbles at the absence of results, has only his own lack of good judgment to blame. That sort of faint-hearted publicity is not advertising—it's a joke! To successfully meet the competition of his wide-awake city rivals, the country merchant should follow his example and use the advertising columns of his home paper persistently, generously and systematically.—Skanestates Free Press.

A STORY OF THE SEA.

Ghostly Message That Saved Those on Board a Sinking Ship.

Robert Dale Owen is authority for the following story:
The mate of a bark which was sailing southward across the banks of Newfoundland was in the cabin working out the vessel's course when he noticed a man sitting at the other end of the table busy writing on a slate. Thinking he was the captain, he paid no further attention, but presently, looking up from his calculation, he saw the man suddenly disappear.
Startled, he went across, picked up the slate and found written on it, "Steer to the north-west."
He called the captain. The writing was certainly not that of any of the crew, and eventually it was decided to obey the strange order. The vessel was put in a nor-westerly course and a man stationed at the masthead to keep a sharp lookout.
In a few hours they sighted ice and among it, in an almost sinking condition, a big ship. They reached her just in time to save her people. Among them was a passenger whom the mate recognized as the stranger who had written the direction on the slate.
According to the other passengers, this man had been in a deep sleep or trance at the hour at which the incident had taken place.—Exchange.

COULDN'T PLEASE HER.

The Woman Whose Husband Never Had the Right Change.

A prominent broker remarked the other day that he thought his wife was the hardest woman to please in the wide world. She was always asking him for money when he was home. "John," she would say, "give me 47 cents." The grocery boy is here with a bill. "I can't give you 47 cents," he would reply, "but here's half a dollar." "Oh, you're the funniest man; you never have the right change." A dozen times a day she would ask for a few odd pennies.
Finally the broker went into the subtreasury and obtained \$100 worth of bright new pennies. There were 10,000 pennies, and he packed them in a suit case and lugged them home. Then he went to a blacksmith shop and had an iron tripod made, and upon this he hung the suit case filled with pennies.
The next day the butcher came with his bill. It amounted to \$5.67. "John," said the wife, "give me \$5.67." "You will find it on the tripod," he explained. The wife returned in a moment in a great rage. "Why, John," she cried, "I'm not going to count out 567 pennies for this man! I'd be ashamed. It's a wonder you can never have the right change."—New York Herald.

Africa's Name.

The name Africa was given by the Roman conquerors after the third Punic war, B. C. 146, to the province which they formed to cover the territory of Carthage. It was most probably adopted from the word "Afrayah," the Carthaginian term for a colony. This original Africa was limited in extent. Its borders reached, according to Pliny, from the river Tusca on the west, which divided it from Numidia, to the bottom of the Syrtis Minor on the southeast, though Ptolemy carries it as far east as the bottom of the Great Syrtis, making it include Numidia and Tripolitania. In later days the whole African continent took its name from this part, which in its narrower limits corresponded with the modern regency of Tunis and was called by the Greeks Lybia. Africus, the stormy southwest wind, was so called in Italy because it blew from Africa.

An Impressionist Picture.

They were doing a tour of the picture gallery and the country cousin was anxious to improve his knowledge. Frequently he asked questions concerning artistic phrases and phases, and always the city cynic explained clearly and lucidly.
"What do they mean exactly," queried the country one, "when they say it is an 'impressionist' picture?"
Then the city cynic smiled.
"Well," said he, "an impressionist picture is one that leaves an impression in your mind that it is the picture of a cow and that same impression sticks there until you happen to look at the catalogue and find that really it's a picture of a famous statesman. See?"—London Answers.

Rough on His Rival.

"Is he really your rival?"
"Yes."
"Great Scott! If I had a rival that looked like that man, do you know what I would do?"
"No."
"I'd give up the girl."—London Telegraph.

BULLETS IN BATTLE.

Death Wounds and Flesh Wounds and the Feeling When Struck.

In "Serving the Republic," General Nelson A. Miles says that, like every other soldier who has seen much active service, he is often asked how it feels to be wounded. He himself was wounded four times and twice almost fatally, so he is able to speak from experience. He says:
"One is often asked how it seems to be wounded in battle. The flight of a bullet is quicker than thought and has passed through a flesh wound before one realizes that he has been struck. I have seen bodies of men dead on the field of battle where the brain had been pierced and death had been instantaneous. They would remain in every position of the 'manual of arms,' with an anxious look, a frown or a smile on their cold and rigid faces."
"My wounds received at Fair Oaks, Fredericksburg and Petersburg were flesh wounds and disabled me but a short time. While riding down the line at Chancellorsville one of the enemy's bullets struck my metallic belt plate with great force. This caused a slight deviation as it entered the body. The result was an instant deathly sickening sensation. My sword dropped from my right hand; my scabbard and belt dropped to the left. I was completely paralyzed below the waist. My horse seemed to realize what had occurred. He stopped, turned and walked slowly back, I holding to the pommel of the saddle with my hands. We soon reached a group of soldiers, who took me off and, placing me in a blanket, carried me to the Chancellorsville House and pulled a dead man off a couch to make room for me."

TOOK HIS TIME.

Bill Gave the Old Man a Long Wait For the Backlog.

Skipper Norwood was born in a little Nova Scotia town. During the long winter evenings young Bill used to lie out in front of the big open fireplace, and just about the time he had got warm and comfortable and a trifle drowsy Norwood senior would make up his mind the fire was getting low and send his son out into the snow to bring in a backlog from the wood pile. Eventually these nocturnal pilgrimages got on young Bill's nerves, and one night when his father sent him out after the backlog the son continued on past the wood pile and across country to the nearest seaport, where he shipped on a whaler.
Nine years later Bill came back. It was a bitter winter night, and the snow was falling. Bill sneaked up to the window and looked into the old sitting room. The fire was burning in the old fireplace, and Bill's father and mother were seated in front of it. He noticed that the fire was a trifle low. So he went to the wood pile, selected a big backlog, carried it into the house and stood for a moment by the fire with the log on his shoulder.
"Father," said Bill, "I've brought in that backlog you sent me after."
The old man never budged an inch. Instead he spat into the fire and reported testily:
"Set it on the fire. You've been a long while gittin' it!"—Saturday Evening Post.

The Drug Clerk's Caller.

"A man came in yesterday and wanted something we didn't have. He had been looking into the window, and he must have thought this was a book store just because we were advertising some novels and stationery and dictionaries and a lot of that left over junk. Well, anyhow, he came to me and he says, 'I want Lincoln's Gettysburg address.'"
"Look for it yourself, sir," says I politely, like we're taught to do. "There's a directory over there in the corner. But I don't think you'll find it. These directories only have the subscribers' city addresses."
"Well, say, that fellow was so mad he wouldn't wait. Called me ignorant and all kinds of things. But that just shows you what us drug clerks have got to put up with."—Cleveland Plain Dealer.

Coal Bin Measurements.

A solid cubic foot of anthracite coal weighs ninety-three pounds. When broken for use it weighs about fifty-four pounds. Bituminous coal when broken up for use weighs about fifty pounds. The consequent rule for the approximate measurement of coal in a bin or box is to multiply the length in feet by the height in feet and again by the breadth in feet and this result by fifty-four for anthracite coal or by fifty for bituminous coal. The result will equal the number of pounds, and to find the number of tons divide by 2,000.—Popular Mechanics.

The Obliging Friend.

"You know that Griggs and I both love you. Can't you make a choice today?"
"A choice, indeed! When I do make a choice you can rest assured that it will not interest you!"
"Thanks! I'll tell Griggs."—Exchange.

Good Little Boy.

Mrs. Scant—Will you have another slice of cake, Robbie? Robbie—No, thank you; mother said I must refuse a second piece, 'cause you mightn't have it to spare.—Judge.

Better Days.

Ethel (of her fiancé)—Poor Fred has seen better days. Kitty—Yes; he used to be engaged to me.—Boston Transcript.

Where law ends tyranny begins.

—William Pitt.

Farm and Garden

FOXGLOVE GROWING.

Medicinal Plant Promises Fair Return on Cost and Labor of Production.
Foxglove has for some years been cultivated as a commercial drug plant in several European countries. It is a fairly hardy perennial plant. It is of easy culture, growing best in rich well drained garden loams, but does not thrive to advantage in wet soils or barren, sandy ones. Seeds and leaves both contain medicinal virtue, but the latter, carefully dried in the shade to preserve the natural green color, form the only product that is now marketable. The current price ranges from 11 to 12 cents per pound, dry weight. The most reliable estimates of yield do not exceed 600 pounds dried leaves to the acre, says Rural New Yorker.
Foxglove promises a fair return for the cost of growing, but any considerable acreage grown in this country would quickly overstock the market. The present drug requirement that the leaves be only picked from plants of two years' growth at the commencement of bloom greatly increases the cost of production.
It is best to use the typical purple flowered form of Digitalis purpurea, which may be had from most seeds

Photo by United States department of agriculture.

GOLDEN LINKS.

The harvest fields are the golden links that connect the ages and the zones and associate together the most distant times and the remotest nations in one common bond of sympathy and dependence. They make of the earth one great home, of the human race one great family and of God the universal parent.—Hugh Macmillan.

Everlasting Post Holes.

Here is a way to set posts for a yard or garden fence so they will stay where you put them. Dig the holes fourteen inches square and thirty-two inches deep, then take a post, A, and make it five inches square at the bottom. Thirty inches up make it six inches square. This makes a nice taper. Now bore an inch hole through each way at B. Then put two pins, C, through so each will rest on the ground and thus hold the post in place. Then fill space D with concrete. After this sets awhile lift the post out, take it to the next hole, and so on. Then dress your posts all to this pattern and drive them in. If they rot off it is an easy matter to put in new ones.—Farm and Fireside.

Among the Chickens.

No use to sputter about it and call folks fools because they insist on having white eggs. Just get yourself into a position to cater to the taste and let it go at that.
Don't forget that meat is good to make hens lay, but don't go crazy on the meat question and give them too much, for you can easily make them sick. Meat two or three times a week is often enough.
Why not feed the laying hens some potatoes, cabbage, turnips, etc., and thus make them feel somewhat as they did in the summer, when they found plenty of green material for food? Then your egg basket would also fill up as it did "in the good old summer time."
Roup is usually a fatal malady, and very little can be done for the fowls unless in the first stages, when the following is effective: Balsam copaliba one ounce, licorice powder half an ounce and piperine one dram. Mix well and divide into thirty doses. Give each fowl three doses daily. Listen in the henhouse after dark and if you hear wheezing you have roup on hand.

Roots For Dairy Stock.

By care in preparing the soil and growing the crop, from fifteen to twenty-five tons of roots, like mangels, rutabagas or stock carrots, can be grown per acre. They can be stored under the feeding alley or in a pit outside of the barn at very little expense. Twenty tons of roots will supply ten cows twenty pounds per day each for 200 days and can be grown and harvested at a cost of less than \$40. The nutrients contained in twenty tons of roots are worth \$30 when bran is worth \$20 per ton, so the feeding value of the roots is sufficient to pay for the cost of production, besides the additional advantage of their supplying the succulence needed by the animal.—Hom and Farm.

GARDEN SEED SOWING.

Hard to Find Man Who Can Perform Operations Properly.

Among the different gardening operations there is none more difficult than seed sowing. To get a man who can properly sow both broadcast and with hand drill all the various seeds is almost a hopeless task. The subject needs close study to avoid heavy losses, which may come either by over or underseeding or by entire failure. Some operators would make us believe that the time for broadcast sowing is past absolutely. Such is not the case. There are times and subjects when broadcast seeding is very successful. The reason for this is very plain upon investigation. Broadcast seed is covered at varying depths, so that under almost all conditions a stand is obtained. If the weather turns wet after seeding those seeds nearest the surface will sprout; if dry the deeply buried ones will have their chance, while by the drill method they are all uniformly covered; hence if the weather turns unfavorable for the depth at which they were sown the whole lot may be a failure. Old market gardeners know from experience that it is easier to get a stand of lettuce, spinach, radish or turnip by broadcasting than by drilling; hence the method is still in use. We do not like broadcasting, but admit its uses, says Gardening.

To operate seed drills successfully requires close attention. Where a very thin stand is desired and a drill set very close it will be found that after some time the machine has actually sifted the seeds by allowing the small ones to pass and rejecting the large ones and thereby reducing the stand for the last one-half. Some machines will not stand close regulation at all, as they choke up unless the flow is liberal. When this is the case the only way out is to proceed rapidly, thereby reducing the time for the seed to roll out. Where land is too rough for nice work such machines as have a two piece coverer can often be made to work by removing one side of the covering device, thus allowing clods to pass. Another way to handle rough land is to precede the drill with a single wheel hoe, using one slim cultivator tooth to open a mark and roll the clods aside. This can be made to work where nothing else will. Soils that bake readily can be handled similarly by opening a slight furrow, removing the covering device entirely and depending upon the roller to firm the seed without covering. This permits the weak seedlings to come up through the crevices. There can be no greater mistake made than preparing land too fine if it is liable to puddle and bake. A certain amount of roughness is absolutely necessary to keep such soils open.

Everlasting Post Holes.

an inch hole through each way at B. Then put two pins, C, through so each will rest on the ground and thus hold the post in place. Then fill space D with concrete. After this sets awhile lift the post out, take it to the next hole, and so on. Then dress your posts all to this pattern and drive them in. If they rot off it is an easy matter to put in new ones.—Farm and Fireside.

Among the Chickens.

No use to sputter about it and call folks fools because they insist on having white eggs. Just get yourself into a position to cater to the taste and let it go at that.
Don't forget that meat is good to make hens lay, but don't go crazy on the meat question and give them too much, for you can easily make them sick. Meat two or three times a week is often enough.
Why not feed the laying hens some potatoes, cabbage, turnips, etc., and thus make them feel somewhat as they did in the summer, when they found plenty of green material for food? Then your egg basket would also fill up as it did "in the good old summer time."
Roup is usually a fatal malady, and very little can be done for the fowls unless in the first stages, when the following is effective: Balsam copaliba one ounce, licorice powder half an ounce and piperine one dram. Mix well and divide into thirty doses. Give each fowl three doses daily. Listen in the henhouse after dark and if you hear wheezing you have roup on hand.

THE BIG STORE

Auburn's Greatest Department Store.

Corsets and Brassieres

We give much careful attention to these articles of dress and carry all the foremost makes including La Grecque, La Victoire, Gossard, Nemo, Warner's rust proof, R. G., American Lady, etc. Fashion is everything. The corset is the foundation of dress. No dressmaker can accomplish anything without a correctly shaped corset. The few dollars spent on corsets make or break the appearance of the hundreds of dollars spent on outer garments.

THE BRASSIERE is the natural accessory to the corset and is almost as important. We carry the best in the market. 50c, 75c, \$1.00, 1.25, 1.50.

Foster, Ross & Co.

Summer Dresses

We are showing a great variety of Summer Dresses for morning, afternoon and evening wear—splendid styles for the house and street.

House Dresses. These are made of good quality of gingham and lawn. Well made at \$1, 1.50, 2.00.

Colored Dresses. These dresses are very desirable either for the street or house, being made of good patterns of gingham, durable linens and dainty figured lawns, nicely trimmed at \$2.25, 4.00, 6.00.

White Dresses. This lot includes some very handsome dresses of lawn, voile and allover embroidery, some elaborately trimmed, while others are more modest but equally dainty. Prices range from 3.00 to 18.00. Allow us to show them to you.

WOMAN SUFFRAGE.

In our western states where the suffrage has been given to women I am unable to see that any great difference has been caused as compared with neighboring states of similar social and industrial conditions where women have not the suffrage. There has been no very marked change in general political conditions nor in the social and industrial position of woman. Yet what slight changes have occurred have been for the better and not the worse.—Theodore Roosevelt.

SONNET.

The world is too much with us.
Late and soon,
Getting and spending, we lay
waste our powers.
Little we see in nature that is ours.
We have given our hearts away,
a sordid boon.
This sea that bares her bosom to the moon;
The winds that will be howling
at all hours
And are upgathered now like
sleeping flowers—
For this, for everything, we are
out of tune.
It moves us not. Great God, I'd
rather be
A pagan suckled in a creed out-
worn.
So might I, standing on this
pleasant sea,
Have glimpses that would make
me less forlorn.
Have sight of Proteus rising
from the sea
Or hear old Triton blow his
wreathed horn.
—Wordsworth.

JUSTICE AND PEACE.

A great deal of the peace movement appears to be due to sentiment. Patriotism expresses itself in sentiment, but fundamentally it is what a man will sacrifice for public sentiment. When peace is conducted with an element of self sacrifice we will not need peace societies. The movement should not be so much a protest against the clash of elements as against the causes of warfare. The only basis of peace is justice. I do not object to war because it is cruel and unjust, but because it is a clumsy and brutal instrument to get at justice. Warfare for right is honorable and will continue until some substantial instrument for the accomplishment of justice is substituted. What is needed is enlightenment in our own affairs as well as international questions. Mankind is an impartial jury not because mankind is all wise, but because most of us are not directly interested. So long as people's knavery does not lie all in one direction we are safe. America started right with a declaration addressed to "a decent respect for the opinions of mankind." It is necessary that we get back to that fundamental belief. As soon as we are just to the people of the United States we will be in a position to be an instrument for universal peace.—Woodrow Wilson.

CHARITY.

Our charity indeed should be universal and extend to all mankind, but it is by no means convenient that our friendships and familiarities should do so too.—Thomas a Kempis.

As the first order of wisdom is to know thyself, so the first order of charity is to be sufficient for thyself.

The charity that thinketh no evil trusts in God and trusts in man.—J. G. Holland.

JUDICIOUS ADVERTISING.

What Can Be Done to Win Publicity in Small Towns.

BRINGS SHOPPERS AND TRADE

Value of Extensive and Attractive Advertising as Proved by Successful Venture of Enterprising Storekeeper. Print Prices and Use Plenty of Space.

Many merchants who pay for space fail to receive desired results because their advertising is so poorly arranged as to attract little attention and not impress those who read it. Sometimes the printer fails to make the right kind of showing, and, while the reading matter of the advertisement may be all right, the display is such as to be unattractive.

It is always well to present prices in your space. Pick out seasonable goods and make a run on a few specialties. It requires only a little thought to fix up a few exceptional bargains in certain lines of goods. These should not be sold at a loss, but at a good profit if the matter be managed rightly. The principal thing desired is to get the people to call at the store, and when they call be sure to make good and prove that your advertisement means all that it represents. If you advertise cheap canned goods, cheap anything, and you know the goods are cheap, not up to the standard of such articles, tell the people so and have something just a little better and tell them the difference. There is little use in advertising to attract people to your store and then fall down in the salesmanship part. The fact that one calls at your store and asks to see certain kinds of goods is evidence that the person is in the market to buy, and it is your business to supply his wants.

Not long ago in a western town of some 7,000 population the merchants had an illustration of what can be done by judicious advertising. The proprietor of a clothing and dry goods store decided that he would add a grocery department. This met with the disapproval of other merchants in the town, particularly the grocers. They combined and commenced an advertising campaign directed chiefly against him. Small space was used. They were greatly surprised one morning to find that the object of their attention had in the daily paper a four page advertisement. They were further surprised when the weeklies of the surrounding towns came out with one and two page advertisements offering wonderful bargains and to pay the railroad fare of those who would purchase a certain amount of goods. For miles around the town large posters announced the great sale.

Other merchants of the town looked upon the venture as foolish and predicted that there was something wrong, a failure or a fire in sight. Neither happened, but in two weeks' time the enterprising storekeeper who advertised to sell twenty-six pounds of granulated sugar for a dollar when the jobbing price was more than \$5 a hundred, provided the purchaser ordered other goods, did a business amounting to more than \$16,000, or as much business as the average small storekeeper does in a year. Not alone that, but he is still doing the biggest business in the town. He advertised rightly.—Agricultural Southwest.

A Watchword.
Organization is the watchword of the day. It is the part of system. It means force and economy. A single twig can be easily bent and broken. A bundle tied together has strength that defies the efforts of a giant. The same in organization. One merchant, one tradesman in any line, cannot well bring about needed reforms. It requires united action, and this action can only be had when there is perfect and harmonious organization.

Completing Sewer System.
The contractors on the new \$28,000 sewer system of Winters, Cal., are now completing the system by putting in the last of the laterals and in putting the top on the septic tank. It is expected that it will be ready for acceptance by the trustees within a few weeks.

Andy and Sandy.
Andy and Sandy were brothers two; Lived in the town of Pleasant View.
Andy always traded at home; Sandy often preferred to roam.
Andy his clothing and groceries bought Round the corner, as Andy ought.
Sandy ordered his goods by mail; Sometimes got 'em exceeding stale.
Friend of the town was Home Trade Andy; Hardly so Mail Order Sandy.
Came a season of politics.
Andy and Sandy got in their ticks.
Andy was named on a party slate To be the mayoral candidate.
Sandy the standard of another Party bore against his brother.

In the election Pleasant View Had to decide between the two.
Every vote in the boxes cast Andy got—to the very last.
Sandy wanted a contest quick; Said he was sure there'd been a trick.
Andy said to his brother: "Ah, go Way; your votes were mailed to Chicago!"
—T. Sapp, Jr.

Waterworks Earned \$70,547.68.
The municipally owned waterworks earned for the city of Knoxville, Tenn., the sum of \$70,547.68 for the year 1911. This is an increase of \$16,689.47 over the net earnings of the year 1910. The annual report of the Knoxville waterworks commission, that is now being completed, will go into details and will show an increase in mileage of pipe, in gallons of water pumped, in number of fire hydrants installed and in general improvements of the plant. The following aggregate figures, however, are taken from the records of the commission: Net earnings for 1911, \$70,547.68; net earnings for 1910, \$53,858.21; increase of 1911 over earnings of 1910, \$16,689.47; miles of pipe in 1911, 117,612; miles of pipe in 1910, 111,812; increase over 1910, 5,800; miles of new pipe laid in 1911, 5,800.

Debt Reduced.
During the past year the debt on the city water and light plant in Gas City, Ind., has been reduced to the amount of \$2,500; that is, this amount has been paid on the debt. It has been a few days more than one year since the water and light plant in Gas City was destroyed by fire. In the time elapsed since then the plant has been rebuilt and has been placed in successful operation, and \$2,500 of the debt paid. That all this has been done is considered an excellent achievement.

Mayers Favor Biennial Elections.
Changes in the charters of five of the six cities of Rhode Island, which will result in biennial municipal elections, are likely to be made by the general assembly. The mayors of Providence, Woonsocket and Pawtucket are outspoken in favor of municipal elections every two years instead of one, while the project is also viewed favorably by many leaders in Cranston and Central Falls.

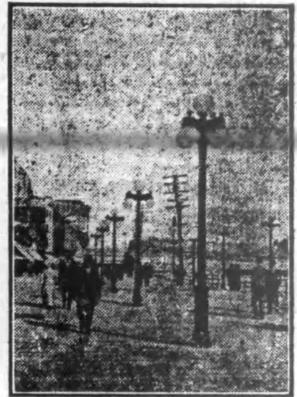

DECORATIVE VALUE OF STREET LIGHTING.

The Various Systems and Their Adaptability to Certain Conditions.

One of the practical advantages of the electric lamp is its ability to operate equally well in both upright and pendent positions, says a writer in the American City. The cluster system, which consists of suitable posts supporting a number of lamps, has acquired great popularity, and justly so, the multiple light sources giving a distinctively decorative appearance. A very common arrangement and one to be particularly recommended in smaller cities is the use of four lamps supported on arms, with a lamp in the center, the latter being arranged on a separate circuit so that it can be used for service after midnight or whatever hour the other lamps may be considered unnecessary. The central lamp necessarily must be placed in the upright position, and the globe should be of larger diameter than those on the arms. Whether the lamps on the arms should be pendent or upright is principally a matter of taste, although there is some slight gain in illumination on the sidewalk by placing the lamps pendent and thus avoiding the shadow of the arms.

The capacity or size of the lamps will depend on the distance apart of the standards. In all cases, however, the conduits should have an ample margin of safety, so that in case larger lamps are desired at any time they may be safely used.

The width of the street must also be taken into account. The lower post is more suitable for the narrow street, and vice versa. The usual heights are from twelve to fourteen feet for cluster posts, the exact height being deter-

THE CLUSTER SYSTEM IN USE ON ATLANTIC CITY (N. J.) BOARDWALK.

mined by the individual conditions mentioned. The various types of arc lamps, being of much greater candle power, naturally require much higher posts, ranging from twenty feet for the inclosed arc to forty feet or even more for the flaming arc.

Exterior lighting, like interior lighting, must be carried out with due consideration of the environment and the chief purpose sought. A wholly satisfactory result can be obtained only when all the conditions are carefully considered and given due weight.

Modern illuminants have made possible a degree of beauty and utility in public lighting that was undreamed of even a half century ago. We are only beginning to realize what this means in the development of the city of the twentieth century. The means of producing light in unlimited quantities is one of the few benefits bestowed upon modern civilization by science that cannot be perverted to evil purposes. It is one of the few good things of which there is no danger of getting too much.

THE GENOA TRIBUNE.

Friday Morning, May 3, 1912

Published every Friday and entered at the postoffice at Genoa, N. Y., as second class mail matter.

LOCKE FIRE-SWEPT.

Twenty-two Buildings in Ruins as Result of Big Fire.

The village of Locke, six miles east of Genoa, was swept by a conflagration on Friday last, which looked at one time as though nothing would stop it until the whole village was destroyed.

The fire started shortly after 12 o'clock in the Fountain House, from an over-heated stove pipe and chimney and the whole building was quickly blazing. The Locke fire department, which is equipped with a chemical engine, was at once called out. The wind was blowing a gale from the southeast, and the towns people, who began to assemble, turned their attention to saving the adjoining property. The barn nearby the hotel was soon burning, and it is said, that inside of twenty minutes, both buildings were completely destroyed. Two tall locust trees in front of the White place, occupied by Mr. Barhite, opposite the hotel to the north, caught fire and were cut down but the house was saved, although it caught fire several times.

Soon the attention of the residents was called to the Methodist church where smoke was seen pouring forth from the rear and also from the bell-fry. A noticeable fact was the distance from the hotel to the church, on the opposite side of the street, a matter of 25 rods, at least, and that none of the intervening buildings were destroyed. At this time it became apparent that the town was doomed, and aid was asked from Auburn, Moravia, Groton and Genoa.

From the church, the Lung house to the north quickly caught, and the flames spread rapidly up the street. The residence of J. L. White was saved from burning, although it was as fire in several places. Good work on the part of firemen was responsible for this, although there was considerable damage to the inside of the house and to the contents.

The fire swept on, taking every thing before it until it reached West Cayuga street and there it jumped the street taking a residence and barn, and two or three other buildings. The Hewitt storehouse, standing by the railroad track, and close to the burning buildings, was saved by the efforts of the Genoa firemen with their two chemical engines. It was stated by the owners of the building and conceded by all that the Genoa boys checked the fire at this point. The chemicals were all ready for work when they left Genoa, and were drawn over the hills in about 45 minutes. The two engines were operated by Firemen Bert Gray, Thos. Brogan, Geo. Phillips, Sam Hand, Arthur Peck, A. L. Loomis, C. J. Wheeler and E. H. Sharp. Other Genoa men also assisted. C. J. Wheeler burned his hands quite severely. The large warehouse with contents to the value of \$30,000 was on fire in several places when the Genoa boys arrived on the scene, but the chemicals extinguished the fire in about 5 minutes. One engine was also taken to the rear of the McKean house which was badly scorched and in great danger of burning.

The Moravia and Groton fire departments responded with hose carts and a hook and ladder truck, and a goodly number of men. As Locke has no water power, the hose carts were useless, and the firemen turned their efforts to saving household goods and removable property. The Auburn department detailed Steamer No 5 and Hose No 1 to come to Locke, and these were loaded on a flat car at the Lehigh station and a day coach was added which brought about a score of firemen and several newspaper men to the scene of the fire, leaving Auburn at 1:55 o'clock. The run from Auburn to Locke, a distance of 21 miles, was made in 29 minutes. The work of the city firemen was effective in stopping the spread of the flames. They remained in Locke, pumping streams of water on the ruins until about 8 o'clock and returned to the city about 10 o'clock. After the arrival of the powerful stream from Auburn, the hose belonging to Groton and Moravia was added and gave good assistance. The Genoa fire department covered every inch of the west side of Main street, from the McKean building north to West Cayuga street.

buildings on the north side of the street.

The fire was said to be under control at 4 o'clock. No serious injuries were reported, but there were a number of slight burns and some accidents. Reuben Main of Locke, aged 16 years, stepped on some broken glass while assisting in removing property, and cut his foot quite badly. John Sullivan of the Auburn department suffered an injury to his eye from flying cinders.

Many of the household goods from nearly every dwelling were taken from the burning buildings and carried to a place of safety.

The buildings destroyed were as follows: Fountain House and barn; Methodist church and sheds, R. D. Lung's house, J. L. White's barn, Mrs. Ada Miller's house and barn, J. D. Inglehart's house, barn and blacksmith shop, S. Elster's store with living rooms on second floor, Mrs. Charlotte Whipple's house and barn, John Carroll's store, the M. E. parsonage, the Frank Taylor house and barn, occupied by Elmer Krotts, Mrs. Maria Spink's house and barn, Pardy Main's barn, and other smaller buildings. The loss is estimated at about \$50,000 with insurance on part of the property.

A large number of Genoa people drove to Locke during the afternoon and people from all directions went to the stricken village, and on Sunday, it is said, the town was full of visitors to view the ruins.

How's This?

Ladies Attention.

If you wish to employ a first class dressmaker call at Mrs M R Pine's or phone S C. 20-0. MRS. JAY S. MACK.

Helps a Judge In Bad Fix.

Justice Eli Cherry, of Gillis Mills, Tenn., was plainly worried. A bad sore on his leg had baffled several doctors and long resisted all remedies. "I thought it was a cancer," he wrote. "At last I used Bucklen's Arnica Salve, and was completely cured." Cures burns, boils, ulcers, cuts, bruises and piles. 25c at J. S. Banker's, Genoa, F. T. Atwater's, King Ferry.

Negative Woman.

Marks—I married my wife a month after she accepted me. Parks—That's nothing. I married mine three days after she refused me.—Boston Transcript.

The purpose of a journey is not only to arrive at the goal, but to find enjoyment on the way.—Van Dyke.

What Texans Admire

is hearty, vigorous life, according to Hugh Tallman, of San Antonio. "We find," he writes, "that Dr. King's New Life Pills surely put new life and energy into a person. Wife and I believe they are the best made." Excellent for stomach, liver or kidney troubles. 25c at J. S. Banker's, Genoa, F. T. Atwater's, King Ferry.

REMARKABLE RECORD OF IMPROVEMENTS IN HASTINGS

Nebraska City Has Reason to Be Proud of Its Achievements.

In the way of municipal improvements, which are a sure token of the progressiveness of the community, Hastings, Neb., has made a record during the past year that is said to be without parallel among the Nebraska cities of her class for this or any other year. Including over four miles of street paving finished in the twelve months ending this fall and for sewer extensions and improvements in the water and light department finished or contracted for during the calendar year Hastings' bill is approximately \$250,000. This year's improvements bring the value of the water system up to \$200,000, and the value of the electric light and power system up to \$140,000, making a total for the two of \$340,000. The bonded debt of the city was decreased during the last ten years from \$285,000 to \$195,000, but the \$50,000 issue of intersection bonds this year brought the total back to \$245,000, which is still far less than the value of the city's investments in the two municipal enterprises. Bond issues of \$110,000 for the water plant and an original bond issue of \$20,000 for the light and power plant gave the only public aid these two plants have had, all the subsequent improvements having been paid for out of the earnings. Moreover, there has been no levy either for water used by the city or for street lighting. During the present year the city has invested about \$5,000 in a new well and a new smokestack and about \$9,000 in the installation of a new air compressor. Approximately \$4,000 has been spent in the enlargement of the power house and the building of a coal storage house and a machine shop. Two boilers have been installed and are about ready to be placed in commission.

When the settlement is made this improvement will represent a further investment of \$3,000. Early this month the council contracted for a new pump to cost \$9,250 and the foundation and addition to the building about \$3,000 more. Sewer extensions built and contracted for during the year show an outlay of over \$7,000. The total cost of paving in the twelve months ending this fall was \$206,400.08. Over 500 carloads of materials were shipped into Hastings for this paving exclusive of the home brick used.

Must Keep Streets and Alleys Clean. A determined effort to clean up the streets and alleys of Pueblo, Colo., and place them in a more presentable condition is to be undertaken at once by the health department. Copies of the ordinance regarding the throwing of trash into the streets and alleys of the city have been printed and will be circulated generally throughout the city. It stipulates a fine of from \$5 to \$100 for violation, and, according to the officials of the health department, it is to be enforced to the letter. The ordinance covers rubbish and trash of every description, and the first work of the department will be a thorough inspection of present conditions. Notice will be served to violators that they had better clean up at once, and after a reasonable time has elapsed prosecutions will be started unless the law is adhered to strictly.

G. W. Richardson & Son, Auburn, N. Y.

1812---Our Centennial Year---1912
For ONE HUNDRED YEARS our house has been located on the triangle square at South and Exchange streets. We are the oldest furniture house in the United States and the century has extended our trade into nearly every section of the Union.

Village and Vicinity News.

—Bank report this week.

—Travel by automobile is again popular in the country.

—Messrs. Rease and Bronson of Cortland were in town Tuesday.

—A. J. Merritt reports a fine catch of brook trout on Wednesday.

—Mr. and Mrs. James Mulvaney were in Syracuse a few days this week.

—Mrs. Mary Tilton is visiting her daughter and son in Genoa for a time.

—Born, to Mr. and Mrs. Grant Halsey of Locke, Saturday, April 27, a son.

—Dr. Scott Skinner of LeRoy recently spent a few days with his brother, Dr. J. W. Skinner.

—Mrs. Emmett G. Trapp has been visiting her parents, E. A. Young and wife, at Cortland this week.

—Mr. and Mrs. Millard Green of Groton were Sunday guests of the latter's parents, Frank Miller and wife.

—Mrs. L. E. Wood of Cortland was a week-end guest at Titus VanMarter's, and is spending the week in this vicinity.

—Rev. and Mrs. T. J. Searls leave to-day to spend several days with their son, Elmer Searls and family at Newark Valley.

—Commencement week at Auburn Theological seminary begins Monday evening, May 6. Commencement day exercises will be held on Thursday, May 9.

Blizzard Rain Coats, guaranteed waterproof at B. J. BRIGHTMAN'S.

—Postmaster Smith has been adding desk room to the postoffice department in his store, in preparation for the Postal Savings bank in connection with the postoffice.

—Remember the annual school meetings on Tuesday evening, May 7. There should be a large attendance. Every parent and every taxpayer should take an interest in school matters.

—Genoa Star Lodge, I. O. O. F., celebrated the 93rd anniversary of the order on Sunday evening last, by attending the service in the Presbyterian church in a body. Rev. T. J. Searls delivered an excellent sermon on the "Good of the Order" and the choir, made up of members of the Odd Fellows, sang the hymns in an inspiring manner. There was a good attendance of Odd Fellows, including a few members of the Five Corners lodge.

—Well, the Genoa firemer, with the two chemical engines, had an opportunity to show what they could do, and according to the best of information, they did considerable and in good time. Words of commendation and appreciation were freely spoken in Locke last Friday afternoon, and Genoa people are gratified that our men could be of such assistance to our sister village. We sympathize with them in suffering such loss to their pretty, well-kept village, as well as the personal loss to the families who were left homeless.

—The Methodist Episcopal General Conference, which is held every four years, opened at Minneapolis, Minn., May 1, and will continue through the month. The ministerial delegates from Central New York Conference are Rev. F. T. Keeney and Rev. E. M. Mills of Syracuse, Rev. W. E. Brown of Ithaca, Rev. L. S. Boyd of Cazenovia and Rev. G. E. Hutchings of Weedsport. The lay delegates are F. D. Boynton of Ithaca, F. M. McFall of Cortland, S. E. Baldwin of Elmira, E. W. Ferguson of Seneca Castle and G. E. Thorpe of Syracuse. Among the women delegates to this assembly we notice the name of Mrs. Katherine Lente Stevenson of Massachusetts, and Miss Itala Garibaldi, a granddaughter of the famous patriot of Italy, who has come to the United States to attend the conference as a delegate from Italy.

—Mrs. Sarah Pratt spent last Saturday in Auburn.

—E. L. Bower of Skaneateles was in town Tuesday.

—The Banker residence is being newly painted.

—Mr. George Arnold of Venice called on Genoa friends Wednesday.

—Mr. and Mrs. E. A. Seymour and son were guests of the former's mother at Marcellus, Sunday and Monday.

—J. Had Pearson of Auburn is said to be the oldest Mason in the city of Auburn. He joined the Cato lodge forty-seven years ago.

—It is expected that the hotel in connection with the United Home for Aged People at Union Springs will be ready for business not later than May 15.

—Rev. W. A. Pugsley, a former pastor of the Baptist church of Genoa, and now engaged in evangelistic work, was an over-Sunday guest at Mrs. Martha Gilkey's.

—Mrs. Frances Smith, a daughter of J. McDermott and wife of Genoa, was one of the graduates in the nurses' training class of the Auburn City hospital this week.

Eggs—Ship your eggs to N. S. Black, 1547 Park Ave., New York City. I will pay you the highest market price and a premium on extra fancy stock, good prompt returns and a square deal. 40¢
N. S. BLACK,
1547 Park Ave., formerly of Moravia, N. Y.

—Dr. Daniel K. Pearsons, aged 92 years, who gave more than \$5,000,000 to small colleges, died Saturday, April 27, in a sanitarium near Chicago, a comparatively poor man.

—Mrs. Clara Whitten, who is traveling for the Gillette Shirt Co. of Cortland and has been in the New England states for some time, was called the first of the week to the home of her father, John Myers, by his severe illness. He is much improved.

—Here is a pointer from the Cortland Democrat: "Fred Caswell of this city is daily eating Northern Spy apples that are as fresh and juicy as when picked last fall. The way Fred did the trick was to carefully pack the apples in barrels, filling the interstices with sawdust."

—To build and maintain the barge canal across the Montezuma marshes is found to be no play spell. The high water which is flowing over the half-finished ditch has nearly obliterated the channel which has already cost the state a mint of money.—Savannah Times.

—Mr. and Mrs. O. D. Hewitt and family of Locke, Mr. and Mrs. Claude O. Sellen, Mr. and Mrs. Lewis Sellen of North Lansing and Miss Mary Sellen of Union Springs were guests of their parents, Mr. and Mrs. Frank Sellen, on Sunday. Mr. and Mrs. Claude Sellen left that evening for their home in Shelby, Ohio. Mr. Earl Young and Arvid Sellen left for the same place on Saturday.

—Next Sunday morning Rev. Howard Yergin, assistant pastor of Calvary Presbyterian church of Auburn will occupy the pulpit of the Presbyterian church here. There will be no evening service. Sunday school and young people's society as usual. The pastor of this church will occupy the pulpit of the Congregational church at Newark Valley on Sunday and will deliver the anniversary address to the I. O. O. F. of Newark Valley on Monday evening.

—George Borup of New York city, whom we recently mentioned as having sent a copy of his book "A Tenderfoot with Peary," to F. Adolph of Genoa, was drowned in Long Island Sound Sunday afternoon in company with Samuel B. Case when their power canoe was overturned about two miles off Crescent Beach, Conn. The bodies of both men were recovered the following day. It is a peculiar fact that Borup should survive the perils of several trips to the Polar regions, and be drowned at last near his home. He was preparing to leave in July on another expedition to the far North. The two men were graduates of Yale.

—A few lawns have been mowed.

—A large porch has been added to the front of H. M. Roe's residence, east of the village.

We have just unloaded two cars of corn and winter bran, midds, and spring flour. Give us a call.
Genoa Roller Mills,
SAMSON & MULVANEY

—Arbor day is being generally celebrated by the schools to-day. If the weather proves favorable, Genoa school expects to take a trip to the woods.

—The first ship will pass through the Panama canal in August or September, 1913, according to a statement made by Col. Goethals, in Washington.

—Mr. and Mrs. Arthur B. Peck were in Seneca Falls Monday and Tuesday. Mrs. Peck's mother, Mrs. Goodman, who was quite ill the first of the week, is better.

Our feed mill at the Genoa elevator is now ready for custom business. We can handle grain or ear corn; Will grind Tuesday and Friday of each week.
J. G. ATWATER & SON.

—Rev. Wesley Mason, a former well-known Methodist clergyman of this vicinity, is reported to be very ill with hardening of the arteries, at the hospital in Rochester.

—Miss Edith Hunter arrived in New York from San Juan, Porto Rico, on Monday and remained in the city this week with Mr. and Mrs. Law, who are spending some time there.

—The Central school building of Ithaca was destroyed by fire on Monday afternoon. The city also lost its High school building in February and the authorities now believe both fires were of incendiary origin.

It will pay you to call and look at the display of Waterloo and Haydock buggies, both steel and rubber tire, also the new assortment of single harness, latest styles, before buying elsewhere at B. J. BRIGHTMAN'S.

—One hundred dollars was the sum Frank Sellen received for a Holstein-Friesian cow (Augusta Snowflak Hengeral Dekel). H. S. Kenyon of Marcellus, N. Y., was the purchaser. Transfer was made April 29, 1912.

—The funeral of Major General Frederick Dent Grant who died in New York April 11, was postponed to April 26, awaiting the arrival of his daughter, the Princess Cantacuzere of Russia. The interment took place at West Point.

—The New York State Agricultural Department is advertising 11,000 farms, comprising 148,190 acres, for sale or rent. During 1910 the State Department received inquiries for the land from 14,000 persons and sold land to the value of \$6,200,000 to non-residents.

—A shipment of one solid carload of Bibles containing 10,000 volumes has been consigned by Thomas Nelson & Son of New York to Los Angeles, Cal. This is one of the largest shipments of a single book ever made at one time. It literally speaks volumes for Christianity that the Bible still maintains its position far in the van of the world's "best sellers."

John C. Keefe will have a sale of 40 cows and 10 horses at his farm on Saturday, May 11, at 1 o'clock.
40w1

—It was recently reported that James Parmley, whose barn in Summerhill was struck by lightning and burned, did not receive any insurance because he had not received his policy. We are credibly informed that the building was insured and that Mr. Parmley received the amount due him. The policy on his personal goods had not yet been delivered, although application had been made, and there has been some controversy over this insurance.

—John E. Tierney of Aurora has been appointed a special game protector for Cayuga county, by the State Forest, Fish and Game commission. He has already assumed his duties. Sportsmen now feel that they have secured good protection for Cayuga lake and the woods and fields of this section of the county against the depredations of scores of illegal hunters and fishermen who have been depleting the lake and woodlands of game fish.

It's Quite a Trick

to adjust glasses the way it should be done. Only an optometrist can do it, and he needs the most ingenious appliances to help him.

It's a great mistake for a person to choose his or her own glasses from a big pile of ready-made ones. There is hardly one chance in a hundred that they will be a fit, and when they don't fit a person might far better go without any. We will examine your eyes for you free of charge without the use of drops any day you call.

A. T. HOYT,
Leading Jeweler & Optometrist,
HOYT BLOCK, MORAVIA, N. Y.

Or a joke that will amuse— Send it in ;
A story that is true, An accident that's new,
We want to hear from you— Send it in !

Miss Norman Wins Piano.
The final count in THE TRIBUNE'S voting contest was held Thursday afternoon, April 25, in the rooms of the First National bank. As we announced last week, Miss Florence Norman of Genoa was the winner of the piano. The standing of the contestants on the final count was as follows:

- Florence Norman.....773,450
- Mrs. Lewis Sellen.....630,700
- Clara A. Cook.....438,425
- Lillian Warren.....4,900
- Mrs. Titus VanMarter.....30,200
- Mrs. Jay B. Smith.....6,400
- Mrs. Leslie Underwood.....5,925
- Ethel Bower.....2,500
- Mrs. Ray E. Smith.....2,100
- Mrs. Howard Bush.....3,250
- Agnes Kelley.....600

These names are given in the order of their standing at the end of the contest, and accordingly the order in which the prizes were chosen.

After the piano was awarded, Mrs. Sellen selected one ton of coal given by Atwater & Son; Miss Cook one ton of coal, given by C. J. Wheeler; Miss Lillian Warren, lamp given by D. W. Smith; Mrs. Titus VanMarter robe, given by B. J. Brightman; Mrs. Jay Smith lawn mower, given by A. B. Peck; Mrs. Leslie Underwood suit case, given by H. P. & Robt. Mastin; Ethel Bower, books given by F. C. Hagin; Mrs. Ray Smith, flour given by James Mulvaney; Mrs. Howard Bush, hat given by Mrs. D. E. Singer; Agnes Kelley, fur neck piece given by Shapero, the Genoa clothier.

THE TRIBUNE wishes to express thanks for all assistance given us during the contest. We thank the merchants and business people of Genoa for their co-operation in the enterprise, and for all favors received from them. We believe, as we thought before the contest, that it was a business-getter for the town, and a good advertisement for not only THE TRIBUNE, but other lines of business in Genoa. While it is not true, that we doubled our subscription list, as has been reported, we gained a satisfactory number of new subscribers and accomplished other desired results.

We greatly appreciate the hard work done by several of the contestants and only wish we were able to reward them all handsomely for the time spent in our interest. We cannot refrain from mentioning the good, conscientious work done by Miss Clara Cook of King Ferry, who secured the largest number of new subscribers.

Words of Appreciation.
Miss Florence Norman wishes to thank each and everyone who assisted her in any way whatsoever in winning the piano given by the GENOA TRIBUNE. Miss Norman also deeply appreciates the kindness and good wishes of her friends shown to her during the contest.

Millinery Notice.
I will be at Chas. Barger's, Five Corners, Tuesday, April 23, and at McDermott's hotel, King Ferry, Thursday, April 25, and each week following during the season, with a full line of millinery. The ladies are invited to call and see me.

Escapes An Awful Fate.
A thousand tongues could not express the gratitude of Mrs. J. E. Cox, of Joliet, Ill., for her wonderful deliverance from an awful fate. "Typhoid pneumonia had left me with a dreadful cough," she writes. "Sometimes I had such awful coughing spells I thought I would die I could get no help from doctor's treatment or other medicines till I used Dr. King's New Discovery. But I owe my life to this wonderful remedy for I scarcely cough at all now." Quick and safe, it's the most reliable of all throat and lung medicines. Every bottle guaranteed. 50c and \$1.00. Trial bottle free at J. S. Banker's, Genoa, and F. T. Atwater's, King Ferry.

The Demons of the Swamp
are mosquitos. As they sting they put deadly malaria germs in the blood. Then follow the icy chills and the fires of fever. The appetite flies and the strength falls; also malaria often paves the way for deadly typhoid. But Electric Bittion kill and cast out the malaria germs from the blood; give you a fine appetite and renew your strength. "After long suffering," wrote Wm. Fretwell, of Louisiana, N. C., "three bottles drove all the malaria from my system, and I've had good health ever since." Best for all stomach, liver and kidney ills. 50c at J. S. Banker's, Genoa, and F. T. Atwater's, King Ferry!

Farm and Garden

THE SOY BEAN.

"Greatest Crop Ever Introduced," Says Enthusiastic Tennessee Farmer.

Describing his success with soy beans for enriching the land and producing abundant nutritious feed, a Tennessee farmer writes thus to the Southern Field:

"I grow the Mammoth Yellow variety, planting in rows thirty-six inches apart and cultivating about the same as corn. I cut with a mower when ripe and allow them to lie on the ground for a couple of days. After being in shock for ten days they are hauled to the shed and thrashed. We con-

Photo by Long Island agricultural experiment station.

SOY BEANS.

sider the bean straw after the beans are thrashed as fully equal to timothy or redtop for a feed for cattle.

"For late summer pasture I sow with a wheat drill about one and a half bushels to the acre. I am now feeding beef cattle and hogs on soy beans, and my dairy animals are producing more milk than ever before on a bean ration. Of course other feeds are mixed with the bean, as soys are rather rich when fed alone.

"The Mammoth Yellow grows here from three to five feet high, according to cultivation, and yields thirty bushels of seed per acre, which will bring around \$3 to \$3.50 per bushel. There is no finer improver of the soil than the soy bean. I have tried many other legumes, but none has given such uniformly high quality of hay and returned such large amounts of nitrogen to the soil. I consider the soy bean the greatest crop ever introduced into this part of the country both as a money crop and as a soil improver."

About \$100,000 worth of soy bean oil was shipped in 1910 from Manchuria to the United States against almost none the year before. From Hull, England, shipments in 1910 of soy bean oil to the United States amounted to \$140,000. This was crushed from the Manchurian beans. Considerable shipments of soy bean oil were also made in 1910 from Kobe, Japan, to the United States.

TWO SIDES OF ONE PROBLEM.

It is not enough to raise crops and live stock. They must be marketed. When you come to doing this how much easier it is to sell if these crops or stock are of high quality and how much better prices are realized. It really costs but little more to raise good stuff than it does to raise poor, and good stuff sells itself.

Uncle Sam Imports Potatoes.

It would seem that a great country like the United States might be able to raise enough potatoes for its own use, but in 1910 our crop amounted to 828,811,000 bushels, and we imported 1,632,081 bushels. Our crop of 1911 was only 73.8 per cent of the crop of 1910, while the British Isles have had a very short crop, though Germany has had an abundance.

Condemned Cattle.

More than 50,000,000 animals were inspected in the last fiscal year by the United States bureau of animal industry, and more than 1,000,000 carcasses or parts thereof were condemned as unfit for food, according to the annual report of Dr. A. D. Melvin, head of the bureau. Tuberculosis was the cause of most of the condemnations.

Where Cranberries Come From.

The cranberry is a special crop that has been grown on a commercial scale largely in three sections of the country—the Cape Cod district in Massachusetts, the New Jersey district and central Wisconsin. Small marshes in other sections have been reclaimed, but these three districts produce the major part of the commercial crop.

THE WISE FARMER.

There was a man in our town, and he was wondrous wise. He knew that if he wanted crops that were fertile.

GROWING HORSERADISH.

Pungent Crop Does Best After Beets, Cauliflower or Early Cabbage.

A Wisconsin subscriber of American Agriculturist asks for information on the methods of raising and marketing horseradish. Although the horseradish is a perennial and will continue to grow indefinitely if some of the roots are left in the ground, it is usually treated as an annual when raised in commercial gardening. It is most profitable as a second crop, following beets, cauliflower or early cabbage. Only the main root is used for market, the small rootlets being broken off and preserved for planting.

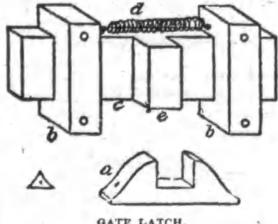

The upper part of each set should be cut straight and the lower part slanting so that they may be planted right end up. Of course, they will grow anyhow, but they will make a more satisfactory crop if planted properly. The sets may be stored for the winter in a cellar or in pits out of doors. It is a good thing to sprinkle sand between them to prevent heating. While the crowns of the plants may be reset and will grow, they do not produce a very satisfactory crop of roots for market and will not pay for replanting.

The sets are planted between rows of cabbage or cauliflower in holes eight or ten inches deep made with a light crowbar. They are covered two or three inches deep. If they are not set deeply they are likely to come up too soon and interfere with cultivating and harvesting the first crop. By planting one hill of horseradish opposite each cabbage plant from 12,000 to 13,000 plants per acre are grown. One cultivation is usually sufficient, because the ground is already clean from the first crop, and horseradish leaves soon shade the ground and prevent weed growth.

SELF CLOSING GATE.

Directions For Making One That Is Serviceable and Inexpensive.

Here is a good plan for a self closing gate, reproduced from the Orange Judd Farmer, from which cuts and description are taken. The upright piece at the hinge end of the gate is made higher than the post it swings on. A crossbar is driven tightly through a hole at right angles with the gate. Make the crossbar two feet long or over and run

GATE LATCH.

wires from the ends of the crossbar to a point two feet from the crossbar and continue by a single wire for one foot.

A spiral spring from a mower or blower is here attached, and a wire is connected with this spring and run to the second post of the fence. This gate will swing either way and be pulled shut again. A latch made as described in the drawing will be a great help. Take a piece of hard wood—oak or maple—and saw as indicated at c. This should be 8 by 2 by 2 and sawed so e

SELF CLOSING GATE.

should be one inch thicker than the thin parts. Two pieces should be sawed like b, just so the thin part of c will slide easily through it. Then saw a, making the groove one and one-fourth inches wide and its edges rounding so the latch will work easily and attach to the fencepost horizontally. A spiral spring from a shade roller is attached, as shown in sketch. This is inexpensive but serviceable and works well if rightly made.

Everything that we have except a few fish and a hope in the hereafter comes out of the ground. Be good to the ground. —American Agriculturist.

Orchard and Garden Notes.

Early cabbage, lettuce and cauliflower are sown in the north in hotbeds any time from the latter part of January to the 1st of March. Sowing early in February is preferred by most growers, although excellent results may be secured by later sowings if the frames are handled properly.

It usually takes nearly a week to get the manure ready for the pit, and from four days to a week is generally required for the temperature to drop in the frame sufficiently to make sowing safe. The reader will thus understand that the manure for the hotbeds should be stacked about two weeks before he intends to sow.

While flats are not used by many gardeners there are strong points in their favor. It is more convenient to sow in flats in a warm, comfortable room, carrying the flats to the hotbed or cold frame after sowing or planting and perhaps watering, although watering is more frequently attended to in the hotbed or frame.

BUILDING THE IDEAL VILLAGE.

Woman Describes a Town That Would Appeal to One's Fancy.

THE MARKET A BIG FEATURE.

It Should Be Built In Center of the Town and Should Carry a Supply of Good Substantial Foods—School and Clubhouse Necessary.

Mrs. Mary Pattison, former president of the New Jersey Woman's Federated Clubs, once described the ideal village as follows:

"Let us take an imaginary journey," she said, "to a slightly elevated spot somewhere and build an ideal village or town. Let there be a clean, wide sweep of greensward shaded with trees and cut with winding roads, a few hills and a cool, picturesque valley to one side, through which a clear, happy rivulet curls its way untainted with sewage and disease carrying insects and unspoiled by the dumps of refuse usually deposited along such banks. Let us see there instead grass, flowers and birds.

"On one of these hills near by we find a roomy schoolhouse than which nothing better is known, where the children are being educated in the real things of life, in common sense and in industrial and organic matters, with no danger of forced mentality.

"Here we find usefulness with beauty of method. As a result horse or coarse play and disrespect are unknown. Individual and careful thinking are encouraged, and appreciation is developed, with charm of manner and the cultivation of the healthiest bodies.

"In the center of the town, near a few choice shops and offices, we find an airy and well built market where only the best and purest foods can be bought, not necessarily luxuries, but the substantial varieties that make blood and muscle strong and of good quality, a place where it is not sufficient to simply label the contents of packages, but where it is necessary to tell which beefsteak has had its juice extracted, what fish and fowl have been embalmed, what animals died in disease and what fruit has had its natural fermentation stopped by the use of preservatives.

"It is, in fact, a place to buy food where one is not in danger of one's life or, worse, one's health at every turn.

"Let us perhaps build two churches in our beautiful village, although that may be one too many, but let there be one opening the gate of heaven through the intellectual door or under the portal of the understanding where reason reigns and science prevails. Then a little farther on let us find another, bringing God on earth through the aid of the emotions, with the heart as the knower and the senses trained to love. Let them both be beautiful, but let us go first to one and then the other till in the future they unite.

"Our community is made up of homes, cheerful, normal, happy homes, individual in expression, co-operate in management and lovely in design where the atmosphere is the guiding element, where nothing is held that gives more trouble than worth, where harmony, health and happiness leave not a crevice for hell to peek through.

"And now a little walk to the right and opposite the park we are led to the village clubhouse, a fine pleasure edifice equipped for all ages. It is a place where play and gymnastics are supervised, a place for games of all sorts, with rooms for music, art, dancing, etc., and for that foolish frivolity without which society would lose its charms.

"May we keep our hand to the wheel and help to usher in the new village home, if not in detail, at least in essence—a home where one might free the spirit by just living, where doctors and lawyers are the minimum in number and teachers are the maximum, a place where only health is known and where the whole air thrills with life."

Plans to Reduce Cost of Living.
A new Oregon idea has been formed with the taking of preliminary steps toward a municipal store in Portland. The city council authorized Mayor Rusbright to appoint a committee of business men to conduct a series of co-operative shops, where the profits would be distributed among the shareholders—the public. The plan is to sell stock in the concern at \$25 a share, with the proviso that no individual may own more than one share. Stockholders share profits, and purchasers will have deducted from their bills a part of the store's earnings. If the plan succeeds it will be established in other Oregon cities.

Remove Overhead Wires.
Overhead electric wires in the business district of Fort Worth, Tex., will soon be a thing of the past, for the Fort Worth Power and Light company has given notice to the city that it will begin placing its downtown wires underground at once.

The district takes in practically the heart of the city. Only wires left standing will be those of the street car company and one or two feed wires that will extend along the alleys. Wires that now form a tangle in many of the alleys will be placed in cables.

Dentists.

J. A. Spaulding, D. D. S.
H. W. Reynolds, D. D. S.

Preserving the natural teeth our specialty.

Fillings, gold, porcelain, silver and gold inlays. Crown and bridge work just like the natural teeth.

Plates that fit.
Vitalized air for painless extracting. Write or phone for appointment.

Bell 57-J. Miller 90.

SEEDS

Our stock is complete for the FARM AND GARDEN, with the best that money can buy.

We also carry a full line of Poultry and Dairy Feeds, Lime and Sulphur Solution for spraying; it kills San Jose scale, qts. to bbls. Ask for prices.

You should see the Adrian Wire Fence before you buy.

D. L. Ramsey & Son

31 and 33 Market St., Auburn, N. Y.

FARMERS Please Notice!

Wood and iron work of all kinds. Wagons and farm tools repaired on short notice. WILLIAM HUSON, Genoa

When Your Feet Ache
From Corns, Bunions, Sore or Callous Spots, Blisters, New or Tight Fitting Shoes, Allen's Foot-Ease, the antiseptic powder to be shaken into the shoes, will give instant relief. Sold everywhere 25c. Don't accept any substitute. For FREE sample address Allen S. Olmsted, LeRoy, N. Y.

Many Children Are Sickly.
Mother Gray's Sweet Powders for Children Break up Colds in 24 hours, relieve Feverishness, Headache, Stomach Troubles, Teething Disorders, and Destroy Worms. At all druggists, 25c. Sample mailed FREE. Address, Allen S. Olmsted, LeRoy, N. Y.

THE PHILIPPINES.

No one can truthfully deny that the Philippines are today well governed. They have 500,000 children enrolled in their schools, and industrial education has been so far advanced that about 100,000 pupils are receiving instruction in the useful arts. When we took possession of those islands many different dialects were used by the people, only 7 per cent speaking Spanish. Today more people speak English than Spanish or any one of the native dialects, and English will soon be the language of the islands. A thousand miles of railways have been begun, more than half of these being completed. The finances of the people are in a healthy state, and a large revenue is now made possible through tariffs and a system of internal revenue taxes. Complaint is often made concerning the cost of the Philippines to us, but the entire expense of the civil government is now being paid out of the taxes raised in the islands.—Vice President Sherman.

Move On.
Do not gaze backward nor pause to contemplate anxiously what is in front, but move. If you are faithful God will carry you through.—Fruithigham.

It is difficult to persuade mankind that the love of virtue is the love of themselves.—Cicero.

Woman's World

She Binds J. P. Morgan's Rare Editions.

MISS MARGUERITE LAHEY.

Miss Marguerite Lahey is one of the few women who have successfully mastered the art of bookbinding in its highest and best expression. For ten years Miss Lahey has devoted on an average seven hours a day to her profession, doing all the work herself on a volume from start to finish, not even scorning to apply the edge gilding, really a separate trade, but which Miss Lahey thinks is so poorly done in this country.

She has studied binding, cover designing, tooling and edging abroad under the best masters in each branch of the work, and in the libraries of some of the most famous book collectors of America are to be found occupying places of honor on the shelves exquisite examples of this young woman's bookbinding.

For J. Pierpont Morgan, that prince among bibliographers, she has bound both modern books and incunabula. Among the latter are books printed by Richard Pinson, Lichtenberg and William Caxton. Last year Miss Lahey had the pleasure of binding for Mr. Morgan Caxton's "Sieg of Troy," 1472, the first book printed in English and the only perfect copy in existence. It is valued at the modest sum of \$48,000.

The Wedding Ring Finger.
The third finger of the left hand has from long usage been consecrated to the wedding ring. This usage comes from an ancient belief that from this finger a nerve went direct to the heart.

So completely was this fanciful piece of physiology confided in by the Greeks and Romans that this was termed, even by their physicians, "the healing finger." It was used to stir their mixtures from a notion that nothing poisonous or harmful could communicate with it without its giving immediate warning by a palpitation of the heart, says the Indianapolis News. This superstition yet prevails to a considerable extent among the country people of western Europe. Together with this is the belief even more widely current that the wedding ring will promptly remove warts and other excrescences if they are rubbed with it.

As a gift of love or sign of betrothal rings were in use in ancient Egypt and in Assyria. The Jews from a remote age have made the ring a most important feature of betrothal and in the marriage ceremony. According to the Jewish law, it was necessary that this ring should be of value.

It is therefore examined and certified by the officiating rabbi and chief officers of the synagogue when it is received from the bridegroom, whose absolute property it must be and not obtained on credit or by gift. There was then, as now, an exchange of rings between Jewish contracting parties. Shakespeare recalls this custom most sympathetically when Shylock, informed that his daughter Jessica has given a ring for a monkey, exclaims with an outburst of grief and anger: "It was my turquoise! I had it of my Leah when a bachelor. I would not have given it for a wilderness of monkeys!"

Only Women in This Orchestra.

A woman's orchestra, named the Orchestra Femina, with Mr. Siegfried Wertheim as conductor, is the latest London novelty. Mr. Wertheim has been working for a long time gathering his forces together, for he decided that it should be an all British institution, and now he appears to have succeeded. He has got together forty women, every one of whom is capable of playing solo parts. Mr. Wertheim contends that in the course of his search he has come across some real "discoveries."

Hitherto in the case of such instruments as the oboe, bassoon, trombone and the heavier wind instruments there have been no women exponents of very high rank. Mr. Wertheim has discovered English players of such instruments who are gold medalists of London, Paris and Brussels.

The only feature about the performance of the Orchestra Femina that will not be all British will be the music. Mr. Wertheim shrugs his shoulders at that idea. His is to be a high class orchestra; and so he must rely on foreign produce for his programs, though popular music of English make will not be excluded.

Zona Gale a Suffragette.
Zona Gale, the distinguished author, is among the active workers in the woman suffrage campaign now in progress in Wisconsin.

The Thrice-A-Week Edition OF THE New York World

Practically a Daily at the Price of a Weekly

No other Newspaper in the world gives so much at so low a price.

The great Presidential campaign will soon begin and you will want the news accurately and promptly. The World long since established a record for impartiality, and anybody can afford its Thrice-A-Week edition, which comes every other day in the week, except Sunday. It will be of particular value to you now. The Thrice-a-Week World also abounds in other strong features, serial stories, humor, markets, cartoons; in fact, everything that is to be found in a first-class daily.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and THE GENOA TRIBUNE together for one year for \$1.65.

The regular subscription price of the two papers is \$2.00.

Are You Happy?

If you are it is safe to say that you enjoy good health, as it is impossible to be happy unless you are well. Noted physicians will tell you that bad stomachs and torpid livers are the cause of 95 per cent of all diseases.

For the past 42 years SEVEN BARKS has proved to be the unequalled remedy for all STOMACH, LIVER and KIDNEY troubles, and the greatest tonic and blood purifier known. It makes your digestion what it should be and keeps your entire system in good condition. Price of SEVEN BARKS is but 50 cents a bottle at all druggists. Money refunded if not satisfied. Address LYMAN BROWN, 68 Murray St., New York, N. Y.

Suits and Coat.

Many exclusive styles that will not be duplicated can be found in our cloak and suit department. Children's Coats at \$5.00 and up to \$15; all sizes in Ladies' and Misses' Coats, prices from \$10 to \$35, suits from \$10 to 40.00.

We make a specialty of garments for stout figures and can fit you regardless of your size.

John W. Rice Co.

103 Genesee St., Auburn, N. Y.

The Scrap Book

A Lesson in Poker.
One of Cleveland's shoe stores has been conducting a bargain sale in men's shoes. In each pair of shoes in the show window there are three new one dollar bills, and the sign reads, "Three of a Kind Take One Pair."
The three dollar shoes have been going rapidly. Saturday, however, a big young man entered the store and asked, "Do you sell these shoes according to poker rules, as advertised?"
"Yes, sir," answered the clerk, who had played a bit himself.
"Good. I wear a No. 9. Wrap me up two pair of them."
He received the shoes and handed over \$3.
"Excuse me," said the clerk. "Those shoes come to \$6. You took two pair."
"That's all right," said the young man, "but three of a kind beat two pair."
"I know that," responded the clerk promptly, "but three of a kind don't beat four nines." The customer paid.—Cleveland Plain Dealer.

"You're All Right."
Many a heart is kept from aching. Saved perhaps at point of breaking. By these words—no trouble taking—
"You're all right!"

When you feel life growing colder, Just a hand upon the shoulder, Nothing greater, nothing bolder, Makes things brighter.

Say the words to those you're meeting And infuse a cordial greeting Into just a phrase so fleeting. Words seem light.

But they start the mind a-straying Into pleasant paths, obeying The suggestion in the saying "You're all right!"

Timely Advice.
When a certain financial panic broke out the senior editor of a trade journal published in the interests of business men and financiers was on a visit to a mining town. Fearful lest his junior in the office at home might give editorial utterance to pessimistic views and weaken public confidence still further, he hastened to a telegraph office and dispatched a brief message of advice.

It happened that the junior partner on this particular day had just become the father of a pair of fine twin boys. While his friends in the office were congratulating him upon this event a messenger entered with a telegram. He opened it and read the following message from the senior partner:

Dear George—Things look blue, but they will brighten up soon. Take a cheerful view of the situation. HIRAM.

No Sip For Him.
General Carter, who went to Texas in command of the regulars sent south for the maneuvers along the Mexican border, tells this story of an old Irish soldier: The march had been a long and tiresome one, and as the bivouac was being made for the night the captain noticed that Pat was looking very much fatigued. Thinking that a small drop of whisky might do him good, the captain called Pat aside and said, "Pat, will you have a wee sip of whisky?" Pat made no answer, but folded his arms in a reverential manner and gazed upward. The captain repeated the question several times, but no answer from Pat, who stood silent and motionless, gazing devoutly into the sky. Finally the captain, taking him by the shoulder and giving him a vigorous shake, said: "Pat, why don't you answer? I said, 'Pat, will you have a drink of whisky?' After looking around in considerable astonishment Pat replied: "And is it yez, captain? Begorrah and I thought it was an angel shpakin' to me."—Cosmopolitan Magazine.

Classified.
Lord Normanby is one of the few peers and the only marquis in England in holy orders. For many years he conducted a school at Mulgrave, and some good stories are told of his scholastic days. His charges led an unpampered life. Hampers were forbidden, and the boys' weekly pocket money was limited to threepence.

Once when expounding the mysteries of the creation Lord Normanby asked one pupil, who is now a well known politician, the difference between himself and a tiger, meaning, of course, the difference in the scale of nature. The boy thought hard and at last blurted out:

"A tiger, sir, is an imperfect beast; but you are—well, a perfect beast!"

Both Obeyed Orders.
During the war between the states an Irish Confederate was placed as sentry on the beach at Sullivan's island with orders to walk between two points and to let no one pass without giving the countersign, which, as an extra precaution, was to be given in a whisper. When the corporal came round with the relief guard he discovered Murphy up to his waist in water, the tide having risen. "Who goes there?" said Murphy. "Relief" shouted the corporal. "Advance, then," cried the Irishman, "and give the countersign!" "Advance? I'm not going in there!" cried the corporal. "Come out and be relieved!" "Sure, I mustn't!" said Pat. "I wasn't to stir from my post till I was properly relieved!" "Then I'll leave you there all night!" cried the corporal, beginning to move off. "Begorra, you won't!" shouted Murphy, leveling his rifle. "Halt, or I put a hole in ye! No one's to pass without the countersign, and it's to be given in a whisper!" There was no help for it. The shivering corporal had to wade in.

SHE GOT EVEN.

The Old Lady Turned a Neat Trick on Her High Priced Lawyer.

One of New York's well known lawyers, widely famed for his high charges, had incurred the enmity of an old lady on account of those same charges. Wishing to get even with him, she consulted him about drafting her will. As she was a very wealthy old lady, without near relatives, she had many charitable associations to benefit, and the accurate draft of the will required much patience, skill and time. Among the provisions she made a generous bequest to this lawyer and nominated him executor.

After the execution of the will she called for her bill, whereupon the lawyer, with the vision of ample fees in the prospective settlement of the estate and the memory of the generous bequest, told the old lady that under the circumstances he should charge nothing, but finally, to satisfy her business scruples, made out a receipt in full to date for \$1, whereas the smallest sum he could have properly charged would have been \$100.

The old lady marched home with her will, set herself to work and copied it out carefully word for word, leaving out the bequest to the lawyer and nominating a new executor.

In the course of time she died, and the disgust of the lawyer at the contents of the will was so great that he inadvertently let out the secret, to the huge delight of his brother lawyers.

A Point Not Decided.
The late Senator Tom Carter in the debate before the National Press Club of Washington as to whether a beard or a bald head was the greater disadvantage to a man claimed that a beard was a wonderful help. Carter, by the way, had a beard which would make an alfalfa field look like an arid and dusty desert.

Soon after the debate he received from one of his Montana friends this communication:

Dear Tom—Your speech on whiskers seemed to settle all the disputed points except one. What we can't decide out here and what we want you to tell us: When a man goes to bed ought he to put his beard under his covers or leave it outside? —Popular Magazine.

Presence of Mind.
Two Harvard students went into the cafe of an ultra fashionable hotel and, stepping up to the bar, said, "Give us two pousses cafes." An old Irishman, who had been timidly standing near, liked the looks of the drinks

"'TIS TWICE I'VE TOLD YOU." and when they were finished leaned over the bar and said, "Mister, make me a pussy cafe too."
"What?" said the barkeeper in surprise.
"Ginger ale," replied Pat; "'tis twice I've told you."—Everybody's.

Not Music.
When Parepa Rosa was still charming gold and banknotes out of the pockets of her audiences she appeared in concert in Hartford and in the same week, as it happened, in which Mr. Clemens had delivered a lecture. To hear Mark people had paid \$1.50 for the best seat in the house. To hear the diva meant \$5 for a seat far from the best.

So the local humorist was moved to write to the committee in charge of the two entertainments. He pointed out the monetary partiality which had been shown, asserted that it was obviously unfair and closed with this: "If Mme. Rosa makes her money so much faster than I do mine merely because she sings, let me tell you that I can sing myself and am open to engagements at her terms."
He promptly received an answer, "A mere disturbance is not music."

He Retired.
Senator Hayburn's friends never suspected until recently that he had once tried to qualify as a mighty Nimrod. The senator told the story himself. He said he was out hunting in Idaho. He hunted all day, but couldn't scare up a sage hen, let alone a deer. Finally as he was taking the back trail into camp he came face to face with a bear which showed its teeth and started for him on the jump.
"Well, what did you do, senator?" queried Senator Crane.
"Well, you know, Crane, I'm a man of a very retiring disposition."

The KITCHEN CUPBOARD

FOR LOVERS OF COOKIES.

OLD fashioned cookies have a popularity all their own. Even the name is attractive. So simple are they to mix that there are few housewives so unskilled that they cannot in an emergency roll out and bake a painful.

When mixing cookies it is important that the sugar and butter should be well creamed together before the other ingredients are added. If not the cookies will be heavy. The ingredients must be mixed gradually, stirring all the time. The flour must be sifted. The cookies should be golden brown when baked and round up slightly in the middle.

Some Recipes.
Spiced Cookies.—Take half a cupful of butter, a cupful of sugar, two and a half cupfuls of flour, two teaspoonfuls of baking powder, an egg, a quarter of a cupful of milk and a very little ground mace.

Cream together the butter and sugar, also adding the mace. Then stir the baking powder in the flour, sift both together and add alternately with the milk and eggs to the butter and sugar.

This will form a soft dough. Flour the pastry board and rolling pin, cut a quarter of the dough and roll it as thinly as possible.

Cut the cakes with a small round biscuit ring and place them on a buttered tin, scarcely touching each other. Bake them a light brown in a quick oven.

Cheap Cakes.
Eggless Cookies.—Take two cupfuls of sour milk, two cupfuls of sugar, a teaspoonful of salt, two level teaspoonfuls of saleratus dissolved in a little water.

Beat the cream and sugar together, add salt and soda, and stir in flour, but do not beat it. Have it as soft as can be rolled. Sprinkle sugar over after rolling to a quarter of an inch. Press with rolling pin and bake in quick oven.

Walnut Cookies.—Cream together two-thirds of a cup of butter and two-thirds of a cup of brown sugar and add an egg.

When well beaten stir in a cupful of rolled oats and two-thirds of a cupful of English walnuts chopped fine.

Last add a cupful of flour and a tea spoonful of baking powder. Sift the baking powder with the flour.

Anna Thompson.

The KITCHEN CUPBOARD

PREPARING MUSHROOMS.

MUSHROOMS give a delicate flavor to the food with which they are cooked and are quite as acceptable in soups, stews or sauces as they are valuable as entrees.

Mushrooms can be purchased in the market so cheaply and in such abundance that they ought to appear on the table oftener than they do.

If you buy your mushrooms from the dealers there is no danger of eating poisonous fungi, as nearly all those sold have been especially grown for the trade.

Dried Mushrooms.
Mushrooms may be dried and kept in the house ready for use.

Select sound mushrooms, wipe and peel them, lay them on a sheet of paper in pans in a cool oven or in the sun till they are much shriveled, which shows that all the moisture has evaporated.

Then either hang in paper bags in a dry, cool place or put them away in jars with tight fitting lids.

When they are required for use put them into the sauce or gravy. When it is cold bring them slowly to the boil and they will swell to nearly their original size.

With Steak.
Mushroom Sauce.—Mushroom sauce is delicious with a chop or steak if prepared as follows: Slice an onion and fry in an ounce of drippings till it is a golden color.

Peel and wash eight nice mushrooms. Chop them small and place in a saucpan with half a pint of water and simmer till cooked.

Work one ounce of flour into the sauce and boil all together for five minutes.

Color with a few drops of brownings, season highly and if the sauce be too thick add a little more water.

As a Salad.
Mushroom Salad.—Remove the skin and nearly all the stalk from some button mushrooms. Drop them into boiling salt water and cook for three minutes.

Lay them on a napkin and when quite cold sprinkle them with pepper and salt and finely chopped parsley. Place on a dish and pour over two tablespoonfuls of oil to one of tarragon vinegar.

For Breakfast.
Mushrooms on Toast.—A tasty dish is mushroom toast. It is fine for breakfast. Peel mushrooms of equal size and fry in butter till cooked. Have ready strips of buttered toast, arrange a few mushrooms on each piece and season with salt and cayenne. Sprinkle with a little grated cheese, pass a salamander over and serve very hot.

PEER-HO

Under the face of each collar is a heavy pad of curled hair that is smooth and will not form lumps. The result, no sore shoulders. Come in and let us show you Peer-Ho Collars, Harness, and other horse goods.

B. J. Brightman, Genoa, N. Y.

The Reason Why.

We can furnish plenty of good arguments why an Egbert Suit will prove satisfactory to you.

But we cannot advance as good a one as the garments can, they always give a good account of themselves.

It is in the wearing that you find the most convincing reason.

The longer you wear one the better suited you are. The price is both reasonable and just.

From \$12.50 to \$25.00.

STREET TREES AS BEAUTIFIERS

Results Obtained in Holland Through Systematic Culture.

EXAMPLES FOR AMERICA.

Small Cost Per Capita For Care of Trees in Utrecht and The Hague. Valuable From Hygienic Point of View—Their Worst Enemy.

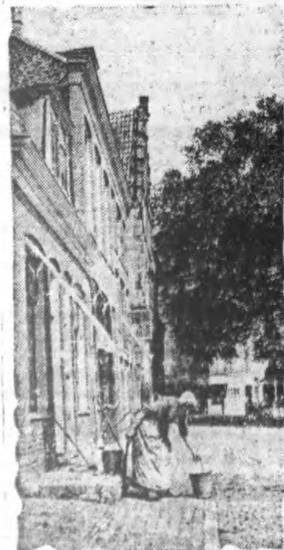

Now that there is beginning a general movement in the United States to bring about systematic cultivation of trees, not only by reforestation on a grand scale, but by the growth of shade trees in towns and cities for the ornamentation of streets, the experience of Holland in providing forest effects for its citizens should be of interest to Americans. There is perhaps no other well populated country in the world which has so many well wooded towns as has Holland. Most of the streets and grachten, or canals, have av-

LINDEN TREES BORDERING A CANAL.

enues of trees. Utrecht has two rows of trees on either side of its quaint canals. Its canal banks are constructed as if in two stories. The lower story, almost flush with the water level, is lined with warehouses and vaults, while the upper story has dwellings and shops.

Not only do shady walks tempt people to enjoy the open air, but the living roots in the soil have a purifying effect, which was by no means to be despised in the past, when the drainage of Dutch towns left much to be desired. Further, the foliage produces ozone and purifies the air. It also tends to keep the air moist and to temper the wind, thus causing less dust to be blown about. In the autumn the fallen leaves give the same kind of service that is given by ten leaves scattered on a floor when the room is to be swept—they lay the dust. More important still, trees wage war upon noxious bacteria, for investigations by scientists show that these harmful growths are comparatively rare where trees are plentiful. Besides all this, the aesthetic value of beautiful trees certainly is not small. In Holland all these useful services are gratefully recognized and the trees

A MODEL STREET IN UTRECHT.

and carefully tended by the municipalities. The cost of this care per capita in the different towns varies somewhat. Last year, for example, Utrecht devoted 21 cents (Dutch) to its trees for each inhabitant and The Hague 28 cents.

It has been found that not every kind of tree will thrive in the streets of a town, for trees have many enemies both above and below ground. Gas escaping from pipes underground is the worst enemy of trees, because quite small quantities of it are deadly. For this reason special precautions are taken against the leakage of gas in Dutch towns. How electricity escaping underground acts upon trees as yet has not been sufficiently studied to be understood. Trees will not grow in very narrow streets where the houses are high. Neither will they thrive if the pavement does not let in moisture and air in sufficient quantities.

PROGRESSIVENESS IN THE VILLAGE OF ELMORE.

Ohio Town of 1,000 Population Making Giant Strides.

The village of Elmore, O., has a population of only about a thousand, but has shown itself to be more progressive and better supplied with public improvements than many cities of much larger size, says a writer in the American City. About two miles of the streets are paved, and a sewer system totals more than five miles in length, and more than one-third of the residences are connected with it.

The town also has a municipal electric light plant and a semimunicipal water system. Some years ago an ef-

ELMORE'S NEW WATER PUMP.

fort was made to bond the city to construct waterworks, but this was voted down by the citizens, and following this the council granted a franchise to the National company of South Bend, Ind., to construct a waterworks plant and lease it to the village. An injunction was sought to restrain the council from operating the plant under a lease, but its right to do so was sustained by the supreme court, and the plant is now being leased from the constructing company and operated by the village.

More recently the voters almost unanimously consented to bonding the village for an electric light plant, and this plant has now been completed. Current is not generated by the village, but is purchased from the Toledo, Port Clinton and Lakeside railway and distributed by it.

The village is unusually small to be provided with all these improvements, but the illustration shows that the pumping plant and building, water tank, etc., are of creditable neatness, design and substantial construction.

BILLBOARDS ARE DOOMED.

There should be general rejoicing over the sweeping decision of the supreme court of Missouri to the effect that cities may not only regulate the size and conditions of billboards, but may even legislate them out of existence altogether. This form of advertising, says the court specifically, "may not only be regulated and controlled, but may be entirely suppressed for the public good under the police power of the state."

Obviously the chief importance of this decision is that it brings the subject of billboards well within the police power of the state. Incidentally it establishes the constitutionality of the regulatory ordinance which St. Louis passed some six years ago. Since the court has indicated so clearly its willingness to consider total abolition of billboards it is probable that we shall hear further from Missouri on that matter. Three or four more decisions of that sort will have the billboards on the run.

Another matter of interest in this connection is the signing of the Ormrod bill by Governor Dix of New York. This authorizes any one to remove or destroy advertisements on public highways. Any one who places an advertisement "on any stone, tree, fence, stump, pole, milestone, danger sign, danger signal, guide sign, guidepost, billboard, building or other structure within the limits of a public highway is guilty of a misdemeanor."

In Massachusetts, where a similar law is in force, the motorists have taken a lively interest in clearing the highways of the illegal signs. Of course the law does not touch a billboard which is placed ten feet back on private property. The Missouri method is the only way by which that one can be reached.—Chicago Evening Post.

Municipal Employment Bureau.

A municipal employment bureau has been established in Schenectady, N. Y., with offices in the city hall annex, under charge of Mrs. Charles K. Kreus, wife of the commissioner of charities. Mrs. Kreus has volunteered her services to the city, and the whole establishment will be conducted without any cost excepting a telephone. Mrs. Kreus has secured positions for a number of worthy persons.

Adopts Commission Government.

After a two years' campaign for a commission form of government in Olathe, Kan., the fight has finally been won, and the commission form will be adopted.

A May Sale of Spring Oxfords and Pumps

Sample Shoes, Odd Assortments and Discontinued Lines, Thursday, Friday and Saturday, May 2, 3 and 4.

Greatly Reduced Prices, Special Purchases, Big Bargains, and with every pair of Ladies' Shoes we will Give Absolutely Free a pair of Silk Stockings and with every pair of Misses' and Children's Shoes a pair of Lisle Stockings.

\$1.98 a Pair and a pair of silk stockings free.

Children's shoes in sizes from 2 to 8. One strap Pumps in dull Kid and Patent that we purchased at extra low prices from a prominent manufacturer. These would ordinarily sell at prices ranging from 85c to 1.25. At 59c a pair it would be advisable to buy two and three pair for your children. Sale prices are for cash only. No sale shoes exchanged.

Rothschild Brothers, Ithaca

Oil : Stoves

We have contracted for a large number of the Celebrated New Perfection Oil Stoves and make this offer:

3 Burner New Perfection Oil Stove with glass door oven

\$10.00.

See if you can duplicate the price. We can only make this price for the reason that we bought a very large quantity. If it is not handy to come to my store to get it, I will send it by freight which will not cost you over 25 cents. Anyone can set it up in 30 minutes.

This is the lowest price I ever heard of them being sold and if you need one this price cannot help but make you buy one of me. Write me if you need an oilstove. I also handle the Florence Automatic, the stove without a wick.

RUGS.

Another article on which I can name a very low price. I have 25 9x12 Smith Rugs in Velvet, Axminster, Wilton Velvet and Body Brussels which I have on display and can name very low price. Will sell you any pattern of a Smith Axminster at \$17.60. Remember this is an Axminster the Smith people make. Correspond with me in regard to Oil Stoves and Rugs.
