Glens Falls, The Home, Fire Association
of Philadelphia, The Sun of London, The
Queen, Royal of Liverpool and Fidelity
Underwriters, also Windstorm or Tor-
nado insurance at low rate.
Regular trip every thirty days.

National Grange Meeting.
Oakland, Calif., is preparing for
the 1915 convention of the National
Grange next November. With one
exception, that of the National Edu-
cation association, the Grange meet-
ing will be the largest of the many to
be held there this year. Oakland
was chosen as the place of the meet-
ing for several reasons, principal
among them being its accessibility to
the big Panama-Pacific Exposition,
its ability as the main railroad
terminal of the state to handle the
heavy traffic satisfactorily, and its
ample hotel accommodations.

Not Always Proof.
"She's an old maid. That proves
that she couldn't get a husband."
"Not at all. It may indicate that
she was more particular than some.
I never see you exhibiting your hus-
band around."—Kansas City Journal.

If you have anything to sell, or
you want anything, have lost if
found an article, make it known
through a special notice in THE TRIBUNE.

WHAT CATARRH IS
It has been said that every third
person has catarrh in some form.
Science has shown that nasal catarrh
often indicates a general weakness
of the body; and local treatments in
the form of snuffs and vapors do little,
if any good.
To correct catarrh you should treat its
cause by enriching your blood with the
oil-food in Scott's Emulsion which is a
medicinal food and a building-tonic, free
from alcohol or any harmful drugs. Try it.
—Scott & Brown, Bloomfield, N. J.

From Nearby Towns.

Five Corners.
May 17—The large engine with
roller and drag attached has been
doing a large amount of work on the
road through here the past week.

Harry Curtis of Genoa has been
doing painting and hanging paper
for Mr. and Mrs. G. W. Atwater and
Mrs. C. G. Barger.

Mrs. Erwin Shaffer with her two
little sons, Wilbur and Willard are
spending a month with her parents
at Pennsylvania.

Master Carl Goodyear has recovered
from his severe illness from
measles and is able to return to his
school at Oakwood.

Mr. and Mrs. Asa Atwater and
children, who has been the guests of
their parents, Mr. and Mrs. G. W.
Atwater went to Auburn last week
to visit King Atwater and family.
Mrs. G. W. Atwater accompanied as
far as Auburn for a few days visit
also.

Miss Ruth Haskin of Goodyears
was a week-end guest of Miss Han-
lon at the home of Mr. and Mrs.
John Palmer.

Mr. and Mrs. LaSalle Palmer are
now occupying their home which
they purchased of the Wilbur Bros.

At the school meeting the officers
were re-elected, Burt Corwin, trustee,
Homer Algard, clerk, Will Ferris,
collector.

Miss Hanlon has been secured to
teach the school here for the coming
year.

We learn that Miss Esther Steven-
son who is at the Ithaca hospital is
doing nicely from her operation.

Clarence Hollister is contemplat-
ing on building a large barn.

Mrs. Sarah Morey has returned
from her daughter's, Mrs. George
Anthony of Moravia, and is among
friends here. She has recovered
from her severe illness.

Mrs. Dr. Frost of Ledyard was a
guest of her sister, Mrs. Will Ferris,
last Saturday.

Will Knox went to the Auburn
hospital last Saturday for an opera-
tion for hernia.

Mrs. John Updyke of Binghamton
is the guest of her sister, Mrs. J. D.
Todd.

Mr. and Mrs. George Jump, Mr.
and Mrs. Jay Smith and Maria De-
Remer motored to Ovid last week
Tuesday to see Mrs. Olive Smith who
is there for treatment. We learn
she has not improved as fast as her
many friends wish.

Homer Algard had to have one of
his best horses killed one day last
week. He has purchased a nice team
of horses of Mr. Parker at Moravia.

Mrs. Will White is slowly recover-
ing from her severe illness.

Mr. and Mrs. C. G. Barger spent
Sunday, May 9, with their son Henry
and Mr. and Mrs. Ben Worsell, it
being Mrs. Worsell's birthday. Mr.
Worsell presented her a very nice
piano. Mr. and Mrs. James Worsell
also was there.

Z. Alexander is under the care of
Dr. Gard.

Mr. and Mrs. Wilbur Boles are
now occupying their home they pur-
chased of Mr. Tait. Mrs. Boles has
recovered from her illness.

Mr. and Mrs. Will White received
some very nice rocking chairs from
their daughter, Mrs. Webber at
Syracuse.

James DeRemer has returned from
Auburn hospital and is at the home
of his sister, Mrs. George Breed at
the Forks of the Creek.

Mrs. David Knox is among the
sick ones. We learn she is slightly
improved.

Mr. Ed Barnes attended the fune-
ral of Mrs. Frances Shaw Upon
last Saturday.

May 17—Miss Maria DeRemer has
returned from Montville and is at
her home here.

Mrs. Mary Howser of Montville
spent a few days recently with rela-
tives here.

Mr. and Mrs. Frank Corwin spent
last week Tuesday in Auburn.

Mr. Clyde Mead of Auburn spent
Saturday afternoon and Sunday with
his parents, Mr. and Mrs. S. B.
Mead.

Mr. Lyon Snyder is doing some
work at the Odd Fellows hall.

Advertise in THE TRIBUNE.

King Ferry.

May 18—The Philathea class will
hold a plant sale at the market of R.
A. Ellison, Saturday afternoon and
evening, May 22. Now is your oppor-
tunity to buy your garden plants.

The Ladies' Aid of the Presbyter-
ian church of King Ferry will hold
its annual strawberry and ice cream
festival in the chapel and on the
church lawn on the night of May 28.
Supper will be served from 5:30 to
8 o'clock. Strawberries and ice
cream will be served through the
entire evening.

PRESBYTERIAN CHURCH NOTES.

Sunday morning: Sermon to the
boys and girls; also next sermon on
Thessalonians.

Sunday school at 11:45 a. m.
Christian endeavor meeting at
6:45 p. m. leader, Miss Susie At-
water; subject, reading "What and
Why."

Memorial service next Sunday
evening at 7:30 in honor and memory
of the soldiers. The address will be
delivered by Rev. Chas. L. V.
Haynes. A large attendance is ex-
pected. Every one come.

Meeting of the Christian Workers'
band on Thursday evening in the
church.

Ledyard.

May 17—The rain of last night and
yesterday caused a delay in the road
work. The stone crusher on Arthur
Close place is now in running order
and crushed stone is being drawn on
the road south of King Ferry. The
Superintendents wife, Mrs. Murphey,
is visiting him for a short time and
is boarding at Dannie O'Herron's.

Mrs. Lisk and Miss Anna came to
their home here on Friday and Mrs.
Lisk remained for the week. Murray
Lisk of Ithaca is also a guest of his
mother.

Mrs. Tilton entertained her sister
over Sunday.

Charles Veley motored to North
Rose on Saturday to visit his sister,
J. D. Brightman. Miss Tompkins
accompanied him. They returned
on Sunday.

Dannie Breman made a business
trip to Ithaca last Monday.

Mrs. Myron Hewes and children
and Mrs. Lucy Mason of Richfield
Springs were callers at Frank Main's
last Monday. Mrs. Mason returned
home on Friday after spending two
weeks with her niece, Mrs. Hewes.

Wesley Wilbur shipped a carload
of stock last Friday.

Belltown.

May 17—Mrs. E. O. Wager is
slowly improving from her recent
illness.

C. E. Palmer and Albert Palmer
each drive a new car. S. S. Good-
year also drives a new Buick.

Mrs. Nina Coon visited her par-
ents, Mr. and Mrs. Eugene Mann, at
Ithaca recently.

Mr. and Mrs. Geo. Atwater and
Mr. and Mrs. L. A. Fenner were in
Trumansburg one day last week.

Elwood Stoughton, L. C. Hall, C.
E. Palmer, Albert Palmer and S. S.
Goodyear were in Auburn last week
Monday.

Carpenters are at work on Fred
Youngs' new barn.

At the annual school meeting at
Belltown Frank Young was elected
trustee for the coming year.

Mr. and Mrs. Earl Mann were in
Ithaca recently.

Auction Sale.

Eliza J. King, administratrix, will
sell at public auction at her resi-
dence in Genoa village on Tuesday,
May 25, at 1 o'clock sharp, light single
harness, road wagon, 2 feed boxes,
quantity lumber, 5 bu. wheat, potato
crates, 15 grain bags, carpenter
tools, garden tools, ingrain carpet,
writing desk, combination desk and
bookcase, Perfection vacuum cleaner,
Standard oil stove with oven, nearly
new, three burner, Summit range in
good condition, wood or coal, table,
stands, chairs, dishes, lamps, iron
jars, jar pork, couch, Dewy bed, iron
bedstead and springs, boiler, wash-
ing machine, etc. J. A. Greenfield,
auctioneer.

Books rented, 5 cents per week.
Call and we'll explain to you.
Hagin's Grocery and Book Store,
27tf

Sherwood.

May 17—Miss McGarr of Auburn
was a week-end guest at Bernuda
cottage.

Miss Lucy Jacobs of Aurora is
spending some time at Opendore.

Mrs. E. L. White, Mrs. W. G.
Ward and Thelma Ward spent the
week-end in South Butler the guest
of G. A. Ward and family.

A daughter has come to gladden
the home of Mr. and Mrs. W. J.
Searing.

Miss Agnes Howland spent Sun-
day in Levanna, the guest of friends.

Thelma Ward of King Ferry will
spend the week with friends here.

Miss A. S. Ward is spending the
week in Aurora on Cayuga.

Dr. Susan Taber entertained the
Lend-a-Hand club last Friday.

S. G. Otis is in Philadelphia to at-
tend a wedding.

Mrs. Bertha Greene was a recent
guest of Mr. and Mrs. Benjamin
Brewster.

A. B. Comstock is running a
Peerless automobile.

The next meeting of the L. A. H.
club will be at the home of Mrs. C.
F. and Mrs. A. B. Comstock.

Miss Helen M. Judson of Rome,
N. Y., is a guest at Miss Emily
Howland's.

East Genoa.

May 17—Mrs. Delilah Sharpsteen,
who has been sick for the past three
weeks, is somewhat improved.

Frank Young is not very well. We
hope he may recover quickly.

Mrs. Leona Thayer is suffering
from another shock.

David Haskell fell down stairs
recently; broke his arm and disloca-
ted his shoulder. His daughter, Mrs.
Alice Legg of Auburn is helping
care for him.

Mrs. Ida Lester has been very
sick, but is much improved.

Mrs. May Tarbell will teach the
school at East Genoa the coming
year. This makes her third year.

Edgar Tift and wife visited at
Frank Young's Saturday last.

Mrs. Fitch Strong and Mrs. Mead
Underwood attended the Eastern
Star convention at Trumansburg
Tuesday last.

W. S. Thayer of Binghamton visit-
ed his mother, Margaret Thayer,
recently.

Kenneth Tarbell and wife attend-
ed the graduating exercises at the
Conservatory Music in Ithaca Satur-
day.

Mrs. Nellie Conrad has returned
home to spend the summer.

Fred A. Bothwell made a business
trip to Groton Saturday where he is
having a drawing made of his press.
John Basset is doing the work.

Mrs. Susie McAllister visited her
sister, Mrs. Ruth Sharpsteen, Thurs-
day last.

While dressing a Plymouth Rock
hen this morning, Mrs. Jay Sharp-
steen, found 11 eggs. Two were
hard shelled, one measuring 6 by 5 1/2
inches and the other 5 by 5 1/2 inches.
The other nine eggs were soft shelled,
but good size. Quite a remarkable
circumstance.

Venice Center.

May 17—Miss Elizabeth Ketchum
has been engaged to teach the school
the coming year.

Mr. and Mrs. F. J. Horton were
week-end guests of their grand-
daughter, Mrs. Chas. Prindle and
family of Spafford.

Miss Emma Waldo of Genoa at-
tended the banquet which was held
last week and remained over night,
the guest of Mr. and Mrs. W.
Beardsley.

Mr. F. J. Streeter, who has been
suffering with inflammatory rheu-
matism, is improving.

A corn planters' dance will be
given at Venice Center hall on Wed-
nesday evening, May 26. Music by
"Happy Bill" Daniels.

Mrs. A. M. Bennett entertained
the Social Hour club last week Wed-
nesday afternoon at her home. Ten
ladies were present. Refreshments
were served and a social time was
enjoyed by all.

Mrs. Wm. Heald left to-day for
Elmira to attend the annual Rebekah
assembly of New York state. She
will also visit relatives at Addison
before returning home.

Merrifield.

May 18—Miss Frances Tyrrell of
Genoa was an over-Sunday guest of
Miss Hannah Murphy.

William Orchard has purchased a
five passenger Ford.

Miss Eliza Post went to Elmira
last Saturday. Her brother Jacob
will go after her in his car when the
roads become dry.

At the recent school meeting, E.
J. Byrnes was elected trustee and
Miss Rose Bowness will be the teach-
er for the coming year.

Edward Orchard was an over Sun-
day guest of friends in Lyons.

All of the families living on the
road north of Nichols' corner to the
next corner are to have telephones
installed in their houses.

Report says that Horace Howland
will soon leave the City hospital,
much improved in health.

Mrs. Charles Wheat entertained
her daughter, Mrs. Gordon Jackson,
and children Edward and Jessie and
her nephew, Leon Sutton of Auburn,
over Sunday.

Fred Wood, accompanied by his
family, and D. K. Chamberlain and
daughter Pauline, motored to Cato,
Sunday, in his new Overland.

Rev. Mr. Cady of Binghamton
will preach in the Scipio Universalist
church Sunday, May 23, at 11 o'clock.
During the Sunday school hour Mrs.
Frank Wood will give a talk on
Christian Citizenship.

North Lansing.

May 18—The W. C. T. U. Institute
last Thursday was well attended.
Quite a delegation came in on the
train. Mrs. Wood, County Presi-
dent was present and added greatly
to the interest and helpfulness of
the institute. Mrs. Parcells was present
and is an interesting speaker; she
lectured in the evening and was
greatly appreciated. A goodly num-
ber of new members were added to
the local union.

Mrs. Howard Beardsley is sick.
Bert Ross has returned.

Mrs. Armeta Woodruff is still in
very poor health.

Mrs. Ruth Morton is spending
some time with her brother, Charles
Lobbell.

Mrs. Margaret Boles has returned
after spending some time with her
daughter, Mrs. George Forbes.

Charles Benson is still very sick at
the home of his sister, Mrs. Benton
Buck. His sister, Mrs. Henry
Spangler of Moravia is helping to
care for him.

Benton Buck was quite sick last
week.

Hazel Ross has the mumps.
The tent caterpillar is putting in
good time. Bushels of nests could
be gathered along the roadsides; it
would pay.

Ensenore Heights.

May 18—William Henry and fam-
ily of Auburn are moving into Leslie
Pope's tenant house to-day.

Mrs. R. B. Eaker of Merrifield is
spending a couple of weeks with her
daughter, Mrs. C. F. Barnes.

Mrs. Townsend of Auburn, who is
in very poor health, is with her
daughter, Mrs. Will Coulling for a
time.

Mrs. Ettie Pope, Leslie Pope and
the Misses Grace and Mae Pope at-
tended the funeral of Lawrence
Walker, formerly of this place, near
Jordan last Sunday. They made the
trip in C. H. Wyant's auto.

Raymond Burtless and wife have
moved to a farm near Groton.

Charles Cook and family of Au-
burn have moved into A. E. Pickens'
tenant house. Mr. Cook will work
for Howard Hunter. Mrs. Cook has
been ill for a few days.

At the recent school meeting, Har-
mon Sawyer was elected trustee in
the Weeks district and Miss Alpha
Clark is the teacher. Clyde Johnson
is the trustee in Dist. No. 13; no
teacher hired at present.

C. F. Barnes and C. H. Wyant at-
tended the alfalfa demonstration in
Moravia, Monday.

This Will Interest Mothers.

Mother Gray's Sweet Powders for
Children relieve Feverishness, Headache,
Bad Stomach, Teething Disorders, move
and regulate the Bowels and destroy
worms. They break up colds in 24
hours. Used by mothers for 26 years.
All druggists, 25c. Sample Free. Ad-
dress, A. S. Olmsted, LeRoy, N. Y.

Meeting of Ledyard Club.

An especially interesting meeting
of the Ledyard Cornell Study Club
was held at the home of Mrs. Lowell
Mason on Wednesday afternoon.

Miss Rose and Miss Van Renesse-
laer of the Dept. of Home Economics,
College of Agriculture were present
and both gave very helpful and in-
spiring addresses to the club mem-
bers and guests. Miss Brewer, also
of the college gave a demonstration
on the use of dandelions as a food.

Miss Brewer made several very at-
tractive salads from both raw and
canned dandelions. Light refresh-
ments were served by the club.

The next and last meeting of the
year will be held at the home of Mrs.
Samuel Vint on Wednesday, May 26.

Election of officers for the coming
year and plans for the annual Fourth
of July picnic makes it important
that all members attend this meet-
ing.

Suffrage Meeting at Sherwood.

Mrs. Raymond Brown, president
of the New York State Suffrage as-
sociation will be present at a suff-
rage conference to be held Satur-
day afternoon, May 22, at 3 o'clock,
at Opendore, the residence of Miss
Isabel Howland. Supper will be
served at 5:30, to those who come
from a distance.

A public meeting at which Mrs.
Brown will be the speaker will be
held in Sherwood at 8 o'clock. All
who are interested are cordially in-
vited to attend.

The usual talk and tea in the head-
quarters in Auburn will be omitted
this week, because of this meeting
at Sherwood, which gives the people
of the southern part of the county
an opportunity to attend a suffrage
meeting without taking the long
ride to Auburn.

Crops Not Affected By Moon.

Scientists are now convinced that
the moon has no more influence on
crops than it has upon the temper-
ature or the amount of rain or the
winds or any other weather element.

The growth of plants depends upon
the amount of food in the soil and
in the air that is available for them
and upon temperature, light, and mois-
ture. The moon obviously does not
affect the character of the soil in any
way, neither does it affect the com-
position of the atmosphere. The only
remaining way in which it could
influence plant growth, therefore, is
by its light. Recent experiments,
however, show that full daylight is
about 600,000 times brighter than
full moonlight, yet when a plant gets
1-100th part of normal daylight it
thrives little better than in absolute
darkness. If 1-100th part of normal
daylight is thus too little to stimulate
a plant, it seems quite certain that a
600,000th part can not have any af-
fect at all. It is therefore a mere
waste of time to think about the
moon in connection with the planting
of crops. The moon, say the scien-
tists, has nothing more to do with
this than it has to do with the build-
ing of fences, the time for killing
hogs, or any other of the innumera-
ble things over which it was sup-
posed to exert a strong influence.—
Weekly News Letter, U. S. Dept. of
Agriculture.

We offer one hundred dollars re-

ward for any case of Catarrh that
cannot be cured by Hall's Catarrh
Cure.

F. J. Cheney & Co., Toledo, O.
We, the undersigned, have known
F. J. Cheney for the last 15 years,
and believe him perfectly honorable
in all business transactions and fi-
nancially able to carry out any obli-
gations made by his firm.

National Bank of Commerce,

day.

KNOW THY COUNTRY

I—Introductory

"Know America" is a slogan that should ring out from every school room, office, farm and shop in this nation. No man can aspire to a higher honor than to become a capable citizen, and no one can merit so distinguished a title until he is well informed of the resources, possibilities and achievements of our country.

This is a commercial age and civilization is bearing its most golden fruit in America. We are noted for our industrial achievements as Egypt was noted for her pyramids; Jerusalem for her religion; Greece for her art; Phoenicia for her fleets; Chaldea for her astronomy and Rome for her laws. Likewise we have men who will go down in the world's history as powerful products of their age. For, standing at the source of every gigantic movement that sways civilization is a great man. The greatest minds travel in the greatest direction and the commercial geniuses of this age would have been the sculptors, poets, philosophers, architects, and artists of earlier civilizations.

As Michael Angelo took a rock and with a chisel hewed it into the image of an angel that ever beckons mankind upward and onward, Hill took the desert of the Northwest and with bands of steel made it blossom like a rose, dotted the valleys with happy homes and built cities in waste places.

As Guttenberg took blocks of wood and whittled them into an alphabet and made a printing press that flashed education across the continent like a ray of light upon a new born world, McCormick took

a bar of iron and bent it into a reaper and with one sweep of his magic mind broke the shackles that enslaved labor of generations yet unborn, and gave mankind freedom from drudgery, and lifted the human race into a higher zone of life.

As Nelson organized the English navy and made England mistress of the sea; enabling the British Isles to plant her flag upon every continent washed by the ocean's waves, and to make footstools of the Islands of every water. Morgan organized a banking system that has made America master of the world's finances, brought Kings to our cashier's windows, the nations of the earth to our discount desks and placed under the industries of this nation a financial system as solid as the Rock of Gibraltar.

There is no study quite so interesting as progress; no sound so magic as the roar of industry and no sight so inspiring as civilization in action. A full realization of America's part in the great events of the world past, present and future will thrill every human heart with pride, patriotism and faith in Republican institutions.

Through the courtesy of the Agricultural and Commercial Press Service, the readers of this paper will be permitted to study America; her agricultural, manufacturing and mineral development, mercantile, banking and transportation systems which are the wonder of the world. The first article of the series will deal with transportation and will appear at an early date.

KNOW THY COUNTRY

II—Railroads

In discussing the commercial achievements of this great age, we shall approach the subject as the historian chronicling events. This series will endeavor to record in writing the supremacy of American men and industries in the world's affairs and perpetuate an appreciation of our marvelous industrial achievements by presenting simple facts, figures and comparisons that are overpowering in their convictions.

America holds her proud place among the nations of the earth today on account of her supremacy in transportation facilities. The mighty minds of the age are engaged in the problems of transportation, and the greatest men in the history of the world's commerce are at the head of the transportation systems of the United States.

In the discussion of transportation, let us consider separately our Railways, Telegraph and Telephone, Express, Public Highways, Steamships, Street Railways, Interurban and other forms of transportation, and this article will deal with railroads.

The United States has the largest mileage, the best service, the cheapest rates, pays labor the highest wages, and we have the most efficiently managed of the railroads of the world. They stand as a monument to the native genius of our marvelous builders, and most of the railroads in foreign countries have been built under American orders.

The railroads represent a larger investment of capital than any other branch of human activity. The mileage in the United States exceeds

the accepted distance from the earth to the moon. We had in 1911, the last year in which figures for all countries are available, on the earth's surface, 639,581 miles of railway divided as follows: United States 241,199, Europe 297,432 and other countries 191,350. The United States has 38 per cent of the world's mileage, seven per cent of the estimated population and about five per cent of the area. The total capital invested in the railroads of the world is \$50,000,000,000, divided as follows: United States \$13,000,000,000 Europe \$25,650,000,000 and other countries \$11,350,000,000. Reduced to a mileage basis the capitalization is as follows: The world \$78,000, United States \$54,000, Europe \$124,000, and other countries \$59,000.

A comparison of rates is equally as interesting and the United States takes the lead in economy and service. The average rate per ton per hundred mile haul is as follows: United States 76c, Great Britain 2.53, France 1.44, Germany 1.44, Russia 92c, Austria-Hungary 1.30, Italy 2.30 and Switzerland 2.82.

The average yearly pay of all railroad employes in the principal countries is as follows: United States \$757, Germany \$392, Italy \$345, Austria \$322, Great Britain \$279, France \$260 and Russia \$204.

About 30 per cent, or 188,000 miles, of the railroads of the world are government owned. About half the railway mileage of Europe is government owned.

A comparison of the economy, in time and money and the convenience in travel, will be made in a later article.

KNOW THY COUNTRY

III—Telegraph and Telephone

Our transportation facilities are the most perfect product of this great commercial age and the telegraph and telephone systems of this nation crown the industrial achievements of the whole world. These twin messengers of modern civilization, born in the skies, stand today the most faithful and efficient public servants that ever toiled for the human race.

They are of American nativity and while warm from the mind of the inventive genius have, under American supervision, spun a network of wires across the earth and under the seas. Telegraphy, in its early youth, mastered the known world and the telephone has already conquered the earth's surface, and now stands at the seashore ready to leap across the ocean.

No industry in the history of the world has ever made such rapid strides in development and usefulness, and none has ever exerted a more powerful influence upon the civilization of its day than the Telegraph and Telephone. Their achievement demonstrates the supremacy of two distinct types of American genius— invention and organization.

The industry was peculiarly fortunate in having powerful inventive intellects at its source and tremendous funds to direct its organization and growth. It is the most perfect fruit of the tree of American industry and when compared with its European contemporaries, it thrills every patriotic American with pride.

Ambitious youth can find no more in-

spiring company than the fellowship of the giant intellects that constructed this marvelous industry and a journey along the pathway of its development, illuminated at every mile-post of its progress by the lightning-flashes of brilliant minds, will be taken at a very early date.

A brief statistical review of the industry brings out its growth and magnitude in a most convincing and unforgettable manner.

The telephone service of the United States is the most popular and efficient and its rates are the cheapest of the telephone systems of the world.

We are the greatest talkers on earth. We send 60 per cent of our communications over the telephone. The world has about 15,000,000 telephones and of this number the United States has approximately 9,540,000, Europe 4,020,000 and other countries 1,300,000. According to the latest world telephone census, the total telephone investment is \$1,906,000,000 and of this amount \$1,095,000,000 was credited to the United States, \$636,000,000 in Europe and \$175,000,000 in other countries. The annual telephone conversations total 24,600,000,000 divided as follows: United States 15,600,000,000; Europe 6,800,000,000, and other countries 2,200,000,000. The total world wire telephone mileage is 33,262,000 miles divided as follows: United States 20,248,000, Europe 10,235,000, and other countries 2,679,000. About six per cent of the world's population and sixty-one per cent of the telephone wire mileage is in the United States.

The Best Objective, Salvation

By REV. J. H. RALSTON
Secretary of Correspondence Department
Moody Bible Institute, Chicago

TEXT—I press toward the mark for the prize of the high calling of God in Christ Jesus.—Phil. 3:14.

In seeking an objective, the principle that nothing should be accepted but the best, should be adopted.

When men were thinking deeply, and the great doctrines of the Protestant faith were being put into creedal form, it was declared that the chief end of man was the glory of God, and nothing has transpired since to show that this was an error, but every-

thing has shown most conclusively that the statement was justified. A man who lives with the glory of God in view will not, cannot fall.

The Thoughtless Multitudes. Nothing is much more disheartening than to watch the multitudes, especially in our crowded cities, who seem to have no goal in view. They seem to exist for the moment—butterflies that flit before you for an instant and then are gone. If other companies of people are considered, the fact still confronts one. If bread and butter can be secured, there is no more concern; but the swine get to that point. Young people in the schools may have a somewhat larger appreciation of their mission or goal, but must go forward with nothing in view.

In a small volume recently issued there is this quotation: "The world stops to let the man pass who knows whether he is going." That man has an objective, a goal, commands universal respect, and the world gives him passage. If this sermon falls into the hands of some young person, whether he is a Christian or not, let him know that he must have a goal in view or he will fall in life, and if the goal is not one that relates him to God the failure will be the greater and more deplorable. And, if a person has a goal and resolutely keeps his eye on it, he will not be diverted by anything. If the goal is that set before him in Paul's "fullness of the stature of Christ," he will not be diverted by any of the many religions now seeking the attention of people throughout the world. To him, the religion of Paul, Luther, Calvin and Wesley will be accepted as reliable and worthy of following until the goal is reached.

Paul's Objective. In the text, Paul, who was a man doing only one thing at a time, said that he pressed toward the mark for the prize of the high calling in Christ Jesus. Without considering the strictly theological bearing of these words, let us note the source of the call. He who calls is God, who knows man, his capacities and possibilities, and sets before him his best, and he calls to him to make the attempt to reach it. Every person, old or young, should remember that it's God that is calling—not man, nor the greatest of men—and when God calls who dares be indifferent?

To what is the call and what is the goal? It is to the realization of Jesus Christ in all his fullness. Paul speaks in a certain place of "the measure of the stature of the fullness of Christ," which is to say, Christ, in all that he is and may be to us. Presuming that that fullness applies to all that Christ offers, let us know that to attain this two things at least must be kept in mind.

Jesus as Savior and Lord.

First, the recognition and acceptance of Jesus Christ as a savior, personal and sufficient. This involves the surrender of the intellect, the heart, and the will; in fact, the surrender of the life. Second, it is a recognition of the kingship, or lordship, of Christ. Many seem to be willing to accept Christ as savior, but they do not recognize him as Lord. The failure of the latter utterly vitiates the former—no savior unless Christ be Lord. This carries us back to the realm of the Puritans, who saw that the chief end of man was the glory of God, for man who accepts Jesus Christ as savior and Lord makes every thought, word and action tend to his glory and his honor.

This will naturally lead to the realization of man's goal—companionship and partnership with Jesus Christ. The realization of Paul's prayer can only partially be secured on this earth, but the perfect realization will be when we are with him where he is. This should be the ultimate goal—to be with Christ.

The goals of life which seem attractive and in some senses worthy soon pass like the chaplet on the brow of the ancient athlete, but there is a goal for everyone which, if reached, will secure a crown, a golden crown, that is precious and durable.

Have a goal; have a vision; secure an objective; keep your eyes steadily on it and you will reach it, and, by all means, let the objective of all be—the attainment of the stature of the fullness of Christ.

There is no excellence without labor.—Wirt.

Temperance

(Conducted by the National Woman's Christian Temperance Union.)

BEER A POISON.

(By T. D. CROTHERS, M. D.)
The boasted claims that beer is a food and gives vigor and strength are contradicted by statistics. In Munich, Germany, where the largest quantity of beer is consumed, per capita, of any city, the mortality rate from heart and kidney diseases is double that of any other city. Everywhere this is confirmed. The beer drinker dies early from diseases of the heart and kidneys.

If beer had any food elements and were a tonic, exact measurements and studies of statistics would confirm it, but the evidence from these sources is entirely the opposite. The congested face, bloated body and dullness of body and mind are the best evidences of the poisoning and degenerative processes going on. There can be no conflict of opinions on this, because it can be measured and stated in mathematical terms, regardless of the theories.

Alcohol absorbs the water from the cells and tissues, breaks up and diminishes their nutritive power, while beer creates new fermentative and chemical changes in the stomach. These processes are cumulative, not only destroying the balance between waste and repair, but adding intensely to the waste, which permanently disturbs and destroys the vigor and health of the body.

Beer is a most insidious poison because it produces other poisons, and starts new processes of degeneration that are unknown until the final collapse reveals them.

PROBABLE ACTION OF SWEDEN.

Is Sweden to be the second nation of the world to outlaw the liquor traffic—the first to follow the example of Russia? From the statements of Mr. Frederick Peterson in a recent magazine article it seems probable. He says: "The present crown prince, who will be the next king if he survives his father, is a total abstainer and forbids the use of liquor in his household. Both houses of the parliament are increasing their temperance membership. Edward J. Wavrin, the head of the Good Templars of the World, is the temperance leader, as well as leader of the Social Democrats in the upper house." Mr. Peterson states that "133 of the 220 members of the house are total abstainers, and the majority of these are Social Democrats. This party has 87 members in the lower house and 14 in the upper, it being in the majority. In 1896 there was one member representing the Socialists in the lower house and exceedingly few total abstainers. Now the Socialists are the leaders on this question. The working classes, the small wage earners, constitute this party. Who better than they know the evil of intemperance? Woman municipal suffrage has placed many able women in city governments. They are leaders in the temperance army, and it is sublime to see them and hear them speak for home against the rum-seller whether it be in the public forum or in the city council."

LAST WORD IN BREWERY BUILDING.

An immense placard on the top of a big brewery recently erected in Philadelphia was a cause for comment by citizens who saw in it an unintentional prophecy. It read, "The Last Word in Brewery Building." Harry H. Paisley of Philadelphia, treasurer of the Reading railway and allied corporations, in a speech made at the annual banquet of the Pottsville Y. M. C. A., called attention to the appropriateness of the placard in view of the fact that the liquor traffic is doomed. He declared that the one service for the uplift of society today is the bringing about of the death of the liquor traffic. He said the handwriting is on the wall and all liquor dealers and brewers would do well to get out of the business at once.

SLUMP IN BREWERY VALUES.

The growing temperance sentiment is responsible for the fact that the Pittsburgh Brewing company paid no dividends this year. As a result of the company's action, the common stock was forced down several points; and Pittsburgh Brewing company bonds dropped to a low-record price. Independent Brewing common also declined three-fourths to two and three-fourths.

RESTRICT BEER OUTPUT.

According to the Lokal Anzeiger, restrictions have been imposed on beer production in Germany. First, the brewers were required to cut down the amount of malt 50 per cent. Then a decrease of 40 per cent was ordered—the authorities, later, to fix definitely the amount of malt each brewery may consume.

UNMITIGATED NUISANCE.

The saloon is a nuisance. The evil can no more be confined to the building in which it exists than the odor of a slaughter house to the block in which it is located.—William Jennings Bryan.

WORKINGMAN'S FRIEND.

Every friend of the workingman will vote against the saloon every time he gets a chance, and to close it up, not only on Sunday, but upon every day of the week.—P. M. Arthur of the Brotherhood of Locomotive Engineers.

MUTTON, MONEY AND DRESS.

Eccentric Henry Cavendish and Some of His Queer Ways.

Whenever Henry Cavendish, the famous English chemist and physicist, entertained his guests he would always give them the same fare—a leg of mutton.

When this eccentric gentleman died he was the largest holder of bank stock in England. He owned \$1,157,000 in different public funds, besides freehold property of \$3,000 a year and a balance of \$50,000 on account.

Why does woman chafe under restraint of sex? Why revile the hand of nature? Why discard the skirts that civilization has clung to since the beginning of time?

Why this inordinate thirst for power? Is not woman all powerful? Man cannot enter this world without her consent, he cannot remain in peace without her blessing and unless she sheds tears of regret over his departure, he has lived in vain.

Referring to an article on the unusual Christian name as an aid to fame, a correspondent kindly submits some specimen names for perplexed parents.

In 1878 a London journal announced the marriage of a lady whose first name was—take a deep breath—Tetuanrelaterutiate, but it omitted to mention what she was called in the bosom of the family.

Odd combinations of names resulted from the system of nomenclature followed by the Puritans. James Brome in his "Travels Over England, Scotland and Wales," published in 1760, gives a copy of a "Jury Return Made at Rye, Sussex, in the Late Rebellions, Troublesome Times."

Wonderful Earthworms. As Darwin long ago showed, the earthworm is the farmer's friend. Its burrows drain and aerate the soil, while the earth which has passed through its body is finely divided and is constantly being brought to the surface from lower levels.

A Lesson in Politeness. Armed with a subpoena a deputy sheriff went out to serve it on a wealthy and extremely snobbish manufacturer, whom he met at the gate of the manufacturer's country house.

A Word to Parents. Never amuse your children at the expense of other people. Never allow your children to ridicule other people. Neglect this advice and the time will assuredly come when these children will amuse themselves with your follies and ridicule your authority.

WHY IS WOMAN RESTLESS?

DESTINY OF NATIONS DEPENDS UPON CONTENTED HOMES.

By W. D. Lewis. President Texas Farmers' Union. Why is woman dissatisfied? Why does she grow restless under the crown of womanhood? Why is she weary of the God-given jewel of motherhood?

Why does woman chafe under restraint of sex? Why revile the hand of nature? Why discard the skirts that civilization has clung to since the beginning of time?

Why this inordinate thirst for power? Is not woman all powerful? Man cannot enter this world without her consent, he cannot remain in peace without her blessing and unless she sheds tears of regret over his departure, he has lived in vain.

NEW YORK NEWS ITEMS IN BRIEF.

Paragraphs of Interest to Readers of Empire State.

News of All Kinds Gathered from Various Points in the State and So Reduced in Size That it will Appeal to All Classes of Our Readers.

Daniel B. Sweeney has been appointed postmaster at Middletown. Ground has been broken for the erection of an Episcopal church in East Rochester.

George Jackson, colored, had both legs broken in a spectacular runaway accident in Olean. Arrangements are being made for the woman suffrage convention in Batavia next Saturday.

Police rescued Thomas Di Stefano from a mob in New York after he had attacked a girl with a knife. George A. Bagley, aged 87, congressman from the 32d New York district from 1875 to 1879 died in Watertown.

Witnesses established a complete alibi for Frank Fuzia, held in New York in connection with the "ripper" cases. Arno Fritsch, an Ebenzer farmer, was killed in a runaway accident, his team becoming frightened at a passing train.

Assembleman Wheeler's bill to amend the charter of the city of Canandaigua generally have received executive approval. Charles Bentley's farmhouse, near Mt. Morris, was badly shattered, but not set on fire by a bolt of lightning during a storm.

Mistaking cyanide of potassium for epsom salts, Henry O'Neill, Olean carpenter, died at Endicott after taking the fatal potion. On its bid of \$6,000 the Warsaw Construction company has been awarded the contract for the bridge to be built at Pearl Creek.

Windows were broken in a house in Auburn occupied by four Polish families, the result of a mysterious explosion of dynamite. Union Theological seminary, located in New York, has ceased to be in any sense a Presbyterian institution, so a committee reports.

Harold J. Hinman, majority leader in the assembly, has resigned as assemblyman to take up his duties as deputy attorney general. C. L. Rockwell of Glens Falls died in the Clifton Springs sanitarium, where he had been a frequent visitor during the pasty 35 years.

William J. Cummins, once president of the Carnegie Trust company in New York, is to be transferred from Sing Sing to Great Meadows. Judge Clearwater of New York testified in Albany to the effect that a majority of the juror commissioners of the state are political feelers.

For the second time, an investigation of Lockport city finances by state authorities is under way. Probers in January found a \$30,000 deficit. Governor Whitman has refused to sign a bill which would exempt spiritualists from a law prohibiting the alleged forecasting of future events.

Alvin G. Warner, who resides two miles north of Manchester, has a calf a week old which has a lower set of teeth growing from its tongue. William M. Nimbs, 74 years old, an old United States Express messenger running between Buffalo and New York, died at his home in Elmira.

George M. Thompson, express agent at Warsaw, has been granted a divorce from his wife, Florence May Thompson, who is now in New England. John Gosman, a farmer living in the Five Mile Valley, south of Humphrey township, was seriously injured when his team of horses ran away, breaking his leg.

George Leid, who resided alone one mile from Angelica, and who was 40 years old, blew the side of his head off with a shotgun. He is survived by two sisters and one brother. Fire destroyed the McKinley block in Clayton, entailing a loss of about \$40,000. The flames started shortly after midnight and the various stores in the block were soon doctored.

Joseph Marquin, a steel maker, residing in the town of Colonia, west of Troy, was instantly killed when he picked up a live wire which the high wind had evidently blown down. The lifeless body of John McCarthy, 50 years old, was found hanging in an upper room at his home in Medina. Mrs. McCarthy made the discovery. He leaves a wife and three small children.

The village trustees of Perry have ordered an 8,000-gallon storage tank which will be installed on land owned by Joseph Ireland and used for the storage of the oil used in oiling the streets. Pretty society girls at Yonkers were selling kisses at ten cents each at the society circus there, the proceeds of which will be used to erect a children's pavilion at St. John's Riversiders hospital.

Mrs. Mabel Wade Goucher, wife of Dr. William E. Goucher of Jamestown, was drowned in Stillwater creek while saving the eight-year-old daughter of Mrs. Marcus J. Norquist of Jamestown. Burglars who broke into Austin & Smith's drug store, Cole, Freeman & Co.'s general store and W. D. Wells' hardware store in Spencerport got away with some cash and a considerable quantity of goods.

Between 30 and 40 workmen in the Auburn shoe factory of Dunn & McCarthy struck, alleging that one of their number had been discharged without sufficient reason and also because of a cut in price. It was announced semi-officially that James Dudley of Hamburg practically has been decided upon for the position of mortgage tax examiner, department of the state tax commission, at a salary of \$2,000 a year.

While working with Harry Rynders on a hay press in the town of Jerusalem, Harry Hager of Pennsylvania, was seriously injured when the sweep flew back, striking him in the stomach, resulting in a hemorrhage. Frank Norris has been appointed town clerk of Attica to fill the vacancy caused by the resignation of Frank Timm. Mr. Timm held the office for 16 years and resigned to take the position of postmaster at Attica.

Thirteen persons, convicted in New York in 1911 of conspiring to control the supply and price of poultry, must pay fines of \$500 each and serve three months in the penitentiary, the court of appeals at Albany has decided. Word was received at Jamestown that the executive committee of the state grange had decided to hold the next annual meeting of that body in that city next February. The grange concluded its meeting at Syracuse.

One man was killed, another probably fatally hurt and four other severely injured when an auto driven by Warren Brown of Sidney turned turtle. Brown was killed, Timothy Poole of Oneonta suffered a fractured skull. Miss Katherine Watson has been appointed postmaster at Carrollton, Cattaraugus county, to succeed the late Amos Watson. John W. Moffatt was appointed postmaster at Humphrey Center, Cattaraugus county, to succeed Mrs. L. Butler, resigned.

Because seven pounds of flesh had to be cut from his left side and arm, which had been burned by a live wire, Arthur Flawn, an electrician, employed by the New York Central railroad, at White Plains, was awarded a verdict of \$20,000 against the corporation. The constitutional convention has fixed June 11 as the last day for the introduction of proposals by individuals in that body. After then proposed amendments may be offered only by the suspension of rules, unanimous consent, or through a committee.

A man, whose man is believed to be C. H. Pierson of Cassadaga, N. Y., was hit by a Nickel Plate freight train in Dunkirk, and probably, fatally injured. He tried to get across before the freight, the approach of which he was warned by the crossing watchman. Checks for the final dividend of 10.4 per cent recently declared by Trustee in Bankruptcy George W. Salisbury were distributed among the creditors of John H. Roy, deceased, proprietor of a Phelps banking house which went into bankruptcy in June, 1910.

"My wife is always nagging me, so I wanted to be sent to jail. Perhaps when I get out, she'll appreciate me," so declared Adam Fath, of Yonkers, charged with hurling a brick through a store window. He was remanded to a cell pending truth of his wife's story. After an absence of 27 years, Lafayette Magee, now 74 years old, recently came from Wichita, Kan., to Olean with the hope of remarrying his wife, from whom he had obtained a divorce. The woman, whose mind is somewhat unbalance, was unable to recognize him, and he is about to return to his Kansas farm.

William Schafer of Avon, a Wells-Fargo express railway messenger, was severely bitten by a dog in an express car on the way from Avon to Batavia. The dog escaped from his shipping crate in the car and when Schafer attempted to put the animal back it bit both his hands. Brooding over the recent death of his wife until his mind has become affected, John Drees of Rochester, a lark maker, committed suicide by drinking carbolic acid.

After a quarrel with his wife over the house rent William J. Welch of Rochester, 26 years old, committed suicide by inhaling gas. His dead body was found later. Driving across the Nickel Plate tracks in Dunkirk, Charles H. Piersons of Lily Dale, a prominent farmer, was struck and fatally injured by a freight train. District Attorney Claude V. Stowell, of Corning raided the luncheon of Ezra Lynch of Addison and seized 30 cases of beer and a quantity of whisky and wine as evidence.

Brooding over the recent death of his wife until his mind has become affected, John Drees of Rochester, a lark maker, committed suicide by drinking carbolic acid. After a quarrel with his wife over the house rent William J. Welch of Rochester, 26 years old, committed suicide by inhaling gas. His dead body was found later.

Friday Morning, May 21, 1915

Law Enforcement League.

At a recent meeting of some of those interested in Law Enforcement in the town of Genoa, after some discussion the constitution printed below, was adopted. At a later meeting the following officers were chosen to carry on the work for one year: President, Joel Corwin; vice presidents, J. D. Atwater and Bert Smith; secretary, Wilbur Shaw; treasurer, Ward Atwater. Every man in this town or adjoining towns interested in securing law observance is urged to join this organization. Those wishing to become members will have a chance to sign the constitution by seeing any of the officers, or by applying at the Atwater store in King Ferry, or the Hagin store in Genoa.

CONSTITUTION.

1. Name: This organization shall be called "The Law-Enforcement League of the Town of Genoa."

2. Object: The object of this organization shall be law-enforcement and reform.

3. Officers: The officers of the society shall consist of a president, two or more vice-presidents, secretary, treasurer, executive committee consisting of all the officers just named and the clergymen of the township of Genoa, and a law-enforcement committee of three members appointed by the Executive committee.

4. Duties of Officers: It is to be the duty of the president to preside at all regular and special meetings of the organization. It shall be the duty of the vice-president to preside in the absence or inability of the president. It shall be the duty of the secretary to keep an accurate record of all the regular and special meetings of this organization. It shall be the duty of the treasurer to receive and disburse all the funds of the society; he shall not have authority to pay any bill until it has been authorized by the Executive committee. It shall be the duty of the Executive committee to carry out the policy of this Law-Enforcement league as defined at its regular or special business meetings in fulfilling the objects of the society as named in the second article. It may hold public meetings, distribute literature, make a personal canvass of voters, appoint necessary committees, or perform any other acts consistent with the policy of the society, and shall report to each regular meeting a record of work performed. It shall be the duty of the Law-Enforcement committee to proceed in securing evidence, looking toward the arrest and conviction of persons violating the law. The committee shall be given exclusive option as to the time and manner of carrying on such law-enforcement work.

5. Membership: Any man of legal age in the township of Genoa or in a neighboring township, may become a member of this organization by vote of a two-thirds majority of the members present and voting at any meeting of the organization regularly called.

6. Meetings: After the organization of this society, the annual meeting for the election of officers and the transaction of other necessary business shall be held the second Monday in November. Other meetings may be called by the president upon a three days' notice at any time upon the written request of the Executive committee, or of three

other regular members of the organization.

7. Financial Support: Each person who is elected to membership and actually becomes a member by signing the constitution, shall be invited to contribute annually toward carrying on the work of the organization.

8. Provision for Amendment to the Constitution: Amendment to this constitution, may be made at any regularly called meeting. It shall be signed by at least three members and submitted to the secretary at least ten days before calling of meeting at which the proposed amendment is to be considered. The secretary shall inform the members of the nature of the proposed amendment at least three days previous to time of meeting. An amendment shall be adopted on the affirmative vote of two-thirds of members present and voting.

Genoa Presbyterian Church.

Morning service at 11:00 a. m. Every one very cordially invited to worship with us. This week the pastor and his wife are attending the meeting of the General Assembly of the church, at Rochester. The service Sunday will be in charge of Rev. Matthew G. Henry, of Geneva, N. Y., who is remembered as pastor of the church more than twenty years ago. It is hoped that there will be large audiences both morning and evening to welcome Mr. Henry to his former pulpit. Sunday school immediately at close of morning service. Last Sunday there were more people at Sunday school than there were at the morning service.

Christian Endeavor at 6:30—Topic: "Religious Reading; What and Why?" Evening service at 7:30. Song service followed by sermon by Rev. Matthew G. Henry.

Thursday evening service, at 7:45. Topic: "The Gift of Power"—Acts 1:8.

Summer Courses in Agriculture.

Twenty-four new courses have been added to those given during the regular summer term of the state college of agriculture at Cornell, according to an announcement which has just been made. The new term starts on June 7 and ends on Sept. 22.

As stated in the announcement, "the primary purpose of the summer term is to take advantage of the growing season in teaching subjects to students regularly registered in either graduate or undergraduate classes." Opportunity is also provided for advance students, teachers, and for persons otherwise occupied during the winter months, to take long periods of special work.

As in the other regular terms of the college the tuition will be free to residents of New York state. For non-residents, except those registered in the graduate school, the fee will be \$62.50.

Country Schools.

Some very interesting facts are found in the report by Commissioner Finley on our country schools. There are 11,640 elementary schools in the state of which 8,430 are one-room schools. In 3,580 of these the average attendance for 1913 was 10 or less. There were 13 with only one pupil each, 74 with only two pupils, 172 with only three, 235 with only four and 362 with only five. The state contributes from \$125 to \$200 to each one of these schools whatever the average attendance. The valuation of property in about one-half of the one-room school districts is less than \$40,000, a valuation which at one per cent. would yield a maximum of only \$400 for school purposes. The commissioner sees only two ways by which these conditions can be remedied. One is by consolidation of school districts and the other by the creation of a larger unit of taxation and administration.

It is not safe to use a telephone during an electric storm. Near Nichols, Tioga county, recently Wright Dunham picked up a telephone receiver when a bolt of lightning ran over the telephone wire into the house and he was knocked to the floor. The lightning burned his body in several places. He was unconscious for some time, and later went into convulsions and for a time it was feared he would die.

The inducement. "He showed her a fine building lot in a fashionable suburb just before she agreed to be his." "Ah, a case of love at first sight!"—Baltimore American.

"A kiss in time saves trouble."—London Standard.

"No, merely a subeditor." "Cheer up, young man! Shortly after my chef has finished his perusal of the cookery book you will be editor in chef."—London Answers.

"That's a very handsome painting," said the visitor to the home of opulence. "Is it by one of the old masters?" "I should say not," responded Mrs. Newrich indignantly. "Why, that picture is in the very latest style."—Richmond Times Dispatch.

When we hear a man say that he would rather have a clear conscience than a million pounds we are reminded of what David said all men were.—London Standard.

BARRIE'S LITTLE JOKE.

He Was a Failure as a Presiding Officer and He Knew It.

There is only one recorded instance of Sir J. M. Barrie's acting as chairman of a public meeting. In the Century Magazine Mr. John D. Williams told the story to the American public. It was on the occasion of a Burns celebration.

Barrie took the chair as presiding officer and then kept to it firmly. Throughout the entire proceedings he did not utter a single word, but remained as if glued to the horribly conspicuous chair, loathing his predicament, but inwardly amused at the expressions on the faces of all about him, which made dimly clear the fact that he was a failure as a presiding officer.

When the meeting was almost half finished Barrie took advantage of a relative group in front of him and quietly stole away before any one had a chance to miss him. But the next week a well known Saturday review printed a satirical article called "Mr. Barrie in the Chair." The thing was simply withering in its ironical account of the dumb presiding officer who eventually fled, leaving a meeting to preside over itself. The greatest regret was naturally expressed by those who had persuaded Barrie to come to the Burns celebration, and among his friends tremendous indignation was felt and vented. But some day they will know, if they have not already found out, that the article was written by Barrie himself!

NAVAL TORPEDOES.

Intricate Mechanism of These Awful Engines of Destruction.

At the torpedo's head is an explosive chamber which holds damp gun cotton. This is fired by means of a rod which, on contact with the walls of a ship, is driven in upon a detonator. This fires a primer, which in turn explodes the gun cotton.

The next chamber stores compressed air to the pressure of 2,000 pounds to the square inch. This is practically the boiler room of the torpedo, for it supplies the motive power to the four cylinder engine which drives it through the water on its errand of destruction.

Next comes the wonderful gyroscopic control of the air motor by which the rudders are adjusted. This is where the intricate mechanism of the torpedo is so clearly demonstrated. Should it rise or dip in the water this gyroscope actuates a motor which in turn operates rods related with the rudders and at once readjusts any deflection from the course originally set.

The motor mentioned is but a few inches in length, yet the power it exerts by means of compressed air is such that the pressure of half an ounce operated by the steering gear produces a pull of 100 pounds on the rudders. This terrible fish's tail holds wheel gearing for the driving of two propellers and the manipulation of the rudders. The propellers revolve in opposite directions, thereby preventing the torpedo describing a circle.—London Answers.

Women and the Old Olympic Games.

One rule of the original Olympic games could not be followed nowadays without provoking serious troubles. Women were not allowed to be present or even to be anywhere in the district when the games were being celebrated on pain of being hurled from a precipitous rock. This rule is believed to have been defied only once, when the offender was pardoned in consideration of the fact that her father, brothers and son had been victors in the games. One particular priestess, however, was not only exempt from this law, but was accommodated with a special front seat on an altar of white marble, and women were allowed to enter chariots for the races, though they might not be present to see them win.

He Was She.

In a college for women where the faculty consists chiefly of the gentler sex a meeting of the academic council was in progress. Here and there a lone man sat surrounded by learned ladies. An amendment had just been proposed.

"Where is the person who offers this amendment?" inquired the president. "Who is she?"

Whereupon Mr. Skeets, the popular young professor of a favorite subject, rose and replied deprecatingly. "I am she."—New York Post.

Promotion.

"And what," asked the cannibal chieftain, in his kindest tones, "was your business before you were captured by my men?"

"I was a newspaper man," answered the captive.

"An editor?"

"No; merely a subeditor."

"Cheer up, young man! Shortly after my chef has finished his perusal of the cookery book you will be editor in chef."—London Answers.

Shopworn Goods Barred.

"That's a very handsome painting," said the visitor to the home of opulence. "Is it by one of the old masters?"

"I should say not," responded Mrs. Newrich indignantly. "Why, that picture is in the very latest style."—Richmond Times Dispatch.

Cynical.

When we hear a man say that he would rather have a clear conscience than a million pounds we are reminded of what David said all men were.—London Standard.

A kiss in time saves trouble.—London Standard.

Want a good toilet? Hagin has them. They're giving satisfaction, too. Phone or write. 28tf

—If you are a farmer or business man, don't use a rubber stamp on your letterheads and envelopes. It does not cost much to have neatly printed stationery. And it means dollars to you. Cheap stationery makes you look like a cheap man, which means that you pay dearly for everything you buy.

NOTICE—When I left Genoa I was obliged to leave unpaid debts amounting to over \$4,000. I have paid all these debts. Fearing that there may be some account remaining against me that I have forgotten, I hereby state that I am prepared to pay any such account upon presentation of an itemized statement. Even if the account is outlawed it will be paid if the claim is correct. My address is Dr. George Slocum, 311 South State St., Ann Arbor, Mich. 38wt

The codfish lays a million eggs. While the helpful hen lays one; But the codfish does not cackle; To inform us what she's done; And so we scorn the codfish coy. But the helpful hen we prize; Which indicates to thoughtful minds It pays to advertise.

—Commencement of Ithaca High school will be held June 25. The graduating class numbered 105.

—The New York State Convention of the Fraternal Order of Eagles will be held in Auburn, June 6 to 9 inclusive.

—Memorial services will be held in the Venice Baptist church on Sunday, May 30. There will be a special sermon by the pastor and exercises by the children.

—The reward offered for information leading to the location of the present whereabouts of Charles Bruce, who disappeared from his home near Stratton's Crossing several weeks ago, has been raised to \$1,000.

—Peach orchards in Wayne county, it is said, never looked in better condition than at the present. The trees have blossomed earlier than in any season for twenty years and the bloom is in such proportions as to indicate a bumper crop.

—Mrs. Maria Elizabeth Cook, for forty-three years a teacher at the institution for feeble-minded children at Syracuse, died recently at Decatur, Ill. She was born at Cortland, June 16, 1836.

Bread and Cakes fresh every day at Smith's.

—Newark Valley High school will add a course in domestic science next year. The school has a course in agriculture, paying the teacher in that department a salary of \$1,050.

—The Democrats at Hammondsport have settled the question of who should be postmaster by holding an election, at the suggestion of Postmaster-General Burleson. Two hundred and one votes were cast in a hot fight.

—Warr Lamkin of Ledyard, who with Mrs. Lamkin spent the winter in Florida, expects to leave Jacksonville on May 23 by the steamer Mohawk for New York. Mrs. Lamkin returned two weeks ago.

—Mrs. N. D. Phetteplace of Norwich and Mrs. C. M. Brown of Syracuse are said to be the oldest living twins in the state of New York, being 73 on Feb. 4 of this year. They were born in Pharsalia, Chenango county.

—The farmers in the town of Scriba, Oswego county, claiming that during recent years many valuable stock animals have been killed by careless hunters, are organizing a protective association to prevent hunting on their lands.

—The New York Central station at Utica will soon become a union station as arrangements have been completed for the Lackawanna and the Ontario and Western railroad to run their passenger trains to that station affording greater convenience for travelers.

—The district Sunday school convention at Locke last Saturday afternoon and evening proved to be an unusually interesting and helpful gathering of Sunday school workers. Rev. and Mrs. Scott of Genoa were in attendance and Mr. Scott gave an address in the afternoon.

Cut flowers, wreaths, bouquets, potted plants and fresh green ferns at Hagin's Grocery, Genoa. 28tf

—The board of education of Genoa High school have secured the following new teachers for the coming year: Mr. Lynn Hakes, principal; Miss Elizabeth Reiser, grammar dept.; Miss Edna French, primary. Miss Malehoff and Miss Woods, who are teaching here this year, will remain the coming year.

—The remains of Walter V. Brown, youngest son of the late Captain Daniel Brown and Matilde Hilliard his wife, who died on Feb. 11, 1915, in Cortland, N. Y., at the age of 56 years, were brought to King Ferry on Friday, May 14, and placed in the family lot in King Ferry cemetery. Rev. W. H. Perry conducted the burial services at the grave.

—Captain Richmond Pearson Hobson, the silver tongued advocate of National Prohibition, will be the speaker at a mass meeting in the First Presbyterian church of Auburn on the evening of Monday, May 31. Captain Hobson will take as his subject "Destroying the Great Destroyer." He is declared one of, if not the best, speakers on temperance on the American platform to-day, both from a knowledge of his subject and from an oratorical point of view.

WEDDING NEWS

Never have I been better prepared to offer you everything required for weddings from the engagement ring to the wedding ring, the appropriate gifts for the "shower" to the final wedding present.

My diamonds are the real thing—prices are as low as they can possibly be—don't think you can tell unless you are a diamond expert, the value of a diamond; the most you can do is to buy of a reliable jeweler, who knows his business and the value of diamonds.

Wedding rings have degrees of fineness of gold, style of making, etc. I have heard of people being sold low K gold band rings for wedding rings, think of it! I have the finest gold, correct shape wedding rings to offer you.

My offerings for "showers" are appropriate and varied, come and let me show you fine china, cut glass and silver.

There is no end to the beautiful wedding gifts I have for I am continually ordering every desirable article as it is offered. Come and see for yourself. All my goods reliable and the lowest possible prices.

Home Town Helps

TO KEEP DOWN INSECT PESTS

Bird Houses in Field and Garden Are a Profitable Investment in Many Ways.

Before erecting bird houses to attract the feathered songsters without whose presence successful gardening is impossible, one should first determine the kind of birds to which his premises are adapted. The question usually next arising is as to the number of birds that can be accommodated. Unless grounds are large, it is generally useless to expect as tenants more than a pair of each species, except martins. However, the singular intolerance shown by most birds during the breeding season to others of their kind does not operate between those of different species. A dozen different kinds of birds will pursue their several modes of hunting and raise their families on the same lot, but rarely two of the same sort. Of all our house birds, martins alone are social. The fact that there is a

Food Shelter—No. 10, Side View of Food Shelter. No. 11, Food Shelter Set on Top of Post. No. 12, Food Shelter Interior, Showing Suet Baskets.

limit to the possible bird population on any given tract must be taken into consideration. When the probable tenants have been decided upon, the selection of sites is in order, for the site often decides the style of house that is to occupy it. In the final placing of bird houses, care should be taken to have them face away from the winds prevailing in stormy weather. The strongly developed homing instincts of birds can be relied on to attach them to the neighborhood where they first saw the light, and the identical pairs which nest in the houses provided for them one year will often return the next season to enjoy the same bounty and protection. The illustration shows one of the best ideas for building bird shelters.

PUT BAN ON STREET SIGNS

Four States Have Enacted Laws That Will Do Away With Blemishes on the Highways.

Laws designed to preserve the beauty of the highways by preventing, as far as possible, the placing of advertising signs on buildings, trees and stones along the highways, are now in effect in Connecticut, Pennsylvania, Massachusetts and New York. The New York law, which went into effect recently, makes it a misdemeanor to place a sign on any tree, stone or structure within the limits of a highway, or on any private property without the consent of the owner. It is also provided that any sign placed in violation of this law may be removed and destroyed by anyone, without resort to legal formalities.—Modern Mechanics.

Living Landscape a Dominant Art. Warren H. Manning, president of the American Society of Landscape Architects, in extending a greeting to the American Civic association, at its annual convention in Washington, said: "I wish to state my belief that the making of living landscape will be the dominant fine art of the future, because it is one in which all the people and all the homes may have a place. I believe the time will come, if it is not already here, when men of means will seek out the finest landscape outlooks, will purchase them as they now purchase artists' pictures, and will take their friends to their galleries of living pictures with an even greater pride than they now take them to their galleries of painters' pictures."

All Alike Interested. The man working on a salary is as much interested in the permanent prosperity of the town as is the man who owns his own business, says the Herald of Palestine, Tex. And it is only through co-operation that we can get prosperity. The things that tend to make a man's business more prosperous at the same time tend to give more stable value to a man's home and guarantee him more steady employment. You can't get away from it; we are all in the same boat, and must sink or swim together.

THE KITCHEN CABINET

All kind things must be done on their own account, and for their own sake, and without the least reference to any gratitude.

People need to rise early to see the sun rise in all its splendor, for his brightness seldom lasts the day through.—Dickens.

DELICIOUS PINEAPPLE.

Pineapple is now often in the market the year round. The price is prohibitory many times; but the canned variety is stationary as to quality and price. The variety of canned pineapple now on the market is superior to the home canned because it is not always in prime condition when reaching our markets. There are so many delicious desserts, salads and fillings as well as confections that may be prepared from the pineapple that it is a most favorite fruit.

A slice of pineapple placed on a crisp inner leaf of lettuce, a ball of seasoned cream cheese filling the cavity made by removing the core, add a dressing made by thickening the pineapple juice with an egg, season with salt and a dash of lemon juice. Olive oil may be added if richness is desired or a bit of butter. The dressing is cooked.

Pineapple Sherbet.—Take a cupful of sugar, three cupfuls of boiling water and boil until thick, add the juice of a lemon, one can of grated pineapple, the white of one egg, beaten until stiff, added after the sherbet is partly frozen. The sirup makes a richer frozen dish than sugar and water.

Pineapple Dessert.—Serve one slice of pineapple to each person with a ball of vanilla ice cream on each, sprinkle with chopped nuts and the juice of the pineapple boiled, until thick, with sugar.

Another—arrange a slice of pineapple for each person, sprinkle with nuts. Take the juice from the can, heat and add one-half cupful of water, one teaspoonful of gelatin and a tablespoonful of sugar, more if it is liked sweeter. When all is well mixed pour over the slices of pineapple and put away to cool. Serve with sweetened whipped cream.

Pineapple pie is another delicious dessert to be made from pineapple. Bake a rich crust and when cool fill with grated pineapple top with a sweetened whipped cream and garnish with chopped or shredded almonds.

Nellie Maxwell

THE KITCHEN CABINET

Though Greek and Latin be the lady's boast They're little valued by her loving mate The kind of congue that husbands like the best Is modern, boiled and served upon a plate

SPRINGTIME DISHES.

A most crisp and refreshing salad is that of head lettuce and cucumbers with a garnish of red pepper, cut in strips. Rub the salad bowl with the cut side of a clove of garlic, arrange the crisp leaves of lettuce, well dried in it, then sliced cucumbers, sprinkled with a bit of chopped onion and pepper. Cover with French dressing made of four tablespoonfuls of olive oil, one of vinegar and salt, and paprika to taste.

Spanish Rice and Cheese.—Cook a half cupful of rice in a quart of boiling water, drain and dash on cold water so that each grain stands out full and white. Put into a bowl a glass of currant jelly, pour over it a cupful of boiling water and stir rapidly until the jelly is dissolved. Pour over the rice and cook twenty minutes. Then take from the fire, add two cupfuls of walnuts, chopped fine, one-half cupful of grated cheese, one-half cupful of cream, whipped. Arrange lettuce leaves for individual salad dishes. Put two heaping tablespoonfuls of the rice on each, and garnish with a tablespoonful of whipped cream.

Salmon Salad.—Take a can of salmon, add equal measures of chopped celery, a few olives finely minced, and a sour pickle also chopped, a half cupful of freshly grated coconut and serve on lettuce with a plain boiled dressing which has been made rich by the addition of whipped cream.

Quick Graham Bread.—Beat together one egg and two tablespoonfuls of sugar and a cupful of sweet milk in which a teaspoonful of soda is dissolved. Melt a tablespoonful of butter and add one-half cupful of sifted flour and two teaspoonfuls of cream of tartar. Sift and add one and a half cupfuls of graham flour. Beat well and bake in a single loaf bread pan. This is best eaten warm.

Water cross often with no dressing but salt makes a delicious and especially wholesome spring salad.

Nellie Maxwell

HER OWN AFFAIR

And, Though There Was a Little Delay, It Was a Success.

By CHARLOTTE TELLER
Copyright by Frank A. Munsey Co.

Mrs. Halbert's first marriage had been run with an elopement and had ended badly. When she announced that she was going to marry again there was general consternation in her family. They knew her.

She was pink and white and stubborn, and she had never been known to hesitate. Once she had wavered but that was when she was very young. After she made up her mind however, she was always willing to talk things over.

They had been discussing the question of her marriage for an hour and a half when her mother inquired who he was.

"He is the one man in the world I care for," said Mrs. Halbert. But that threw little light on the subject, since she and her mother never knew the same people.

"What is his name?" asked her father.

"Redding Garwood," said Mrs. Halbert with pride.

"I have never heard of him," said Mr. Gilroy.

"Of course not," said Mrs. Halbert. "He is a very busy man."

"Busy?" said Mr. Gilroy. "Busy—at what?"

"He's a social worker," replied Mrs. Halbert.

"A—what?" boomed her father.

"He is working to better conditions."

"And may I ask why?" queried Mrs. Gilroy.

"What conditions?" stormed her father.

"Let's not get excited," said Mrs. Halbert. "To do what he is doing takes a great deal of time and money."

"Whose?" asked Mr. Gilroy.

"Has he any?" demanded Mrs. Gilroy.

"Of course not," said Mrs. Halbert. "He is a very interesting man."

"Can any one tell me," asked Mrs. Gilroy, "how I have been given a child so totally unlike myself—so impractical, so improvident and—un-suspecting?"

Mrs. Halbert always knew the beginning of the end. It was upon them at this query.

She trailed her pink negligee out of the room and up the broad staircase, which was photographed once a year by either an artist or crafts or an architectural magazine—usually for a frontispiece on "millionaires' homes."

When she reached her room she took off the negligee and donned the simplest of her tailor suits. It was the simplicity of it that made it so expensive.

She left her rings and her jeweled hand bag with Zenaida, her maid, and took a cab—not her car, but a street car at the corner—and went over into a part of town quite unknown to her family, which had become her region of romance.

When she entered an old house, once inhabited by the rich, she was in a long, dim drawing room. There were filing cases along one side of the room, where Redding Garwood put all the information he could get about the poor.

He was very much in earnest and rather shy—and many people thought—quite unsuited to settlement work. He was not at all pink and white, but rather dark, with a gray tinge at the edge of his hair, and his clothes were far from new, and he wore a very ordinary, everyday sort of necktie, which counted against him with the girls' clubs.

He just nodded in a kindly, social worker sort of way when Mrs. Halbert flung her arms about his neck as he sat bending over some statistics about real estate values and births per acre in New York city.

"It is all arranged, my dear," she said eagerly.

"Ah!" He took a deep breath of contentment. "Then we can have fourteen children, although some of them will have to be in perambulators."

"You are too absentminded, my dear Redding," said Mrs. Halbert. "I am not speaking of the parade."

And then she told him that she had announced their approaching marriage to her family.

"Oh, I see," he said. "I'm glad it's all right." And he picked up the list of new contributors to the uplift work she put in front of him. "What an influence for good you are!" he added.

"I have decided not to elope this time," she said, "although it does appeal to me as a precedent. It would be an easy way out of the difficulty, too; you must admit that, my dear."

"What difficulty?" asked Garwood.

"The family," said Mrs. Halbert. Garwood got to his feet.

Although as a social worker he sometimes sat all day long humped over in his chair while he gave advice to the neighborhood or studied statistics, when he did rise to his feet he was tall and broad and energetic.

Mrs. Halbert jumped and tried to push him back into his chair.

"You do startle me so when you get up like that," she said.

But he kept his feet.

"You mean that you are marrying me against your family's wishes?" he asked.

"Why, of course," she replied.

"Never!" said Garwood, and his eye sought the list of new patronesses.

She took the list out of his hand.

"You needn't give it another thought. We shall have a home wedding and all the usual fuss, and the family will all be there, and it will do a great deal for your work. You needn't give it another thought," and she put the list of ladies in the leather hand bag she was carrying.

"You haven't got the time to look after so unimportant a matter. I am going to take the burden of all such things off your shoulders."

"All what things?" asked Garwood.

"Why, our wedding—I mean—you look after the parades and the playgrounds, and I will arrange this. I consider it my affair." And, standing on her tiptoes, she kissed him.

After breakfast the day after the invitations had all been mailed Mrs. Halbert penetrated her mother's apartments and broke the news. There was a fearful scene—not unexpected—and bitter things were said of the absent Garwood. He was accused of money hunting, of social ambitions, of hypnotic power, of all sorts of blackguardism.

"He has not even called at the house."

"You have never invited him," said Mrs. Halbert. "You have been exceedingly rude, but he will forgive you. The invitations are out; there will be no bridal bouquet and just the simplest breakfast."

For the three days preceding the day set for the wedding Mrs. Gilroy stayed in her room with an attack of nerves. But when the hour arrived she dressed and came downstairs and pressed the hand of the bishop. It was a silent appeal for sympathy, and in a plaintive voice she begged her husband not to make a scene.

It is due him to say that he behaved with extraordinary self control. He had worked off some of his emotion by abusing his valet as he donned his wedding garments.

The rooms were lavishly decorated. Zenaida had insisted upon it.

"Madam may never be married again," she had said.

Mrs. Halbert was quite ready. Her mother's eye rested upon her in disapproval.

"You might at least, my dear, show some respect for us in details, even if you are quite willing to wreck our lives—that gown is a year old, and every one has seen you wear it."

"He hasn't," said Mrs. Halbert.

"And where is he, my dear Mrs. Halbert?" asked the bishop in an old friend-of-the-family voice.

"He ought to be here now," she replied. "It is—high noon!" She spoke ecstatically.

"It is exactly half past 12," boomed her father, "a fine hour for weddings—spoils the whole day."

The guests arrived. There were a great many of them, and they were quite interested. It was the first time that any of their set had ever married a social worker. They knew it would be exciting. They were quite sure that he was marrying her for her money, although, of course, she had charm, and she was delightfully original. This marriage proved it.

After awhile the guests had said all that they could think of to say at a noon wedding, and they began to be impatient and look toward the double doors that showed so well the famous staircase.

Upstairs Zenaida was flattening her nose against a window which commanded the avenue, but she could get no glimpse of the bridegroom.

Mrs. Halbert walked the floor then she telephoned the settlement. He was not there.

That was hopeful, though negative, for it implied he was on his way. Perhaps the street cars were blocked. She gave him time enough after that to reach the house, even should he have to walk.

Her father fumed and rushed in and out of her room. Her mother's cheeks grew red under her rouge. The guests grew quite thoughtful and found the perfume of the banked flowers far too heavy.

"After all I have done to make it easy for him," said Mrs. Halbert to Zenaida. "I have not bothered him with a single detail. I have shouldered the whole social burden, but, you see," she paced up and down the room—"I ought to have eloped. I ought not to have defied destiny."

Her mother appeared in the door.

"This is perfectly absurd," she said.

"What shall we do?"

Mrs. Halbert's pride kept her from bursting into tears. "Do?" she asked. "What can we do? Haven't I already done everything? Haven't I tried to do it all to please you without troubling him? And isn't this my reward? Haven't I been absolutely miserable? Haven't I shown my willingness to share his burdens, to leave him free to do his work? Have I been weak and feminine? No!" She stamped her feet.

"No!" echoed Zenaida from the window. Then Zenaida had an idea which, in view of Mrs. Gilroy's threatened hysterics, she conveyed in whispered French to the bride.

"Zenaida!" said Mrs. Halbert, rushing downstairs and appearing to the amazement of the guests, quite alone in the double doors of the drawing room.

"My dear friends," she said, "I must apologize: I—I—the ceremony will be a little delayed."

At this moment the butler whispered to her from the hall. Her face brightened.

"You see," she said, "in my desire not to burden Mr. Garwood with this—this perfectly useless social affair—I—I quite forgot to tell him when to come. But it will not take him long to get here—if we can only find the—parade."

Milady's Mirror

How to Massage the Face.

After cleansing the face cover with cold cream and compress the lips. Massage the sagging lines about the mouth first with the first finger of each hand. Place the thumbs under the chin and with an upward circular stroke smooth out each line. If the mouth has a tendency to turn down at the corners lift with the finger tips at ending of each stroke. Use all the fingers on the throat; raise the elbows well and give long, steady strokes upward to the ears. Remember the throat should never be rubbed downward, but always upward, with gentle pressure. On the face the main object of stimulative rotation should be to stimulate relaxed skin and also to dissolve the fat folds.

If the face is very fat it will be found beneficial to lift or pinch up the fat folds between the thumb and finger and give them a rolling, kneading motion. The object of this is to reduce the fat by stimulating absorption. In all these movements care should be taken not to continue them too long if a feeling of irritation is felt.

In applying the powder do not rub it downward and thus force it into the pores. As already explained, it is quite essential to skin health that the pores can be open and pure at all times. Fluff the powder on and smooth gently, and at the same time dust off all that does not cling to the skin.

For Puffiness Under the Eyes.

Puffiness under the eyes is often due to inflammation of the lower lid. Pull the lid down, and if it is red and inflamed you will know it needs attention. Purchase a glass eye cup, fill it half full of salt water, about as salty as tears. Lean the head forward, fit the cup to the eye socket, hold it firmly, throw back the head and open and close the eye ten times. Lean the head forward and remove the cup. This will wash the eyes, rest them and reduce the inflammation. Boracic acid, ten grains to the ounce of distilled water, is very good and can be used the same way.

To retain a fresh, youthful color the tiny blood vessels or capillaries which carry the blood to the skin must be kept in a healthy, active condition. The colorless parchment-like skin of the aged is due to the fact that these little capillaries wither away and the skin is not properly nourished. Therefore it is important that the blood should be brought to these tiny blood vessels. This can be accomplished by steaming, facial massage and electricity or the vibrator. When properly given they will strengthen the muscles, clear the skin and stimulate the action of the tiny blood vessels.

Tight Shoes a Menace to Beauty.

Recently long, narrow feet have been the rage, and girls with short fat feet, size 3D, all try to wear 5A, which is just as bad as trying to wear shoes too short for the feet.

No woman who tries to pinch her feet into shoes too short or too narrow for her realizes what infinite harm she is doing to her health and consequently to her appearance. Tight shoes affect the body in two places—the eyes and the digestion.

The girl who habitually squeezes her feet can usually be distinguished by her red lids, red nose and sallow, unhealthy skin. Pinching the feet affects first the digestion, which in turn disorders the nose and spoils the complexion. No girl who suffers from indigestion ever has a clear, rosy complexion. It is generally a muddy color, marred by blotches and specks.

Every one can tell a pinched foot by a single glance, and its owner at once becomes an object for ridicule. So the girl who distorts her feet spoils her complexion, and for what? A vain delusion that she is appearing more beautiful by doing so.

To Keep Hands White.

The home worker can keep her hands in nice condition if she will exercise a little care. When they have been stained by vegetables or fruit the stains should be removed with an acid, lemon, vinegar or sour milk, and then rinsed in contact with soap or soapy water. Always rinse off all soap before wiping the hands, and be sure they are wiped perfectly dry.

At night rub in some good cream, powder the hands and keep them in loose gloves all night. The hands will be as white and soft as though they had never done a bit of housework.

For Callouses.

When the outline of the foot is affected by callouses the process of removal is simple, but requires time. First soak the feet well in hot water; then after they are dried rub the callouses until the skin peels. If any of this dead skin can be removed by cutting with the scissors do so, but be extremely careful that you do not injure the tender flesh beneath.

Don't Make Faces.

Don't narrow your eyes when you wish to be impressive. If you draw your mouth into a button and allow deep lines to "pucker" between your eyes you will acquire a habitual cross expression. Is anything more unpleasant than an angry face with its features tied in veritable knots?

LEGAL NOTICES.

Notice to Creditors.
By virtue of an order granted by the Surrogate of Cayuga County, notice is hereby given that a persons having claims against the estate of Daniel Riley, late of town of Genoa, Cayuga County, N. The Thrice-A-Week Edition OF THE New York World

Practically a Daily at the Price of a Weekly

No other Newspaper in the world gives so much at so low a price.

The year 1914 has been the most extraordinary in the history of modern times.

It has witnessed the outbreak of the great European war, a struggle so titanic that it makes all others look small.

You live in momentous times, and you should not miss any of the tremendous events that are occurring. No other newspaper will inform you with the promptness and cheapness of the Thrice-A-Week edition of the New York World. Moreover, a year's subscription to it will take you far into our next Presidential campaign.

THE THIRCE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and THE GENOA TRIBUNE together for one year for \$1.65.

The regular subscription price of the two papers is \$2.00

Raindrops.
Drops of rain vary in their size perhaps from a twenty-fifth to a quarter of an inch in diameter. In parting from the clouds they precipitate their descent till the increasing resistance opposed by the air becomes equal to their weight, when they continue to fall with uniform velocity. This velocity is therefore in a certain ratio to the diameter of the drops; hence thunder and other showers in which the drops are large pour down faster than a drizzling rain. A drop of the twenty-fifth part of an inch in falling through the air would, when it had arrived at its uniform velocity, acquire a celerity of only eleven and a half feet per second, while one of a quarter of an inch would have a velocity of thirty-three and a half feet.

Wily Tailorland.
Louis XVIII, complimenting Tailorland one day upon his abilities, asked him how he had contrived first to overturn the directory and finally Bonaparte.

WIFE LOST AT SEA IS THOUGHT FOUND

Dazed Woman May Be Empress of Ireland Survivor.

IN LIVERPOOL POORHOUSE.

Chicago Man After Seeing Her Portrait Sails For England Full of Hope That Loved One, Listed Among Drowned and Long Mourned as Dead, Is About to Be Restored to Him.

In a poorhouse in Liverpool, England, for months has been a gray-haired ghost of a woman who is haunted by an abiding fear of the sea. She is now believed to be a survivor of the Empress of Ireland who was recorded among the drowned.

On the books of the institution she is registered as Kate Fitzpatrick. In her own disturbed mind most of the time she is Kate Fitzpatrick, without kin, without friends, without memory of any.

But once or twice the shadows have lifted from the woman's mind, and she has mumbled another name, that of Fannie Mounsey. And now, after many letters and cablegrams, an old man, at once buoyant with hope and trembling with fear, is on his way to Liverpool, believing the woman is his wife, whom for nearly a year he has mourned as dead.

He is William Mounsey, proprietor of an express and storage warehouse business in Chicago, whose wife was listed among the lost when the Canadian Pacific liner Empress of Ireland sank in the St. Lawrence river May 29, 1914.

Dares Only to Hope.

As he was leaving his home on La-pore avenue he said to a reporter:

"I don't dare do any more than hope and pray that Kate Fitzpatrick is Fannie. Until I have seen the woman at Liverpool I don't want to talk. I don't even want to think about it. I've buried my wife once. I don't want to have to bury her again."

When Mounsey spoke of having buried his wife he used a figure of speech and at the same time touched on a point which chiefly buoy's his hopes that Kate Fitzpatrick and Fannie Mounsey are one. Although Mrs. Mounsey's name was included by Canadian Pacific officials in their list of close to a thousand lost passengers and despite thorough search by relatives, her body never was found.

Body Was Never Found.

Twice Mounsey journeyed to the St. Lawrence, once immediately after the sinking of the Empress of Ireland and again when the vessel was raised and many more bodies were taken from the rusting hull. But among the hundreds of bodies none was identified as the missing wife and mother.

So the family, after weeks of searching and months of waiting, came to believe Mrs. Mounsey dead.

When Kate Fitzpatrick, ill nourished, haunted by her obsessing fear of water and apparently unbalanced, was picked up by a constable in a Liverpool street she was destitute, homeless and could refer to no friends. Alienists examined the woman and decided she had been in some sea tragedy.

The Chicago relatives first heard of Kate Fitzpatrick four months ago. They could not bring themselves to believe it possible that Mrs. Mounsey had escaped with her life, but at last they got relatives on the other side to visit the woman in the poorhouse. They had last seen Mrs. Mounsey as a girl, yet thought they could recognize her.

A photograph was sent to Chicago, and it is said that it is a good likeness of Fannie Mounsey, although there were lines in the face which Mrs. Mounsey had not had.

OWES HIS LIFE TO ALBERT.

Wounded French Officer Carried From Field by Belgian King.

A wounded soldier in the Nantes hospital tells how King Albert saved the life of a French officer.

During a furious bayonet charge a lieutenant ventured too far into the German lines. He was grievously wounded and was thought dead. The conflict shifted, and the officer dragged himself out of the range of fire and then fainted.

On regaining consciousness he saw two Belgian officers beside him, one with a lantern and the other dressing his wounds. They carried him to a motorcar. One of them he recognized, saluted and started to speak, but the Belgian king hushed him, saying:

"All right, my brave hero. Save your strength. The world can't afford to lose men like you."

GERMANS USE SIX TONGUES.

Soldiers Fighting in East Get Supply of Special Dictionaries.

The linguistic difficulties confronting German soldiers in the eastern campaign are illustrated by the fact that there has now been issued to them a dictionary in six different tongues, for use with their Austro-Hungarian allies, who speak Hungarian, Croatian, Polish, Bohemian and Russian.

The book contains some 200 common questions and answers, dealing particularly with the needs of wounded troops, since it is these who suffer most through inability to make themselves understood.

Maxwell

"The Wonder Car"

38,000 owners have given the "acid test" to 38,000 Maxwells in the last 18 months

Every car made in the gigantic Maxwell factories is just as finely finished, just as handsome an automobile as if it were especially made to be exhibited at the New York Automobile Show, or some dealer's fancy Showrooms.

BUT—and here is a great big **BUT**—38,000 of these Maxwell Cars have actually been turned out and have actually been driven thousands of miles by 38,000 Maxwell owners. These owners have driven their Maxwells up hill and down hill—over all kinds of country roads and over

city streets, everywhere that four wheels will go.

Most of these 38,000 Maxwells have been rained on, snowed on, and put to every kind of a rough and tumble test that time and use can give a car—and that's what we mean by the "Acid Test."

If you have any neighbors among

these 38,000 happy owners, ask them to tell you all about their experience with their Maxwells.

If you don't happen to know any neighbors who own Maxwells, here are a few facts to think about—things to consider—then you can come in and see this "Wonder Car" and add up these facts for yourself.

But don't forget this—the Maxwell we will show you is an exact duplicate of these 38,000 tried and true Maxwells that have stood the rough and tumble "Acid Test."

And Here Are Some Vital Points to Think Of

Satisfaction and Service is a Nutshell

To the automobile owner, satisfaction and service means a car of beauty, comfort and convenience. One that possesses many conveniences, is easy and simple to operate, properly designed and constructed of the best materials and whose operative cost is very low. He wants motor car efficiency and maximum service.

All This Has Been Accomplished in the Maxwell

Through the high ideals and standards, wonderful engineering genius, remarkable resources and the accumulated experience gleaned from years of automobile experience, the Maxwell organization

have accomplished what a few years ago many said was impossible.

The Maxwell is Not the Result of an Experiment

It was not luck or the result of an experiment on the public, but good hard business judgment that made the Maxwell of to-day possible.

As our engineers spent months designing this powerful, efficient, light-weight car. The best materials in the world's famous laboratory (the Maxwell's own plant) tested materials and formulated new heat treatment that gave this car a remarkable light weight and yet the great strength which it possesses and which stands all the abuse heaped upon owner-driven cars.

It was real genius that gave to the Maxwell the powerful motor that enables Maxwell owners to go wherever four wheels will travel, over all roads, up all grades, through any sand, any mud.

Beauty and Comfort as well as Strength

And Maxwell builders added to this "wonder car," not only all the conveniences, power and durability, but also the refinement and beautiful lines of the much higher priced cars. Pure stream lines, crown fenders, fine upholstery and all the little details that make Maxwell owners proud of their car.

Every Feature of Mechanical Construction

Every feature of mechanical construction that is to be found in cars selling at many times its price

will be found in the Maxwell. And in addition there are many mechanical features that are strictly of Maxwell design. How we have improved the lamps, made them rattle-proof by using extra braces and eliminated the hinges, made them dust-proof, easy to clean and adaptable to use in any desired position; the manner in which we have protected one of the best radiators that money can buy from the many twists and strains of the car; in fact, constructed a full floating radiator—the way in which Maxwell has provided for proper lubrication and thorough cooling of the motor and has given one square inch of braking service for every twelve pounds of weight; how our engineers have equipped Maxwell cars with a spring tension fan that adjusts itself to any pressure on the belt, makes the "Wonder."

The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers—in every part of this country—are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices. This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day.

NATURE DELIGHTS IN CURVES

Builders of Human Habitations Do Well to Avoid Too Many Straight Lines.

Nature makes no straight lines, for whether it be the canopy above, the horizon about us, the shore of ocean or pond, the course of streams, the lines of horse, bird, or even of the human figure, beautiful curves and variety and multiplicity of curves everywhere abound. Without guidance such as a taut cord, a straight edge, or ruler, man cannot make a straight line. Even with the assistance of a crack or continuous joint in a sidewalk the homeward-bound in the "wee sma' hours aent the twal" cannot maintain their physical dignity and equilibrium, however assiduously their feet woo "the straight and narrow path of rectitude." It must then be apparent that nature never intended man to make straight lines, and the present writer loves them not, even in a dwelling-house. The clay cottage with thatched roof is the very acme of beauty in shelters for mankind, and often the simple, old-fashioned garden round about holds more of natural charm than the most favored part of the grandest estate.

Those who have tramped over freshly-fallen snow, though intent upon going in a straight line from one specific point to another, looking back upon their course, may easily desecrate upon their beautiful and smoothly-flowing curves they have traced upon earth's wintry shroud. Even the paths of domestic animals through their pastures are of most artistic and gentle departure from the monotonous straight line. Still, we would not advise following these in the economic disposition of traffic, as did the Bostonians with Sam Foss' calf trail. Likewise, we should avoid violation of the dictates of common sense by trying to institute curves in a front walk from street to door when the distance is but a few paces. Curves must not be made to appear ridiculous. Sometimes restricted scope precludes their use and straight lines must prevail. Still, the straight line is not, as Ruskin is reputed to have said, "the line of beauty."

SAVING NEW YORK'S TREES

Planting Association of the Great Metropolis Finds Itself Facing a Hard Problem.

Manhattan presents a hard problem for those who want to beautify the metropolis with shade trees. It seems that certain streets are not altogether hopeless, according to the report of the Tree Planting association of New York, just out.

Such are Seventh avenue and Lenox from One Hundred and Tenth street up; Broadway north from Fifty-ninth street, also West End avenue, West One Hundred and Thirty-eighth, West Seventy-ninth street, etc.

On all of these there are plantations at present. In spite of the fact that some people have the idea that New York has few shade trees there are dozens of varieties of all shades and styles and patterns, from aristocratic shade trees to scraggy slum dwarfs.

Tree doctors and surgeons are very necessary, and tree surgery has become quite a definite science. Many a fine old tree is saved by "filling its tooth," as it were—that is, filling its hollow cavity with cement to prevent further decay.

The committee of the association has divided up New York into districts for special examination, and the report on the different geographical locations is exhaustive.

City-Planning Association.

For a number of years the city of New York has contemplated the creation of a city-planning commission for regulating the various civic improvement undertakings of the municipality, as well as those of private individuals. The work which would come under the supervision of such a city-planning commission would include, among other things, housing, industrial structures, the conveyances of supplies and materials of manufacture and manufactured products, the disposal of waste material, the arrangement of the various sections of the city in accessible manner, rapid and convenient means of transportation, the provision of facilities for education and public recreation.

These are the fundamental objects of city planning, but many other city activities would come under the supervision of the city-planning commission, such as regulating the height of buildings, dividing the city into districts and zones, traffic regulations, etc.

Good Judgment Needed.

Good judgment—not a matter of opinion, but a matter of principle, training and experience—is necessary to the selection of a proper location for a civic center in order to avoid the criticism and condemnation of future generations to which we lay ourselves open if we do not exercise proper judgment at the crucial moment.

THE POULTRY YARD.

Better have the hens fat than half starved.

Put wood shavings in the bottom of the nests, and the hens will not be infested with lice.

Spray the roosts with a solution of kerosene, carbolic acid and soap, and the hens will be healthier.

All eggs incubated should be smooth in shell, uniform in shape and color, and should weigh two ounces or more.

Sulphur is a great germ killer. Feed a little to the hens to ward off disease. A spoonful or two in the mash once a week will be sufficient.

The advantages of an incubator are that it will hatch chicks at any season of the year, it will hatch more chicks at a time, and the chicks will be free from vermin.—Farm Journal.

SHEEP ON THE FARM.

Valuable as Weed Destroyers and Producers of Mutton and Wool.

[Prepared by United States Department of Agriculture.]

The department urges the desirability of maintaining a small flock of sheep upon the farm. With proper care and attention a flock of twenty-five or thirty ewes can be kept at very little expense, and they will prove of inestimable value in freeing the farm from weeds and adding something to the farm income. In addition to providing a considerable supply of wholesome food for the farm table there will be a surplus for sale and an additional item of revenue in the form of wool.

For farm purposes the black faced ewes are more popular than the others, although good results can frequently be obtained from the white faced ones. In buying ewes be sure that they stand well on their feet, have good straight backs and good mouths. Ewes that have broken teeth or teeth that are badly worn down should not be bought. As a rule, a sheep has one pair of permanent incisor teeth when it is a year old, two pairs when it is two years old and three pairs, or a full mouth, when it is three years old. A full mouthed ewe, if the teeth are in good condition, can be used for breeding with good results, although she may be as much as five years old. Never buy a ewe that has a broken mouth—that is, with teeth that have been broken off or lost.

None but a pure bred ram should be used. It is not necessary to have a show animal, but a strong, vigorous buck is essential. Shropshire, Oxford, Southdown and Hampshire rams are excellent mutton lambs, and these breeds are recommended for the farm states. A suitable ram can be bought for \$8 to \$20.

Convenient Brood Coop.

Here is a convenient, easily cleaned, sanitary and ratproof brood coop as simple that any one can make it, says the American Agriculturist. It is built out of a box of any convenient size, large enough to accommodate the hen and her chicks. In front is a door which slides in grooves and may be held open at any point by pegs inserted through holes as shown in the uprights. This door is covered with wire netting, preferably not more than one inch mesh. The holes are so placed

COOP WITH ADJUSTABLE DOOR.

as to raise the bottom of the front to suit the size of the chick. When made of lumber rather than from a box already constructed the top should be given a slope of two and a half inches from front to back. At the back in either case a cleat should be nailed so as to raise the bottom off the ground and prevent rain from entering. This will leave a slope of an inch and a half. When so constructed the parts should be fastened together with as few screws as possible, so the coop may be taken apart and stored flat during the winter.

Treating Seed Oats For Smut.

The presence of smut in oats is very common. Practically all of the seed produced and thrashed in the ordinary manner is contaminated with smut spores. The only sure way of avoiding smut in the oat crop is to treat the seed before planting. There are two methods of treatment, one by the use of formalin and the other by hot water. The formalin method is probably the easier one to use. The solution is prepared by mixing thoroughly a pint of guaranteed formalin—this formalin to be a 40 per cent solution of formaldehyde in water—in forty-five gallons of water. The grain placed in coarse sacks, about a half bushel to each sack, can be placed into this solution for a moment and then allowed to drain for ten or twelve hours. Care should be taken to see that the grain has been thoroughly wet by the solution. After draining the seed should be spread out in a thin layer on a clean floor or canvas. Forty gallons of this solution will treat fifty bushels of seed.—Kansas Farmer.

NOW DRINK COLOGNE

Russian Government Still Faces a Serious Problem.

Methylated Spirits, Furniture Polish and Other Deadly Liquors Are Said to Be Used as Substitute for Vodka.

By BASSETT DIGBY.

(Correspondent Chicago Daily News.) London.—Apparently total prohibition is not working as smoothly in Russia as the considerable section of British press and public that is urging similar measures over here seems to imagine. In spite of "total" prohibition there is a great deal of drunkenness to be observed in Russia just now among the peasants, who form four-fifths of the nation. Methylated spirits is the chief tippie involved.

I had a talk with a neutral subject who has recently arrived in London from the Russian empire, in various districts of which he has lived many years.

"You can judge of the importance of the methylated spirits issue," he said, "from the fact that the ministry of finance at Petrograd has been organizing an international competition, with prizes ranging up to 30,000 rubles [\$15,000], for methods of rendering methylated undrinkable. A second competition is being arranged for new and improved methods of utilizing spirits for combustible and other purposes. In this the prizes range up to one of 75,000 rubles. The total awards in these spirit competitions will amount to \$350,000. Here is a fine chance, surely, for keen young American chemists.

"Out in one of the chief cities of Siberia a leading druggist on the main street has been doing a huge trade in a new brand of 'eau de cologne' of his own manufacture. It consists of alcohol flavored with lemon juice and has a few drops of eau de cologne to give it a slight verisimilitude to the real thing. This, of course, is beyond the means of the peasants. They drink either methylated spirits neat or mixed with other liquids.

"In the last few months a new drink has made its appearance at the numerous country fairs in the empire. It is called kvasok. Kvasok is theoretically a very slightly intoxicating liquor made from fermented rye bread. Of recent years, however, the name has been given to all soft drinks consisting of water flavored with fruit essence. The termination 'ok' is a diminutive, like the 'chen' in German. In this case it implies not only an affectionate regard for kvas but an indication that there is only a little kvas in the mixture.

"When I left Petrograd in February dead men often were picked out of the snowy gutters at daybreak; they had become blind drunk on methylated spirits the previous evening, had fallen unconscious and had soon frozen to death.

"A preparation of furniture polish, a sort of French polish, also is being imbibed to a great extent.

"This methylated spirit tipping is doing a lot of harm in Russia. Unless the finance ministry's competition produces results, it is expected that the ban will be lifted from beer. There is a widespread agitation now in favor of permitting the sale of a low alcohol percentage beer, to compete with methylated.

"Among the middle and upper classes eau de cologne has become the favorite drink—when drink has a hold on them. It is nicer than methylated. But that, say the Russians who must have drink at any cost, about lets it out."

THIS HORSE WAS HOMESICK

Breaks Loose From Stall and Tries to Swim From Muskegon to Chicago.

Muskegon, Mich.—A week ago Abraham Smoker purchased a horse at Chicago, which was shipped by boat to Muskegon.

Yesterday the horse broke loose from its stall while Mr. Smoker was feeding it. Following with unerring instinct the very streets it was led along after being taken from the boat, it went to the Goodrich wharf. Without hesitation it sprang on the ice in Muskegon lake and ran for two miles to the harbor mouth, where it reached a piece of soft ice and fell through. The animal was rescued by firemen.

"A carrier pigeon couldn't have had a keener instinct for home," Mr. Belfy remarked.

HEIRS LOSE \$5,000,000 LAND

Court Finds Against Descendants of Spanish Family—Will Continue Fight.

Los Angeles, Cal.—The Sepulveda heirs, representing an old Spanish family, lost title in the superior court to a strip of tide land variously estimated to be worth from \$5,000,000 to \$50,000,000.

The suit was brought by Susana Sepulveda and others to quiet title to the land upon the ground that although it was tide land, it was expressly included in an old Spanish grant of 1846 and never recognized by the United States.

The heirs will appeal to the state supreme court and in case of an adverse ruling, to the United States Supreme court.

QUINLAN'S

If Your Clothes Come From Here They Will be Right.

Suits for Ladies at \$12.50 and \$15.00. Regular \$18.50 to \$20.00 quality. Others priced from \$17.50 to \$35.00.

W. C. T. U. Meeting.

A W. C. T. U. group meeting and Institute was held in Grange hall, North Lansing, Thursday, May 13. Myers, East Lansing, Asbury, Lake Ridge and West Groton were represented. There was a large attendance and a lively program carried out. Mrs. Mary B. Wood, County President presided during the day and the local president in the evening. Mrs. Addie B. Parcels, National W. C. T. U. lecturer was with us after noon and evening giving us beside the forceful lecture in the evening on "Adam, where art thou?" the unexpected threat of an informal talk in the afternoon. Eighteen new members were added to our union. Dinner and supper were served in the dining room of the hall and a nice sum cleared for our treasury. All seemed to enjoy the institute and expressed their pleasure in their entertainment here.

Essa, 988, foaled March 16, 1903, the Imported German Coach Stallion, will make the season of 1915 at the following places: Mondays at Ralph Hare's, North Lansing, Wednesdays at Foster's hitch barn, Moravia, Fridays at King Ferry, the balance of the time at the stable of proprietors in Genoa. Terms, \$15. For pedigree and description see large posters.
