A WORD FOR MOTHERS
It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.
If your work is tiring; if your nerves are excited; if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions.
It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.
Scott's is strengthening thousands of mothers—and will help you. No alcohol, Scott & Bowne, Bloomfield, N. J.

Lansingville.

Jan. 17—John W. Smith suffered a stroke of paralysis while in attendance at the Epworth League service at the church on Sunday evening. He was taken at once to the home of his son and a physician hurriedly summoned, but he failed rapidly and did not regain consciousness. He passed away soon after midnight. He will be greatly missed in the community, and especially in the church at all of which services he was always in faithful attendance, and it was in the place where he so loved to be where he was stricken. He leaves two daughters, Misses Julia and Hattie, and a son, Joseph Smith, also a brother, Glenn Smith. The funeral will be held in the M. E. church Wednesday at 3 p. m., Rev. J. C. Crooker officiating. The daughter Hattie, who is at Plattsburg, N. Y., is ill and not able to come to the funeral.

Miss Tammie Bower is ill. Born to Mr. and Mrs. Leo Nobles Monday, Jan. 10, 1916, a daughter. The L. A. S. will meet with Mrs. H. B. Dean Thursday, Jan. 27. All furnish for the dinner. Mrs. Chas. Bower spent last week with friends in Groton. An old-fashioned spelling match will be held in the church on Friday evening, Jan. 28. After the match, a 15 cent supper will be served. All are invited.

Ferris is spending this week with her daughters, Mrs. Chas. Egbert and Mrs. George Lanterman at South Lansing and with her grandson, Leslie Egbert and wife at Ithaca.

Geo. W. Elliott Dead.

George W. Elliott, aged 85 years, died at the home of his daughter, Mrs. C. F. Baldwin, in Auburn, Sunday morning. Although Mr. Elliott had been in poor health since Christmas, he was able to be about the house until Wednesday before his death. Mr. Elliott was born in the town of Scipio Oct. 14, 1830, and went to Auburn in 1856. He engaged in the mercantile business, in which he continued for forty-two years, his last partnership being in the firm of Lyon, Elliott & Bloom, which lasted twenty-six years. Upon the dissolution of this firm in 1898, Mr. Elliott retired from active business life. In March, 1859, he married Miss Mary E. Cooley of Fleming. In 1909 they celebrated their golden wedding, Mrs. Elliott's death occurring about two years later. He was an elder in the Second Presbyterian church. Mr. Elliott is survived by one daughter, Mrs. Baldwin, and one sister, Mrs. Maria Hoskins of Perry, who recently celebrated her 92nd birthday. Funeral services were held at the home of his daughter in Auburn Tuesday afternoon at 3 o'clock. Interment in Fort Hill cemetery.

Cayuga Farmers' Insurance Co.

The Cayuga County Farmers' Insurance company held its annual meeting at the supervisors' rooms in Auburn, Jan. 13. The following directors were elected for three years: W. E. Kilborne, Moravia; E. G. Bradley, Ledyard; J. M. Sittser, Throop and C. M. Sheldon, Ira. Officers were chosen as follows: President, H. J. Colvert, Sterling, re-elected; vice president, Jacob Decker, Martville, re-elected; secretary, S. L. Depew, Auburn, re-elected and treasurer, J. M. Sittser, Throop, re-elected; members of the Executive Committee, F. C. Hall, J. M. Sittser, S. L. Depew; adjusters, F. C. Hall and S. L. Depew; delegates to state meeting at Syracuse on Jan. 26, H. J. Calvert and S. L. Depew. The company has increased its business over 1914 by \$675,875, according to the official reports. It now carries \$6,349,025 in risks, according to officers of the society. These risks are scattered over five counties.

Take Advantage of Leap Year.

This is leap year and the women of the New York State Woman Suffrage party are about to propose to 97,493 men to give them their votes in the next suffrage campaign. This is all that is necessary to carry the Empire State the next time the woman suffrage amendment comes up to be voted upon. According to the corrected figures from the Secretary of State more than half a million men in New York State 553,348 have already signified their assent to the enfranchisement of women. Out of every 100 voters throughout the state more than 42 voted "yes." In Manhattan and Long Island 43 out of every 100 were for suffrage. Five counties were won outright for suffrage—Broome, Chautauqua, Chemung, Schenectady and Tompkins. The women of New York State won 85.25 per cent. of the vote necessary to carry their amendment. They have less than 15 per cent. left to win.

Former Scipio Resident.

After an illness of five months, William Batten, formerly of Scipio, died early Saturday morning at his home in Cortland, aged 73 years. Besides his wife and daughter, Mrs. Carrie Dean of Cortland, he is survived by his aged father, Henry Batten of Auburn, two sisters, Mrs. James Hitchcock of Scipioville and Mrs. Clement Joyce of Fleming. Funeral services were held at his late home Monday afternoon at 2 o'clock. Burial in Cortland.

West Venice.

Mr. and Mrs. Theo. Coona and family are suffering from the grip. Mrs. Lee Connell spent last week with her parents, Mr. and Mrs. Theo. Welch.

Allen's Foot-Ease for the Troops.

Many war zone hospitals have ordered Allen's Foot-Ease, the antiseptic powder to shake into your shoes, for use among the troops, because it gives rest and comfort to tired, aching, swollen feet and makes walking easy. At all druggists everywhere, 25c.

Donation at Ledyard.

On Friday evening, Jan. 28, a donation for the benefit of the pastor, Rev. C. L. V. Haynes, will be held in the M. E. church. There will be music and the new magic lantern recently purchased by the Cornell Study club will be used for the first time, showing pictures of educational value. Every one interested is invited. We wish to have not only a generous donation but a good time socially. An interesting feature of the occasion will be the supper served from 6 to 8 o'clock, for 25 cents each.

Presbyterian Church Notes.

Sunday morning service at 10:30. Second sermon on the Gospel of Mark. Sunday school at 11:45. Christian Endeavor at 6:15. Leader, Rev. Wm. H. Perry. Sunday evening service at 7. Sermon theme, "Paul's Doctrine on Sin." Mr. D. F. Smith of Genoa will meet us in the chapel on Saturday evening of this week to lead us in gospel songs and to present to us his proposition of forming a singing school for the winter. We have the liberty to vote for or against establishing such a school. No one need join who do not wish to. In such a school he teaches the fundamentals of reading music and singing. Such a course would not mean merely getting together to sing but coming together in order to learn. Your attendance this week Saturday evening places you under no obligation to join the school. Every one welcome. This meeting at 7:30. The Philathea class will meet on Saturday afternoon of this week at 2:30 in the chapel. Each member bring knife, fork and spoon; also a Bible and quarterly. The Ladies' Aid business meeting postponed from last Tuesday will be held in the home of Mrs. Frank Brill next Tuesday afternoon. Election of officers and other necessary business. Prayer meeting on Thursday at 7.

MODERN GREEKS.

Those at Home Outnumbered by Those in Other Countries.

What and who are these modern Greeks? The most skeptical investigators admit that in most of them is some blood transmitted from ancient Greece and that there is a proportion of Greek descent in Greece about equal to that of Anglo-Saxon descent in America. For the rest the modern Greeks are either Albanian or Slav or Vlach.

Besides the Greeks in Greece there are other Greeks who far outnumber them. They are found on all the coasts of the Ottoman empire. Crete and the other islands until very lately under Turkish sovereignty have no other inhabitants important in numbers. They are numerous in Asia Minor, in Syria and in Egypt.

While domiciled elsewhere they remain passionate in devotion to the Greece they style Hellas, the modern kingdom, whose people are called Hellenes, and, being masters of commerce and finance, many of them have gained enormous fortunes, from which they pour great sums into Athens particularly, but into Greece generally, for public buildings and endowments.—From "The Balkans—A Laboratory of History," by William Milligan Sloane.

Cleopatra and Poisons.

Cleopatra assembled all kinds of deadly poisons and began experiments with all the criminals sentenced to death in order to see if the action of the poison was prompt. As she observed that those which acted quickly brought death with a sharp pain and that the others worked slowly, she began experiments with poisonous animals, setting them upon other animals to test poisons. This she did daily and found among them all only the cobra a certain poisonous snake which caused tremor or pain a certain amount and a virulent desire for sleep. The victims gradually did not wake up but upon the face and forehead a coldness of the senses, and when they awoke they were as if in a deep sleep.—"The

The End of the Diamond.

In the National League is an umpire who is a scold for the correct department on the diamond. In a game in which he is called on the Polo grounds early in the season by Chief Meyers, the Philadelphia manager, New York came to bat on top of the Boston players sitting on their bench began to guff the heavy man.

A Girl's Voice.

The driver was called into the telephone booth.

A Little Mixed.

Hiding in an omnibus up Regent street last evening I heard an old lady abusing the other passengers with remarks. The conductor remonstrated with her, saying, "Ma'am, remember you are in a public vehicle and behave as such."—London Spectator

Evolution of the Orange.

The orange was originally a pear shaped fruit about the size of the common wild cherry. Its evolution is believed by naturalists to be due to 1,200 years of cultivation.

A REAL LUXURY.

With Furred Effect This Coat Speaks the Last Word.

A MELON MUFF.

Hudson sealskin, cuffed, choked and almost ruffled with muskrat, gives this rich effect. The skirt ripples gracefully, and the deep collar forms tabs in front. The smart muff, fashioned in sections like a cantaloupe, makes a cozy accessory. A perky velvet rosette trims the pressed black beaver hat.

AFTER THEATER SUPPER.

Is there anything more welcome to the average person with good digestion than an invitation out to supper after the theater, and is there any place more delightful to give a little affair of this kind than at your own home, where all can laugh and talk as much as they please without disturbing any one? The following menu is one easily prepared, therefore welcome to the hostess housekeeper: Shrimps a la Newburg on toast, cheese and crackers, nuts and olives, coffee or wine.

Calibrate fastness.

Fastness is one of the most attractive of feminine qualities. It is a quality of the spirit. Light and pleasant must be the fastness which carries the girl into a grand world with her "smile of mystery" all day long.

Effects of Fear On Children

Most of us are familiar with stories of the bogey nurse of long ago, but few realize that her type survives even in these enlightened days. It seems probable that from very earliest times there have been people whose only idea of ruling children was to employ a discipline of fear.

One hundred years ago Napoleon was the favorite bogey, especially among English speaking people, and terrifying were the tales which nurses and probably many foolish parents invented of the horrors he perpetrated on small children who cried in the night, soiled their Sunday frocks, or were guilty of any of the hundred and one small naughtinesses children unthinkingly commit.

A word that "Boney is coming" would send many small girls and boys covering beneath the bedclothes, there to spend hours of shivering terror, while the real bogey who had so scared them employed the time cheerily gossiping in the servants' room.

But that was all very long ago. Nowadays we study hygiene, eugenics and what not and take the bringing up of our children very seriously. There is one fact, however, we often overlook. A 1915 incarnation of the bogey nurse is still among us. Today for weapons of terror she uses the policeman. Now, this is very wrong, for the child who lives in the city should be taught that the policeman on the corner, in the park or anywhere one finds his brass buttons and gold braid is a person to be welcomed as a friend and protector of the kiddies, not an enemy or a bogey to be feared.

If this idea of the law is instilled into the youngster's head he will not forget it should he become lost from his mother or nurse. Instead of wandering along the streets or park helpless and bewildered he will run confidently to the nearest policeman, explain his troubles as best he can and stay content with the big man decorated with many brass buttons until aid arrives.

The child who is taught to fear the policeman, on the other hand, shuns him in time of trouble, with effects which are sometimes disastrous both to the little fellow and his parents.

A stroll through the park any pleasant day will bring you in contact with the foolish nurse who holds up the policeman as a terrible bogey.

"Come along, Master Bobby," she will say. "The policeman will come and catch you if you hang about like that." The little fellow gives a scared glance over his shoulder before he hastens on, frantically pulling at his hand.

Two little girls were playing in the park the other day. In the game one slipped and fell, covering her diminutive skirt with green grass stains.

"Now, whatever shall I do with you, Agatha," cried the nurse. "The policeman will get you and he'll be a terrible fellow to look on." "I'm always look on a policeman," said the girl. "So was Agatha's papa." "I'm afraid the fear of a man in a uniform is a very easily instilled."

Many a child who is brought up in a thoughtless, nervous, and suspicious home, where the mother is constantly on the watch for some imaginary offense, will grow up with a nervous system that is so sensitive and that children who want to leave the hands of the mother from their father's hands, and the child who is brought up in a certain way of the mother, is brought up in the masculine character from the moment the little boy begins to play with his soldiers. However, it is one thing to preserve the child's nerves, the story telling will be restricted to deeds of valor.

Highway Gathering

By REV. JAMES M. GRAY, D. D.
Dean of Moody Bible Institute of Chicago

TEXT—So those servants went out into the highways, and gathered together all as many as they found, both bad and good.—Matthew 22:10.

These words are, in the parable of the marriage of the king's son intended by our Lord to announce the forfeiture of the Messianic kingdom, temporarily, at least, by the Jewish people, and the proclamation of the gospel of grace to the Gentiles. One wishes there were opportunity to go into the details of the parable and apply its precious teachings, but there is time only to emphasize one point, and that is the duty and privilege of "highway gathering." By this is meant the preaching of the gospel, not merely by the ordained ministry, but by laymen as well, who know by experience the redemption which is in Christ Jesus our Lord.

These beautiful summer days and evenings afford unusual opportunity for this in the utilizing of our parks, and vacant lots, and church steps and street corners for reaching multitudes with the bread of life. The prophets of the Old Testament were open-air preachers. Jesus Christ and his apostles were open-air preachers. Some of the greatest evangelists in all the days were open-air preachers. How could Whitefield and the Wesleys have reached the masses when church doors were closed against them, unless they had taken to the open air? What an open-air preacher was Gen. William Booth! Today many of the ablest Christian laymen of Great Britain, as well as the clergy, are found standing on improvised platforms at the street corners telling out the gospel of salvation, and urging their fellow men to accept the offer of atonement through Jesus Christ.

1. This is enjoined upon you, Christian brethren, as a duty to God and to your neighbor. Remember the words, "Go ye into all the world and preach the Gospel to every creature." "Ye shall be witnesses unto me." These commands are not to ecclesiastics merely but to all the disciples of Christ. And then what shall we say of the command, "Thou shalt love thy neighbor as thyself?" Have we ever felt, or shown, that love until we have actively interested ourselves in the salvation of our neighbor? To be a Christian when he is not a Christian when he is not, is a very serious matter, or, to quote from his position is not enough, except as we try to save him for eternity.

2. It is enjoined upon you as a personal advantage in the sense of development and in sense of reward. If we want to grow in the spiritual life we want to exercise ourselves in its ministry. If we would know more of the love and the power of God towards ourselves, we must experience with what we now have in the world and others. In this, as in that, which is more material, the principle holds good. "Give and ye shall be given again." And then, what about our reward in the future as well as in the present? At the final reckoning of redeemed souls the same rank and glory will not be given to the indolent and unfruitful as to the earnest and self-denying. The same Scripture which says in one place, "Look unto me and be saved," says in another, "Look unto yourselves that ye receive a full reward." "They who turn many to righteousness shall shine as the stars forever and ever."

3. It is enjoined upon you as a political necessity. This may be regarded as the weakest and most selfish of the arguments, and for that reason should have come first rather than last, but there are several reasons for stating it at the last. What political and social problems are pressing upon the attention of thoughtful citizens, and especially Christian citizens, at this time? In what great cities the needy classes are multiplying every year, and with them those who represent the ignorance, immorality and crime of all great populations. The conflict between capital and labor, and employers and employees, is losing none of its intensity, "now rumbling ominously like some far-off earthquake, and now breaking out into the volcanic eruption of the disastrous strike." At the other extremity look at the luxury and extravagance, the heartless worldliness and the grasping selfishness of many of the so-called "upper classes."

These things threaten the life of our nation, the peace and prosperity of our homes, and are a standing challenge to the Christian Church. We must do something about them.

HYGIENE OF THE TEETH
FULLIS HEALTH NEWS
Prepared Each Week For the Readers of This Newspaper by the New York State Department of Health.

EVERY one of course knows that dental decay if not promptly checked leads to much suffering and nervous strain and plus a burden upon the digestive system. It leads to general lowering of food without proper chewing. While this has not been recognized until lately is that through decayed teeth and infected gums the cause of very serious diseases often and their way into the system. These are food poisoning and diseases of the HEART and BLOOD VESSELS and KIDNEYS, many varieties of chronic rheumatism, osteomyelitis and again been traced to this cause.

Some of the methods commonly advocated for the care of the teeth have probably done MORE HARM THAN GOOD. Some of the tooth powders and pastes purchased by the masses have done more harm to injure the membranes of the mouth than the bacteria and others maintain substances that serve as food FOR MALARIAL, for the harmful microbes. Chemical and bacteriological studies recently carried out in New York suggest the sprinkling of the teeth with FOOD ACIDS, such as fruit juices or vinegar diluted with two or three parts of water, instead of alkaline dentifrices, and the use of such food acids as mouth washes.

In the last issue of HEALTH NEWS, the monthly bulletin of the New York State Department of Health, Dr. W. G. Ebersole of the National Mouth Hygiene Association points out that—

"To prevent unhealthy and diseased mouths we must have:

"First—PROPER TOOTH EXERCISE in choosing the right kinds of food.

"Second—PROPER TOOTH CARE, the correct method of cleaning the teeth.

"Third—PROPER TOOTH TREATMENT. Where the mouth is diseased or the teeth decayed, the decay must be removed and the teeth restored to their natural condition.

Dr. Ebersole gives the following detailed directions for the hygiene of the teeth:

"In the light of recent investigation conducted at the hands of some of the leading students of mouth hygiene the most effective way to use the toothbrush is to place the bristles of the brush firmly against the teeth, applying firm pressure, as though trying to force the bristles between the teeth, using a slight rotary or scrubbing motion. This movement will be found to cleanse the teeth better than any other method of brushing.

"When the brushing is finished the user should take in the mouth lukewarm water and, with the use of the lips, cheek and tongue, using all the force that the individual can bring to bear, force the water in between and around the teeth, repeating this cleansing process several times. After a short time the power to force the water between and around the teeth will be increased until one who uses this method will be astonished at how much debris can be washed out in this way after a careful use of the toothbrush and the brush.

"The toothbrush should be changed every two or three weeks. This is especially true in the case of the toothbrush which has been used in the mouth of a patient with a contagious disease. The toothbrush should be changed every two or three weeks. This is especially true in the case of the toothbrush which has been used in the mouth of a patient with a contagious disease.

Morning service at 11 o'clock. Message by the pastor. You are cordially urged to worship with us.

Sunday school at close of morning service. Every man and woman of the community should be in some Sunday school. If there are not classes to suit your need, come and help us organize them. Men of the congregation are being made welcome in the Baraca class, taught by the pastor.

Christian Endeavor at 6:45. Last Sunday we had a fine meeting. There was a number of special music that helped greatly in the service. Why not have such surprises often?

Evening service at 7:30. Song service, followed by message from the pastor. You would like this service, whether young or old.

Thursday evening service at 7:45. We will continue in our study of the prophets.

Please note carefully, the following notice read from the pulpit last Sunday: The annual meeting of the Second Presbyterian church and society, will be held Monday evening, Jan. 24, 1916, at 7:30, for the purpose of electing three trustees in the place of Mead Underwood and Morell Wilson whose terms then expire, and one to fill out the term of Charles Decker, and to transact any other business that may come before this meeting. Every one interested in the church is urged to be present. After the business meeting there will be a social time, and refreshments will be served.

By order of the clerk,
Rose M. Wilson.

Death of Mrs. J. H. Smith.

Mrs. Amos J. Hurlbutt received a message on Wednesday afternoon of the death of Mrs. J. H. Smith of Ithaca, following a serious operation in the City hospital that morning. The news of her sudden death was a great shock to Mrs. Hurlbutt and to the deceased's friends and acquaintances in Genoa. Mrs. Hurlbutt knew of the intended operation, but was not prepared for the unexpected result.

Flora May Hurlbutt was the adopted daughter of the late Amos J. and Emma A. Hurlbutt. She was married to James Hanford Smith of Genoa on Dec. 19, 1888, at the Hurlbutt home at East Venice. They were residents of Genoa until Mr. Smith took his present position as traveling salesman about thirteen years ago, when they removed to Freeville, and later to Ithaca.

Mrs. Smith was 47 years of age, and leaves beside her husband, five children — Mrs. Pierce Douglas, Arlington Smith, Mrs. H. W. Unckles, Miss Lillian Smith and Hanford Smith, all of Ithaca. The daughter, Mrs. Unckles, was called home from New York where she went with the remains of her husband only two weeks ago. His death occurred in Buffalo quite suddenly, and Mrs. Smith went to Buffalo and also to New York for the funeral with her daughter.

The funeral will be held at the family home, 307 Utica St., in Ithaca, this (Friday) afternoon at 3 o'clock. Burial in Lakeview cemetery, Ithaca.

Five Eclipses.

In 1916 there will be five eclipses, three of the sun and two of the moon. Those of the moon will be partial eclipse, both of them visible in the United States. One will occur in the early morning of January 20 and the other on the evening of July 14 and morning of July 15. The latter will be the most notable, as four-fifths of the moon's diameter will be eclipsed. There will be a total eclipse of the sun on February 3, visible as a partial eclipse in the United States; an annual eclipse on July 29, invisible here; and a partial eclipse on December 24, not visible here.

No longer is the swat-the-fly campaign to be confined to the summer season. A vigorous year-round war of extermination has been declared on the bacteria carriers, and those actively engaged in the country-wide war against the fly have sent out printed messages with the plea, "Kill the winter flies."

A problem is confronting the railroads that sell beverages on their trains, particularly with meals in dining and buffet cars. With something over half the towns in New York state dry, it will be necessary to have a schedule showing the railway employes where they may sell and where they may not sell liquor. Going through a dry town it would be unlawful to sell liquor and the bar-tenders must know just where to stop and start again.

"We may live without credit or backing or style,
We may win without energy, skill or a smile,
Without patience or aptitude, purpose or wit,
We may even succeed if we're lacking in grit;
But take it from me as a mighty safe hint,
A civilized man cannot live without Print."

EFFECTS OF BEER DRINKING.

The political strength of liquor is furnished by the wine and beer drinkers. Whisky interests may be better organized than the brewers and interfere more actively in politics, but the votes which make possible the sale of intoxicants are not furnished by whisky drinkers, who do not always vote as they drink. The beer drinker generally will vote to protect his habit, because he is far from convinced of its malignancy.—From Editorial in Chicago Tribune.

And that is why the W. C. T. U. and other temperance organizations are bringing to the masses the truth about beer and its malignant effects upon the human organism. Concerning those effects the Life Extension institute says in a published statement:

"One-half of one quart of beer is sufficient to distinctly impair memory, lower intellectual power and retard simple mental processes, such as the addition of simple figures. This narcotic or deadening influence is first exerted on the higher reasoning powers that control conduct, so that the lower activities of the mind and nervous system are for a time released. The everyday, well-poised, self-controlled man goes to sleep, as it were, and the primitive man temporarily wakes up. Eventually, the nervous system is narcotized, and the drinker becomes sleepy. Muscular efficiency is at first increased a little, and then lowered, the total effect being a loss of working power."

A CORRECTION.

Newspapers and magazines are continually publishing erroneous statements with regard to the number of dry states. A leading weekly periodical publishes a prohibition map showing 17 Iowa is omitted. A writer in one of the June magazines gives the number as 16, Iowa and Idaho both being counted among the wets. Up to September 21, 1914, there were nine prohibition states. Since that time nine more have been added. The 18 prohibition states, in the order of their going dry, are:

Maine	1851
Kansas	1880
North Dakota	1889
Georgia	1907
Oklahoma	1907
North Carolina	1908
Mississippi	1908
Tennessee	1909
West Virginia	1912
Virginia	1914
Colorado	1914
Oregon	1914
Washington	1914
Arizona	1914
Arkansas	1915
Alabama	1915
Idaho	1915
Iowa	1915

PROHIBITION PROGRESS.

(By JAMES MIDDLETON, in World's Work.)

About two years ago Mr. William Jennings Bryan gave a diplomatic dinner in Washington, distinguished particularly by the absence of wine. Immediately the world burst into a roar of laughter; Europeans, especially, hailed the proceeding as an amusing illustration of American provincialism. A few months ago the king of England announced that he would himself abstain from alcoholic drinks for the rest of the war, and that wines would no longer be served in any of the royal households. Nine American states have adopted prohibition in the last eight months. France has legally forbidden the manufacture and sale of absinthe, and the Russian empire is "drier" at the present moment than Kansas or Maine ever were. Facts like these testify to the progress that the cause of antialcoholism has made in less than a year. When the leader of the most sophisticated society in Europe follows the example of our own somewhat homespun secretary of state, the cause of teetotalism has ceased to be ridiculous.

THE SOCIALIST VIEW.

The special committee appointed by the Socialists a year ago to study the liquor problem says in its report, presented May 13 to the national committee in Chicago that "total abstinence is the only absolutely safe and wise course to pursue" in view of the disastrous effects of excessive drinking. Many of the authorities quoted in the report in condemnation of beer are German. Among alcohol's recorded opponents are 800 German and Austrian doctors. One statement is that "beer is not the harmless beverage many of the German people think it is."

"The Socialist party," declares the report, "cannot remain indifferent or inactive, but should take a definite position and active part in combating the evils of alcoholism."

ILLINOIS GOING DRY.

Illinois had twenty-eight prohibition counties when the women were asked to assist in destroying the saloon by their votes. They responded by driving them out of twenty-three additional counties at the first election. Four more counties were made dry this year, making a total of fifty-five. Seventy county seats are dry; 1,234 out of 1,430 townships in the state have abolished the saloon. Not one saloon is left in the state.

TRYING TO HELP NEW YORK CITY

Joint Committee to Investigate the City's Financial Condition Adopts a Novel Policy

WRONG FINANCIAL METHODS

Admitted by City Officials Who Promise to Work for Their Correction—School Teachers' Salaries a Subject of Internal Dissension.

New York.—A condition absolutely unique in the history of New York City investigations has developed as the work of the joint legislative committee to investigate the financial condition of the city government progresses.

Instead of harrowing the city administration with criticism, the committee is earnestly striving to ascertain just what is the matter with the city's finances and devise an intelligent plan for the city's relief.

Of the twelve members of the committee, seven represent districts in the greater city: Senators Cromwell, Lockwood, Cullen and Wagner and Assemblymen A. E. Smith (now sheriff of New York county) Perlman and Shapiro. Senator Elon R. Brown, the chairman of the committee, lives in Jefferson county; Senator Wicks in Oneida county; Assemblyman Maier, Seneca County; Assemblyman Law, Westchester county and Assemblyman Brereton, Warren county. Throughout the investigation thus far there have been no real divisions in the committee either on geographical or political lines. Such skirmishes as have occurred have been chiefly between members of Mayor Mitchel's administration and Senator Wagner and Assemblyman Smith, the city's leading representatives in the Legislature.

The Home Rule Issue.

Last year in the Legislature the claim was made repeatedly by members of the city administration and by representatives of New York City in the Senate and Assembly that the city was suffering from mandatory legislation imposed upon it from Albany, that it had been denied a fair measure of home rule and that it was paying an unjust proportion of the state taxes. The obvious effect of such a claim was to array the people of New York City and the rest of the state against each other and make it increasingly difficult to ascertain the true source of the trouble.

The appointment of a committee made up of seven city members to five up-state members was the first step toward dissuading the minds of the people of the city of the idea that the people of the rest of the state were antagonistic to them.

The next step was the starting of the inquiry into the questions of mandatory legislation, home rule and the alleged unfair treatment of New York City in the matter of state taxes. In stead of coming before the committee as the defendant, as has been the custom, New York City came as the plaintiff.

School Teachers' Salaries.

The fixing of school teachers' salaries by state law, which is the most important case of mandatory legislation to which the city administration objects, has been considered at length and the testimony shows a wide difference of opinion between the city's board of estimate and apportionment and its school board. The board of estimate believes that it should have the power to fix the salaries of the school teachers while the school board holds that, unless teachers' salaries can be fixed by the school board, they should be fixed by law.

It has developed further, in the matter of mandatory legislation, that since 1907 no law affecting New York City has been passed without the approval of the mayor. It also developed in this connection that sometimes the mayor and members of the board of estimate and apportionment were not in accord on certain bills, but as it is the mayor and not the board who is given the power to approve or disapprove of city bills, the approval by the mayor would settle the matter so far as the Legislature is concerned. New York City was to have home rule.

May Be Solved by a Referendum.

In view of the fact that recent legislation asked for by the Mitchel administration has not had the support of New York City members of the Legislature, Chairman Brown of the committee suggested a referendum on important city legislation in order to determine definitely just what the city wanted. Mayor Mitchel professed that the committee should recommend such legislation and endeavor to secure its passage, but as there have been numerous evidences of a difference of opinion between the city administration and the city's legislative delegation on the subject it is probable that no determination can be reached without a referendum.

Mayor Mitchel contended and Chairman Brown was disposed to concede that the regulatory expenses of the first district public service commission now paid by the city should be paid by the state as are the regulatory expenses of the second district public service commission.

Wrong Financial Methods.

One marked difference between the financial methods of the state and the city has been brought out by the investigation, and the city officials have admitted that the state's method was far better. It is the custom in the city to borrow money to anticipate the tax levy which adds the cost of interest to the cost of running the government. The state, on the contrary, raises its money first and deposits it in various state depositories where it draws interest until such time as it is needed. When the city borrows interest is temporarily paid to the state treasury. In order to determine just what the city's financial condition is, the committee has been studying the financial methods of the state and the city.

The Old Hope Chest

Held a Charm That Helped a Girl to Find Her Heart.

By AGNES G. BROGAN

The young man stood regarding the girl, whose eyes flashed back defiance. "And so you will not go with me?" he asked unbelievably.

"Go with you?" the words were flung at him in contempt. "Into that god-forsaken country? I, Eleanor Stevens, to rough it in an engineer's cabin? Why, Billie Dare?"

"But," he gently reminded, "you must have known it had to come some time, Nell. That is part of our engineer's life. And, knowing, why did you wait for me all these college years, spurring me on with the promise of yourself?"

"I didn't," the girl insisted stubbornly. "Civil engineers do not always choose to live in wild lands. It was an office here in the city which I had pictured for you, Billie, and a home in the suburbs, where we might still have our friends, with the theaters near to enjoy and rides in and out in father's car. I want to live a civilized life!" she finished passionately.

The man's good natured mouth closed in firm, unwavering lines.

"It was the life you chose, then, Nell, and not—myself. Well, this is my great opportunity. For this commission I have studied and planned. Now I intend to accept it." He paused in an effort to control his voice. "And I thought you would be so glad, Nell, why I hurried over to tell you."

His passing bitterness was over whelmed by tender longing. "Dear," cried the man, "won't you come? The 'hope chest' must be ready, you've been packing it so long. We could take it on with us tomorrow."

The girl turned away with an impatient gesture. "My hope chest," she mocked, "yes, I've been preparing it long. 'French lingerie' and satin heeled shoes—what shall I do with them in your swamp?"

Billie Dare's face grew white. There was an odd glint in his clear, boyish eyes. "You understand, Nell," he said slowly, "that refusal to accept conditions now is refusal for all future. I might deceive you by occupying for the present the city office, but the other things, the big things, would only come later. Railroads must run through the wilderness, tunnels beneath the land. It is in me to construct and build, Nell, and I must do it."

The girl's flaming cheeks paled to the whiteness of her own. "Then I will never go with you," she said and placed her ring in his hand.

For a moment he stood looking down upon the sparkling thing, then silently

her with unutterable despair. The thought came that she should go to him, but she remembered that he had let a week go by without sending word to her, and indeed if he had already left home she knew not where to find him. Thus she reproached herself and wept in futile despair.

From the days of her childhood Great-aunt Millicent had been to the girl a panacea for all ills. No trouble, however darkly looming, could live long in the sunshine of the old lady's presence.

"Dearie," greeted Aunt Millicent, her white curls bobbing above her dark, undimmed eyes. "I am so glad you came! We are sewing for the soldiers, for, though they are no countrymen of ours, still are they not our brothers? Perhaps you'd like to take a needle and help. Seems as if every stitch carries me back to that awful war when I was a girl. Tears were mixed with the stitches then, honey. But—her merry eyes twinkled mischievously—"probably you'd rather be sewing on the dainty things for your wedding 'best.'"

Nell caught her breath painfully. "Aunt Millicent," she cried, "I shall never sew upon them any more!" And then she told her story.

Quietly the old lady listened, pausing to fasten a thread.

"Reckon I know just how you feel, 'child," she said at last, "for long ago I, too, dreamed my dream and had it shattered." She laughed blithely. "One doesn't connect romance with a little seventy-two-year 'old maid.' But I had my love story, dear, and my 'hope chest,' too." Impulsively she arose. "Maybe you'd like to see it?" she suggested. "It's a fine day to go up in the attic."

Through the dormer windows as she flung them wide came the mingled fragrance of spring flowers. Then down upon her knees she drew forth the little old trunk.

"More like a leather valise," Aunt Millicent explained. "But you see this was my second 'hope chest.'"

"Why," questioned Nell, "did you have two?"

The old lady smiled as she caressed the worn top. "That, dearie," she said, "is my story. I was a Stevens, you know—daughter of the county judge. This in those days meant a good deal. It meant rich brocades for the 'hope chest' of a judge's daughter, plumed hats and needlework of the finest. So the great chest was joyously packed to await its time. My lover was a man to be proud of, though he did come from a northern family."

"When we catered out upon our ponies in the morning to view our own house which was building life itself seemed very happy and complete. Near to my old home the new house was to be and near to those of my friends."

Great-aunt Millicent gazed unseeing over the top of the tallest pine. Her voice fell sadly. "Then," she said, "came the war. He had to go back to the north to fight with his countrymen, while I was left to grieve left with the unused treasures of my 'hope chest,' and 'hope' so far away." Eagerly she leaned forward. "Oh," cried Aunt Millicent, "if I could but have gone with him, there to suffer at his side! And after the terrible time of suspense came a letter. He was wounded, lying alone in a miserable hut where they had carried him, his only help an old woman who had given him shelter. But there was no complaint in his letter. He was grateful for the roof above his head, though it was a leaking roof," he wrote jokingly, "though the wind whistled through the rilled rafters." When he might be removed to a place where the roads were passable, where travel was not so hopeless, dangerous, he would send that I might go to him."

A bright tint of color showed in the wrinkled cheeks. Aunt Millicent's laugh after fifty years rang tenderly triumphant. "As though difficulties could have held me back!" she cried. "Why, I was almost glad at the thought of giving him service! That very night I decided to be on my way. The money saved from my unfinished trousseau would pay the journey, and my family should not know in time to forbid. A note left behind could tell them where I had gone, so to the attic I ran, tumbling excitedly the heavy silks from their chest. This smaller box must suffice for my scant needs—the stout boots for rough roads, this old poplin dress, the bandages of linen—they must not be forgotten—many of them and carefully rolled."

"Here they are, honey—yellow with age." From the bottom of the chest Aunt Millicent lifted with almost reverent touch a gray woolen cloak with a scarlet lined hood.

"I wrapped myself in this," she said, "creeping out when all slept into a night of storm. There were no telephones in those days to inquire when a train might leave or to call for a taxi, so I must needs walk to the crossroads, there to board the train when it should come. Down the garden walk I moved stealthily, the little chest clasped in my arms. Near the great gates I fell back, a-shuddering. A lantern was flashed in my face. But it was only old Jim, the negro messenger."

"For you, missie," he said, and thrust a slip of paper into my hand. And there beneath his swaying lantern, my cloak flapping in the breeze, I read the message. My lover was dead! Poor child!" murmured Aunt Millicent softly. "Poor young broken thing! That was I. Back to the house I went somehow. But later came my comfort. He had asked her (the old woman who cared for him) to tell me that he had gone to sleep knowing that I would have come. 'That's the way my girl loves,' he told her."

Briskly the old lady pushed back the trunk.

"Dear, dear!" she admonished. "You mustn't cry, honey. Remember, this all happened over fifty years ago. And

now you come right downstairs. The ladies will be here to sew and have a cup of tea."

But even as Great-aunt Millicent went forward to greet her guests Nell was at the telephone.

"Main 1500!" she called. "Mrs. Dare, is that you, and—has Billie gone?"

"He has," Billie's mother responded coldly. "I have just left him at the station."

"Oh!" came back a pitiful wail. "And I did so want to see him!"

The voice of Billie's mother changed perceptibly.

"Then I'll tell you what to do, Eleanor," she hastily added. "You may call him up at the junction. He has a tiresome wait there of an hour."

Gracelessly the girl banged back the receiver. Wildly she dashed out to the garage.

"I want," she breathlessly directed the chauffeur, "to be taken to the junction!"

Past the rooms of chattering women she crept as stealthily as Aunt Millicent of old. Nell's own suit case was

"NELL," EAGERLY ANSWERED THE YOUNG MAN, "DO YOU REALLY MEAN IT?"

in her hand, but over her light spring suit was wrapped the old gray cloak. Its crimson lined hood had slipped back from her wind blown hair as she faced an astonished and very despondent young man at the junction.

"Nell!" he cried unbelievably, then captivously, "Nell!" For, regardless of the wide eyed station agent, the girl's arms went about her lover's neck, her rumpled head pressed close against his breast.

"Oh, Billie," she cried confusingly; "I'm so glad you're not dead, and, Billie dear, I'll go with you any place—to a desert or a jungle."

"Nell," eagerly answered that amazed young man, "do you really mean it?"

Softly shining, her eyes met his. "I think," Nell assured him solemnly, "that I meant it all the time, but I hadn't quite found my heart. I found it yesterday—oh, Billie, you dear—in a trunk in Aunt Millicent's attic."

And a little old lady sitting beneath her evening lamp reread a telegraphic message:

"I have married my 'soldier of fortune," it said. "Will write later. Lovingly, Nell."

"It's a changing world," smiled Great-aunt Millicent, "but I reckon there's always just one kind of love."

Piling It On.

He had been on a hunting expedition for several days in the backwoods, roughing it rather severely, and on taking a seat in a railway carriage returning homeward he looked as begrimed and weatherbeaten a trapper as ever brought his skins into a settlement.

He happened to find a sent next to a young lady—evidently belonging to Boston—who, after taking stock of him for a few minutes, remarked:

"Don't you find an utterly passionate sympathy with nature's most incarnate aspirations among the sky topping mountains and the dim aisles of the horizon touching forests, my good man?"

"Oh, yes," replied the apparent backwoodsman, "and I am also frequently drawn into an exaltation of rapt soulfulness and beatific incandescence in the midst of abstract cogitation when my horse stumbles."

"Indeed!" said the young lady, much surprised. "I had no idea that the lower classes felt like that."—Cleveland Leader.

Quite Unexpected.

"When he bought dear little Bobby the electric flashlight he had been begging for so long," says a south side mother, "we never anticipated that the first time we had company he would hold it up to the guest's ear and say: 'Oh, I just want to see if your ear is clean!'"—Kansas City Star.

His Business.

"Who's that portly man with the prominent stomach?"

"Dat am Colonel So-and-so, sah," answered the courtly colored gentleman addressed.

"And what is his business?"

"Test being a colonel, sah."—Louisville Courier-Journal.

PROBLEMS OF MUNICIPALITIES

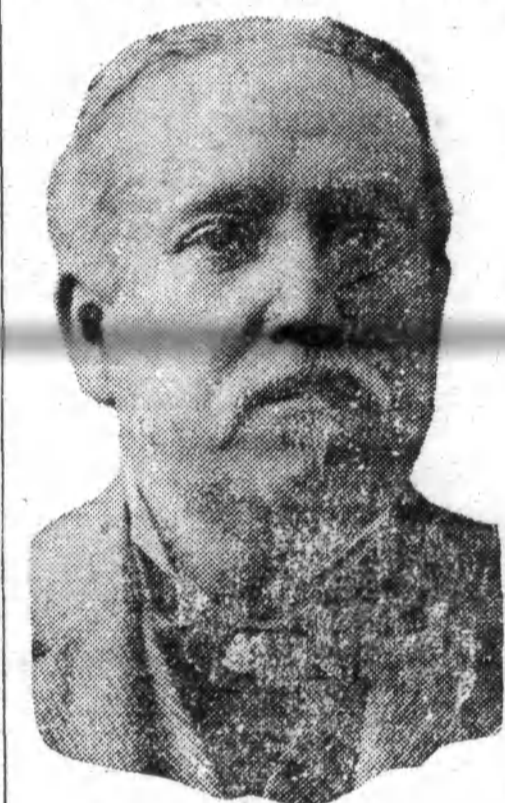

City League and Societies to Meet at Dayton.

TO DISCUSS CIVIC MATTERS.

In Mid-November at Dayton, O., Several Important Organizations Will Confer Upon the Best Methods of Running Towns and Other Important Questions.

How shall we run our municipalities? Is a question that is pressing upon every man, woman and child who lives in what is legally known as a city or town, and on every one in the country, for that matter, because the municipalities are so closely bound up by railroad tracks, telephone and telegraph wires and a hundred and one other interests with the districts round about.

It is to answer this question that the National Municipal league and its allies will address themselves in Dayton in "municipal week." The league fixed its annual meeting for Nov. 17-19. Then the City Managers' association, of which Henry M. Waite, the efficient city manager of Dayton, is president, determined to meet at the same time so as to get the benefit of contact with long time students of the problem. Then the Ohio Municipal league decided to meet in Dayton in the same week, and finally the Ohio Civil Service Reform league took the same action. The appropriateness of

WILLIAM DUDLEY FOULKE.

the latter body meeting in the same connection is obvious, as one calls to mind that the question of selecting experts and employees to carry on municipal work is one of the most difficult with which administrators have to deal.

The great big question before the National Municipal league will be the adoption of a model charter upon which the municipal program committee has been at work for two years and more. This charter will embody the city manager plan and the utilization of business methods and experts in the management of the municipality. This committee is composed of twelve men who have studied the municipal problem from every conceivable angle. Some of them have had actual experience in city government, some in state government, others have had experience as civil service commissioners, some are college professors, some are public utility experts, another is the editor of an engineering magazine, so that when the committee speaks it is with the voice of experience and authority. President William Dudley Foulke of the National Municipal league is chairman of the committee.

Civic education will be another feature that will come up for extended attention. This is a subject to which the National Municipal league has devoted years of patient study through a series of committees.

In discussing this question at Dayton the league will have the active cooperation of the Urban Universities association, a body of which Charles W. Dabney of the University of Cincinnati, a vice president of the league, is president.

There will be a long list of committee reports involving such questions as the relation of the city to its food supply, franchises, immigration, municipal reference libraries and political methods up for consideration.

These annual conferences are of the greatest value to all municipal workers, bringing together as they do leaders in various lines of civic activity.

Another one of the important committees of the league is the civic secretaries' committee, which is composed of the men and women who are serving as secretaries of the leading civic bodies in the country. Once a year they get together to discuss matters of the greatest importance to the conduct of organized civic work.

This "municipal week" will be of far-reaching importance not only because of the program to be discussed, but of the personnel of the speakers and the character of the organizations which are to be represented. Henry M. Waite, the city manager of Dayton, is at the head of the arrangements and will take a leading part in the meetings.

It Is Strange.

It always seems strange that advertising should be spasmodic with a certain class of merchants, who fill the papers just before the holidays with big announcements and withdraw completely just as soon as the season is over. Advertising is most effective if persistently followed in every issue of a good newspaper published in the merchant's city or village. Wideawake and successful retailers advertise continuously. People buy at all seasons of the year and they also read every issue of the newspaper for which they subscribe. A steady pace will win the race—in advertising as well as in other business policies.—Skaneateles Free Press.

—New York leads all other states in the production of raw milk, and according to latest census figures, in the number of dairy cows within its borders, and in amount and value of dairy products. There are more than 1,500,000 cows in the state of New York, and the value of the products from these animals, exclusive of milk and cream used on the farm, is nearly \$80,000,000 a year.

—Invitations have been sent out by County Superintendent of Highways J. Charles Dayton to the town highway superintendents and justices of the peace of the towns of the county to attend a meeting at the Court House at 1:30 o'clock on the afternoon of Feb. 1. At that time addresses will be made by officials of the State Highway Department, and an opportunity will be afforded for a general discussion of road matters.

"I WRAPPED MYSELF IN THIS," SHE SAID, "CREEPING OUT WHEN ALL SLEPT."

off the room. Through the curtains the girl watched him go, then a quick confident smile sprang to her drooping lips. "He will come back," said Nell. Billie had always "come back." His had been the concession after each lovers' quarrel. With penitent grace, he would assume her chosen routine of office and home. But for the first time in his generous, unselfish life Billie disappointed. As weeks passed with no word or visit from him, the disappointment turned to alarm, and when one evening Nell read in the paper a notice of his departure upon the following day for an extended time abroad, she went white lipped to her mother.

"I am tired," said Nell. "I am going to visit Aunt Millicent in the country." So that evening Eleanor Stevens arrived at the home of her aged relative, a saddened and contrite young woman. She almost hated herself for her selfishness and was humiliated by the sense that she had proved herself incapable of meeting a crisis in her life that perhaps would mean future happiness or the reverse. Besides, she could never see him again filled
