Millard Fillmore Memorial.

As most Cayuga county residents
know, Millard Fillmore, the thir-
teenth president of the United
States, was born in 1800 at Summer-
hill, in the south end of the county.
He studied law at Buffalo and start-
ed in to practice at Aurora.

For some time there has been
agitation for a fund campaign for
the building of a suitable memorial
at the birthplace of President Fill-
more. Senator Hewitt of Locke
actually introduced a bill for the ap-
propriation of \$5,000 for the con-
struction of such a memorial, but
the bill was thrown out by the Ap-
propriations Committee. But recently
the Cayuga County Historical society
took the matter in hand. It will
erect a memorial, the order for
which has already been given, on
the spot where the thirteenth pre-
sident of the United States first saw
the light of day. This monument
will be erected soon and will remain
until a more suitable memorial can
be erected.

Where Shall I Go This Summer?

Bible School Park, near Bingham-
ton, N. Y., situated on the banks of
the Susquehanna river can solve this
problem for you. No place can offer
more inducement for an ideal vaca-
tion to the tired business man or
woman. Here will be found, not
only the healthful sports of the sea-
shore and mountains, but also the
friendship and fellowship of those of
like mind and interests. The great-
est Bible conference that has ever
been held in this part of the country
will convene here July 24 to Aug. 4 at
Bible School Park. You cannot af-
ford to miss it! Free to all. Many
travel miles by auto to spend a Sun-
day or a day or two at this confer-
ence. Guests come from Buffalo,
Chicago, New York and other large
cities.

If we still had town criers, you
might get along without your home
town newspaper. But who wants to
go back to the days of the town crier?

A picnic supper need require no
more preparation than any other
meal if you have a definite place in
the pantry where all the necessary
equipment can be kept.

Odd Fellows—Rebekah Picnic.

Cayuga county Odd Fellows and
Rebekahs will hold their annual sum-
mer outing at Fair Haven this year.
The picnic committee of the two
fraternal organizations met and de-
cided definitely upon the town in the
far north end of the county as the
site for the 10th annual outing. Sat-
urday, Aug. 30, was the day chosen
and committees were appointed to
make plans for the event during the
coming weeks. The picnic will be
back on the old peace time basis this
year and a record crowd is expected
to attend.

Over 1,500 Odd Fellows and Re-
bekahs will attend the event accord-
ing to the estimate of the Picnic
Committee. A special train over the
Lehigh Valley will pick up the mem-
bers of the two organizations in the
far southern end of the county and
then get the Auburn and other lodge
delegation on the way north.

Basket picnic lunches will be
served at noon and directly after
eating, the annual business meeting
and election of officers will take
place. The athletic events will fol-
low and chief among these will be a
baseball game. All kinds of games
and track events will be staged and
many prizes will be given the win-
ners.

County Farmers' Picnic.

Farmers from every town and vil-
lage of Cayuga county are invited to
attend the big county picnic arrang-
ed by the Cayuga County Breeders'
association which will be held at the
Bellmath Farms, Senett, on July
31. Every farmer should accept the
invitation of Earl D. Crocker, one
of the foremost Guernsey breeders
in the county, to go to the Bellmath
Farms.

There will be all kinds of enter-
taining features at the picnic on
July 31, and one of the most unique
will be the milk bar, where the "Jer-
sey Golden Fizz" and "Guernsey
Highballs" or "Holstein Cocktails"
will be served. These drinks, served
for the first time at the meeting of
the Cayuga County Breeders' associa-
tion on June 21, met with great
success and will be served to all the
farmers who attend the picnic.

The speaker of the day, according
to announcement, will be "Johnny"
Arfman, the largest breeder of pure
livestock in Orange county.

Moravia Race Meet.

The Moravia Racing association
will hold its first annual races at the
Cayuga County fair grounds in Mo-
ravia Aug. 6 and 7. Purses aggregat-
ing \$1,000 will be given as follows:

Wednesday, Aug. 6—2:40 trot and
pace, \$150; 2:15 trot and pace, \$200;
2:20 trot and pace, \$150.

Thursday, Aug. 7—2:30 trot and
pace, \$150; 2:17 trot and pace, \$200;
2:25 trot and pace, \$150.

National Trotting Association
rules will govern with exceptions.
Purses will be divided 50, 25, 15 and
10 per cent.—five or more to enter,
four or more to start. Trotters will
be allowed four seconds over pacers.
All races will be mile heats, best
three in five. Any horse distancing
the field or any part there, entitled
to first money only. Entries will
close Monday, August 4. All entries
should be made to Ivan Miller, secre-
tary and treasurer, Moravia.

Aged Woman Dies.

Mrs. Josephine L. Townsend,
widow of the late R. L. Townsend,
who for years made their home near
Fosterville, died Saturday night at
the residence of her daughter, near
Savannah. Mrs. Townsend had been
in failing health for some time past,
having suffered a shock within the
past few weeks. She was 83 years
old. She leaves four children, Hor-
ace R. Townsend of Buffalo, Mrs.
George H. Macomber of Auburn,
Manley S. Townsend of Merrifield
and Mrs. W. A. Culver of Savannah,
besides a number of grandchildren
and great-grandchildren.

Her funeral was held at the Fos-
terville M. E. church at 2:30 Tues-
day. Burial at Throop Rural
cemetery.

The use of the pressure cooker
saves time, fuel and labor, all of
which are well worth saving.

CONTINUES FIGHT ON TUBERCULOSIS

Rockefeller Foundation Will Not Withdraw Until France Is Ready to Keep Up Work Started in War.

FRENCHMEN TO COME TO OBSERVE OUR METHODS

Foundation Reports on Tuberculosis Work in France in Past Year — Describes Methods Used.

In the United States, the Rockefeller Foundation has been working for the past several years to bring to the attention of the American people the importance of tuberculosis control.

The American campaign against tuberculosis has been a campaign of organized resistance. Only a few individuals, hospital sanitarians, and public health officers have been able to do this by visiting nurses, public health officers, educational campaigns, committees and government officials are all fitted into a co-operative and unified system can really effective results be secured.

The "Medicinal Tank"

"Do you know the Medicinal Tank?" asks a writer in Le Matin of November 10, 1918. "It is an invention of the Rockefeller Foundation. This tank rolls over the roads of France, bearing signboards. . . . Behold this tank entering a city—or a village. It does not come unannounced. . . . A delegate arrives. He pays visits to the newspapers and to the municipal, military, prefectural and religious authorities. . . . the mayor offers a free hall to the demonstrators—I mean the delegate. After the hall has been obtained the delegate covers the city with posters.

"In the meantime a train at the station discharges a gentleman lecturer and a lady lecturer. These are accompanied by another lady, the 'demonstrator,' whose task it is to comment on the posters in the exposition room. Finally the automobile truck appears.

"The directors of the International Department of Hygiene of the Rockefeller Foundation are aware that even the best article does not sell unless you hit the nail on the head. Possessors of that excellent, though neglected, commodity known as truth, they find that in spreading it public education is necessary, and that public education, after all, consists in nothing more than applying the art of advertising to the facts of science. This is their language brought to us by posters and cinema:

A Speech About Tuberculosis.

"No one, O Frenchmen, has excelled you in the scientific study of tuberculosis. But it is not enough that your scientists combat this disease; each one of you must take part in the battle, must benefit from the knowledge acquired, and perform in his turn the office of educator. . . . Why do you give your patronage to charlatans? Because they advertise. We have taken advertising away from them and use it in the interests of science. You think of tuberculosis only after you have it. We are going to make you think of it all the time so that you may protect yourself against its invasion. . . . This way, this way, follow the crowd. . . . We put medicine within the reach of little children. This way, this way, tell us what you prefer, moving pictures or the hospital. Our show saves you from the hospital. We are advertising public health."

There is little to add to this description of the educational campaign of the commission. During 1918 three traveling exhibits and groups of lecturers visited ten departments, and in 141 towns of 3,000 or more population gave 875 lectures with demonstrations and exhibits. In the same period 2,113,708 pieces of printed matter, posters, pamphlets, postcards, games, were widely distributed throughout the whole of France. A series of twenty-four articles on tuberculosis appeared in thirty-three important provincial newspapers. The commission's publicity material, written by French men and women, and charmingly illustrated by French artists, has set a new standard for popular public health education.

Turning the System Over to the French.

A campaign of extension has reached twenty-seven departments. Representatives of the commission and of the American Red Cross have visited leading towns and cities in a systematic effort to organize local committees and to induce these groups to establish dispensaries as the first step toward a complete plan for control of tuberculosis.

Arrangements have been made to bring to the United States a group of Frenchmen and to afford them an opportunity to observe American institutions and methods. It is expected that in this way leadership will be provided for the assumption of rapidly increasing responsibility for the campaign in France.

Within a reasonable time, therefore, the Foundation expects to withdraw from France, confident that the work will go on until a nation-wide system for combating tuberculosis has become a permanent part of the policy of France.

Don't Send Your Order Out of Town Until You See What We Can Do

The Thrice-A-Week Edition OF THE New York World

IN 1919.

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so low a price.

The value and need of a newspaper in the household was never greater than at the present time. We have been forced to enter the great world war, and a mighty army of ours is already in France fighting great battles and winning magnificent victories. You will want to have all the news from our troops on European battlefields, and 1919 promises to be the most momentous year in the history of our universe.

No other newspaper at so small a price will furnish such prompt and accurate news of these world-shaking events. It is not necessary to say more.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and the Genoa Tribune together for one year for \$2.25. The regular subscription price of the two papers is \$2.50.

FALSE TEETH We pay up to \$35 for old or broken sets. Send Parcel Post or write for particulars.

The KITCHEN CABINET

A recipe for proud cooks—When you taste a blueberry pie that you have just made and feel a thrill of pride at its delicious flavor, always remember that you didn't make the blueberries.

MEALS FOR OCCASIONS.

We never lose our desire for something new, and when a combination a little unusual is heard about we wish to try it.

Squabs Mirabeau.—Prepare squabs as for roasting, broil five minutes in broth, and then remove them. Silt them down the back, without breaking the breast bone, season with salt and pepper, cover with egg and crumbs and cook in butter fifteen minutes. Garnish with small onions and potatoes browned in butter.

Codfish Bonnefemme.—Butter a long baking dish and place half a codfish, skin side down in the dish, surround with potato balls, season with salt and pepper and put butter on top of the fish. Put into the oven to bake, baste frequently, cooking about 15 minutes. Just before serving baste again and brown, then sprinkle with minced parsley and serve.

Raspberries a la Astor.—Take two cupfuls of raspberries, add a little lemon juice and powdered sugar and a pinch of nutmeg. Mix thoroughly with whipped cream and flavor with maraschino. Sprinkle with pistachio nuts finely minced, place on ice to chill for two hours before serving.

Braised Tongue.—Cook a beef tongue slowly for two hours or until tender, skin it and put it in a casserole. Melt three tablespoonfuls of butter, add three of flour and cook until smooth; add a pint of broth in which the tongue was cooked and a pint of stewed and strained tomatoes. Cook until thick, adding one chopped onion and half a carrot finely minced, half a tablespoonful of Worcestershire sauce, a few dashes of red pepper and the tongue. Cover and simmer for two hours. Serve from the casserole.

Cherry Olives.—Fill quart jars with the fruit well washed but not stemmed. Add a level teaspoonful of salt and fill the jar with good vinegar. Seal and put away for later use. The cherries may be eaten from the stems and are a delicious relish, keeping well if the vinegar is good, for two or three years.

If you have a few tablespoonfuls of cooked corn left over, add it to the potato salad; it gives a most appetizing flavor.

MISS CELLANCOUS.

Miss Cellanous, though a small girl, is one of the most extraordinary people never heard of. She is doing much over five or ten extra, but what she does is bills they foot up, at the end of the month, Miss Cellanous, too, has to bear the burden in our expense account of the things we cannot remember about, because we must balance our accounts.

Five, ten, fifteen cents, or a quarter seems so little, so we go to the movie, buy a little candy, a magazine or a new ribbon, often things we do not need, and the sum mounts up to quite a showing at the end of a month. It is the smallness of the amount which is our undoing. The old saw which tells us to "look out for the pennies, for the pounds will take care of themselves," is one we should heed.

It is the experience of those who have observed, that the person who buys hothouse fruits and vegetables early in the season is the one who finds it necessary to call for help when it comes time to buy coal.

It is the little leak, the small bill that we need to watch, for most of us find it necessary to deliberate with caution when spending large amounts. One does not wish to be penniless or miserly, traits which are decidedly unpopular, but we must, if we live within our income, use discretion in our buying.

It is fully as inconscient for a woman to use the earnings of her husband in riotous spending. Our girls need training in marketing and shopping as well as in cooking and house-making. No two families with the same income can follow the same rule of expenditure, for happily we all have individuality and like different things. Each housewife has her own problem to solve; she may get great help and inspiration by reading or by conference with other housekeepers, but her problem is hers alone to work out, and the efficient, up-to-date woman is constantly looking to improve her methods.

In these days of high prices and stationary salaries we are called to put forth the best effort to make every cent do its full duty.

Residents of Danville are much elated over the discovery of a strong flow of gas by a well in the town. It is estimated that the pressure of gas well will reach 500 lbs. per square inch, and will be used for fuel in Danville.

Farmers in the Cassadaga end of Chautauqua county will get much trouble as eating crops this year, as is the first summer that the little animals have attacked the vines to any great extent. It is reported that several acres have already been ruined by the woodchucks.

The state highway department will, for the second time this year, receive bids on July 22 for the completion of the Lockport-Youngstown state improved highway through Ransomville. To induce contractors to bid, the estimate has been raised from \$183,000 at the last bidding in May to \$214,514.80.

Big highway improvements have been started on the main route between Hornell and Buffalo and Rochester. At Dansville a stretch of about five miles, leading toward Mt. Morris, is being reconstructed, and between Mt. Morris and Genesee a new 21-foot road is being built. This road will have two eight-foot strips on each side with a five-foot macadam strip in the center.

Seventy-one post legions, the Association of World War Veterans, have been formed in New York state and applications for 25 more charters have been received, according to an announcement made by C. W. Wickersham, chairman of the state branch. Lieutenant Colonel George E. Roosevelt has been appointed chairman of the re-employment committee of the state branch of the legion and will have in charge the plans for obtaining employment for every service man in New York state.

According to an announcement by the state highway department extensive repairs will be made on the state roads in the Hornell section this summer and eventually all main routes will be concrete. Bids have been advertised for the covering of most roads with a new surface to consist of a thin coating of oil and crushed stone. Work will also be started on the Genesee-Avon road shortly. The Dansville-Wayland road and the Hornell-Howard roads are now being repaired and will soon be opened again.

—Dr. J. W. Skinner, Mr. and Mrs. Hugh W. Lundy and little daughter, and Miss Charlotte Bush went to Rochester Sunday, to visit relatives. They also visited in LeRoy. Dr. Skinner returned home Wednesday night and Miss Bush remained in Rochester to visit her sister, Miss Virginia Bush. After spending several days in LeRoy, Mr. and Mrs. Lundy and daughter will leave for Toledo, Ohio, where they will be the guests of Mr. and Mrs. Geo. M. Miller, formerly of Genoa. From there they return to their home in Iowa.

—Miss Edith Hunter has been spending the week at Moravia, attending the Chautauqua.

—Gerald Morenus of Homer visited Genoa friends last week. He lived in Genoa ten years ago.

—Mrs. Wm. Loomis, who has been afflicted with rheumatism for several weeks, is not yet able to be out.

Just received a mixed car of feed. W. F. Reas & Son.

—Reports of the First National Bank of Genoa and the Citizens Bank of Locke are published in this issue.

—Mr. Buse and family, who recently came here from Ithaca, are occupying the Holden house in Main St.

—Mr. and Mrs. T. Mastin and J. E. Mastin and family spent Sunday at the home of Orrin Mastin in Summerhill.

—Mrs. Mary Dunham of Moravia is quite ill with rheumatism at the home of her niece, Mrs. Bert Smith, at East Genoa.

—Mrs. W. C. Rogers, of St. Louis, who is spending some time in Genoa, will leave Saturday for Albany, her former home, to visit friends.

—The Redpath Chautauqua committee of Moravia will not face a deficit this year as it succeeded in selling the required 750 tickets.

—John Amos Payne, son of Mr. and Mrs. John Payne of Union Springs, arrived home July 9 after spending over a year in France and Germany.

—Lynn Searles, son of Mr. and Mrs. Wm. Searles of Auburn, formerly of Genoa, has arrived at Camp Merritt, N. J. from overseas, and is a patient in the hospital.

—The Cornell university preacher for next Sunday, July 20, will be the Rev. Newell Dwight Hillis of Brooklyn who will remain over Monday and speak at Bailey Hall on Monday evening.

Just received a car of Unicorn Dairy ration. Genoa Supply Co.

—Mrs. Jane Miller of this village has received a letter from her grandson, Geo. M. Miller, at Toledo, Ohio, which was brought by air mail service, landing at Syracuse. The postage on the letter was 6 cents.

—Mr. and Mrs. Henry H. Carson of North Lansing have issued invitations to the marriage of their daughter, Pearl M. to Clarence L. Boles of Atwater, on Wednesday, July 23, at 4 o'clock at their home at North Lansing.

—Chas. A. Cannon of Auburn was a business visitor in town Friday afternoon. His parents, Mr. and Mrs. A. Cannon of Brooklyn are in Auburn for a time. Miss Mabel Cannon is spending several weeks in the Catskills.

—Lieut. Willard Doty, son of Mr. and Mrs. R. T. Doty of Moravia, arrived at Moravia last week Wednesday, from overseas. Mr. Doty left Tuesday night for Detroit, Mich., to attend the Hay Dealers' convention, and will spend ten days in the Western states.

The South Lansing Grange will hold a hop at their hall Saturday evening, July 19. All are invited.

—Mr. and Mrs. W. W. Potter and son Meredith, with their mother, Mrs. Sarah Potter, of Auburn, recently motored to Glens Falls and Lake George, where they spent several days. Mrs. Sarah Potter remained with her sister-in-law, Mrs. Paine, at her summer home at Lake George, for an indefinite time.

—Mrs. Albert Crowley of Farmington, claims the championship for picking strawberries. In one day she picked, carried to the ends of the rows and placed in crates 257 quarts of strawberries in seven hours and thirty minutes, an average of less than two minutes per quart. She received over a dollar an hour for her work.

—Word was received Thursday of this week, by relatives, that O. M. Avery of Earlville, who has been in poor health for several months, was taken worse on Sunday last and he is expected to live but a short time. Mrs. Avery is also ill and confined to her bed. They were former well known residents of Genoa and friends here will be sorry to learn this news.

—Robert J. Caldwell, a wealthy New Yorker, is about to establish near Saranac Lake in the Adirondacks, the greatest game preserve in the world. Several thousand acres of cut-over forest land is being fenced, in which will be established great herds of elk and deer, the intention being to market the meat at prices to compete with commercial products of the butcher shops.

—No wonder eggs are high when there are 7,000,000 cases of them in cold storage, says an exchange.

—Oswego county growers got \$3,500 out of this year's strawberry crop and could have sold more had they had them.

—Melissa, the two-year-old cat of a groceryman at Cicero, has hatched out a brood of six ducks, and mothers them as she would kittens.

Rugs—9x12 feet at Smith's.

—Syracuse will entertain the Central New York Volunteer Firemen's Association at this year's annual convention Aug. 20, 21 and 22.

—The old Welch grape juice factory at Watkins has been sold to Nestle's Food Company, and a milk condensary will be established there.

—Patrolman Jesse G. Atwater and Sergt. Norman L. Parker of the Auburn police force both completed 32 years of continuous service with the department on July 15.

—Moravia is making elaborate plans for a Welcome Home celebration to be held in that village on Labor Day. All the surrounding towns are invited to help make the event successful.

—The Thomas-Morse Aircraft Corporation has received an order from the United States Post Office Department at Washington for the construction of four mail planes to carry mail in this country as soon as completed at the Ithaca plant.

—New York State has passed the half million mark in its motor vehicles. Announcement to this effect by Francis M. Hugo, secretary of state and head of the motor vehicle bureau, carries with it the prediction that by the end of this year there will be close to 525,000 cars owned and operated in this state.

Just received a mixed car of feed. W. F. Reas & Son.

—Members of the 19th New York Volunteers and the Third New York Artillery will meet for their 48th annual reunion on Thursday, July 31, in G. A. R. hall, Auburn. The arrangements are in charge of Dr. William R. Laird of Auburn, first vice president; William Ramage of Auburn, treasurer and Charles D. Bingham of Watertown, president of the association.

—Harry Roby, Jr., 16-year-old son of Harry Roby of New York, was drowned in Cayuga lake just off Farley's Point on Wednesday afternoon, last week. Young Roby with a companion was swimming about a raft near the Point when his canoe broke loose and he swam after it, becoming exhausted by the high waves. He was an expert swimmer. The Roby family had been at Farley's only a few days.

—Unheard-of future prices are being quoted for evaporated fruit. Some of the local dealers have contracted for evaporated apples at 18c and it is practically certain that fancy fruit will bring at least 20c per pound. Evaporated apple crop indications for 1919 are good for what is termed an "off-year." If the predictions prove true, there will be a lot of money made in this section next fall.—Sodus Record.

\$225 Cut in Price of Titan 10-20

BEGINNING
July 1st, 1919,
the 1920 price
of the Titan 10-20
kerosene tractor is
\$1,000
CASH F. O. B. Factory
\$1050 when
time is given
Reasonable terms
will be given to any
man who needs the
Titan now and can-
not pay cash in full.
These terms are new.

WE have reduced the price of the Titan 10-20 from \$1,225 to \$1,000. This big cut is not justified by present prices of materials and labor, but is made in anticipation that the largely increased volume of business developed will offset the reduction. The Titan now becomes the world's most popular priced 3-plow tractor.

If you have been holding off buying a tractor because \$1,000 was your limit for a good 3-plow machine, your price will now buy the best one.

To sell the Titan 10-20 at this low price, not a single necessary feature has been taken off to be bought at extra cost. The Titan comes to you complete. The Harvester Company is too old at the business to offer you a tractor which is not 100% efficient at the drawbar and 100% efficient on the belt.

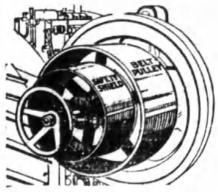

Remember, the Titan is a 3-plow tractor. Don't confuse it with low-powered 2-plow machines. For a fair comparison as to price, add one-half the cost of any 2-plow tractor to its advertised price, then add the cost of

all the extras you must buy, and that will put it on a par with the Titan 3-plow tractor. Then compare values.

In addition, remember the Titan is a genuine kerosene tractor. Gasoline as tractor fuel is unwarranted extravagance. Don't forget that. We give you a written guarantee that the Titan operates efficiently on kerosene.

You can't make a mistake if you select a Titan 10-20 at its present low price. It will give you power satisfaction that will stand by you steadily season after season at drawbar and belt. You may rely on Harvester reputation for good service and fair dealing. Go to your dealer. Arrange for immediate shipment. This price reduction may make delivery difficult later. Place your order now.

These Features, Regular With Titan, Are Charged for Extra by Some Tractor Makers:

Friction Clutch Pulley

Friction Clutch Pulley With the Titan you get a large wide friction clutch pulley, put in the right place by a company that knows where it belongs. It is provided with a safety shield. The belt work season is on. *No extra charge for Titan pulley.*

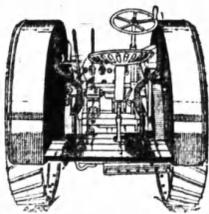

Throttle Governor With the Titan you get a throttle governor. It gives you steady speed for belt work, saves fuel, prevents grain losses, works automatically and perfectly. *No extra charge.*

Starting and Service You get the Titan tractor without the compulsory "starting and service charge" made by some companies. Complete instruction in starting and operating is given free. *No extra charge.*

Drawbar With the Titan you get a convenient drawbar, adjustable sideways and up and down. Fits every need. Compare it with other drawbars.

Fenders With the Titan you get driven wheels fenders. They stand for safety. They protect the operator from mud and dirt.

Platform With the Titan you get a rear platform. It is a handy work surface. It is built with more heavy duty than other platforms.

BEER AND BILE.

Prof. W. A. Osborne, a distinguished chemist, explains, in a very illuminating way, that the liver is especially susceptible to alcohol poisoning, because the alcohol, before it is eliminated from the body, repeatedly assaults that organ. "Every one knows," said Doctor Osborne, "that the liver forms bile, and that bile is poured into the bowel. Now, when alcohol is taken it passes into the stomach, and from there to the bowel, or small intestine, and is absorbed there. Everything that is absorbed from the stomach or the bowel has to go to the liver, and nothing is allowed to enter the general circulation until it has been properly sifted and treated in the biggest organ we possess—the liver. It has been found, in the case of alcohol, that when alcohol has been absorbed in the bowel it reaches the liver, and the liver really does not know what to do with it. There is practically no provision in nature for the utilization of alcohol (a very significant fact, I may here parenthetically remark).

"When alcohol reaches the liver the liver manages to destroy some, but a great portion of it is turned out in the bile, and once more reaches the bowel, and then the liver, and this cycle of operations goes on for hours and possibly days, until the alcohol is gotten rid of. All this time it is constantly irritating and injuring the liver, and this explains the fact which medical science has known for a long time, namely, that the liver is one of the organs of the body which is singularly susceptible to alcoholic degeneracy, and this is the reason why."

WHISPERING PROPAGANDA.

In a booklet entitled "The German Whisper," issued by the committee on public information of the federal government, through its associate chairman, Harry O'Higgins, we find this statement:

"As a matter of fact, no liquor ration is served our troops either here or abroad. No army canteen sells alcoholic liquors. By General Pershing's orders, our soldiers in France are forbidden either to buy or to accept as gifts from the inhabitants, any alcoholic beverages other than light wine or beer." As there is little beer sold in France, General Pershing reports, "Men who drink are thus limited to the light native wine used by all French people. Even this is discouraged among our troops in every way possible. I hope to secure the co-operation of the French government to prevent the sale of all liquors and wines to our troops. Personally, I favor prohibition in the army, but it is impracticable and inadvisable to issue orders that cannot be enforced without the cooperation of the French government." "The charge of drunkenness among our expeditionary force," asserts Mr. O'Higgins, "is a problem which should be solved by the military and fathers of the boys who have gone to France. The stories of inebriety and consequent drunkenness are equally to be set at naught."

RESULTS OF DRY LAW.

That a dry prohibition is eminently satisfactory to the police department of Sioux Falls, Minn., is set forth in the annual report of the chief of police, W. H. Martin, to the city commissions. He declares that the police protection afforded Sioux Falls amounts to one-third of one patrolman to every thousand of population or the lowest of any important city in the United States.

To show how prohibition has worked out so far as the police are concerned, Chief Martin submits the following table of arrests in connection with liquor during the year:

| | 1917-18 | 1918-17 |

RUM RATION BAD.

In regard to the rum ration a surgeon of the British royal army medical corps said: "I served at Gallipoli. I was wounded on the western front. It is my earnest opinion that the rum ration is utterly bad. I believe that there are thousands of glorious British lads who would be alive today, recovering from wounds and from disease, restored to their loved ones and their country, had it not been for the rum ration."

The liquor traffic is an assault on every one of these.—Clarence True Wilson at senate committee hearing.

Loyal New York Chautauquans Meeting to Save Institution

The famous Hall of Philosophy at Chautauque which will be the meeting place of friends of the institution who are making a pilgrimage to the Assembly Grounds to counsel in Chautauque's future. Below, from left to right are Bishop John H. Vincent, founder of Chautauque, Mrs. H. P. Cole, secretary of the Chautauque Literary and Scientific Circles and Arthur E. Bestor, president of Chautauque. At the lower right is Dr. Charles E. Welch, a trustee of the institution, and leading spirit in the campaign to save Chautauque.

FRIENDS of Chautauque and organizers, presidents and secretaries of Chautauque Literary and Scientific Circles from all parts of New York have been invited to join in a pilgrimage to Chautauque the week of July 14 when a special emergency council at the famous Chautauque Assembly Gardens will discuss a "Saving Chautauque" program. The council will be in session all day on July 15 and plans will be perfected for placing Chautauque Institution on a permanently solvent basis.

Among the Chautauquans from New York who will attend the council are: Mrs. Walter Edson of Falconer, Mrs. Ella A. Lakin of Jamestown, Mrs. George Wesley Knox of Niagara Falls, Mrs. Kate L. McDermott of Syracuse, Mrs. Grace M. Farrar of Westfield, Mrs. George M. Matthews of Brocton, Mrs. Astroppe Robinson of Cohoes and Mrs. J. F. Burns of Schenectady.

Chautauque Institution has entered the 1919 season, its forty-sixth year, burdened by a debt of \$683,000, or

which nearly \$500,000 represents investments and expansion of site, all forced on it from year to year by the demands of resident and visiting clientele. The trustees are raising a fund of \$600,000 to perpetuate the enterprise by making it permanently solvent.

Chautauque is not a money making institution. The charter under which it operates precludes profits. The increased receipts made possible by the lifting of interest charges on its debt will go to improvements and broadening the scope of the institution which has led in American thought for two generations. Endowments and large gifts and bequests are expected once the success of the \$600,000 campaign puts the institution in a permanently secure position.

Cottage holders at Chautauque are giving \$150,000, the trustees are giving \$100,000, Chautauque county is raising \$100,000 and the general public and bondholders will be asked to pledge \$250,000.

TWENTY MILLION AMERICANS PARTNERS OF GOVERNMENT

In One Year This Number Take Share in Government Finances.

"Cashability" of War Savings Stamps is one of their strong points. They are what bankers call "liquid"—that is, ready cash may be obtained on them easily and promptly. That fact helps sell them.

The government hopes holders will not redeem their stamps at this time when it needs all the money it has, but if they wish to do so, it will willingly fulfill its promise to pay on demand, after the legal ten days' notice.

During the past year, 20,000,000 Americans became financial partners in the government. In the coming year the number will be doubled or more. The great instrument for this universal participation in national finance is the War Savings Stamps.

War Savings and Thrift stamps offer an investment of which every one may take advantage. The investment is open to everyone who has strength to earn a dollar or the will to lay aside twenty-five cents—a government bond in which a rich man invests all that the law allows and to which the poor have full access.

If every millionaire in the United States buys all the War Savings stamps the law allows, the Treasury Department will get \$100,000,000; if 30,000,000 wage workers take each \$1 a week, it will equal \$1,500,000,000; if every school child took \$1 a month, it would amount to more than all the limit memberships.

A dollar a week regularly is the "Big Money."

ELKS IN N. Y. TO BUY HALF MILLION OF SAVING STAMPS

Each Lodge to Be Allotted Quota in Sales Campaign.

New York State Elks will buy \$500,000 worth of Thrift Stamps and Savings Stamps during 1919, the Savings Division of the Treasury Department has been advised. The State Association of Elks, meeting in Albany, enthusiastically adopted a resolution endorsing the National Thrift Campaign and pledging the members of the order to purchase that amount of the securities which the Government is offering to aid the thrift movement among the people of the country.

Gardner B. Perry, Chairman of the Albany War Savings Committee, notified the Savings Division that the resolution pledging the New York State Elks to purchase half a million in stamps was a feature of the Albany convention. It was adopted by acclamation, while the band played "The Star Spangled Banner." Each lodge of Elks in the state will be allotted a fixed quota of stamps, and the campaign for their sale will be conducted by a "Government Thrift Commission" of Elks. Chairman Perry said that other state organizations are expected to make similar pledges.

The action of the New York State Elks is in line with the thrift campaign which is directing the savings of the people through agricultural, church, commercial and professional, fraternal, women's labor and school organizations.

TO THE VOTERS OF CAYUGA COUNTY:

At the urgent solicitation of ninety per cent. of the lawyers of Cayuga County, Judge Greenfield has consented to accept a renomination for the County Judgeship, if it meets with the approval of the voters.

The Bar made this request because it believed that of all its members, Judge Greenfield, was the best qualified for the place, and further because to lose the benefit of his training and experience at this critical time would be a serious public loss.

The Committee begs the careful consideration of the matter by every voter. Petitions for Judge Greenfield's renomination are being circulated in every part of the County, and the public is asked to support the movement in its own interest.

The Greenfield Campaign Committee,

BY GEORGE B. TURNER, CHAIRMAN.

Automatic Lightship.

The efficient lighting of the waterways so that they can be safely navigated at night is an all-important matter. It is effected by the ordinary stationary lighthouse on shore, and also by manned lightships and various kinds of automatic light buoys. The latest of these latter is an ingenious automatic lightship, requiring no attention whatever when once set in motion, built by a British firm.

It is a very ingeniously constructed vessel and the very latest of its kind. In its two steel tanks sufficient gas can be stored to supply the vessel for several months. Experiments have shown that the light may be depended upon to burn continuously for months at a time without any attention whatever. The approximate duration of the light can always be predetermined, and there is no danger whatever of the light being extinguished either by wind or spray. The light is visible at a distance of eight to twelve miles.

INTEREST.

Making a "wealth heap" has two processes—addition and multiplication. When you set the dollar to work—that is multiplication. Your pile grows slowly this year, a little faster, still a little faster, then faster, and faster, till interest outruns saving.

War Savings Stamps do more than add dollar to dollar. They begin to multiply.

A SERVICE FOR SAVERS.

All good Americans are today saving, avoiding waste, being thrifty, spending wisely.

Many who are saving and prospering for the first time in their lives are often at a loss to know what to do with small sums and how to plan their methods of saving. War Savings Stamps offer a safe, paying investment.

Our savings service is always at your service—for small or large sums.

INTEREST.

Here is what one man did. If you don't know him, you know some one just like him in your town:

Twenty years ago he owned the clothes he wore, and that was about all.

He saved \$50 the first year; the next year, with a little better wages, \$75.

One thing with another—a wife and family included—he has saved an average of \$5 a week for twenty years.

What he saved in twenty years was about \$5,000. What he has is twice \$5,000—like the man in the parable.

His dollars working for him bring him now more than his yearly saving.

Saving is addition—a dollar and a dollar and a dollar. It comes easier as one goes along, but the increase is no faster next year than now.

A Free Scholarship.

Any young man or woman who is a bona fide patron of this paper may secure free instruction in music or elocution.

The Ithaca Conservatory of Music, with the desire to stimulate the study of these arts, offers two scholarships to applicants from each Congressional District of the State of New York, valued at \$100 each and good for the term of seventeen weeks beginning with the opening of the school year, Sept. 25, 1919, in any of the following departments: Voice, Violin, Piano, Elocution and Public School Music. These scholarships are awarded upon competition which is open to anyone desiring a musical or literary education. Anyone wishing to enter the competition or desiring information should write to Mr. Geo. C. Williams, Secretary of the Ithaca Conservatory of Music, Ithaca, N. Y., before Sept. 1, 1919.

New Superintendent.

The board of trustees of Ithaca City hospital has accepted with regret the resignation of Miss Freida Warden, who has been superintendent for nearly two years. Miss Warden is resigning to take a position in her home city of Philadelphia.

Miss Grace B. Beattie, who will take the position of superintendent, Aug. 1, is a graduate of the Massachusetts General Hospital at Boston. She was head of the Brockton, Mass., hospital for sixteen years and was also for several years superintendent of the North Adams hospital.

Agriographs.

If the white straw hats are getting a bit dingy, rub them well with cornmeal dampened with peroxide. It will freshen them wonderfully.

The color and flavor of foods should not clash. One is bound to receive something of a jolt when he finds a bright green jelly is flavored with cherry.

Rubbers save doctors' bills and shoemakers' bills. But don't wear them when not needed; your feet can't breathe properly through rubber.

Clean nests mean clean eggs; an egg that is washed is not likely to keep.
